Three Issues Up To Voters

ELECTORS OF ENLARGED SCHOOL DISTRICT NO. 7 GO TO POLLS, JULY 14

The annual school election of Tecumseh District No. 7, which now includes the former Tecumseh District No. 5, will present three important propositions to the electors when they go to the polls on Monday, July 14. The election this year, as in former years, will be held at the high school.

Electors will vote for one member of the board of education. The term of Dr. Ralph Helzerman, secretary of the board, expires with the coming election. Dr. Helzerman's petition, placing his name in nomination to succeed himself to office, is the only one that has been received by the board within the period specified by law. Since he is the only qualified candidate to petition, only his name will appear on the ballot.

The second proposition to be considered by electors will be that of furnishing transportation by bus to resident pupils living more than one mile from the school house. This, board members said, is an important matter to be considered by the entire district.

In annexing Tecumseh District No. 5, Tecumseh District No. 7 took over District 5's school bus and operated it for a part of last year. However, before bus ser-

Cut Your Speed, Officers Warn

TECUMSEH POLICE COOPERATE WITH STATE IN TRAFFIC SAFETY CAMPAIGN

Chief of Police Geo. Kilbourn, today called upon motorists to take part in the special safety campaign to check the number one traffic killer — excessive speed.

"Speeding is the leading cause of traffic deaths", Chief Kilbourn said. "It is involved in two out of every five fatal traffic accidents and is a contributing factor in a large percentage of all personal injury and property damage accidents.

"The Tecumseh Police Department, along with other police and sheriff's departments throughout

Work Is Started On New Bridge

NEW BRIDGE OVER EVANS CREEK ON MILLS STREET TO END "BOTTLE NECK"

Construction men started Monday morning to build a new bridge over Evans Creek on Mill street, that will eliminate the "bottle neck" for traffic. The old bridge has long been too narrow, and several accidents have happened there within the past months.

State Highway Department officials said that they did not know how long to it would take to complete the structure. That, they said, will depend largely upon the weather, but it is hoped that it will be finished in the early fall. The cost of the bridge is approximately $93,000.

While the construction is going on, south and northbound traffic over M-52 is routed via of Brown street, Union street and Chicago Boulevard.

Swim Program Very Popular

MORE THAN 300 ARE ENROLLED IN CLASSES, HELD DAILY AT "THE PIT"

Swimming classes at "The Pit", a part of the Tecumseh Community Recreation Program, are in their second week with a record enrollment of 304 persons, ranging in age from infants to adults. A new schedule has been devised in an attempt to meet the needs of the community and provide the maximum individual attention to the pupil.

The program is sponsored by the Tecumseh Community Recreation Council, and no charge is made for the instruction in the arts and skills of swimming. A nominal fee of twenty cents per person has ben charged by Mrs. Regina Gallo for the use of "The Pit".

The swimming program consists of two main divisions: six Monday-Wednesday-Friday classes and six Tuesday-Thursday sections. These are further subdivided in the following manner. On Mondays, Wednesdays and Fridays, classes begin at 9 with two one-hour classes run simultaneously in Jr.-Sr. Lifesaving

Tecumseh Gave $1,700 In Recent Red Cross Drive

The Lenawee County Chapter, American Red Cross, today issued a complete financial report of the recent campaign funds. County wide, a total of $23,237.45 was subscribed, of which amount $9,597.07 went to the national offices.

In the county, Adrian subscribed $10,608.44 of the total. Tecumseh was the next largest contributor with $1,700.32.

Other contributions from this area were: Macon, $157.35; Franklin, $175.50; Raisin, $215.40; Ridgeway, $295.41.

Dawn Patrol Is Coming Here

FOUR HUNDRED PLANES AND 800 VISITORS ARE EXPECTED HERE, JULY 6

The Tecumseh Exchange Club will play host to the Dawn Patrol, an organization of aviators, at Tecumseh Airport on Sunday, July 6. Some 400 ships are expected to fly in to Tecumseh, carrying approximately 800 passengers and pilots.

The first of the ships will arrive about 6 a.m. Breakfast will be served from 7 'till, and later there will be a brief program and the awarding of prizes. An orchid will be presented to the first woman pilot to arrive.

The club has arranged a manufacturers' dispaly, including plants from Clinton. Geo. McCombs is general chairman of the event, with Forest Abner in charge of publicity.

The Dawn Patrol visited here a year ago, when the new runway at the airport was dedicated.

FOUR LOCAL DRIVERS IN RACE AT ADRIAN

Four Tecumseh drivers are expected to drive in the feature Destruction Derby at the stock car races at the Adrian fair grounds Thurdsay night.

Ed Jechura, track manager, said today that Dave Vanderpool, John Ladd, Jim Filcler and John Powell, all of Tecumseh, are scheduled to drive in the derby.

Teams consisting of three cars each will race in the feature Destruction Derby. The object of the drivers is to keep the cars on the opposing team from completing a lap. Anything goes, said Jechura. Drivers are allowed to block the track, force the opponents off the track, etc., in an effort to keep their own cars in the lead. There will be three heats in the feature Derby. The team wining two of the three heats is declared the winner. The team which is able to get one car around the Adrian fair grounds track six times wins a heat.

The regular racing program is also scheduled for Thursday. The time trials start at 7 p.m. Heat races start at 8:30 p.m.

FUNERAL SERVICES HELD FOR BERT L. MILLER

Funeral services were held at 4 p.m., Tuesday from the Niblack Funeral Home in Britton for Bert L. Miller, 73, who was found dead in his apartment in Britton, at 9:45 p.m., Sunday. B. J. Beasley officiated and burial was in Ridgeway cemetery.

Mr. Miller, well-known in Tecumseh and a retired painter and decorator, was found dead in his room by troopers from the Clinton State Police post after he had failed to arrive at his usual time for breakfast at a Britton restaurant. According to officers, the body was fund on a bed, and a .22 caliber rifle was on the floor. Coroner Ed Braun of Adrian ruled death as suicide. The door to Miller's room was locked on the inside, officers said.

Mr. Miller's only survivors were nephews, nieces and cousins.

DON'T FORGET
TO REGISTER

Monday, July 7th Is The Last Day

Don't just stand around and gripe! Go out and do something about it!

Go out and register so that when Election Day comes around you can stand up and deliver your vote.

It takes a voting America to make a free America! So . . . whether you're voting for 'em or against 'em, remember to tell 'em.

The American Legion is sponsoring a "Get Out The Vote" campaign in Lenawee county. It is important that you register. If somebody calls it to your attention, cooperate.

The place to register in Tecumseh is at the Township Clerk's office in the Strand Theatre Building, daily from 9 to 12 and 1 to 5.

Bear in mind that Monday, July 7, is the last day to do it!

Balloon Ascension, $1,000 Worth of Fireworks To Feature Tecumseh's July Fourth Celebration

PARACHUTE DROP SCHEDULED FOR 5 P.M.; FIREWORKS START AT 10 P.M.

A crowd of well over 10,000 persons is expected in Tecumseh on Friday, July 4, to witness the balloon ascension that will be made in the afternoon, and the $1,000 display of fireworks, scheduled for 10 p.m.

"Tecumseh is planning the largest celebration of the Fourth of any community in southern Michigan," Robert H. Moore, president of the Chamber of Commerce, said today. "While we are not having a carnival or other similar events, we are offering the people of southern Michigan two outstanding spectacles, one the balloon ascension, and the other the pyrotechnical display."

Despite the fact that balloonists are difficult to find, Mr. Moore said that Tecumseh had signed a contract with an Ohioan to make a single parachute drop from a balloon, on the Fourth at 5 p.m. It is expected that the big gas envelope will be filled in Elliott Park, and that the takeoff will be made from there. The drop will be made from a height of about 1,000 feet, assuring clear view for the many thousands of expected spectators.

"We are already receiving letters about the balloon ascension," Moore said. "There are just hundreds and hundreds of folk who have never seen a balloon in the air, or a man parachute from a balloon."

At 2 o'clock in the afternoon, at Recreation Center, a game of hard ball is scheduled between the Monroe Sport Shop team and the Tecumseh Locals. It will be a hard-fought contest, it was said, and the Monroe nine are expected to give the Tecumseh boys plenty of competition.

CHILDREN'S DAY

A children's day program has been planned at the Tecumseh Country Club on Sunday, June 29 from 4 to 7 p.m., for youngsters up to 12 years of age. There will be pony rides, games, movies and refreshments. Regardless of rain, there will be entertainment, it was said. The committee in charge is made up of Mr. and Mrs. Ford Mudgett, Mr. and Mrs. Jack Osburn, Mr. and Mrs. Harry Beland, Rev. and Mrs. B. O. Bashore and Mr. and Mrs. Geo. Heimerdinger.

NEW POSTMASTER TO TAKE OVER ON JULY 1

Jack Metcalf, who was named acting postmaster here, succeeding Fent E. N. Thatcher, will assume his official duties on July 1, it was learned today. An inspector from the postoffice department will make the transfer at the end of the work day on June 30.

Mr. Thatcher has been acting postmaster here since 1949. He was barred from a permanent appointment because he was over 62 years of age.

SCHOOL REUNION

The Lanning School reunion was held at the Leon VanValkenburg cottage at Sand Lake, Sunday, with 50 members enjoying a potluck dinner at one o'clock. During the business meeting, Dean VanValkenburg was elected president; Herman Titley, vice president; Florence Halstead, secretary; Wallace Bryan, treasurer. Short talks were given by Emery Wilson, who was here from Texas, and Walter Norris of New York City. Lynn Wilson, a Rotary-exchange Youth Student, who spent three months in Germany and France last winter, gave an illustrated talk on his time spent there.

SPECIAL SALES EVENT REPEATED FOR THIRD TIME BY LOCAL MERCHANTS

June Value Days, the third sales promotion event sponsored by Tecumseh merchants in as many months, will be observed here tomorrow and Saturday. The program again is being fostered by the Chamber of Commerce.

"People shopping in Tecumseh for bargains tomorrow and Saturday are certain to find them," a spokesman for the Chamber said. "Almost to a store, prices have been slashed on many articles, and there is no reason why any shopper should not find the values he is looking for."

The Chamber also called the attention of shoppers to the fact that Tecumseh offers ample free parking in the downtown district.

"That is an advantage that many towns fail to offer," it was said. It also was pointed out that Tecumseh stores are open Saturday afternoons and Satur-

KELSO IS INSTALLED AS PRESIDENT OF ROTARY

Hal Kelso was installed as president of the Tecumseh Rotary Club, Tuesday evening, succeeding Mel G. Partridge. The ceremony took place following the club's regular dinner meeting at the Country Club.

Other officers installed are: The Rev. B. O. Bashore, vice president; Lester C. Rogers, secretary, and Geo. E. Green, sr., treasurer. The board of directors is made up of the officers and R. H. Moore, Robert French, Glen Kohler, LeRoy Titley, Herbert Dillon, Mr. Partridge and L. W. Larsen.

Mr. Kelso and the Rev. Bashore reported on the district convention of Rotary, held in Dearborn this week. They attended as did Mr. Rogers.

Mr. Partridge was presented with a past president's pin by C. O. Butler, a past president.

Guests included Bill Hancock of Adrian, J. C. Kitter and H. A. Crane of Blissfield, A. R. Roty of Jackson, James Freckelton of Tecumseh, Alfred Born, German exchange student, and Forbs Pearson of Glasgow, Scotland.

Mrs. Rose E. Preston Is Buried At Holloway

Mrs. Rose E. Preston, 87 years old, died Saturday at 11 a. m., in Herrick Memorial hospital, after being admitted earlier that day. Mrs. Preston had been confined to her bed for the last two weeks.

She was born in County Antrim, Ireland and came to Michigan in 1888 and in 1900 to the farm in Macon township where she since has resided. She was a member of the Britton Baptist church.

Survivors are five daughters, Mrs. Nancy Rendel of Milan, Mrs. Mary Anderson of Clinton, Mrs. Iva Caswell of Britton, Mrs. Ida Olds of Milan and Mrs. Lelah Hittle of Clinton; three sons, James of Wayne, Ralph of Swanton, Ohio and Milburn at home. Fifteen grandchildren and thirty-two great-grandchildren and one sister Miss Mary Jane Wilson, of Belfast, Ireland, also survive.

Mrs. Preston was proceeded in death by her parents, her husband David in 1932, and four children.

Funeral services were held Tuesday afternoon at 2 p. m. in the Niblack Funeral Home. The Rev. E. H. DuBois officiated. Burial was in Holloway cemetery.

Traffic Control Is Up To Towns

INGHAM COURT HOLDS STATE IS POWERLESS TO BAN LANSING PARKING

Lansing: In a far-reaching decision, Circuit Judge Louis E. Coash ruled Friday that the State cannot control traffic, including parking, on state highways in cities.

Deputy Highway Commissioner Harry Coons said he was sure the decision would be appealed as soon as possible to the State Supreme Court.

"We're not going to let cities disrupt traffic on trunklines if we can help it," he said.

THE HIGHWAY Department has long been embarked on a program of uniform traffic controls on trunklines.

But Coash held in favor of a group of East Lansing merchants fighting a Highway Department ban on parking on US-16 through East Lansing.

The city joined the merchants in the suit.

"The regulation of traffic," the court opinion said, "including the parking . . . is an ordinary power of police . . . within the powers granted by the State Constitution to cities."

The State had contended that an adverse decision would "bring chaos" to the uniform traffic-control system and "take us back to the horse-and-buggy days and let traffic vary accordingly to the whim of each municipality."

DiSalle To Talk At Legion Meet

MORENCI HOST TO SECOND DISTRICT CONVENTION ON SUNDAY, JUNE 29

Morenci—Michael V. DeSalle, recently federal price administrator and former mayor of Toledo will be the principal speaker at the 2nd District, American Legion banquet, to be held at Stair Gymnasium, June 29, at 6:30 p.m.

Lt. Col. Ronald D. McDonald, formerly on the staff of Gen. Douglas McArthur, in the Far East and presently aide to General Ralph A. Loveland, chief of staff of the Michigan Military Establishment, will also speak.

The F. Russell Green and Raymond R. Sebring Posts of Morenci will be the co-hosts to the final 2nd District Legion meeting of the year, held to elect officers for the coming year. Legionaires will assemble at the F. Russell Green Post home while Auxiliary members will meet at the Odd Fellow hall. Both meetings are scheduled to convene promptly at 3 p.m.

For those who wish to come early, there will be a Junior Legion baseball game at Wakefield Park at 1 p.m., with Hudson meeting Adrian in a Lenawee County League game.

The banquet is a baked ham dinner served country style by members of the Morenci Grange, and the public is invited to attend, not only to partake of a fine dinner but also to hear two speakers.

ON TELEVISION SUNDAY

Thomas J. Tonneberger, director of music at the Augsburg Lutheran church in Toledo, and the Aeolin choir, will be on television Sunday afternoon at 2 o'clock over channel 13, WSPD. Dr. Carl Satre, pastor of the church, will be the speaker. Following the television program Mr. Tonneberger and the choir will go to Lakeside, Ohio, to open the session of the annual United Lutheran summer school.

Must Register For Elections

SCHOOL DISTRICT AND PRIMARY ELECTIONS WILL BRING OUT VOTERS SOON

Voters in Tecumseh Township and in School District No. 7 must register with the township clerk if they desire to vote in two forthcoming elections, one in July and the other in August.

Persons desirous of voting in the School District election on Monday, July 14, must register not later than Thursday, July 3, Dr. R. F. Helzerman, secretary of the board of education, pointed out today. Registrations may not be taken by school officials, and only persons who have registered with the township clerk, and who are registered as general electors, will be eligible to vote in the school election.

Monday, July 7, is the last day to register for the approaching primary election on August 5, H. H. Hanna, township clerk, warned today. Only persons who are registered will be eligible to vote, under Michigan law.

Mr. Hanna said that the registration in the township is heavy, that there are many scores of new registrations and that interest in the approaching elections is keen.

The clerk's office is located in the office of LeRoy Titley, township supervisor, in the Strand Theatre building. The office is open daily, from 9 to 12 and from 1 to 5 p.m.

Persons who are not sure whether or not they are registered are urged to check with the office to determine whther or not they may vote, before the last days of registration. To delay beyond that date might make them ineligible to cast their ballots, it was said.

Escolmes To Go To Quaker Meet

FRIENDS PASTOR AND WIFE TO SAIL JULY 11 FOR OXFORD CONFERENCE

The Rev. and Mrs. Edward Escolme, the former the pastor of the Tecumseh Friends church, will sail from Montreal Canada, on July 11 for England where they will, as delegates, attend the Third World Conference of the Society of Friends, to be held in Oxford, July 28 to August 6. The Escolmes have reservations aboard the Empress of Canada. Returning home, they will sail from Liverpool, arriving in Montreal on August 19.

Both the Rev. Mr. and Mrs. Escolme are natives of England, Mr. Escolme coming from Yeal and Conyers and Mrs. Escolme from nearby Carnforth. While they are in England they will visit their relatives, including brothers, sisters and aunts in their home towns and in London.

Girl Scouts Here Plan Play Days

SECOND IN SERIES OF ACTIVITIES ANNOUNCED BY LOCAL ASSOCIATION

The Tecumseh Girl Scout Association has announced its second series of "play days" for registere Girl Scouts this summer, July 8, 9, 10 and 11. The Scout Cabin here will be open for all Brownies, Intermediates and Senior Scouts. There will be supervised play and work periods in Girl Scout activities, including out-dor cookery, nature lore and camping. Although the adult leaders will try to promote good and safe campcraft, parents will be responsible in case of unexpected accidents.

Each day's activities will begin at 10 a.m. with a flag raising and group singing. After lunch there will be a rest period and story hour. From one o'clock until 3:30 the time will be spent in group work. This will be followed by the flag lowering and good night circle. The Scouts will be dismissed at 4 p.m., to avoid the heavy traffic.

The Association is assuming the expense of the play days this year, but each Scout is to bring her own lunch the first day and a small rug or blanket for rest periods. In case of inclement weather the program will be conducted in the cabin. Scouts may attend any or all "Play Days."

A picnic, to include the families of the Scouts, is being planned for the closing day July 11, at the Cabin with the girls as hostesses.

My office will be closed Tuesday, June 24, to July 8.

A GOVERNMENT OF LAWS — NOT OF MEN

Today the entire country is feeling the effects of the steel strike. Some shops have been forced to close, others have staggered or shortened working hours and, for the most part, there are few businesses, nationwide, that have not felt some of the resulting unemployment.

There are still two schools of thought in connection with the strike. There are those who believe that the President had the power to seize the steel mills and to operate them. There are others who disagreed with Mr. Truman and who felt that he lacked the power to seize private property. Among the latter group were those who contended that the President had within his power a weapon to handle the strike. The weapon, of course, was the Taft-Hartley Law, which Mr. Truman refused to invoke.

The question of Presidential powers finally ended in the United States Supreme Court. That Court has known many historic moments. These were when decision were handed down whose ultimate importance dwarfed the particular litigation involved, and established precedents touching on the tremendous, fundamental question of what powers government or a branch of government have — and what powers they do not have. It was on June 2 that the Court knew such a moment, when Justice Black delivered the majority opinion in the steel seizure case.

Far more than the interests of the steel owners or the steel workers were involved here. The question was whether a President, lacking any specific authority in the Constitution or an Act of Congress, could, if he felt it necessary to the public interest, seize private property entirely on his own responsibility. The government lawyers said that he could. The lawyers for the steel industry said he could not. In the district court, Judge Pine held against the President on every count. Only the court of the last resort could make the final decision.

Justice Black began with a factual summary of the case and the arguments that had been presented. He then said, "Two crucial issues have developed: First, should final determination of the constitutional validity of the President's order be made in this case which has preceded no further than the preliminary injunction stage; second, if so, is the seizure order within the constitutional power of the President?"

The answer to the first question is Yes — to the second, No.

Reading on, Justice Black said, "The President's power to issue the order must stem either from an Act of Congress or from the Constitution itself. There is no statute that expressly authorizes the President to take possession of property as he did here. Nor is there any Act of Congress to which our attention has been directed from which such power can fairly be implied . . . Moreover, the use of the seizure technique to solve labor disputes in order to prevent work stoppages was not only unauthorized by any congressional enactment; prior to this controversy, Congress had refused to adopt that method of settling labor disputes."

By this time, all listeners must have known that the President had lost his case. Justice Black made it clear that Congress has the power to authorize the taking of private property for public use, if it chooses to exercise it. Then came these fateful, final words: "The founders of this nation entrusted the law-making powers to the Congress alone in both good times and bad. It would do no good to recall the historical events, the fears of power and the hopes for freedom that lay behind their choice. Such a review would but confirm our holding that this seizure order cannot stand.

"The judgment of the district court is affirmed."

So ended one of the most important cases of modern times — and so was established a precedent of the most far-reaching significance. To the layman, it would seem that the majority from whom Justice Black spoke reaffirmed the ancient principle that this is a government of laws, not of men.

"It is comon knowledge that the amount taken by the Federal government from corporations in taxes today is far greater than the amount the corporations are permitted to retain for distribution as dividends and for the maintenance and expansion of plants. How long can industry go on furnishing jobs, absorbing wake increases, and still meet such rapidly rising tax obligations."—Gresham, Ore., Outlook.

RENDEZVOUS IN KOREAN WATERS . . . This unusual meeting of warships at sea took place in Korean waters recently when the heavy cruiser St. Paul (right) sailed alongside the battleship USS Wisconsin. The St. Paul's mission was to transfer several wounded South Korean marines from the St. Paul to the Wisconsin. The South Koreans had been wounded fighting the Communists. At the time of the St. Paul's arrival, the destroyer USS Buck (left) came alongside the big battlewagon. The Buck carried some mail for sailors on the Wisconsin and came to the heavy warship to deliver it. The wounded marines were transferred without mishap.

Three Issues

(Continued from page 1)

vice can be arranged for next year the district electors now must vote on the transportation issue because, heretofore, only District 5 had voted to furnish such transportation last year, and District 7 has never voted to give such transportation. It was pointed out that there are a large number of children living in the district who are more than a mile from school. The state grants aid to schools who transport pupils to school and so, if the cost is kept below $60 per child, the school district is totally reimbursed by the state for the cost. Last year, the cost per pupil in District 5 was about $25. It is estimated thfis cost will not increase materially during the 1952-53 school year. Last year, the bus transported an average of 104 pupils a day It will not accommodate many more than that number this year, because it has a capacity for only 48 passengers.

For that reason, it was pointed out, it may be necessary to provide for other means of transporting children who cannot be served by the bus. That will be the third proposal to be considered by the electors.

The proposal to provide private car transportation for pupils not served by the bus and who live in District 7, but more than a mile from school, also will be voted on by the electors. If this proposal is approved, parents could be reimbursed for bringing groups of children to school by private car. The state reimburses on a recommended allowance, when necessary, as follows:

Over 1 to 2 miles........	$35.00
2 to 3 miles........	40.00
3 to 4 miles........	45.00
4 to 5 miles........	50.00
5 to 6 miles........	55.00
Over 6 miles............	60.00

Tecumseh School District No. 7 is approximately 8.6 square miles in area so it is impossible to serve all children living more than one mile from the school house with one forty-eight passenger bus. With the bus and private transportation the area could be served adequately. No pupils living outside the boundaries of the new Tecumseh District No. 7 will be served by the Tecumseh No. 7 school bus next year.

Escolmes To Go

(Continued from page 1)

Also, after the conference ends, there is to be a Quaker pilmigrage to Yearland Conyers, which they will attend.

Quakers from all over the world will join to celebrate their 300th Anniversary in England. The Third World Conference of the Society of Friends will be held at Oxford from July 28 to August 6, and will be followed by various tercentenary celebrations centering in the historic northern areas of England where Quakerism had its beginnings.

Some 900 delegates from 16 countries will attend, 483 of them from the United States.

The theme of the conference will be "The Vocation of Friends in the Modern World." Among the major subjects to be considered are: "What is the State of Our Society?," "The East-West Conflict," "Race Relations," "Conscription," and "Christianity in a Revolutionary World."

In preparation for the Conference, two study books have been widely read and discussed by Friends throughout the world.

According to a Quaker spokesman, "the Conference at Oxford will be in no sense a gathering for the purpose of reminiscing about the past. It will point to the future and will be more concerned with the next century of our Quaker Movement than the first three. Nevertheless, Friends who gather cannot but be influenced by the facts of our history. What we hope is that 1952 may mark a new burst of life, much as 1652 did. We hope that God may break through into our lives and use us in unsuspected ways."

Previous World Conferences of Friends were held in 1920 in London, and in 1937 in Swarthmore, Pennsylvania.

and an adult swimming class. The full hour is required in order to meet the exacting standards of the American National Red Cross, Aquatic Section for lifesaving certificates. The adult swimming class at the same time allows grown-ups to develop swim-skills at their own rate and takes cognizance of the fact that some adults will be able to attend only one or two days a week instead of three. There is room for 10 to 15 more adults in this phase of the program.

There are four beginner classes for younger pupils following the above at half-hour intervals. These shorter classes will allow Dave Van Winkle and Duane K. Furbush, the instructors, to give more attention to the smaller number of pupils per class. As proficiencies in swim-skills are developed in these and the Tuesday-Thursday beginner classes, more intermediate groups will be organized in their place. Any swimming program must essentially be fluid and change to meet the development of the pupils. On Tuesdays and Thursdays there are three beginner classes of forty-five minutes each, starting at 8:45. Of these the 10:15 to 11 class is both an innovation and an experiment since it consists almost entirely of two to five year-old pupils.

For those who passed the American Red Cross beginner tests, there is an intermediate class at 11, and for those passing this stage a swimmer group from 11:45 to 12:30. This rounds out the Tuesday-Thursday swimming schedule at the present.

Since there are some in this community who have already passed Junior or Senior Lifesaving tests and who already have their swimmer certificates, an advanced-swimmer class will be arranged either following the Tuesday-Thursday or Monday-Wednesday-Friday present schedule, whichever is convenient for the greater number of those showing interest.

It is the aim and end sought for by both the Recreational Council and those directly in charge of this program to be of as much service to the community as possible.

Methodist Plan

(Continued from page 1)

Independence on the First Fourth of July.

The Rev. Ronald A. Brunger, local member of the Spiritual Mobilization, and pastor of the Methodist church here, has announced that he will enter his sermon, to be preached on Sunday, June 29, in the national Spiritual Mobilization Sermon competition. The subject will be: "Freedom under God."

The Methodist church will join with other churches across the land, in having its church bell rung for 10 minutes at noon on the Fourth of July in gratitude for the blessings of liberty. The families of the church will be challenged to read the preamble to the Declaration of Independence.

The celebrated patriot, John Adams, one of the signers of the Declaration of Independence and second president of the United States, said of the original Independence Day: "It ought to be commemorated as a day of the deliverance by solemn acts of devotion to God Almighty. It ought to be celebrated with pomp and parade, with show and games, sports, guns, bells, bonfires and illuminations, from one end of this continent to the other, from this time forevermore.

ONLY ONE GAME

Only one game was played Monday eevning, June 23, in the Recreation Softball league. The second game, Jokers vs. FFA, was postponed because of rain.

Dick's Standard Service was again victorious by defeating the V.F.W. Explorers in the 7 o'clock game by a score of 15 to 2. Standard Service's big bats and clever base running in the second inning totaled eight runs. James Dick held the Explorers to one hit during the first four innings. The game was called because of rain in the top of the seventh inning. Dick was the winning pitcher and James Whitecotton the losing pitcher.

Cut Your Speed

(Continued from page 1)

Michigan, is taking part in a campaign sponsored by the State Safety Commission to emphasize the dangers of excessive speed. The slogan is 'Now, Take It Easy' and the objective is to impress upon every motorist the necessity of practicing speed control.

"Every driver in Michigan is obligated by law to maintain a safe speed at all times. But many fail at all times to help build up our accident toll.

"Weather, visibility and traffic volume are examples of constantly changing conditions for which drivers must make allowances. In other words, a safe speed when traffic is light could be hazardous when traffic is heavy. The basic principle of speed control is as simple as that. It is pure common sense.

"In addition, posted speed limits designate speeds allowed under normal conditions. When conditions are not normal, it is a driver's responsibility to stay within the limits of safety.

"Everyone should do his part to prevent accidents. Use common sense and be a considerate driver. Take It Easy."

day evenings until 9 o'clock for the convenience of shoppers.

Again as in April and May, the Chamber is distributing free copies of The Herald to employees of Tecumseh Products Co. Merchants, this afternoon and evening, will for an hour or two turn to the role of newsboys and hand the newspapers personally to the Products' employees as they leave the factory.

This will result in many duplications, because scores and scores of the Products "family" are regular Herald subscribers. However, those who already subscribe, and who receive "free" copies, are asked to hand them to neighbors that they, too, may learn of the advantages of trading in Tecumseh.

o

Atomic Development Is Up To Private Industry

East Lansing—Private industry must take the responsibility for the industrial development of atomic energy if the world is to receive maximum peacetime benefits of this new source of power in the near future.

Two of the nation's top atomic leaders expressed these views at a recent Nuclear Energy conference at Michigan State College. They were T. Keith Glennan, a member of the Atomic Energy Commission, and Sam H. Schurr, chief economist of the U. S. Bureau of Mines, both of Washington, D. C.

Glennan said that "risk-taking industry" should assume a "dollar stake in the atom business" if we are to get intelligent answers to the questions of the future. He said that the Atomic Energy Commission will have to maintain its grip on the production of atomic instruments of war, but the production of atomic power to "propel ships and aircraft, and to produce electrical energy for the civilian economy" should be the responsibility of private industry.

Schurr said that commercial atomic power plants for peacetime use should be feasible within five years. He predicted, "fundamental changes" in the economic structure of the country as a result of atomic power. But he added that "the over-all effects will not be revolutionary."

Balloon Ascension

(Continued from page 1)

The fireworks will start promptly at 10 p.m., at Recreation Center. The pyrotechnical display again was purchased this year from an Illinois firm—the same one that has furnished Tecumseh's fireworks displays in the past. They will send a licensed pyrotechnician to Tecumseh to fire the many ground and aerial pieces.

"And remember," Moore said, "admission to all of these events is free. There is no charge for anything in the line of entertainment. That has been Tecumseh's policy in the past, and it holds good this year."

Tecumseh did not have a fireworks display last year but two years ago, when $1,000 worth of them were fired, the crowd that gathered here to witness them was estimated at well over 10,000.

April Shows Decrease In Traffic Accidents

Michigan traffic accidents claimed 98 lives during April, 19 fewer than in the same month last year. Inuries, and accidents also decreased, according to the State Police monthly statistical report.

There were 3,521 persons injured, a decrease of 383, or ten per cent, under the 3,904 last year. Accidents totaled 11,647, a decrease of 1,475, or 11 per cent, under 13,122.

It was the second month in 1952 that deaths, injuries and accidents were less than during the same month in 1951. A decrease also was shown in January. April deaths dropped very sharply in urban areas but injuries and accidents showed the greatest reduction in rural areas. Rural county road fatalities increased.

Michigan's traffic toll for the first four months of 1952 included 422 persons killed and 13,489 injured in 52,248 accidents. Deaths were down 32, or seven per cent, under 454 last year. Injuries were up 78, or one per cent, over 13,411, and accidents dropped 3,397, or six per cent, under 55,645.

Motor vehicle travel on Michigan highways during March, the latest month ofr which figures are available, was 1.69 billion miles. This was a decrease of nine per cent under the 1.85 billion miles traveled in March last year. Mileage for the first three months this year was one per cent above last year, 5.16 billion over 5.12 billion. The death rate of 6.32 per 100 million miles of travel was four per cent below the 6.58 for the same period in 1951.

Home Gardeners Warned On Use Of Insecticides

Home gardeners were warned today by the state health department not to use insecticides containing parathion or tetraethyl pyrophosphate, now available in small packages, unless they are willing to use them with extreme care and exactly as prescribed by the manufacturer.

These insecticides, which can be fatal to humans if used carelessly, were formerly available only in large quantities for commercial growers and professional handlers who had the equipment and "know how" to use them safely.

Deaths have resulted from persons accidentally splashing the preparation on the skin and then neglecting to wash it off promptly; by breathing in the spray or dust; and by swallowing it.

For the protection of home gardeners, the Department lists the following precautions:

ALWAYS READ THE LABEL.

If the insecticide contains parathion, wear special protective clothing—goggles, to prevent getting it in the eyes; a suitable mask to avoid breathing in the sprays; and rubber gloves, to prevent contack with the skin. Never handle parathion wettable powder or dusts with the bare hands. A light plastic raincoat and washable rubber or plastic rain hat gives good protection against spray drift or dust.

Never eat, smoke or chew when using the insecticides or until you have bathed with soap and water and changed clothes completely, including underclothing.

Check and double check against chances of wind-blown spray reaching unprotected people. Know the symptoms of poisoning and rush to a physician at the first sign.

Symptoms which may indicate poisoning are headache, excessive sweating, dizziness, blurred vision, weakness, nausea, cramps, diarrhea or chest discomfort.

About half of our troubles in life come from wanting our own way, and the other half from regretting that we had it.

Bogus Heart Trouble Is Due To Too Much Breathing

Many persons who think they have some kind of heart disorder are merely victims of too much breathing, says a University of Michigan doctor.

This unconscious habit of breathing too rapidly is called "over-ventilation," according to Dr. Franklin D. Johnston, professor of internal medicine.

It is usually caused from some nervous disturbance, he explains, but often sets up a chain of alarming reactions, such as dizziness, anxiety or a feeling of numbness in the extremities and face. Pain may occur in the chest or elsewhere, and fainting is not uncommon.

He points out the whole blame is usually pinned on the heart because the organ tends to fluctuate from its regular rhythm when these reactions affect it. The truth of the matter is that the heart is simply trying to balance the situation, he states.

What actually takes place and causes these disturbing symptoms to become noticeable is that the lungs are expelling too much carbon dioxide from the blood and the patient is suffering from alkalemia, which is a long way from a heart disorder.

It's a ring-around-a-rosy game in the mechanical functioning of the human organs, Dr. Johnston asserts, with a lot of peculiar symptoms, including many that may be blamed on the heart, that can be made to disappear or be prevented by controlled breathing.

Dr. Johnston advocates a careful physical examination by your family physician. If over-ventilation is the reason for the bogus heart trouble you might have, it can be avoided by taking it easy and watching your breathing.

WEST TOLD TO GUARD FREE SPEECH, PRESS

Clinton, N.Y.—Sir Percy Spender, Australian Ambassador to the United States, warns that democracies must see that freedom of information and speech remain secure.

"Democratic governments today for their own protection or under that guise threaten to create new terrorism of their own," he asserted.

The Ambassador, speaking at Hamilton College's 142nd commencement, said that protecting these freedoms was the "big challenge" of this June's college graduates."

Mr. Spender received an honorary doctor of laws degree, conferred by Hamilton president, Robert W. McEwen.

Curb and Gutter Resolution

The following preamble and resolution was offered by Councilman Truesdale and supported by Councilman Rohweder.

WHEREAS the Village Council did on the 4th day of June, 1952 resolve to improve by curb and gutter installation the following described realty:

a. North Union Street, between Brown Street and the corporate limits.

b. Ottawa Street, between Logan Street and Shawnee Street.

c. Shawnee Street, between Ottawa Street and Maumee Street.

d. Maumee Street, between Shawnee Street and James Street.

e. Pottawatamie Street, between Adrian Street and Park Street; and

WHEREAS said resolution was published two successive times in The Tecumseh Herald, and the prospective cost of the same was stated to be $2.00 per linear foot, to be charged to abutting property owners; and

WHEREAS the cost to the abutting property owners for this project is determined to be $2.00 per linear foot;

NOW THEREFORE BE IT RESOLVED THAT:

(1) The Village Board of Assesors is directed to assess against the property abutting the above described improvement at the rate of $2.00 per linear foot of frontage, the same to be paid in three annual installments of one-third, 60% of the same to be paid by the property owner and 40% by the Village.

(2) The Board of Assessors shall cause the proper amounts to be levied thereon and a report describing the names of the persons assessed and the amount thereof shall be reported to the Village Council as the findings of the Board.

(3) The Village Clerk, upon the return of the report of the Board of Assessors is directed to publish the same for two successive weeks in The Tecumseh Herald, and shall designate July 7, 1952 at 8:30 p.m. at the Council Chambers as a time and place for hearing the objections of any persons considering themselves aggrieved by the assessment.

Ayes: Rohweder, Mensing, McCombs, Fosbender, Truesdale.

From where I sit ... *by* Joe Marsh

Whitey Sure "Rang the Bell"

Telephone woke me out of a sound sleep last Friday about eleven-thirty. "This is Whitey Fisher out on River Road," says a voice. "I just wanted to tell you how much I like this week's *Clarion*."

"Thanks, Whitey," I told him. "But why in blazes call to tell me at this time of night?" "Simple," he says, "your paper boy just delivered it a short while ago. Been waiting for it all evening."

Next day, Buzzy Wilson tells me he delivered Whitey's paper late because he stayed for the school dance and thought it would be OK to drop it off on his way home.

From where I sit, I can't blame Whitey for his joke. He was just reminding me we owe other people the same respect we expect from them. Since I'm always talking about respecting the other fellow's rights—including his right to enjoy a glass of beer if he chooses, it was only fair that Whitey should "wake me up" to *his* right to get his copy of the *Clarion* on time. Thanks again, Whitey!

William Hayden Weds N. Caldwell, N. J., Girl

A summer wedding, beautiful in its simplicity, united in marriage Miss Faith Dugan, North Caldwell, N. J., daughter of Mr. and Mrs. David H. Dugan, jr., and William Comfort Hayden, son of Mr. and Mrs. Perry Hayden, of Tecumseh, in the Brookdale Baptist church, Bloomfield, N. J., Saturday afternoon, June 21, at 3:30. The Rev. Charles W. Anderson performed the double ring ceremony before an altar decorated with ferns, white flowers and lighted candelabra.

Robert Bergstressor, organist, played selections and accompanied Mrs. Ronald Wells, soloist of Lexington, Ky., and a sister of the groom, who sang, "How Do I Love Thee," "I Love Thee," and "Because." During the ceremony Mr. and Mrs. Wells sang a duet, "O Perfect Love."

The bride, given in marriage by her father, chose a gown of imported French chantilly lace with tulle skirt over satin, and chapel train. Her flowers were a bouquet of stephanotis, eucharis lillies and sweetheart roses. Miss Deborah Dugan, sister of the bride, was maid of honor. She wore a pale blue tulle gown with matching lace and a head band of tiny pink roses. The bridesmaids were Miss Lois Raube of Caldwell, N. J., and Miss Marilyn Grigg of Bloomfield, N. J. Their gowns were similar to those of the maids of honor, and they wore head bands of pink roses and all carried pastel bouquets. William Dugan, brother of the bride, was ring bearer.

Gordon Comfort of Tecumseh, cousin of the groom, was best man.

The ushers were Robert Anderson of Bloomfield, N. J., Ronald Wells of Lexington, Ky., David Dugan, brother of the bride, and Robert P. Dugan, cousin of the bride, of Caldwell, N. J.

LANDS AT NORTH POLE . . . Lt. Col. William Benedict (above), Pasadena, and Lt. Col. Joseph Fletcher, Oklahoma City, were pilot and co-pilot of the C-47 which has made the first successful landing at the North Pole.

For her daugther's wedding Mrs. Dugan chose a blue lace dress and an orchid hat trimmed with lilacs. Mrs. Hayden wore a pink embroidered frostie nylon dress with a matching flowered hat. Both mothers wore a corsage of orchids.

For traevling the new Mrs. Hayden changed to an aqua suit with matching shoes, a natural colored straw hat trimmed with brown velvet and forget-me-nots, and beige accessories. She wore a red rose corsage.

A reception was held immediately following the reception in the auditorium of the church for 400 guests.

Mrs. Hayden graduated in 1949 from Grover Cleveland high school, Caldwell, N. J., and in June of 1952 from Wheaton College, Wheaton, Ill., where she majored in piano, earning a B.A. degree as a music major. Mr. Hayden is a graduate of Tecumseh high school in 1947 and obtained his B.S. degree in agriculture economics from Michigan State College in East Lansing in 1951. He is now serving in the U.S. Army and is stationed at San Antonio, Texas.

Those attending the wedding from this community were Mr. and Mrs. Perry Hayden, Betty, Martha and Joseph Hayden (flying direct from Chicago); Mr. and Mrs. Ralph Comfort and daughter, Carolyn and sons, Gordon and Robert; Mr. and Mrs. William Beardsley, Rev. and Mrs. Ronald Wells, the latter a sister of the groom, drove from Lexington, Ky. Mr. and Mrs. Charles M. Manley accompanied Perry by auto and then return by plane by auto an dthen return by plane while Mr. Satterthwaite will vacation through the east.

GOVERNMENT FORUM AT MSC JULY 7-25

Senator Blair Moody and Gov. G. Mennen Williams will head a "faculty" of more than 80 government experts who will take part in the seventh annual Forum in State and Local Government at Michigan State College July 7-25.

This popular summer forum is designed primarily for teachers and prospective teachers of civics, government and social studies. Both graduate and undergraduate credits are offered.

Although the forum is strictly educational in nature, the political heat of a national campaign year is likely to make this year's sessions more lively than usual.

Of particular importance will be the July 8 session on reapportionment in Michigan, and the July 14 panel dealing with states rights on a national basis. Other panels will deal with vital issues in state government, financing, problems of local government and the party system.

Locals and Personals

Mr. and Mrs. Ted Ehinger and daughter Janet, and Mrs. Powell Ehinger of Adrian were guests of Mr. and Mrs. Jack Hill of Mt. Clemens, Sunday. Mrs. Hill entertained at a linen shower for Miss Ehinger, a bride-of-the-month. Mrs. Powell remained in the Hill home for a week's vacation.

Mrs. T. Rentschler is attending the Summer School of Missions which is being held at Adrian College from June 22 through June 26. This course is sponsored by the Women's Division of Christian Service of the Methodist Church.

Miss Sally Rentschler will leave for Interlochen, Michigan, on Saturday, June 28, to attend the National Music Camp for eight weeks. This will be her fourth summer at the camp. She will be accompanied by her father, Dr. Truman Rentschler.

Mr. and Mrs. Leon Williamson entertained at a family dinner Sunday, honoring Lieut. Richard Williamson and family of Washington, D. C. Other guests included daughters, Mrs. Don Woodbury and family of Peck and Mrs. Howard Dawson and family of Ypsilanti and son, Robert Williamson and family of Tecumseh.

Mrs. John Truesdale spent the weekend in Ann Arbor with her son and family, Mr. and Mrs. Gordon Miller and visited her husband in Howell, Sunday.

WOMEN TO BE GUESTS OF MEN AT POTLUCK

The Woman's Association of the Presbyterian church met in the Fellowship Center of the church, last week Wednesday evening, with 23 in attendance. Mrs. John Saling was in charge of the invocation. Mrs. Frank Smith presided at the business meeting. The women of the church accepted an invitation from the men of the church to attend a potluck supper on the church lawn, Wednesday evening, June 25. The men furnished the coffee and lemonade. The women were the winners of the church attendance contest, held recently. Miss Ann Carson was in charge of the program and chose for her topic, "House and Garden." She presented an informative program on gardening. Mrs. Harold Clark was in charge of devotions. Refreshments were served by Mrs. Raymond Kempf and her committee. This was the last meeting of the season. The fall meetings will be resumed with a potluck supper.

PARISH PICNIC

The St. Elizabeth Catholic parish picnic, which was to have been Sunday, June 22, was postponed due to rain, and will be held Sunday, June 29, at Lapham's Landing, South shore Wamplers Lake.

10 REASONS WHY I BELONG TO MY

Chamber of Commerce

1. Because I realize that every man owes a debt to his community that cannot be paid in taxes — a debt of personal service.
2. Because I want to play my part in the organized development of my community and to carry my share of the public burden.
3. Because the Chamber of Commerce is business insurance—an institution that can accomplish great good for my city at a time when action means more than ever before.
4. Because the Chamber of Commerce holds up an ideal of civic development and commercial advancement that tends to the encouragement of what is helpful and the elimination of what is harmful.
5. Because active participation in community affairs is both a personal privilege and a civic responsibility.
6. Because as a member of the Chamber of Commerce, I am afforded an opportunity to actually work for conditions I have long hoped for.
7. Because my business tells me that whatever is best for this town and my neighbors is too valuable an asset for me to pass up.
8. Because through the Chamber of Commerce the individual citizen can best discharge his obligations to the town in which he lives and makes a living.
9. Because the Chamber of Commerce is the gauge of the city enterprise, prosperity, and ambitions, and reflects the combined wishes of the community.
10. Because the Chamber of Commerce is equipped to express the business sentiment of the community on both local and national affairs, and I want to make my voice and influence felt in determining the policies of our times.

Fact No. 3

Right truck for the job saves money

Chevrolet trucks are *factory-matched* to your payload requirements. You don't waste money by buying "too much truck"—you don't risk work interruption by buying "too little truck."

Fact No. 4

Lower, slower depreciation

Records show that Chevrolet trucks traditionally bring more at resale than any other make which costs about the same new. The market value of Chevrolet trucks stays *up* because the value stays *in*.

(Continuation of standard equipment and trim illustrated is dependent on availability of material.)

Ned Harrington Weds Miss Mary Jean Engel

Emanuel Evangelical and Reformed church of Manchester was the scene of a lovely summer wedding, Sunday afternoon, when Miss Mary Jean Engel, daughter of Mr. and Mrs. Andrews A. Engel, of Manchester, became the bride of Ned W. Harrington, son of Mrs. George Kielwasser of Grand Haven, and Lamont Harrington of Tecumseh. The Rev. Carl H. A. Rest performed the ceremony before an altar decorated with white gladioli, majestic daisies and huckelberry foliage. June Lannon of Manchester was soloist and sang, "Because," and "The Lord's Prayer."

The bride, given in marriage by her father, wore a gown of Guipure lace and nylon tulle over taffeta, with a fitted bodice and styled with a high neckline and long sleeves. The fingertip illusion veil fell from a Juliet cap of matching lace. She carried a bouquet of sweeheart roses, daisies and ivy. Miss Wilma Gage of Flint, roomate of the bride, was maid of honor. The bridesmaids were Ethel Brehmer of Traverse City, and Elaine Johnson and Patricia Schwab of Manchester. All attendants wore identical gowns of white organdy over taffeta. Their lace jackets, mits and fitted caps were styled after the bride's. They carried bouquets of daisies and roses intertwined with ivy. The flower girls were Mary Beth Burch and Ann Marie Dayss of Manchester. They were dressed in gowns similar to the bridesamids and carried garden flowers.

Lillard Brown, jr., of Tecumseh served Mr. Harrington as best man and the ushers were David F. Breck of Detroit, Raymond P. White of Adrian and Keith A. DesErmia of Tecumseh.

Mrs. Engel, mother of the bride, wore a rose beige mauve lace dress with pearl clips at the neckine and a corsage of dark red roses. Mrs. Keilwasser, mother of the groom, wore a slate blue dress with white accessories and a yellow rose corsage.

A reception was held in the parish hall immediately following the ceremony.

For a wedding trip in northern Michigan the bride chose a mint green linen suit with white accessories.

Mrs. Harrrington is a graduate of Manchester high school. The newlyweds are at Michigan State College, East Lansing. Mrs. Harrington is a member of the Pi Kappa Delta, forensic honorary sorority. Mr. Harrington is a graduate of Tecumseh high school and is a member of the Alpha Tau Omega fraternity. He received his commission as 2nd lieutenant in the United States Air Force in June. After June 29 they will be at their home in East Lansing.

MISS EHINGER HONORED

Mrs. Paul Breitenwischer and Mrs. Winthrop Winfield entertained in the Breitenwischer home recently honoring Miss Janet Ehinger, a bride of the month. Various games were played with prizes won presented to the honored guest. Miss Ehinger was presented with a shower of miscellaneous gifts from an umbrella. The color scheme in decorations was yellow and green. Refreshments were served by the hostesses. Out-of-town guests were from Blissfield, Adrian, Sylvania, Ohio and Clinton.

BRIDAL SHOWER

Miss Pat Hammack entertained 15 guests in her home Wednesday evening at a bridal shower, honoring Miss Janet Erhart. The marriage of Miss Erhart and Arthur Woodward of Clinton was an event of Wednesday, June 25. Dessert was served on arrival of the guests. Floral arrangement of pink and white centered the tables. The honored guest was presented with a corsage. Games were played and prizes won by Miss Nita Spangler and Miss Diane Woodward were presented to the bride-elect. The group also made a story book scrap book. Miss Erhart was presented with a shower of linen for her new home. Mrs. Andrew Woodward and daughter Diane were the out-of-town guests.

. . . the way this newspaper gets around in the best family circles !

Surveys show that there's no other printed publication in the world with greater reader interest than the Weekly Newspaper. Each Thursday the subscribers' families await its arrival. It is read by Dad and Mother, Sister and Brother and the neighbors. Then it is laid aside for a few days for reference and, finally, it is mailed to a friend or relative . . . instead of a letter. From an advertiser's point of view, this is the kind of magic that cannot be purchased elsewhere. An interested audience in every home! What a place for selling a message! Where else can you meet so many people who have so many things to buy? The Weekly Newspapers' Reader Market is the most thorough in the world. It cannot be duplicated. The Herald is proud of its membership in the Family of Weekly Newspapers. It is proud of its reader reception, of its friendly welcome in nearly two thousand homes. Every week The Herald carries messages from scores and scores of advertisers to prospective purchasers to goods and services sold in Tecumseh. And Herald readers look forward to these advertisers' friendly messages because they are potential customers of every merchant in Tecumseh. It goes without saying, then that an advertiser in The Herald meets thousands of the newspaper's friends every week when this newspaper makes its regular visit to the homes of its subscribers. It's nice, from an advertiser's point of view, to have a mutual friend—the newspaper—make the introduction. So, as we see it, next to a personal call, an advertisement in The Herald is the next best substitute.

Miss Geraldine Handy Weds Gerald E. Eaton

The Tecumseh Methodist church was the scene of a pretty summer wedding, Saturday afternoon, June 21, at 3 o'clock, when Miss Geraldine Ruth Handy, daughter of Mr. and Mrs. Lester Handy, became the bride of Gerald Everett Eaton, son of Mr. and Mrs. Arthur Eaton, all of Tecumseh. The altar was banked with baskets of roses and white gladioli and the pews were marked with white bows. The Rev. Ronald A. Brunger, pastor, performed the double ring ceremony.

For three generations, it has been a tradition in the Eaton family for the groom to wed on his birthday. And so, Mr. Eaton chose Saturday, his birthday, for the wedding, as did his father and his grandfather before him.

The bride, given in marrige by her father, wore a white slipper satin gown, ballerina length with fitting bodice. The full gathered skirt was covered with nylon net, and the long fitting sleeves formed points over the hands. The short veil was caught by a single strand of flowers. She carried a white Bible, a gift of the groom, topped with a white orchid with long streamers tied with love knots.

Barbara Handy, sister of the bride, was maid of honor. She wore a pastel blue satin gown styled like the bride's. The bridesmaids were Joan Handy, sister of the bride, and Ardyth Eaton, sister of the groom. Their gowns were styled similar to the bride's with Joan wearing pink and Ardyth orchid. All attendants wore single strands of flowers in their hair and carried fans of flowers matching their gowns. The bride's mother made all of the gowns. Lois Handy, small sister of the bride, was flower girl and she wore a yellow gown and carried a basket of daisies.

Mrs. Herbert Dillon played traditional wedding music and accompanied the Misses Marlys and Evelyn Arnold who sang, "Because," and "The Lord's Prayer."

Donald Smith of Deerfield served Mr. Eaton as best man. The ushers were Jim Winzeler and Lawrence Young.

Mrs. Handy chose for her daughter's wedding, a navy crepe dress with navy and pink accessories. Mrs. Eaton wore a gray dress with white accessories. Both wore gardenia corsages. The grandmothers, Mrs. Wesley Handy, Mrs. Reuben Creger and Mrs. George Everett all had gardenia corsages, but Mrs. Handy, due to illness, was unable to attend.

Immediately following the wedding a reception was held in the church parlors for 200 guests with Mrs. James Winzeler at the guest book. Kathryn Hicks presided at the punch bowl and Mrs. R. L. Houston poured. The three-tiered wedding cake was cut by Mrs. Fay Handy. The groom's cake, also representing his birthday cake, was cut and served by Mrs. Wayne Patton. Mr. and Mrs. Donald Parrett were host and hostess at the reception. Others assisting in serving were Jane Handy, Mrs. Vearl Osburn, Marilyn and Marjorie Relyea and Patty Handy. Guests attended from Bedford, Plymouth, Detroit, Dearborn, Clinton, Adrian, Tipton, Dayton, O., and Tecumseh.

For a short wedding trip the bride changed to a blue taffeta dress with white accessories and carried her orchid bouquet. She is a graduate of Tecumseh high school, class of 1951, and is employed in the business office of Michigan Associated Telephone Company. Mr. Eaton is a graduate of the class of '51 and is employed at Porter Sand & Gravel Co. After a short trip they will reside at 7080 Billmyer Road.

HIGH-TAILING down a broad straight road, you have that same sure sense of command that has always put such a thrill into piloting a great performer.

You're the boss. Your hands tell you so. It's the feel that so many folks who love to drive have come to know and enjoy.

This year, you also have at your command the highest horsepower in Buick history—and an Airpower carburetor, with two barrels in reserve to deliver an extra spurt when needed.

You have the size, the silence, the smoothness that make this ROADMASTER so distinguished among fine cars.

Where then, you ask, does Power Steering† come in?

When you want to get into—or out of—a tight spot at the curb, Power Steering takes over the extra effort of turning the wheels, and you can forget the two-tons-plus of automobile you're handling.

When you want to turn around in a narrow space—Power Steering lets you get the last inch of benefit from Buick's short turning radius, because it makes the maneuver so easy.

When one front wheel hits a bump, a chuckhole, loose sand or dirt at the edge of a road—Power Steering takes up the jerk—makes control of the wheel easier and therefore safer.

Many folks who have tried it tell us that Power Steering has added almost as much to the pleasure of owning a Buick as Dynaflow Drive.

When would you like to try it?

Equipment, accessories, trim and models are subject to change without notice. †Optional at extra cost on Roadmaster only.

U. of M. Consultant Is "Over 50 Club" Speaker

Thirty-two men and women "over fifty" had an enjoyable pot-luck luncheon and program at the Methodist church last Thursday. Vern G. Robinson, consultant in recreation and community organization of the U. of M. Extension Service, directed the group in folk games and a "buzz session". He also told the assembly about the work of similar groups elsewhere in Michigan and made several suggestions to the local group.

The centerpieces for the tables were bowls of spring flowers arranged by Mrs. Mertie Waring. The program opened with assembly singing around the piano and a vocal solo, "By the Waters of Minnetonka," sung by Mrs. R. S. Moore, who was dressed in an authentic Indian costume. She later told the group about the costume. Mrs. Jennie Satterlee brought an old sunbonnet and demijohn for display and promotion of conversation. The Temple Dependables acted as hostesses, assisted by Mrs. George Wittrup and Mrs. Fred Rector.

The group will have a picnic at Wamplers Lake on the third Thursday in July and visit Hidden Lake Gardens in August.

GARDEN CLUB MEETS

The Tecumseh Garden Club met at the home of Mrs. Earl Wickwire, Friday afternoon, with 40 members and guests in attendance. Mrs. Robert McCoy and Miss Mary McWilliams gave reports of the annual state convention of Confederated Garden Clubs of Michigan, held in Muskegon recently. Miss McWilliams was a delegate. Mrs. Francis O'Rourke of Hidden Lake Gardens gave a talk on, "Ground Covers," and also reviewed the floral arrangements displayed by club members. There were two arrangements in driftwood, brought back from Lake Michigan. The co-hostesses for the afternoon were Mrs. Don Heesen, Mrs. George Bunch and Mrs. Joe Rice.

The July 18 meeting will be a trip to Kensington Park near Ann Arbor. David Laidlaw, son of Mr. and Mrs. O. W. Laidlaw, is superintendent of the park.

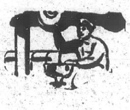
You Probably Are Guilty of COLD ENGINE DRIVING

Read This Even If You Think You're Not



Driving from home to work— then back home —then to the store—then home. These short hops warm up your car radiator, but they don't warm up your engine oil, where it counts most!

What You Can Do About It

If you are among the nine out of ten drivers who do this kind of driving, you're subjecting your car to most severe operating conditions. You can help by warming up your engine before driving, by having oil changed exactly according to manufacturer's recommendations, and by keeping a constant check on oil filter condition.

And of course, you'll want only expert technicians to work on your car . . . experts such as those in our shop. Next time you need service (probably NOW) drive up!

VOTERS WHO ARE NOT REGISTERED WILL BE UNABLE TO VOTE ON AUGUST 5

Two thousand five hundred or more voters in Tecumseh township will be eligible to cast their ballots in the general election to be held on August 5, H. H. Hanna, township clerk, estimated today. That number will be several hundred more than were registered four years ago, Mr. Hanna said.

"We are receiving many new registrations," Mr. Hanna said, "and there seems to be a keen interest in voting. However, it will be impossible for me to give an accurate figure until after next Monday."

Mr. Hanna pointed out that only persons who are registered will be able to cast their ballots in the August 5 primary.

Here is how you can tell if you are registered:

If you voted in the national election in 1948 or in the general election of 1950 you do not need to reregister. However, if you did not cast your ballot, or if you can-

Take It Easy, Police Warn

SPEED NOT ONLY COSTS LIVES, IT COSTS MONEY, TOO, CHIEF SAYS

Although it's lives that are important, failure to control speed is also very costly in terms of money, Chief Geo. Kilburn, of the Tecumseh police department comments in calling upon drivers to take it easy and save themselves and their cash. A speed control campaign is currently under way throughout the state.

"The cost of traffic accidents," Chief Kilburn said, "is high in terms of dollars and cents as well as in terms of lives lost. The worst part of it is that most accidents could be avoided if drivers would control speed and exercise other safe driving practices.

"The price of 13,616 lives lost in Michigan traffic during the past ten years is, of course, incalculable. The monetary cost, based on wage loss, medical care, cost of insurance administration and property damage, is estimated at more than a billion dollars.

"Excessive speed is not the only cause of the high accident toll, but is regarded as public enemy number one on the highways. Furthermore, speed often means the difference between life and death in accidents caused by other acts of carelessness and recklessness.

"Some persons never live to learn just how costly excessive speed really is. Many others learn at the expense of innocent persons' lives and painful injuries.

"Courtesy, caution and common sense can save many lives. There is no reason why all drivers should not practice these virtues and help make our streets and highways safer. Take it easy."

Baptists To Consider Building Plans, Sunday

Plans for the building of a $50,000 addition to the Baptist church of Tecumseh, will be considered at a congregational meeting immediately following the regular church service, Sunday morning, July 13, the Rev. B. O. Bashore said today.

"The meeting will, in reality, be one to launch the drive for the new building," the Rev. Mr. Bashore said. "We will have our plans in readiness at the time, for final approval."

The Baptists announced the building program about three weeks ago. It includes the addition of a Church Education Building immediately south of the present structure. The new building would accommodate Sunday school classes, and offices for the pastor. The rapid growth of the church's Sunday school attendance is forcing the building of the addition, Mr. Bashore said.

SOFTBALL SCHEDULE

The second round of play in the Recreation Softball League will begin Monday evening, July 7, with Tipton vs Jokers at 7 p.m., and FFA vs V.F.W. at 8:30; July 14, Jokers vs FFA at 7 p.m., and V.F.W. vs Tipton at 8:30; July 21, FFA vs Tipton at 7 p.m., and Jokers vs V.F.W. at 8:30. Games will all be played at Recreation Center.

NEW POSTMASTER IS ON JOB IN TECUMSEH

Jack Metcalf, newly named acting postmaster of Tecumseh, assumed his duties on July 1, succeeding Fent E. N. Thatcher.

WILLIAM J. SKELTON OF JONESVILLE, DIES

William J. Skelton of 540 Sterling Road, Jonesville, died of a heart attack at 3 p.m., Wednesday, June 25, at his home.

Mr. Skelton was employed at Paramount Mfg. Co., Hillsdale, for the past year and a half. He was a native of Oscaloosa, Iowa. Mr. and Mrs. Skelton came to their farm north of Jonesville about five years ago from Detroit. Mrs. Skelton is the former Metta McKinney of Tecumseh.

Mr. Skelton was a member of the Masonic Order in Iowa, a member of the Eastern Star in Jonesville, ,Knights of Pythias and was at the time of his death Worthy Master of the Mosherville Grange.

Services were held at the Beebe Funeral Home in Jonesville, on Saturday.

School Electors To Polls, July 14

ONE BOARD MEMBER WILL BE CHOSEN, SCHOOL BUS ISSUE WILL BE SETTLED

Voters in Tecumseh School District No. 7, which now comprises former School District No. 5, will go to the polls on Monday, July 14, to name one member of the board of education, and to decide on methods of transportation for children living more than a mile from the schoolhouse. Any registered voter is eligible to vote for a trustee to sit on the board, but only property holders are eligible to vote on the transportation issues, because they involve the expenditures of public funds.

It was pointed out today that Thursday, July 3, is the last day to register for the school election. Registrations are being received at the office of H. H. Hanna, township clerk, in the Strand Theatre building. The polls for the election will be set up in the

400 Dawn Patrol Ships Are Coming

TECUMSEH WILL BE HOST TO FLIERS AT BREAKFAST, ON SUNDAY MORNING

Approximately 400 airplanes, carrying 800 or more pilots and passengers, are expected here on Sunday when Tecumseh plays host to the Dawn Patrol. The affair is sponsored by the Tecumseh Exchange Club, with Geo. McCombs as general chairman. Forest Abner is in charge of publicity and public relations.

The planes will begin to arrive at Tecumseh Airport at about 6 a.m., Mr. Abner said, and practically all of them will be here not later than 7:30. Breakfast will be served at the port from 7 o'clock until all are served. For pilots and passengers desiring to attend the church of their choice, local cars will be on hand to take them to church and return them to the airport.

Abner said that there would be a large display of products manufactured in both Tecumseh and Clinton for the inspection of the guests. Also available will be a souvenir edition of the TP Broadcast, a publication of the Tecumseh Products Co. Several prizes will be awarded, including an orchid corsage to the first woman pilot to arrive.

Tecumseh was host to the Dawn Patrol, an organization of Michigan aviators, a year ago. However, this year's attendance is expected to be much larger than the one in 1950, if the weather is favorable. Members of the organization live within an approximate 100-mile radius of Tecumseh.

16-Year-Old Is Held As Reckless Driver

A 16-year-old Tecumseh youth was to appear before Judge Bernard Williamson in the probate court at Adrian today in connection with a reckless driving charge preferred by Tecumseh police.

Officers said that the lad led them a merry chase over village streets, Sunday afternoon, before he was stopped and taken to the county jail at Adrian.

Because of his age, Chief Geo. Kilburn said, he will appear in the probate court instead of before a justice of the peace.

Ernest Randall, 30, of Tecumseh, was arrested by police on Saturday, charged with operating a motor car after his driver's license had been revoked. On Monday, in Justice John Lowe's court in Adrian, he drew a sentence of two days in jail and a fine of $50 and costs of $8.60.

The Old and the New in Car Design

MANY TECUMSEH FOLK are expected to attend the "Parade of Progress," to be held in Jackson on July 5, starting at 6:30 p.m. The Parade features the advances in industry and on farms in Jackson county and its trading area. Top billing on the program goes to Buick's new experimental car, the XP-300, which is pictured above. The new car is much smaller than Buick's 1910 model, in the background. It is 39.1 inches high, is powered with a 335 horsepower motor, has dual four-wheel brakes, and has been insured by Buick for $1,000,000. The million dollar car will lead the automotive section of the parade, Saturday.

Balloon Ascension, $1,000 In Fireworks Highlight Tecumseh's 4th Celebration

One of the largest displays of fireworks in Southern Michigan, preceded by a balloon ascension in the late afternoon, will highlight Tecumseh's Fourth of July celebration, Friday. The events are sponsored by the Chamber of Commerce.

"We did not plan a day-long celebration, with carnivals, rides, etc., because we felt that with the long holiday week-end, many folk would be enjoying picnics at the lakes," Robert H. Moore, president of the Chamber, said. "Instead, we have scheduled just three events, all of them entitled to a top billing."

The local observance will get under way at 2 p.m., with a baseball game at Recreation Center. The local Tecumseh team will be opposed by the Monroe Sport Shop nine. Admission will be free, and a close contest is promised.

At 5 p.m., there will be a balloon ascension from Elliott Park. It will be the first such event in Tecumseh in five years, and one of the very few ascensions to be made in the state on the Fourth.

"Balloonists are difficult to find," Mr. Moore said in making the announcement. "We searched for weeks before we found one. There are many adults, to say nothing of thousands of youngsters who have never seen a balloon ascension. The flight will be made promptly at 5 o'clock, and the Ohioian who will be riding the gas-filled envelope will make a single parachute drop."

The day's events will be climaxed at 10 p.m., with the shooting of $1,000 worth of fireworks at Recreation Center.

"This will be one of the largest displays in Southern Michigan," Moore said, "and it will take the better part of an hour to set off the many ground and aerial pieces. A licensed pyrotechnician is being sent to Tecumseh by the fireworks manufacturer to do the work."

Two years ago, Tecumseh had a similar display of fireworks and the attraction brought well over 10,000 people to this village. It is expected that an even larger crowd will be on hand Friday, because Tecumseh is one of the few towns in this area with a fireworks display.

"So far as the public is concerned, this is a free celebration," Moore said. "There is no admission charge for any of the events. All that the Chamber of Commerce hopes for is that Tecumseh folk and any others who attend completely enjoy our celebration."

Dr. Clark is a graduate of the Logan Basic College of Chiropractic, St. Louis. He attended college there for four years, and served an 18 months internship.

EARLY PUBLICATION OF HERALD THIS WEEK

In keeping with custom, The Herald this week is published on Wednesday instead of Thursday to assure complete circulation of the newspaper in advance of the Fourth of July holiday. Regular Thursday publication will be resumed on Thursday, July 10.

Fourth Expected To Set All-time High In Traffic Volume and Road Accidents

With favorable weather, the volume of traffic on Michigan highways during the Fourth of July holiday period is expected to surpass all previous records and State Police Commissioner Joseph A. Childs is warning motorists the accident toll could likewise be an all-time high.

"The highest toll for the Fourth of July period in the state was 38 deaths in 1950," Childs said. "The lowest was eight in 1949."

"Last year the holiday came on a mid-week day, eliminating extended weekend trips for most persons. But ten persons were killed on the Fourth and 32 during the previous weekend, the worst weekend of the 1951 summer season.

"This year the Fourth and the weekend are combined into an extended holiday period. On the basis of last year's record we could have a new high fatality toll for the period. But we won't necessarily have a new high record if care and caution are practiced. In fact, there is no reason why the 1952 record cannot be as low — or lower — than the all-time low in 1949.

"Special efforts on the part of drivers to control speed would prevent many accidents and save lives. Speeding is a factor in two out of every five fatal traffic accidents.

"All other safe driving practices also are drivers' responsibilities. If they carry out their responsibilities our accidents will be cut to a minimum."

The Commissioner also warned against the use of fireworks. "Firecrackers may look harmless," he said, "but they are very dangerous playthings. Furthermore, their use in Michigan is illegal.

"No matter where you go or what you do over the Fourth—play it safe. The Fourth is Independence day. Celebrate it free of accidents."

3 Are Injured In Auto Mishaps

BRITTON MAN AND WIFE TAKEN TO HOSPITAL HERE AFTER M-50 ACCIDENT

A broken tow bar was blamed [illegible] an accident on M-50 east of here at 11:55 Saturday night in which John Shiels, 48, and his wife, Alva, 40, of Britton, were injured. The mishap occurred about 80 rods east of Rogers Highway on M-50.

According to police, the Shiels car collided with a stock car racer which had broken loose from a tow car. Mr. Shiels suffered a broken left leg and body cuts and bruises. His wife also was cut and bruised. Both were removed to Herrick Memorial Hospital by ambulance.

Officers from the Clinton State Police post said that the stock car was being towed by an automobile driven by Alfred Ladd, 41, of Route 3, Adrian. When the racer broke loose it went directly into the path of the Shiels car, which overturned.

Stanley Smith, 33, of Jackson, a brother of John Smith, manager of the dining room at Race Track Inn, Clinton, suffered a fractured neck at 1:30 Sunday morning when the car, driven by John, left the road and struck a tree near Jackson on M-50. Smith was given first aid at Jackson and then removed to University Hospital, Ann Arbor. John suffered only minor injuries.

Two minor accidents were reported in Tecumseh by police. Monday at 4 p.m., a car driven by Leonard E. Wotring, Adrian, struck the rear of a car driven by Russell E. DuBois of Brooklyn, causing slight damage. The accident happened on Maumee street. Wotring was given a summons for failing to yield right of way.

Saturday at noon, a car driven by Evelyn P. Sutton, Tecumseh, going north on Ottawa street, was struck by a pickup driven by Kalman Dincze, Tecumseh. There was only slight damage, officers said.

Mrs. Rose Harper, 82, Former Resident, Dies

Mrs. Rose Harper, 82 years old, of Lima, Ohio, and former resident of Tecumseh, died Friday, June 27, at 10 a.m., at Lima hospital. She had been ill three weeks.

Mrs. Harper and her sister, the late Mrs. Agnes Haller, lived in Tecumseh for a number of years with their brother, the late William F. Fisher. Mrs. Harper and Mrs. Ida Baxter had visited friends here over Memorial Day. She was taken ill after her return home.

She is survived by a number of cousins. The funeral and burial were held in Lima Monday at 10 a.m. Those attending the funeral from here were Mrs. Margaret Aebersold, Mrs. Anna Hardenburgh, Mrs. Fred Rector, and Mrs. Richards.

EDWARD BOSS SHOWS PICTURES OF PARIS

Members of the Rotary Club enjoyed a travelogue on Paris, France and the Alps when Edward Boss, a member of the club, showed pictures and spoke on the trip that he and Mrs. Boss recently made to Europe. The program followed the club's dinner meeting at the Country Club. Hal Kelso, newly elected president, presided at the meeting. Mr. Kelso succeeded Mel G. Partridge. Mr. and Mrs. Partridge are now enroute to California, where they plan to spend three months vacationing and visiting their son, Russell Partridge, and family, in Brentwood.

TENNIS AND GOLF OFFERED TO CHILDREN

Coach Elven Duvall reports that there will be a blackboard at the southwest entrance to the Central school building for the purpose of teen-age children signing up for tennis and golf tournaments. Teen-agers are asked to sign their name under the tournament in which they would like to participate by Friday, July 4. If enough interest is shown plans will be carried out for these games as a part of the summer recreation program.

SPECIAL SERVICES AT ST. PETER'S, FRIDAY

Independence Day will be observed at St. Peter's Episcopal church with two celebrations of the holy communion, one at 6:30 a.m., and the other at 8 a.m. A special intention for our country's welfare and prayers of thanksgiving for the liberty and freedom that is ours will be offered at these services. The members of the congregation have been urged to come to one of these services on Independence Day.

Ripley Oddities On Display Here

NAVY CLUB VETERANS BRING EXHIBIT TO TECUMSEH ALL DAY, TODAY

Robert Ripley's personal collection of "Believe It or Not" oddities, being exhibited on national tour under auspices of the Navy Club Veterans, will be presented in Tecumseh on Wednesday, July 2, at Chicago boulevard at Evans street, downtown.

Believe it or Not cartoons have been appearing in newspapers throughout the world for years. On display in this exhibit will be some of the original drawings picturing facts which many found difficult to believe. The greater portion of the exhibit features part of Ripley's amazing collection of the authentic original subjects on which the cartoons are based. Every item is selected from the unusual assortment of strange things which Mr. Ripley spared no effort or expense to unearth during his endless explorations of all parts of the world.

The mobile exhibit is mounted in a special custom-built trailer, featuring an amazing collection of crowns, tiaras, scepters, maces and other valuables of the most famous royalty and nobility of all times. In addition to this spectacular display, there are many curious items from faraway lands with strange customs, like the Flute of Death and the Sacrificial Dagger, both carved from human bones for mystic ceremonial rites.

Included in this exhibit are mysterious oddities and wonders of every age and every part of the world. There is a skull drum from Africa, a butterfly that lived in the heart of a tree, a knife that cuts steel, the medieval torture instrument called "Spike Crown," a Tibet horn that blows a blast for seven miles, and many other items.

Admission is free, and the exhibit will be open to the public from 9 a.m. to 10 p.m. Any funds raised through voluntary donations will be used by the National Headquarters and the local ships of Navy Club of USA, to assist them in carrying on their services to veterans.

Sizzling Heat Bakes Tecumseh

SUNDAY HOTTEST DAY OF THE SEASON WITH TEMPERATURE REACHING 100

Temperatures and humidity that resembled those in the tropics caused residents of Tecumseh, Lenawee county and the southern part of Michigan to roast under a blistering sun, Thursday through Sunday, and sent scurrying to lakes and resorts a record number of vacationists over the week-end. At Walter J. Hayes State Park near Wamplers Lake, parking space, at times, was at a premium. And so was room on the lake's bathing beaches. Cars on US-112 were bumper-to-bumper as the crowds returned to their homes, Sunday evening.

A similar crowded picture was reported at all other lakes in this area, particularly at Devils and Round Lakes, where the largest number of vacationists of the season was reported.

The soaring temperatures started Wednesday night and Thursday, Friday and Saturday mid-afternoon readings were in the late 90's. Humidity readings almost equaled the temperature.

The hottest day of all, however, was on Sunday, when local official readings were 99 and 100 degrees at about 4 o'clock in the afternoon. Sunday's sun temperatures were 107 to 110 degrees with some residents reporting that their thermometers refused to register correct temperatures.

Sunday night's 10 p.m. reading was about 88 degrees but the mercury skidded during the early morning hours to a cool 72. Monday's high was in the late 80's and Tuesday's in the mid-80's. Monday night, however, a pleasant cool breeze made sleeping comfortable.

Continued warm weather has been forecast by the observers for another week, although, it was said, sudden temperature changes might come in the event of thundershowers.

School Bonds Get Premium

$650,000 ISSUE SOLD AT AVERAGE INTEREST RATE OF ONLY 2.1 PER CENT

The Board of Education, in special session Thursday evening, sold an issue of $650,000 worth of school bonds to Halsey-Stewart & Co., Inc., investment brokers, of Chicago, at a premium of $473.85 and an average interest rate of 2.1736 per cent. The rate, according to school officials, was exceptionally low, considering the rate that bonds have been bringing in other sections of the state.

The bonds were issued in 13 serials. Those maturing between 1953 and 1958 bear an interest rate of 3 per cent. Those maturing between 1959 and 1965 bear a rate of 2 per cent. Two other bids were received and both of them were much higher.

On the basis of the sale, the interest on the bonds will cost School District No. 5 a total of $103,733.65. However, James McDowell, superintendent, pointed out that this figure is based upon the assumption that the bonds will run for 13 years. It is the district's plan to retire them in from seven to eight years, which will materially reduce the interest cost.

Several Streets Closed To Autos

SUPERINTENDENT ALSO WARNS AGAINST DRIVING ON HIGH SCHOOL WALKS

Several streets in Tecumseh have been closed temporarily, or soon will be closed, due to street repair and sewer building, Clyde Eckler, village engineer, said today.

Maumee street, from Shawnee to Brown street, is closed, while a new storm sewer is being laid. Pearl street, between Chicago boulevard and Logan, is closed for rebuilding. Logan street, between Pearl and Evans street, will be closed next week, for rebuilding.

In about two weeks, North Union street, from Brown street to the village limit, will be closed for rebuilding. This project will follow the building of curb and gutter there.

James McDowell, superintendent of schools, said that as a result of the Maumee street closing,

Police Sponsor Safety Campaign

MOTORISTS ARE URGED TO "TAKE IT EASY" TO CUT DOWN ACCIDENT RATE

Police, sheriffs' departments and judges of the state will concentrate during the next several weeks on a speed control campaign in an attempt to cut down the number of accidents in which this No. 1 killer has a part, it is announced by State Police Commissioner Joseph A. Childs.

The Michigan State Safety Commission, sponsor of the campaign, has requested the State Police to take over its leadership. The campaign is part of a nation wide program being promoted by the National Safety Council.

The appeal will be placed before the public by the press, radio, and movies, and in leaflets, stickers and posters bearing the slogan "Now — Take It Easy".

"We hope the campaign will have lasting effects and not result in just a temporary improvement in speed control," Childs said. "Speed is the most dangerous enemy on the road and a factor in two out of every five fatal traffic accidents.

"Reports crossing my desk show that traffic casualties on Michigan streets and highways—the injured and killed combined—are now nearly 1,000 persons a week. This is a frightful toll and a big percentage are victims of fast driving.

"During the next few weeks our efforts will be centered on bringing this lesson home to the public through repeated emphasis on the danger of speeding. Trying to save five minutes in reaching a destination is a reckless gambel with life. Moreover, the speeder is a menace to everyone else on the road. We're urging the use of more common sense to help reduce our terrific accident toll. We want drivers to voluntarily take it easy."

My office will be closed Tuesday, June 24, to July 8.

You Can't Vote Unless You Are Registered

There are few people in Tecumseh or in Lenawee County over 21 years of age who will not want to cast their ballots come the presidential election next November.

Four years ago, when Mr. Truman was elected, less than 50 per cent of the voters, nation-wide, went to the polls. In Lenawee County the percentage was not quite that low, but it was shamefully low.

But this is four years later—1952. People are taking a different attitude toward elections than they did back in 1948. More people are talking about voting, there is more interest.

These voters should bear in mind that they cannot vote in the Augustt primary election, or in the November election unless they are registered. Regardless of how badly they desire to cast their vote, they can't do it unless they register first.

Monday, July 7, is the LAST DAY to register for the August primary.

The place to register in Tecumseh and in Tecumseh township is at the township clerk's office in the Strand Theatre Building. The hours are daily, Monday through Saturday, from 9 to 12 and from 1 to 5 o'clock.

Don't neglect registering, if you are not already registered. Only three more days remain in which to do it. Don't put if off and then find that you can't vote, come the primary election.

America is one of the few remaining countries in which free elections are held. A 48 percent vote, as in 1948, is a shameful commentary on the attitude of the American voters.

Let's change it this year, let's get out the vote in Tecumseh and in Lenawee County. But remember, to be able to vote you must first be registered.

And Monday, July 7, is the last day to register for the August primary.

Truckers Must Police Their Industry

Writing in the Ohio Farmer, Robert G. Lincoln says, "Why in recent months have dozens of newspapers from coast to coast launched bitter editorial campaigns against the big truckers? Why have nationally circulated magazines raised serious questions about the way the trucking industry is conducted? Why have councils of state governments (representing the governors of 48 states) urged all state legislatures to pass more stringent laws governing the intercity truckers? Why is a wave of public resentment building up against this business?

"The answer is this: A short-sighted, unscrupulously greedy segment of the trucking business is driving wildly for outrageous profits. If the decent elements among the truckers don't do something to stop it, the whole business is going to run into a stone wall of public anger."

Mr. Lincoln describes the exhaustive test conducted in Maryland by the highway departments of 11 states and the District of Columbia. This test proved beyond argument that concentrated weight is the main cause of highway destruction. In the test, the trucks used were loaded only to legal limits. To quote Mr. Lincoln again, "The Maryland road test proved that even the legal limits in many states leaves the highways wide open to serious damage. Yet, these limits are being ignored every day by thousands of trucks from coast to coast."

More and more authorities are convinced that the operators of the heavy trucks should pay a much greater share of the road damage [illegible] than is now the case, and many legislators are coming to that view. And there can be no vestige of excuse for those truckers who deliberately violate the weight laws. The police and courts should deal promptly and severely with them.

"Concern over the tax problem lies largely in the fact that the law of diminishing returns has set in. Put federal taxes up another notch and the increase probably won't produce any more revenue . . . Business can be taxed out of business. And that is precisely what is beginning to happen. The process can kill the goose that lays the golden eggs, and the tax goose is beginning to look pale around the eyes. 'Moderation in all things' saith the sages. This applies to taxes, as well as cayenne pepper or chocolate candy." — Washington, Iowa, Evening Journal.

Evidence Of The Hand Of God....

The changing seasons come often—a year is short. Fresh flowers and leaves, and the beauty of the new season are all evidence of the hand of God.

Likewise, the growth of our children and the gradual fading of those older remind us that those changes are His wish.

10 REASONS WHY I BELONG TO MY

Chamber of Commerce

1. Because I realize that every man owes a debt to his community that cannot be paid in taxes — a debt of personal service.
2. Because I want to play my part in the organized development of my community and to carry my share of the public burden.
3. Because the Chamber of Commerce is business insurance—an institution that can accomplish great good for my city at a time when action means more than ever before.
4. Because the Chamber of Commerce holds up an ideal of civic development and commercial advancement that tends to the encouragement of what is helpful and the elimination of what is harmful.
5. Because active participation in community affairs is both a personal privilege and a civic responsibility.
6. Because as a member of the Chamber of Commerce, I am afforded an opportunity to actually work for conditions I have long hoped for.
7. Because my business tells me that whatever is best for this town and my neighbors is too valuable an asset for me to pass up.
8. Because through the Chamber of Commerce the individual citizen can best discharge his obligations to the town in which he lives and makes a living.
9. Because the Chamber of Commerce is the gauge of the city enterprise, prosperity, and ambitions, and reflects the combined wishes of the community.
10. Because the Chamber of Commerce is equipped to express the business sentiment of the community on both local and national affairs, and I want to make my voice and influence felt in determining the policies of our times.

Miss Janet M. Erhart Weds Arthur B. Woodward

The Tecumseh Methodist church was the scene of an informal wedding, Wednesday evening, June 25, at 7:30, when Miss Janet Marian Erhart, daughter of Mr. and Mrs. Leo Erhart of Tecumseh, became the bride of Arthur Bredon Woodward, son of Mr. and Mrs. Andrew D. Woodward of Clinton. The altar was decorated with baskets of asters and delphinium, and the pews marked with white satin bows. Rev. Vaughn Whited of Clinton, assisted by the Rev. Ronald Brunger, performed the double ring ceremony.

The bride, given in marriage by her father, chose a white linen suit with white accessories and a red rose corsage. Mrs. James Dick, matron of honor, chose a pink suit with pink accessories and a blue and white carnation corsage.

Mrs. Kenton Hunt, organist, played the traditional wedding music and accompanied Mrs. John D. McColl as she sang, "The Lord's Prayer," while the couple knelt at the altar.

Mrs. Erhart chose for her daughter's wedding a navy blue silk dress with white accessories and Mrs. Woodward, the groom's mother, a green faille dress with pink accessories. Both mothers wore corsages of pink carnations.

A reception was held in the church parlors immediately following the ceremony for 130 guests. Mrs. Herbert Simpson was at the guest book, Diane Woodward, sister of the groom, poured the punch. Mrs. Merlow Packard, aunt of the bride, cut the three-tiered wedding cake, and Betty Erhart served the ice cream. Miss Pat Hammack assisted at the gift table.

Mrs. Woodward is a graduate of Tecumseh high school, the class of 1952, and Mr. Woodward graduated from the Clinton high school in 1951. He is employed at the Saline Dairy Bar in Saline. After a wedding trip through the north they will reside at 115 Michigan Ave., in Saline.

Eve Miller, Kirk Douglas and Patrice Wymore have key roles in the technicolor action-drama "The Big Trees." Sun., Mon., July 6, 7 at the Strand Theatre.

Herald classifieds pay dividends dividends.

Basement Screens Can Further Use of Area

Screens to mark off service from recreation and living areas, and gay furniture to "pinch-hit" when rooms above are over-flowing, can make your basement a valuable room for you and your family.

Screens can be used to great advantage to separate the furnace or laundry from the recreation area, Herbert W. Johe, assistant professor of architecture at the University of Michigan, points out.

"If you prefer wood partitions, there are adhesives on the market by which you can fix wood to masonry without putting nails into the masonry. Most economical of the fixed partitions is plaster board. Split bamboo curtains, graceful and easy to roll up or down, may also be used effectively.

"Why not be money-wise and use your porch furniture in the basement in the winter? Basement chairs (you'll want comfortable ones near the television set) should be of plastic material or synthetic leather, which can be wiped off, as dirt inevitably sifts down from the floor above.

"You can use canvas in bright colors and gay stripes or plaids to re-cover old furniture. Auctiones and second-hand furniture stores often yield old chairs and sofas which can be transformed into useful and attractive additions to the basement 'living quarters.' Department stores willingly furnish information on upholstering techniques.

"And how about buying an old piano, painting it in stripes, squares or flowers, and turning it over to the children as an over-sized toy for their surplus exuberance?

"Bunk beds (always popular with children) could be used to solve the problem of congestion when the house overflows with guests."

What Kind

Of A Cow...

. . . . gave the milk you served at home today . . . ?Don't shrug this question off—it is important.

Average Jersey milk contains from 30 to 40 per cent more butterfat. Meadowridge Milk from the Tecumseh Dairy is mostly Jersey milk—definitely better and richer. It costs no more, but will give you more value for every cent you spend for milk and cream.

YOUR RIGHT TO VOTE

IS PACKED WITH POWER

Americans' Votes are PACKED WITH POWER.

Presidents, Senators, Congressmen, Governors—everybody who holds public office is holding his job because WE as VOTERS said that he could.

The only way that we can keep it that way is to VOTE — and we can't vote if we are not registered.

Remember to.. REGISTER

MONDAY, JULY 7, THE LAST DAY

Monday, July 7, at 5 p.m., is the last day for registration for the August primary election. DON'T NEGLECT IT. If you are not now registered, see to it that you are. YOU CAN'T VOTE unless you are registered. In Tecumseh, you register with H. H. Hanna, Township Clerk. His offices, in the Strand Theatre Building, are open daily from 9 to 12 and from 1 to 5, except Sundays.

FREE Transportation-If You Need It

If you live in Tecumseh, and you need transportation to the Township Clerk's office for the purpose of registering, just call your favorite automobile dealer, listed below. Any one of them will be glad to call at your home—at the appointed time—and take you to the Clerk's office, and back home again. This service is free. Tecumseh automobile dealers realize how important it is that Americans cast their ballots. They offer this service and are paying for this advertisement as a patriotic duty.

Junior Baseball Team Enjoys Winning Streak

The Tecumseh Junior American Legion baseball team played a game under the lights at Deerfield, Thursday evening, winning by a score of 6-4. Larry Hartman was the winning pitcher, with Ray Covell catching. The team this year is being managed by Dave Murphy, assisted by Dave Van Winkle.

Last week Tuesday evening, the Tecumseh team met the powerful Adrian nine and won by a 6-4 margin. Carl Henkel, pitcher, hurled a masterful game, and Covell was the star at the plate with two hits. Russell Hyatt had two timely singles, driving in two runs.

After losing the first two games, the Indian juniors turned their luck on June 22 at Onsted, winning by an 8-4 score. Larry Hartman pitched a 4-hit game, with Joe Gregory and Ray Covell getting a triple and two singles each.

Maternal instinct
IS NOT ENOUGH!

Of course, you have the instinct to give your child all the love and protection of which you are capable. But there are times when good intentions are not enough. When your child shows signs of illness, don't simply do what you think is right. Call your doctor, who is qualified to diagnose and recommend treatment for your child. He will back up your instinct with practical knowledge that will hasten recovery. And if your doctor prescribes, rely upon our pharmacist to employ all his skill and every bit of scientific knowledge available in compounding that prescription.

School Bonds

(Continued from page 1)

The bond issue, approved by voters here in May, is for the purpose of defraying the cost of a new 13-room elementary school on North Union street, and the addition of a gymnasium and five rooms to the new high school on North Maumee street. The construction cost on the two projects will total $760,000. Of this amount, $650,000 comes from the sale of the bonds, $100,000 is in the form of an anonymous gift, and $10,000 comes from the district's general fund.

Mr. McDowell said today that the architect's plans for the construction of the new elementary school are now on the drafting boards and may be available within a week or 10 days. Plans for the high school addition and the gymnasium are in a formative state, however, and it will probably be two weeks or more before they are ready. It is the hope of the district to get both projects under construction about the first of August.

It is hoped that the elementary school, as well as the addition to the high school, can be completed early in 1953. Tecumseh's school buildings are crowded, both in the elementary and secondary sections, and in all probability one or two buildings, other than school buildings, and the public library, will have to be used as clasrooms next September to accommodate the heavy increase that is anticipated in enrollment.

Registration

(Continued from page 1)

not remember whether or not you voted, it would be a good thing to check with the clerk to make sure.

Persons who did not vote in 1948 or 1950, or who have moved here since 1950 or became of age since that time, should register in order to vote.

"Some people think that they are registered, only to find out when the election rolls around that they are not," Hanna said. "If there is any doubt, the best way is to check with our office and make sure."

Monday, July 7, is the last day to register for the primary. The clerk's office is open daily, except Sundays and holidays, from 9 a. m. to 12 noon, and from 1 to 5 p.m., for the purpose of registration. The office is located in the Strand Theatre building.

Automobile dealers in Tecumseh, in an effort to assure a wider registration of voters, announced today that they would be happy to transport voters to and from the clerk's office for the purpose of registration, if they would call their favorite dealer. There is no charge for this service, the dealers pointed out. "We are doing this as a civic gesture, and a patriotic responsibility," one dealer declared.

An advertisement, setting forth the dealers' transportation offer, will be found in another page of this newspaper.

The American Legion, too, is sponsoring a county-wide registration program.

high school building, and the hours for voting will be between 7 a.m., and 8 p.m. The general meeting of the school district will be held at the high school, immediately after the closing of the polls.

The term of office of Dr. Ralph Helzerman, secretary of the board, expires with the approaching election. Nominating petitions for Dr. Helzerman already have been filed, and his are the only petitions that have been filed. For that reason he will have no opposition in the election, because the final date for filing petitions was last week.

On the transportation issues, two will be submitted, one to bring the children living more than a mile from school by bus, and a second one to pay parents or others for bringing their children, if they are not served by bus and live beyond the mile limit. The district owns only one bus, and this was used last year in District 5, now a part of District 7, for transportation purposes. The District does not desire to buy a second bus, and as a result the second issue becomes necessary.

It was pointed out that the District is reimbursed for transportation costs by the state if the costs are within a maximum limit allowed by the state. In Tecumseh's instance, it was said, the costs would be within the limit.

Several Streets

(Continued from page 1)

several persons are using James street, which also is closed, and are driving onto private and school property. This practice, he said, must stop.

Cars will not be permitted to drive or park back of the new high school building on North Maumee street, and neither will cars be permitted to drive on the sidewalks in front of the building.

"Some folk seem to think that the school's sidewalks are public highways," Mr. McDowell said. "They drive over them and along them, and then park back of the school near Recreation Center. This practice must stop. We will not permit cars to park there, and neither will we permit them to drive on the sidewalks."

Baptist Mother, Daughter Banquet Largely Attended

The annual mother and daughter banquet of the Bapitst church was held Wednesday evening. June 25, at the church with 165 in attendance. The social rooms of the church were decorated with floral arrangements in tea pots, using a variety of garden flowers. "Behold the Stars," the theme of the women's work of the American Baptist convention, was used as the theme of the banquet and blue programs were decorated with white stars which also adorned the napkins. For nut cups, the love gift boxes were used and were explained by Mrs. Clifford Curran, toastmistress.

The program opened with the singing of the "Doxology" accompanied by Mrs. Gerald Osworth. The primary group of girls under the direction of Mrs. Lyle Grigg sang the welcome song accompained by Janet Bashore. Mrs. Curran then introduced Mrs. Jesse Arnold who gave the toast to the daughters in poetry. In response the Arnold sisters, Marlys and Evelyn, sang "Mother Love," accompanied by Mrs. Harley McsConnell. Other numbers were a song, "Mother's Bible," by the primary girls; a piano solo, "Whispering Hope" by Ruth Ann Bryan; vocal solo, 'Little Old Lady," by Mrs. Lyle Grigg in costume, acompanied by Mrs. E. H. McConnell; and "Mother" sung by the junior girls. A play "The Other Woman," was presented by two women from the Adrian Baptist church who were accompanied and introduced by Mrs. Vaughn Curtis The singing of 'Blest Be the Tie" accompanied by Mrs. Gerald Osworth concluded the program.

Corsages were presented to Mrs. Harirett Knight, 89, the oldest mother present; to Mrs. Calvin Rickart, the youngest mother; to Mrs. Delia Carpenter, 91, the oldest daughter; and to Mrs. B. O. Bashore for her work with the church. Nosegays were presented to Mrs. George Green, jr., Mrs. William Butler, and Mrs. C. O. Bailey, who each had three daughters present.

The program was planned by the Ladies Union; Mrs. Llewellyn Sisson, Mrs. Carl Kempf and Mrs. Donald Creger provided the nut cups, booklets, and decorations; Mrs. Floyd Bryan had charge of the corsages and Mrs. Mills Swick and Mrs. Pat Barrett, the supper.

Scouts Plan 4 Play Days

JULY 8 THROUGH 11 WILL BE ENJOYED BY GIRL SCOUTS OF TECUMSEH

"Play Days" as announced last week by the Tecumseh Girl Scout Association, will be held July 8, 9, 10, and 11 at the Scout Cabin for all registered Brownies, Intermediates, and Senior Scouts.

Each day's activities will begin at 10 a.m., with a flag raising and group singing. Council will then be held and procedure planned for the day's cook out.

Lunch will be served at 12 noon. Mrs. Ronald Harris will be present each day at 1 p.m. for rest periods with an entertaining continued story hour.

The afternoons will be filled with hiking, trail blazing, and nature lore. Mrs. John Cameron will supervise the afternoon activities of the Intermediate and Senior Girl Scouts. The catching and mounting of butterflies is on their schedule of activity along with the preparation of a huge stew to be cooked out of doors and served to the entire camp and their families on free night, July 11. The association will also furnish the beverage for this event and parents are asked to bring salads, desserts, and sandwiches to fill in the menu. Dinner around the camp fire will be served at 6:30 sharp.

Mrs. Arthur Bowser will be assisted by Mrs. Elven Duvall, July 8, when fire building will be demonstrated and plans made for the following day's cook out. Many interesting crafts including belt making and lariat making with gymp are planned for the afternoon. July 9, Mrs. Wallace Rutherford will supervise a breakfast menu to be served at noon with the actual planning, marketing and cooking done by the girls. July 10, Mrs. Gerald Griffin is in charge and a luncheon menu will be carried to completion. July 11, another luncheon menu will be supervised by Mrs. Julius Vincze. Although these adult leaders will try to promote good and safe campcraft, parents will be responsible in case of unexpected accidents.

The Girl Scout Association is assuming the expense of the play days this year, but each Scout is to bring her own lunch the first day and a small rug or blanket for rest periods. In case of inclement weather, the program will be conducted in the Scout Cabin. Scouts may attend any or all Play Days. After the flag lowering and good night circle, Scouts will be dismissed at 4 p.m. to avoid the heavy traffic.

Miss Jeanet L. Ehinger Weds Frank A. Biessel

Miss Jeanet Louise Ehinger, daughter of Mr. and Mrs. Theodore Ehinger, of Tecumseh, and Frank Adolph Biessel, son of Henry Biessel and the late Mrs. Biessel of Mt. Clemens, were united in marriage at the home of the bride, on Saturday, June 28, at 3 p.m. The double ring ceremony was performed by the Rev. George Walworth, minister of the Presbyterian church.

The bride, given in marriage by her father, wore a light blue organdy street length dress. Her dainty corsage was of euchorist lilies. The matron of honor, Mrs. Morton Biessel, of Sylvania, O., was gowned in light pink organdy, with a corsage of baby pink roses.

William Biessel of Mt. Clemens, was the best man.

Immediately following the ceremony a reception was held in the Ehinger home for the wedding party and close friends.

Mrs. Biessel is a graduate of Tecumseh high school, and was employed in Mt. Clemens. Mr. Biessel graduated from Mt. Clemens high school, and is now serving in the U. S. Navy. After a motor trip through northern Michigan, the couple will make their home in Norfolk, Va., where Mr. Biessel is stationed.

FARM BUREAU MEET

The Raisin Farm Bureau will meet Monday evening, July 7, at the home of Mr. and Mrs. James Feight on Russell Road. The discussion topic will be, "How Can We Improve Markets for Farm Commodities?" Members are asked to bring cookies or wafers. A collection will be taken for the ice cream.

Jokers and Dick's Win In Softball Contests

The Jokers defeated the V.F.W. Explorers and the F.F.A.'s bowed to Dick's Standard Service, in two softball games played at Recreation Center, Monday evening.

In the first game between the Jokers and the Explorers, the score was 14-4. The Jokers' big bats again proved too much for their opponents. Dave Murphy led opponents. Dave Murphy led with three hits, including a home run and a triple. The leading Explorer hitter was Glenn Williams, with two hits, including a home run in three times at bat. Dave Murphy was the winning pitcher, James Whitecotton the loser. Warren and Butler were the umpires.

In the second contest, the airtight pitching of Geo. Pontius and a good defensive play by the rest of the Standard boys held the FFA's to four hits. The final score was Dick's 11, FFA's 3. The winning pitcher was Geo. Pontius, the loser, Harry Dick. Warren and Tingley umpired.

Council Proceedings

VILLAGE OF TECUMSEH COUNCIL BUILDING SPECIAL MEETING
June 23, 1952

Present: President Pro Tem Porter, Trustees McCombs, Rohweder, Fosbender.

Absent: Heilman, Truesdale, Mensing.

WHEREAS, there have been filed with this municipality certain plans for the improvement of M-50, Tecumseh. Democratic St. to East Limit as prepared by the State Highway Department, and the same have been duly examined;

NOW, THEREFORE, BE IT RESOLVED that the consent of this municipality to the designation, operation and maintenance of Highway M-50 as a State trunkline is hereby given; and that such plans be, and they are, hereby approved; and to induce the said Department to proceed with and complete the aforesaid project, this municipality promises and undertakes as follows:

That it will participate in the cost of this improvement in conformity with existing law;

That it will cause all water lines, sanitary and storm sewers, house connections, gas mains, electrical conduits, and other underground work, both public and private, within the limits of the construction area throughout the length of said improvement, to be inspected and repaired, and, where necessary, to be put into first-class condition forthwith, and will cause all additional and new underground work within aforesaid area (except such as provided for on the plans) to be properly installed before the contractor starts work. All backfilling of trenches, abandoned structures, and other underground work within the limits of the proposed construction area shall be done with bank run sand, gravel, or coarse aggregate placed in horizontal layers not to exceed 12 inches in depth and thoroughly compacted by tamping, flooding, or other effective means which will produce maximum compaction;

That the Department shall be reimbursed for all future repairs to the pavement included in this project, made necessary on account of faulty material or workmanship in such underground work by this municipality, on bill rendered by the Department when such repairs are completed;

That it will forthwith adopt and keep in force the proper ordinances to control building construction abutting on this improvement so that same will correspond with the right of way existing or proposed, as shown on said plans;

That it will at no time hereafter, without the written consent and approval of the State Highway Commissioner, attach any further construction to the improvement so made; nor will it erect, install, or permit to be erected or installed any sign, signal, or other device to control traffic or parking, or for advertising purposes, except in conformity with State law and with the rules and regulations of the Michigan State Highway Department for uniform traffic control.

Ayes: President Pro Tem Porter, McCombs, Rohweder, Fosbender. Nays: None.

Resolved that the letter from the Michigan State Highway Department dated June 18, 1952 regarding Highway project No. M46-9 C9, F46-9 C7 signed by R. B. Dibble Assistant to Deputy Commissioner-Chief Engr., regarding revised plan which will eliminate the median strip and to provide for a 62' width of pavement between Ottawa and Oneida St. be accepted and that the estimated cost to the Village of Tecumseh of approximaely $2,000.00 be approved. Ayes: President Pro Tem Porter, McCombs, Rohweder, Fosbender. Nays: None.

Moved and supported that the cost to the Village of Tecumseh of $20,700.00 as the Villave share of the proposed street repaving project No. M46-9 C9, F46-9 C7, for the Village of Tecumseh between Democratic St. to East Limits be accepted. Ayes: President Pro Tem Porter, McCombs, Rohweder, Fosbender. Nays: None.

On motion Council adjourned.

Miss Elizabeth Escolme Weds Donald F. Johnson

At an impressive ceremony Saturday afternoon at 2:30 at the Tecumseh Friends church, Miss Elizabeth Mary Escolme, daughter of the Rev. and Mrs. Edward Escolme, became the bride of Donald Folger Johnson, son of Mr. and Mrs. A. Folger Johnson of Poughkeepsie, N. Y. The double ring ceremony was performed by the Rev. Byron L. Osborn, president of Cleveland Bible College, and the bride's father, the Rev. Mr. Escolme.

Mrs. Amos Wilson, organist, played selections and accompanied Ralph Comfort, soloist, who sang "O, Perfect Love," preceding the ceremony.

The bride, given in marriage by her father, chose a gown of white satin with a lace bodice and full train. The long sleeves ended in points over the hands. Her bouquet was of white carnations. Miss Carolyn Comfort, maid of honor, and the bridesmaids, Ruth Reilly of Cleveland, Ruth Beckwith of Columbus, and Mrs. Henry Hamilton of Tecumseh, were gowned in white nylon marquisette over taffeta. They wore flowered head bands and carried shower bouquets of pink carnations. Inara Friemanis and Ruth Eva Satterthwaite, wearing white organdy dresses and carrying small colonial bouquets of pink carnations, acted as flower girls.

Harry Schwartzbart of Chicago was the best man. The ushers were Dwight Reilly and Roger Smith of Cleveland, O., and Gorden Comfort of Tecumseh.

For her daughter's wedding Mrs. Escolme chose a pink figured Bemberg dress. Mrs. Johnson wore a pink silk shantung and both had corsages of white roses.

For her wedding trip into Canada, the new Mrs. Johnson chose a navy and white two piece dress with white and navy accessories and her carnation corsage.

A reception was held immediately following the ceremony in the church parlors. Mrs. Naomi Sallows acted as hostess. Serving the wedding cake was Mrs. Herbert Murphy and Mrs. Ernest Hammack and Mrs. John Kelly served the punch. Others assisting with the serving were Mrs. Ned Kotts, Mrs. Percy Slater, Mrs. Raynor VanValkenburg, Mrs. Clarence Randolph, Astrida Friemanis, Marilyn Manley, Mary Louise Kotts, and Edith Meredith of Fitchburg, Mass. Miss Marjorie Wickwire had charge of the guest book.

Mrs. Johnson graduated from Tecumseh high school, attended Cleveland Bible College, and graduated from Baldwin-Wallace College, Berea, O. She will teach in the Cleveland schools the coming year. Mr. Johnson received his B.S. and M.S. Degrees from Rennsaeleer Polytechnic Institute at Troy, N. Y. He is an aeronautical research scientist at the Lewis Flight Laboratory of the National Advisory Committee for Aeronautics at Cleveland, O. They will make their home at 5313 Knollwood Drive, Parma, Ohio.

Those attending the wedding from out of town were Mrs. Byron Osborn of East Cleveland; Mr. and Mrs. A. Folger Johnson of Poughkeepsie, N. Y.; James Meredith and daughter Edith of Fitchburg, Mass.; Mrs. Daniel G. Hodgin of Brighton; Mrs. Chas. Carey of Ypsilanti; Rev. and Mrs. Kenneth Carey of Byhalia, O.; Harriett and Elena Calkins of Toledo; Norma Freer of Waldbridge; Rosemary McGann of Cleveland; Mr. and Mrs. Kenneth Cobbs and Mr. and Mrs. Miles and son of Damascus, O.; Mrs. Gladys Perryman of Detroit; and Mr. and Mrs. Joseph Satterthwaite and daughter of Ceylon. Others attended from Rollin, Jerome, Adrian, Holloway, Raisin Center, and Birdsall. Wires were received from Dr. and Mrs. W. E. DeVol of India and relatives of the bride in England.

Profits Are FAST and SURE With Hayden's Broiler Krumbles

After six weeks, gradually add grain to Hayden's Broiler Krumbles up to equal quantities. 3 to 3½ lb. birds at 9 weeks are often the result of this careful feeding. This is the quick way to realize profits from chickens. Here are the reasons.

- Hayden's Broiler Krumbles contains antibiotic and Vitamin B-12 in perfect balance with protein.
- Results in fast, solid fleshing and lowest mortality.
- Chickens eat every particle. You feed less — chickens eat more.

Disappeared or Missing Persons.

Robert T. Bartlow, administrator of the above estates, having filed a petition in said court alleging that he is ready to render his final account in said estates, that the expenses oi administration thus far incurred have been fully paid, and praying that he may be allowed compensation for the services and extraordinary services performed by him, that the residue remaining in his hands be assigned to the State Board of Escheats for the State of Michigan, as escheated estates, that he may be discharged as such administrator and for such other order or decree as to this Court shall seem proper:

It Is Ordered, that Wednesday, the 6th day of August, next at ten o'clock in the forenoon of said day, at said Probate Court, be assigned for the hearing of said petition and the examining and allowance of said account.

It is further ordered, that a copy of this order, be published once each calendar month for two months prior to said date of final hearing for the closing of said estates, in the Tecumseh Herald, a newspaper printed and circulating in said county.

This notice is given in accordance with the Escheat Laws of the State of Michigan, to said persons, their heirs, grantees, or assigns, and to all persons climing by, through or under them.

Miss Lois Jane Clement Bride of L. E. Brown, jr.

The First Presbyterian church was the scene of a pretty summer wedding Saturday afternoon, June 28, at 2 o'clock, when the marriage vows of Miss Lois Jane Clement, daughter of Mr. and Mrs. Bernard Clement of Britton, and Lillard E. Brown, jr., son of Mr. and Mrs. Lillard E. Brown of Tecumseh, were exchanged. The Rev. George Walworth, pastor of the church, performed the double ring ceremony before an altar banked with baskets of gladioli and vases of cut flowers.

The bride, given in marriage by her father, chose a white satin gown trimmed in white lace, with a lace train. She carried a nosegay bouquet of white roses centered with three white orchids. Phyllis Frost, maid of honor, and Sally Prielipp and Wilma Reau, bridesmaids, all wore ballarena length gowns of pastel shades of blue, aqua and pink and carried bouquets of daisies. Linda Clement, sister of the bride, was flower girl and wore a yellow floor length gown similar to the bride's. Jeffrey Osburn was ring bearer.

Mrs. Kenton Hunt played nuptial music and accompanied Gene Mackey of Deerfield who sang, "Because," and "The Lord's Prayer." The ushers were Charles R. Osburn and Jack Osburn. Ned Harrington assisted Mr. Brown as best man.

Mrs. Clement chose for her daughter's wedding a navy sheer dress with white accessories and Mrs. Brown a powder blue dress with white accessories. Both mothers wore orchid corsages.

Immediately following the ceremony a reception was held at the Tecumseh Country Club for 250 guests.

The bride is a graduate of Britton high school. Mr. Brown graduated from Tecumseh high school, served one and half years in the Navy, one year at Campton, J. C., Calif., and one year at Michigan State Normal. He and his father are co-partners in the used car business here. After a trip to the Land-of-the-Lakes region in Northern Wisconsin, they will reside in Tecumseh.

FUND BOARD MEETING

The board of directors of the Tecumseh Community Fund will meet in the offices of the United Savings Bank on Monday evening, July 21, at 8 o'clock. The meeting was postponted from July 14, because of the conflict with the annual meeting of School District No. 7.

The Secret Of Sleep . . .

. . . is likely no secret at all. It does not rest with hypnotics, barbiturates, or opiates. They are for use only under a physicians care, so do not request them of your pharmacist without a prescription. Healthful sleep is induced by lessening of the sensory impulses—quiet in a darkened room. Peace of mind—putting work and worry behind—also helps. Do not try to substitute artificial means of inducing sleep.

Now! Your only chance this year as an individual . . .
(with your family, if married)
to get Blue Cross-Blue Shield protection against hospital and surgical bills without enrolling through a group!

The chances are now 1 in 3 that you or a member of your family will face hospital bills this year! You don't have to risk your savings! You can get Michigan's most widely-used hospital and surgical protection sponsored by Michigan hospitals and doctors, if you act NOW!

BLUE CROSS BLUE SHIELD IDENTIFICATION CARD

Your ticket to worry-free recovery! Your Blue Cross - Blue Shield card is all you need when admitted to any one of the over 190 Blue Cross participating hospitals in Michigan.

WHERE WOULD the money come from, if an accident or sickness put you, or a member of your family in the hospital?

The time to *do something* about protection against hospital bills is NOW . . . while your family has its health. It's too *late*, after an accident or illness strikes. And strike it will, to put someone from *one out of every three* Michigan families in the hospital this year.

Over 2½ million in Michigan enjoy Blue Cross - Blue Shield protection!

There *is* a proved and practical way to protect yourself and your family against unexpected hospital bills.

Some years ago, Michigan hospitals and doctors started the famous Blue Cross - Blue Shield Plans. Today these plans provide protection for over 2½ million people in Michigan. They have provided benefits worth over 222 million dollars in the last thirteen years.

FOR LIMITED TIME ONLY . . . enrollment opened to everyone in Michigan under age 65!

Most members joined Blue Cross - Blue Shield through group enrollment. However, to approach its goal of protection for everyone in Michigan, Blue Cross - Blue Shield provides this *special non-group enrollment opportunity*. Now, anyone under age 65 can enroll themselves and their families without belonging to a group.

Why non-group enrollment is for a limited time only!

If non-group enrollment was kept open indefinitely, many people would put off joining until they had to go to the hospital. That would increase the cost of Blue Cross - Blue Shield to everyone. Mass enrollment over a limited time, however, "spreads the risk," keeps cost low. That's why you must inquire before July 12th . . . during this special campaign. No physical examination, no health statement is necessary. You don't even have to be employed to get Blue Cross - Blue Shield protection now!

The cost of Blue Cross - Blue Shield protection is low for the benefits provided!

Blue Cross - Blue Shield rates vary somewhat according to the type of protection you select. For a *single person* costs go as low as 10 cents a day. Protection for husband and wife can be yours for as little as 27¢ a day. To enroll your whole family costs only a few pennies more.

Send no money!

Just fill out and mail the coupon below. This puts you under no obligation nor will it make you a member.

We will send you literature and an application blank. *No one will call on you.* Fill in the application form and return it to us—only then will we mail you Blue Cross - Blue Shield certificates and identification cards.

LOOK at the priceless protection you get from these SPECIAL NON-GROUP Blue Cross-Blue Shield Plans!

- 30 full days of hospital care for each enrolled family member. Another 30 days available when you have been out of the hospital for at least 6 months.
- Surgical plan pays your doctor liberal stated amounts for surgical operations.
- Unlimited use of operating room, anesthesia (when administered by hospital employee), laboratory, drugs and dressings, physical therapy, oxygen, basal metabolism examinations and other listed hospital services for 30 full days of care when performed at any of the more than 190 Michigan Blue Cross participating hospitals.
- Only 6 months waiting period for chronic and pre-existing conditions and for removal of children's tonsils and adenoids.
- No waiting period for acute conditions requiring hospital or surgical care.
- Limited maternity benefits included after only 9 months' membership.
- Diagnostic X-ray up to $15 per hospital admission according to "Schedule of Benefits."
- Anesthesia by a doctor of medicine according to "Schedule of Benefits."
- Up to $8 or up to $10 a day hospital room and board allowances when admitted to a Michigan Blue Cross participating hospital.
- Surgical plan pays licensed doctors of medicine anywhere in the world according to "Schedule of Benefits."
- Enrolled persons may keep their protection after age 65, with no reduction in benefits. Your membership will not be cancelled by us for health reasons.
- Special benefits to provide hospital care anywhere in the world.

10,000 See Fireworks

45-MINUTE LONG DISPLAY BY CHAMBER OF COMMERCE BRINGS BIG CROWD

A crowd, estimated at 10,000, witnessed the display of fireworks here Friday evening that brought to a close Tecumseh's Fourth of July celebration. The display was set off by a licensed pryotechnician from Recreation Center, starting promptly at 10 p.m. It lasted for about 45 minutes.

While hundreds of persons jammed into Recreation Center for seats for the display, thousands of others remained in or near their cars, which were parked on side streets and nearby roads within a two mile radius.

"Cars moved bumper-to-bumper for more than 30 minutes after the display ended," Chief Geo. Kilbourn of the local police department said. "Despite the heavy traffic, not a single accident was reported, and I would like to take this opportunity to express the department's appreciation for the careful driving. Also, I would like to say thank you to the auxiliary police who assisted in directing traffic. They did an excellent job."

Disposal Plant Work Progresses

PROJECT IS ABOUT ON SCHEDULE, BUT IT MAY NOT BE COMPLETELY DONE BY FALL

Construction of Tecumseh's new $280,000 sewage disposal plant is progressing normally, and the project may be completed this fall, if weather conditions permit, it was said at the village offices today. However, weather could delay completion until spring, it was said.

At the present time the concrete for the digester tanks at the plant are being poured, and other work there is being pushed rapidly. As of now, it was pointed out, the project is about on schedule.

The interceptor sewers leading to the mains to the plant are nearly finished, it was said. Another three weeks and all of the sewer work will be done.

Tecumseh was ordered more than a year ago to build the disposal plant and to discontinue the dumping of sewage into the River Raisin. The order was issued by the Michigan Stream Control Commission. Subsequently, voters here approved a $280,000 bond issue for the plant's construction.

Has Photos of Flying Saucers

LOCAL SCIENTIST INTERESTED IN FORMING GROUP TO STUDY SKY OBJECTS

Geo. H. Adamson, local scientist and inventor, is in receipt of two photographs from a friend in California, showing the now much-discussed flying saucers, spinning across the sky in the west. The pictures were taken at Mt. Palomar, Calif., with the aid of a 6-inch telescope lense, on March 5 and December 1, 1951. Both are copyrighted.

Mr. Adamson is interested in forming a group in Tecumseh to study the saucers. He has made an intensive study of the sky mystery, and is of the opinion that the saucers come from another planet. He also believes that they are guided, and that it may be possible to communicate with their occupants.

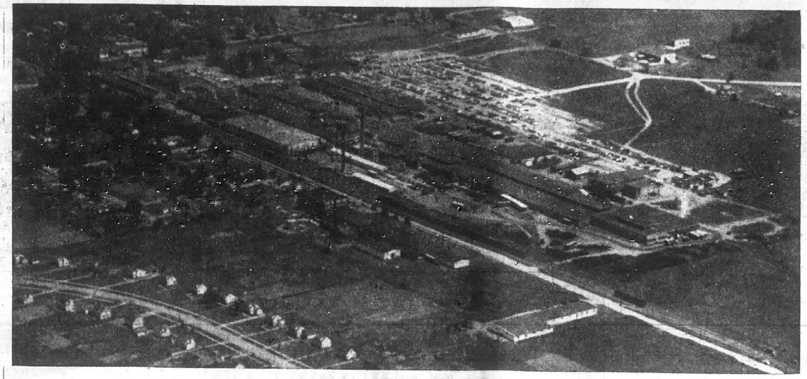
On two occasions, saucers have been sighted by Tecumseh folk.

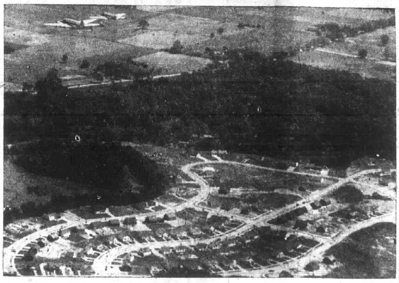
"I will be very happy to show the pictures I have to interested folk," Mr. Adamson said. "I also would be happy to meet with anyone or any group that is interested in studying the mystery. Certainly it can be solved, and it is possible to solve it right here in Tecumseh."

JAMES A. SHAROW OF CHARLEVOIX DIES

James A. Sharow, 69 years old, of Charlevoix, died suddenly July 2, at the home of his son, William Sharow, two miles west of Tecumseh, where he had been visiting for a few days. Mr. Sharow was born December 4, 1882 in Charlevoix.

He is survived by his widow, Effie, and sons and daughters. The body was taken to the Collins Funeral Home and Thursday to the See Funeral Home in Charlevoix where funeral services were held Saturday afternoon at 2 o'clock. Burial was in Brookside cemetery at Charlevoix.





If you've wondered what Tecumseh looks like from the sky, these photographs are your answer. The upper photo was taken over the southeastern part of the village and shows the plants of the Tecumseh Products Co., Bruce Foundry & Manufacturing Co., Quaker Oats Co., and Ottawa Machine Products. In the lower lefthand corner can be seen some of the houses in the Quaker Oats subdivision. The bottom picture is of Herrick Park, newest subdivision in Tecumseh. Perhaps, if you look close, you'll find your own home. The pictures were taken by Kenneth Connair of Herrick Park.

Tecumseh Water Demand Is High

RATIONING MAY BECOME NECESSARY UNLESS DRY SEASON COMES TO END

Unless the dry season ends within a few days, Tecumseh may be forced to ration its water supply, Clyde Eckler, village engineer, said today.

At the present time, Tecumseh is using about 3,000,000 gallons of water every 24 hours for domestic and industrial purposes. That is a sharp upturn in the demand and, the engineer believes, most if it is due to the fact that this area has had less than an inch of rainfall since the first of June.

Tcumseh's four wells are holding out well, considering the 3-million-gallons-a-day drain, Eckler said, but he also pointed out that the "head" on all of the wells is getting lower.

"If people will just use good judgment, and not allow sprinklers to run all night long or unnecessarily, we may avoid rationing of any kind here," the engineer said. "However, it all depends upon how long the dry spell lasts and how well our wells hold out."

Manchester Man Dies In Accident

A 52-year-old Manchester man, Elmer Walsh, died Sunday in Herrick Memorial Hospital here, the result of injuries suffered at 1 p.m., Friday. His skull was fractured, his collar bone was broken, and he suffered bruises and cuts when the car in which he was a passenger overturned on the Chelsea-Manchester road, a mile north of Manchester. Shade Creech, 33, the driver, also of Manchester, said that he was blinded by the lights of an approaching car, and that his automobile ran off the highway.

Mr. Walsh is survived by his mother, Mrs. Mabel Walsh of Mt. Pleasant, and two brothers, Clifford of Manchester and Clarence of Utica.

Funeral services were held Wednesday morning from the Jenter Funeral Home in Manchester with burial in Mt. Pleasant.

Eugene W. Pilbeam, 76, Dies After Long Illness

Eugene W. Pilbeam, age 76 years, died at his home, 403 West Pottawatamie street, Monday afternoon at 1:30. He had been in failing health for the last two years and since March was confined to his bed. Mr. Pilbeam spent his entire lifetime in Lenawee county, moving from Adrian to Tecumseh seventeen years ago. He was born February 25, 1876 in Lenawee county. Mr. Pilbeam was a carpenter by trade. His parents were James and Nancy Butler Pilbeam.

Survivors are his wife, Mary Elizabeth Taylor Pilbeam, one nephew, Kenneth Easlick of Ann Arbor and one niece, Mrs. Andrew Cappelle of Cleveland, Ohio. He was preceded in death by his parents.

Funeral services will be held this afternoon, (Thursday), at the Green Funeral Home at 2 o'clock. The Rev. Alvin Brazee of Manchester will officiate. Burial will be in Oakwood cemetery, Adrian.

CARS COLLIDE

Automobiles driven by James W. Preston and Lillian E. Fielder, both of Tecumseh, collided at 9:35 a.m., Monday at Shawnee street and Maiden Lane, according to police. Damage was slight and no one was hurt.

No News As Yet On M-50 Project

WIDENING, RESURFACING OF HIGHWAY EXPECTED TO START SOON, HOWEVER

At the office of Clyde Eckler, village engineer, is was said today that the village had not yet been advised when work would be started on the rebuilding of M-50-52 through Tecumseh, although it is expected that it will begin within a few days.

It is understood that the 8-mile long job, between Billington's Corners and Ridgeway, will be done in two, possibly three projects. One crew will work west of Tecumseh, another east of Tecumseh, and finally within the village itself. It is the hope of the department to complete the work in the late fall.

Inside the village, the contract calls for the elimination of all but four feet of the center boulevard

Frank E. Snedecor, 87, Well Known Barber, Dies

Frank Edward Snedecor, age 87 years, died at 2:30 a.m., July 4, at Parrett Nursing Home where he had been a patient since last October. He was born August 1, 1865 in Marshall, a son of the late Edward and Mariam Peebles Snedecor. Mr. Snedecor had been in failing health for six months. He was a barber in Tecumseh for 60 years, a member of the Tecumseh Presbyterian church, and a life member of the Tecumseh lodge, F. & A. M.

Survivors are one son, Kenneth of Hartsdale, New York, and four grandchildren, Julius Snedecor of Hartsdale, James of Cleveland, Ohio, Mrs. Jane Anderson of LaJolla, Calif., Frank Edward Snedecor of Los Angeles, Calif., and seven great-grandchildren. He was preceded in death by his wife, Mamie, and two children, Harry Snedecor and Mrs. Luella Young.

Funeral services were held Monday afternoon at 2 o'clock at the Green Funeral Home with the Rev. George E. Walworth, pastor of the Presbyterian church, officiating. Burial was in Brookside cemetery. The bearers, all Masons, were, Frederick Dickinson, Ray Schlegel, Howard Wilson, sr., Howard Wilson, Jr., Charles Jones and Archie Porter. Masonic services were held at the grave.

Friends and relatives attended from Hartsdale, N. Y., Cleveland, Jackson and Dundee.

Funeral Services Held For Edward Miller, 81

Edward Miller, age 81 years, died July 4 at the home of Mrs. George Rubadou, where he had been rooming since returning from Florida. He was born June 6, 1871 in Macon and was the son of the late Henry and Sarah Ganung Miller. Mr. Miller was a graduate of Clinton high school and Ypsilanti Normal and taught school for two years when he was appointed to the railway mail service in October 1901. He retired after serving the government for 32 years.

Mr. Miller was a member of the Macon Methodist church and in the fall of 1946 was made a life member of the Clinton Masonic Lodge. On September 19, 1895 he married Nettie Crittenden who preceded him in death, May 26, 1946.

Survivors are two sons, Howard of Flint, and Russell of California; one daughter, Mrs. Esther Briggs of Detroit, six grandchildren and three great-grandchildren. Also, several nieces and nephews survive.

Funeral services were held Monday afternoon at the Collins Funeral Home at 2:30, with the Rev. Vaughn Whited officiating. Burial was in Macon cemetery. The Clinton lodge was in charge of Masonic services at the grave.

Clarence S. Graham, 78, Is Buried at Ridgeway

Clarence S. Graham, age 78 years, died at 11 p.m., Friday, at his farm home a mile north of Britton after an extended illness. Mr. Graham had been a farmer all his life and came to Michigan from Ohio in 1901, farming near Tecumseh. He moved to Britton in 1940.

Survivors are three sons, Clarence, jr., at home, Floyd of Adrian and Clifford of Monroe; a step-son, Herbert Carter of Perrysburg, Ohio; two daughters, Mrs. Ocey Kern of Walbridge, Ohio, and Mrs. Edna Ostrand of Detroit; six grandchildren and two great-grandchildren; a brother and two sisters. He was preceded in death by his wife, Ida, a daughter, two brothers and a sister.

Funeral services were held Monday afternoon at 2 o'clock at the Niblack Funeral Home in Britton. Burial was in Ridgeway cemetery, with Rev. E. H. DuBois officiating. The bearers were Clarence, Floyd and Clifford Graham, Raymond Ostrand, Walter Kerns and Herbert Carter.

16-Year-Old Gets Probation

A 16-year-old Tecumseh youth who was detained here by police last week on a reckless driving charge, appeared before Judge Bernard Williamson in the probate court and was placed on 90-days probation. Police charged that the lad drove recklessly in the residential district, and gave them a merry chase before he was halted.

Judge Williamson ruled that the boy's driving license be suspended during the 90-day period; that he attend church at least once every Sunday during the probationary period, and that he be in his home by dark each day, unless accompanied by his parents. He also must report regularly to Chief of Police Geo. Kilbourn. In the event of a violation of the order, the judge ruled that a new sentence would be handed down.

Diane Jeanne Handy

Mr. and Mrs. Clare Handy, Comfort Road, have been notified that the picture above of their daughter, Diane Jeanne, five years old, will appear [illegible] issue of a Hollywood model magazine, because of the child's resemblance to the former child movie star, Shirley Temple. Bailey Shoe Repair Shop Is Featured By Magazine

The Master Shoe Rebuilder, a magazine circulated in the shoe rebuilding industry, devoted two full pages and four pictures in its current issue telling about the modern shoe repair shop operated at 112 S. Pearl street by Norman C. Bailey.

Mr. Bailey, who first opened his own shop here in 1935, and who has 25 years of experience in the repair business, served three years in the Quartermaster Corps of the Army, where he taught other soldiers how to repair shoes. In 1946, following his discharge, he returned, built his new building, equipped it with modern machinery and, according to the magazine, his one-man operated shop, with modern management methods, does as much business as the average two-man shop.

Mr. Bailey not only specializes in shoe repairing, but he does complete shoe rebuilding and restyling, including the tinting and coloring of shoes, etc.

With Mrs. Bailey and their son, he lives in a modern apartment above his shop.

Local Dealer Will Show New Tractors on Saturday

Two new heavy-duty John Deere 2- and 3-plow tractors, successors to the Models "A" and "B", will be announced Saturday, July 19, by Hoyt E. Whelan Co.

According to Fay E. Whelan, head of the Tecumseh farm implement firm, these new tractors feature a host of engineering advancements and major improvements which make them the greatest values ever offered by his firm. Mr. Whelan states that he expects to have one of the new models on display Saturday, July 19, and he extends a cordial welcome to everyone to stop in and see the new tractor.

Details of the new tractor are not yet released, but assurance has been given that it will be the first completely new post-war tractor, with new performance, handling and economy.

Registration Boosted 500

ESTIMATE 2,800 TO 2,900 ELIGIBLE TO CAST BALLOTS HERE, AUGUST 5

Folk who doubt that there is a keen interest in the forthcoming primary election, Tuesday, August 5, should look at the record.

In Tecumseh township, according to an estimate made today by LeRoy Titley, supervisor, there is approximately 500 newly registered voters. The township will have a voting strength of 2,800 to 2,900 this year, compared to about 2,400 a year ago.

Mr. Titley said that his office and the office of H. H. Hanna, township clerk, had not yet had time to canvass the new registration completely but he said that a conservative estimate would be 500. Registraton for the August primary ended last Monday.

There were two reasons for the heavy registration, it was pointed out. One was the desire to vote in the primary, the other the desire to vote in the forthcoming school election, July 11.

Voters in Tecumseh township will cast their balolts on automatic voting machines in the pri-

Teamster Strike Felt By Krogers

The Kroger supermarket in Tecumseh is feeling the effects of the strike of the AFL Teamsters Union in Toledo, which has cut off all merchandise supplies since Tuesday of last week. The Tecumseh store is operating on a "skelton basis," a spokesman said today, and the end of the strike is not in sight.

All Kroger stores in the Toledo area, which serves points as far distant as Jackson and Hillsdale, are affected by the walkout. About 150 members of the union who work at two Kroger warehouses in Toledo, went on strike last week Tuesday. On Wednesday of last week the company donated about $50,000 worth of perishable foods to charitable institutions in Toledo.

The unionists reportedly are asking a 47-cent an hour increase. Negotiating sessions were scheduled to begin this week in Toledo.

Mercury Skids Thirty Degrees

Temperatures in Tecumseh tumbled thirty degrees at 2 o'clock Tuesday afternoon, the result of a wind, rain and electrical storm. At 1:45, Tuesday, thermometers registered a 90-degree temperature. Fifteen minutes later, 60-degree readings were reported.

The storm arrived on a cyclone-like gale from the southwest. Heavy rain fell for about 20 minutes and there were one or two severe flashes of lightning. One blot hit a transformer near the Clauda Plumbing Shop, Monroe Road, and electrical service in that area was temporarily interrupted.

Consumers Power Co. reported about a dozen "no light" calls following the storm, and Michigan Associated Telephone Co. also said it suffered slight damage to lines.

In almost every direction from Tecumseh the wind did more damage than it did here. Trees were reported down in some locations, and a few highways were blocked.

School Polls Open, July 14

BOARD MEMBER TO BE NAMED, TWO ISSUES PRESENTED: ANNUAL MEET FOLLOWS

School electors in District No. 7, including the Village of Tecumseh, will go to the polls next Monday, July 14, to cast their ballots on three issues and, at 8 o'clock in the new high school, they will attend the annual meeting of the district. Polls in the election will be open from 7 a.m., to 8 p.m. Voting will take place at the high school.

The three issues to be decided by voters are:

One new member of the board of education will be chosen. The term of Dr. Ralph Helzerman, secretary of the board, expires with the approaching election. Dr. Helzerman is the only candidate to qualify by filing his nominating petitions and, as a result, only his name will appear on the ballot.

The second issue involves the transportation of children to school by bus who live more than a mile from the school buildings.

The third issue provides for the transportation of children to school by private vehicle, if they live more than a mile from school and are not served by the school bus.

It was pointed out that since District No. 5 has combined with District No. 7, many of the children attending school here from

237 Ships Here For Dawn Patrol

SUNDAY FLYING MEET DECLARED COMPLETE SUCCESS BY EXCHANGE CLUB

The Exchange Club-sponsored Dawn Patrol meeting, held Sunday at Tecumseh Airport, was a complete success, Forest Abner, in charge of public relations, and Geo. McCombs, general chairman, said today. A total of 237 planes were registered, the largest one being from Marion, O. This was a two-motored ship, carried a crew of two and five passengers.

The first of the ships began to arrive about 6 a.m., and by 9 o'clock all 237 were parked on the field. Pilots, guests and many townsfolk, out to witness the affair, enjoyed breakfast of bacon, eggs and coffee, served by the Club. More than 500 breakfasts were served.

"A year ago, when the club sponsored the Dawn Patrol here,

Cut Your Speed And Live Longer

TECUMSEH POLICE CHIEF WARNS AGAINST "STEPPING ON THE GAS"

Motorists should think about the effects of excessive speed before—not after—they step on the gas, Chief Geo. Kilbourn of the Tecumseh Police Department said in discussing the state-wide campaign on speed control sponsored by the State Safety Commission.

"Many drivers," Chief Kilbourn stated, "fail to realize just how destructive fast driving is.

"For instance, a car that strikes a solid object at 60 miles an hour hits with the same impact as if it were driven off the top of a ten-story building.

"No one would think of driving off the top of a building, but many actually risk doing the equivalent of that when they get out on the highway and tear loose.

"A look at a wrecked car will show the destructive power of speed. But smashed fenders, ripped tops, bent frames and shattered glass represent only the mechanical damage. The big loss is the toll of persons injured or killed.

"Attempts to save a few minutes of time are not worth the risk involved and certainly not the tragedy that often results.

"Speed control will prevent accidents and save lives. Drive safely and live longer."

WANT TO PLAY?

Coach Elvan Duvall, director of Summer Recreation program here, has announced that all boys under 19 years of age who are interested in playing with the Tecumseh team in the Hearst-Times Baseball tourament at Adrian, are to report for practice on Thursday afternoon, July 17, at 5:30 at Recreation Field. Mr. Duvall will be in charge of the team. The tournament opens at Adrian the week of July 21.

Tecumseh Could Lead The Way

According to registration figures from the office of the Township Clerk, interest in the forthcoming primary election on August 5 is keen. Tecumseh township, it appears, has the largest registration of voters in its history, and scores of the new registrations came within the past two weeks. Monday, July 7, of course, was the last day for registration for the August primary.

With between 60 and 70 per cent of its voting strength registered, Tecumseh could lead all of Lenawee county next month in its march to the polls. It should, for instance, vote at least 95 per cent of its registered voting strength. Think of what that would mean . . . a real feather in Tecumseh's cap.

In the past few years, particularly the past 12 years, voters have stayed away from the polls. They have done so deliberately. It wasn't because they forgot to vote, it was because they didn't have the desire to do it. They wanted George to do their voting and then, after the election, if it didn't go to suit them, they sat around and crabbed.

In 1948, when Harry S. Truman was elected president of the United States, less than 50 per cent of the voters of the nation cast their ballots. That meant just one thing—that Mr. Truman was president of the United States not because a majority of the people voted for him, but because a minority elected him.

Such a condition is shameful and we, here in Tecumseh, have little to brag about. Come a Village election or a County election and what happens. In Village elections we are lucky if we get 100 people to the polls. The same thing holds true in school elections.

We'd like to see Tecumseh lead the way in voting in the primary election. We'd like to have it said, county and state-wide, that here is a town that is on its toes, a town where voters appreciate the right to vote, and who show their appreciation by going to the polls and registering their choice for public office.

We don't care who you vote for, what ticket your man is on . . . but VOTE. Voting is a privilege, but it is not God-given. It is a right our forefathers won for us on the field of battle. And it is a right that we can lose if we don't defend it.

Let's put Tecumseh on the map, come August 5, by going to the polls.

Why Not a "No Work" Week?

The Mansfield, Ohio, News-Journal, recently published an editorial that appealed to us. The Mansfield newspaper developed an idea that we have been thinking about for some time. Here is what the editorial writer said:

"The thought occurs that possibly a specially designated "no work" week—or month—might be fitted into the general scheme of things and made applicable to all employed persons—however essential their activities might appear to be.

"Strikes accomplish this for some workers—to the detriment of others—and in order that there be no partiality it would appear reasonable that some specific time be designated for a general shutdown—with temporary suspension, of course, of all professional services as well as those associated with business, transportation, communication, entertainment and the like . . .

"If it is within the power of organized minorities to leave their jobs, on order of their leaders—as is being done so frequently of late—why shouldn't a period be designated for everybody to take a week or month off at the same time, so that there would be no need for picketing or violance—just an entire nation at leisure—AND WITH TIME TO THINK!

"THINK, for instance, of—all of a sudden—finding yourself and family without water, gas and electricity in your home . . . and without water, gas and electricity in your these require work by some people—and remember, there's to be no one at work.

"Patients in hospitals would receive no attention from nurses or physicians, and, in the event of deaths there could be no burials during the 'no work period . . .

"No mail deliveries, no newspapers—none of the so-called conveniences, or even 'essentials' to which people have become accustomed — just a stoppage of everything at the same time.

"FANTASTIC? Yes, perhaps, but no more so than some of the things this country has been undergoing—and possibly giving a hint at urgent need for correction of quite obvious weak spots in the operation of government under present auspices."

Think it over. Maybe the Mansfield News-Journal has something.

Mercury on View In Western Sky

WILL REACH ITS GREATEST DISTANCE FROM THE SUN ON JULY 15TH

Chances for a good look at Mercury and the Milky Way are about all the stargazers can expect from the July skies, according to Hazel M. Losh, assistant professor of astronomy at the University of Michigan.

Mercury, which remains hidden in the glare of the sun most of the time, should be detected with comparative ease by the middle of the month, since it will reach its greatest angular distance from the sun on July 15.

For about an hour after sunset around that time, Mercury will be visible a few degrees above the horizon at almost the exact west point. It will be just to the right of the bright star, Regulus.

Another planet, Mars, will continue to be the bright object in the southern sky each night until it sets at about midnight. But Mars will have competition for interest from the Milky Way—that giant pathway of stars that stretches from north to south across the eastern sky. Actually this cloudy mass is made up of myriads of stars so close together that it requires field glasses or a small telescope to separate them, Professor Losh reports.

The Milky Way's path across the skies offers assistance in detecting some of the most conspicuous star groups. At the northern end are Cassiopeia and Cepheus. In the Northern Cross of Cygnus, the Milky Way divides into two branches.

The lower left branch goes through Aquila, The Eagle, to Sagittarius, The Archer. The upper, or right branch, reaches down to the bright constellation Scorpius.

The Northern Cross is easy to identify, the astronomer points out. It rises sideways in the sky with its long bar extending across the Milky Way. Deneb, a bright star, marks the upper end or top of the cross.

Sagittarius, at the end to the left branch of the Milky Way, also can be likened to a giant tea pot.

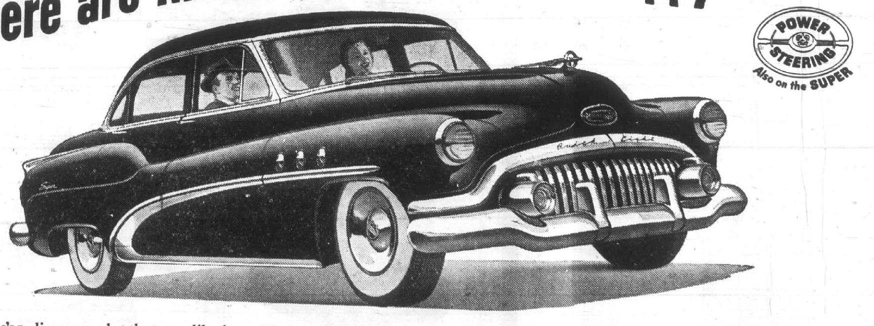
There are Miles that Make You Happy



YOU'LL discover a lot that you like in this neat, fleet and nimble traveler the first mile you drive it.

Such things as cushions broad and deep — six-passenger room unsurpassed by any car in America — fabrics rich, soft, harmonious.

As you take it through traffic—breast a hill or two—try it out on back roads—you'll find that you handle Dynaflow Drive* as if you had always used it—your ride is serenely level—and a great tide of power comes surging up as you need it.

This, you will say, is very Super indeed.

But no one-time sample can tell you the deep-down enduring thrill that is yours when you own this great middle series Buick.

How easy it is to park in round-town driving, especially if you have Power Steering.†

How relaxed you and the family will feel at the end of a long day's vacation jaunt—with Dynaflow Drive to let you drive at ease on the open road, without the tenseness of clutch-pushing in traffic—plus a Million Dollar Ride to protect the comfort of the family.

That ride is something to talk about. More than a dozen selected engineering features control roll and wander on curves—snub dip and sway before they get past the frame—carry you over all kinds of roads with lullaby smoothness.

And that Fireball 8 Engine—man, what a docile thunderbolt you'll find it to be! Here's a high-compression valve-in-head that really wrings miles from a gallon of gas.

In other words, all the miles you travel in this Buick are going to make you gladder and gladder that you bought it—for comfort, for fun, for thrill and for thrift.

What are you waiting for? Come in and get your sample today.

*Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Now available on Super as well as Roadmaster—optional at extra cost.*

Tecumseh's Fourth observance got under way at 2 o'clock in the afternoon with a ballgame at Recreation between the Monroe Sport Shop nine and the Tecumseh Locals. It was a nip-and-tuck contest all the way, the score ending 8 to 7.

At 5 p.m., from Elliott Park, additional hundreds watched W. L. Henderson of Slyvania, Ohio, make a balloon ascension and parachute drop, which brought him down near the parking lot of the Tecumseh Products Co. It was the only balloon ascension scheduled for southern Michigan on the Fourth.

"I feel that everyone enjoyed Tecumseh's observance of the holiday, and the Chamber has received many compliments on the fireworks display," Robert H. Moore, president of the organization, said today. "The large evening crowd was evidence of the keen interest in such an affair, and I know personally that many folk came to see it from as far away as Detroit."

The display cost $1,000. It was purchased from an Illinois manufacturer and a licensed pryotechnician was sent to Tecumseh to set off the pieces, including ground and aerial displays.

Although rain had been forecast for the Fourth, the weatherman's prediction proved to be wrong and skies were clear all day and evening. Temperatures throughout the afternoon and evening remained in the high 80's, or early 90's.

Hundreds of local folk, enjoying a long week-end holiday, sought recreation at nearby lakes, while others ventured into northern Michigan in search of relief from the heat. The largest crowd ever to assemble there was reported at Walter J. Hayes State Park at Wamplers Lake on the Fourth, and similar reports came from Devils and Round Lakes. Friday evening traffic on all trunk lines was bumper-to-bumper as pleasure seekers started for their homes.

School Polls

(Continued from page 1)

the enlarged district live well over a mile from school. Last year, District 5 bussed its children to school here on a tuition basis, and operated its own bus. This year, the operation of the bus becomes the problem of District 7. Only one bus is owned by the district.

Because the district does not desire to purchase a second bus, it is entirely probable that some children in the area will not be served by the bus because of a limited time element. In such cases, it will be necessary to transport the youngsters by some other method. This, the law provides, may be by private vehicle, for which the operator is entitled to a fee.

In both instances—where children are transported by bus or private conveyance—the state allows a fee for such expense. James McDowell, superintendent, said that in Tecumseh's instance the state allowance is sufficient to care for the cost of transportation, without direct expense to the district.

Any registered voted may cast his ballot for the election of a director, but only property owners may vote on the other issues, because they involve the expenditure of public funds.

At the annual meeting that will follow the election, reports of the secretary and treasurer will be read, the budget for the new school program for the year [illegible] submitted by the superintendent.

Jokers and F.F.A.'s Win In Softball Game

The second round of play of the Recreation Softball League, Monday evening, proved victorious for the Jokers over Dick's Standard Service and the FFA over V.F.W. Explorers. The Jokers are now tied for the league lead by defeating Dick's Service. Dependable pitching by Dave Murphy was primarily responsible for the victory. A cluster of seven Joker runs in the fifth inning put the game on ice. Dave Murphy was the winning pitcher and George Pontius the losing. The final score was 12 to 6.

The second game between F.F.A. and Explorers was close, with the F.F.A. winning by a score of 16 to 14. Bruce Baker, pitcher, won a thrilling game for his team by hitting a home run with two men on base in the last half of the seventh inning. Fred Feight, supplied other highlights by making two spectacular catches behind the plate for his team. The V. F. W. boys played a greatly improved game until overpowered in the seventh inning.

Games Monday night, July 14, will be the Jokers vs F.F.A. at 7 p.m., and V.F.W. vs Dick's Service at 8:30.

Tax Experts May Quiz Cow at Meadowridge

The Collector of Internal Revenue may be paying a call on a certain Jersey cow in Michigan when he hears she grossed well over $1,000 last year.

The milk produced last year by Brampton Jester Lila, an 11-year-old Jersey cow owned by Meadowridge Jerseys, Inc., Tecumseh, Mich., brought $1,086.70 on a nearby market. After feed and milk hauling costs had been deducted, "Lila" cleared $821.97 for her owner.

The figures were recently computed by The American Jersey Cattle Club, Columbus, Ohio, and were based on her official Register of Merit record of 17,222 pounds milk containing 1,004 pounds butterfat, and cost figures furnished by the cow's owner. The milk was sold through The Tecumseh Dairy.

Brampton Jester Lila was on pasture during six months of her record and was fed corn silage and alfalfa and ladino clover hay during the winter months. She was milked three times a day and received an averge of 12 pounds of grin feed each day.

Brampton Jester Lila is the Michigan Butterfat Champion in her age class of the Jersey breed's Register of Merit system of production testing. She has also been given the top type classification rating of Excellent. But ratings and profit earnings don't affect Lila. She is a contented Jersey as long as she can be a mother and have plenty to eat.

DAUGHTER TO WED

10 REASONS WHY I BELONG TO MY

Chamber of Commerce

1. Because I realize that every man owes a debt to his community that cannot be paid in taxes — a debt of personal service.
2. Because I want to play my part in the organized development of my community and to carry my share of the public burden.
3. Because the Chamber of Commerce is business insurance—an institution that can accomplish great good for my city at a time when action means more than ever before.
4. Because the Chamber of Commerce holds up an ideal of civic development and commercial advancement that tends to the encouragement of what is helpful and the elimination of what is harmful.
5. Because active participation in community affairs is both a personal privilege and a civic responsibility.
6. Because as a member of the Chamber of Commerce, I am afforded an opportunity to actually work for conditions I have long hoped for.
7. Because my business tells me that whatever is best for this town and my neighbors is too valuable an asset for me to pass up.
8. Because through the Chamber of Commerce the individual citizen can best discharge his obligations to the town in which he lives and makes a living.
9. Because the Chamber of Commerce is the gauge of the city enterprise, prosperity, and ambitions, and reflects the combined wishes of the community.
10. Because the Chamber of Commerce is equipped to express the business sentiment of the community on both local and national affairs, and I want to make my voice and influence felt in determining the policies of our times.

Miss Margaret Barrett Bride of Donald Maschino

The Britton Methodist church was the scene of a lovely summer wedding, Saturday evening, July 5, when Miss Margaret E. Barrett, daughter of Mr. and Mrs. Fenton L. Barrett became the bride of Donald F. Maschino, son of Mr. and Mrs. Ernest Maschino, all of Britton. Dr. F. B. Clifford of Adrian, former pastor of the church, performed the double ring ceremony before an altar decorated with baskets of gladioli in pastel shades.

Miss Sally Prielipp played nuptial music before the ceremony and accompanied Miss Karen Maschino and Mrs. Ronald Maschino, sister and sister-in-law of the groom, as they sang, "Always", and "Because."

The bride, given in marriage by her father, wore a ballerina length gown of tulle over satin. The fitted bodice was styled with a yoke of illusion with long sleeves ending in points over her hands. The finger-tip veil of illusion with Chantilly lace trim, was caught to a head-piece trimmed with seed pearls and rhinestones. She carried red Happiness roses on a white satin Bible, a gift of the groom. Janet Appleton of Brighton was maid of honor, and wore a lavender nylon net gown. The bridesmaids were Wilma Jean Reau and Joan Downing. They wore identical gowns of aqua and yellow nylon net. Janice Maschino, junior bridesmaid, wore a pink nylon net gown, and the little flower girls, Cheryl Natterstad and Diane Jackson wore white nylon ruffled dresses. The flowers for the maid of honor were golden Rapture roses and yellow carnations, the bridesmaids', carnations to match their gowns, all fashioned in colonial bouquets and tied with varigated ribbons.

Edward Cammett of Saline was best man for Mr. Maschino. The ushers were Charles Barrett and Ronald Maschino, brothers of the bride and groom, James Jones and Clarence Natterstad.

Both mothers wore navy blue sheer dresses with white accessories and red rose corsages.

A reception was held for 300 guests immediately following the ceremony in the church parlors. A three-tiered wedding cake was made and served by Mrs. Duane Jackson, sister of the bridegroom. She was assisted in serving by Mrs. Clarence Natterstad. The ladies and girls of the church also assisted in serving. Mrs. Wilton Staulter was in charge of the guest book.

The bride is a graduate of Britton high school with the class of 1952 and is employed at Herrick Memorial hospital. The groom attended Britton high school and is employed at the Tecumseh Products Company. The new Mr. and Mrs. Maschino are at the home of the bride's parents for the present.

WED IN MUSKEGON

Folk Over 50 To Enjoy Wamplers Picnic, July 17

All men and women over fifty years of age are invited to a picnic at Wamplers Lake on Thursday, July 17. Each one is asked to bring his own table service, a dish to pass, and twenty-five cents for the hamburgers which will be cooked over an open fire.

The group will meet at the Tecumseh Methodist church at eleven o'clock. Transportation will be provided, and those who will have room for others in their cars are asked to report to either Miss Anne Carson or Mrs. T. Rentschler. In case of inclement weather, the meeting will be held in the Tecumseh Methodist church.

Old fashioned bathing clothes would be appreciated for an exhibit.

Those who do not have housekeeping facilities may pay toward the general expenses of the picnic.

in the street, and the cutting back of the curb lines about 10 inches on each side, on West Chicago boulevard. On East Chicago, it is probable that curb lines will not be affected. Also, the boulevard strip in the block between Ottawa and Oneida street will be completely eliminated, to permit parking of cars. This block is rapidly becoming a commercial area.

The state has not yet announced a detour that will be used while the project is under way. It did, however, today announce a detour for a grading project on M-50 in Lenawee and Monroe counties, between Britton and Dundee. Through traffic will use US-112 and US-223 between Dundee in Monroe county and Cambridge Junction in Lenawee county. The detour route is 27 miles longer than the regular one.

In Tecumseh, the rebuilding and widening program of M-50 also calls for the installation of a new bridge over the River Raisin at the old Hayden Mill. On M-52 a new bridge over Evans Creek is now being installed at a cost of $93,000.

"OPERATION BREAKUP" AFTERMATH . . . Pictures and reports from seething Koje Island continue to come through following "Operation Breakup" during which allied troops entered riot-torn compounds to split up the die-hard Red prisoners of war into smaller enclosures. Photo shows Americans giving medical attention to some of the Reds wounded in the prison riots. Many prisoners were slain by fanatical fellow prisoners of war when they tried to surrender to the allied authorities and cease their rioting. Allied troops uncovered eight bodies from a well inside an unruly compound. Reds defied allied troops with crude homemade spears.

we had a few more ships than we did this year," Mr. Abner said, "but we held it before the Fourth. This year, because of the lateness of the meeting, our crowd was reduced a little."

Several prizes were awarded to visiting flyers by the club, including a box of chocolates to the first woman pilot to arrive, and several engraved lighters to others. Ribbons worn by club members were made and furnished by the Clinton Woolen Mills.

Industrial displays at the field were furnished by the Tecumseh Products Co., Meyers Aircraft Co., Quaker Oats Co., the Clinton Woolen Mills and the Clinton Products Co. The Products company also presented visitors with a souvenir copy of the plant's houseorgan, The TP Broadcast, which carried a story of Tecumseh's history, and about the use of planes in local industry.

BAPTISTS TO CONSIDER BUILDING PLANS, SUNDAY

A congregational meeting of members of the Baptist church here, following the regular Sunday morning service, will be held for the purpose of considering plans for a $50,000 addition to the present structure, the Rev. B. O. Bashore, pastor, said today.

Tentative plans call for the immediate launching of the drive to raise funds for the new construction work, the Rev. Mr. Bashore said. He pointed out that the need for the expansion program is urgent. The rapid growth of the church's Sunday school classes, as well as attendance at regular church services is forcing the additions, he said.

McCOMBS NAMED TO RECREATION BOARD

Geo. McCombs, member of the village council, was named to the board of trustees of the Tecumseh Recreation Center, when council met in regular session, Monday evening. His term is for two years.

Miss Eris Baily Is Bride of Duaine M. Murphy

An informal wedding was held July 4 at 4 p.m., in the Baptist church parlors, uniting in marriage Miss Eris Baily, daughter of Mr. and Mrs. C. O. Baily of 504 Outer Dr., and Duaine M. Murphy, of Camp Breckenridge, Ky., son of Mr. and Mrs. Merrill Murphy. The Rev. B. O. Bashore performed the double ring ceremony. The church parlors were decorated with baskets of garden flowers.

The bride, given in marriage by her father, wore a street length dress of white nylon and a corsage and headpiece of red roses. Miss Jolene Barron, her attendant, chose a street length dress of white shantung and a corsage and headpiece of yellow roses.

A background of organ music was played by Mrs. Kenton Hunt, during the ceremony. Jimmy Murphy attended his brother as best man.

Mrs. Baily chose for her daughter's wedding a green pamarama mesh dress and Mrs. Murphy wore navy sheer. Both mothers wore corsages of white roses. The groom's grandmother wore a green print sheer dress and a pink rose corsage.

A reception was held in the parlors immediately following the ceremony for 40 guests. Pvt. and Mrs. Murphy left immediately for Camp Breckenridge, Ky., where he is stationed.

Mrs. Murphy was a graduate of Tecumseh high school in 1951 and since then has been employed at Tecumseh Products Company. Mr. Murphy is a graduate of Tecumseh high school in 1949 and before entering service in April of this year, was employed at the Tecumseh Products.

Mrs. Harold Meades, assisted by the Misses Jolene Barron and Mary Lou Zimmerman who entertained at a miscellaneous shower in the Meades home in Tecumseh Acres last week honoring Mrs. Murphy. Games were played and prizes were won by Mrs. Dorothy Jean Gorr and Mrs. Joan Sisson.

COMMUNICATION

I read in the paper one day last week that near Adrian two young men were caught and fined for bringing in firecrackers from Ohio, but what about the ones who brought them in and used them here in Tecumseh after they were warned in the Tecumseh Herald by our Tecumseh police. It seems as though some people are never as happy as when they can do something to break a law. Why have a law on fireworks at all? There are as many used now as when they were lawful. I think it is a shame when someone is minding his own business to have cars go by and throw fireworks in one's front yard, as occurred to us. Such people are smarties and have no respect for anyone, and no love for the town in which they live. They sure had enough firecrackers in Tecumseh to keep them busy and to keep citizens awake until about 2:30 a.m., on July 5. I know that a lot of good, law abiding citizens will agree with me.

Mrs. Bert Creger.

Good Quality Paints Save Time and Money

"Use high quality paints — they'll save you time and money," says A. J. Bell, extension agricultural engineers at Michigan State College.

The specialist reports "you can buy good quality paint by checking the label. Most reliable paint manufacturers print the percentage of pigment and liquids that make up the paint."

In quality paints, the oil content is at least 80 per cent. Good oil is either linseed, or linseed and other vegetable oils, such as soybean oil. The rest of the vehicle may be made up of thinners and dryers, but better paints contain less than 10 per cent of these materials, Bell says.

An opaque pigment is mixed in high quality oils. In poorer quality paints the pigment becomes almost transparent. These transparent pigments are called "fillers", and are used to reduce costs. The more filler the cheaper the paint and the shorter its life.

Durable white pigments are zinc oxide, white lead and titanium. Iron oxide is a red pigment that is durable, inexpensive and practical. Barns have been painted with iron oxide for many years.

"Quite often the prospective buyer can get first-hand information from neighbors who have had good results," Bell points out.

Peeling too often is blamed on the paint, when it should be blamed on moisture. Painting before the siding is dry, before the plaster has dried, too soon after a rainy spell or any other source of moisture, will cause the paint to peel.

Bell suggests painting during fair weather. Do not paint during muggy weather, when insects are bad or when the dust is blowing badly.

VACATION BIBLE SCHOOL TO END ON FRIDAY

Friday will close the three-week Vacation Bible School at Grace Lutheran church. The children will enjoy a picnic Friday on the church lawn.

Holy communion will be celebrated at the church Sunday morning at the regular service only, which is 10:30 a.m. There will be an early service at 8:30 as usual, but no communion. Sunday, July 27, has been set as the date for the annual Sunday School picnic.

CHURCH SUPPER

The Happy Home Builders Class of the Baptist church are sponsoring another barbecue supper, Saturday, July 12 from 5 o'clock until all are served. This is the second in a series of suppers to raise money for the class toward the building fund. Mr. and Mrs. George Green, jr., and Mr. and Mrs. William Butler are the committee in charge.

Man is the only animal I know of that can be skinned more than once.

From where I sit... *by* Joe Marsh

How Nervy Can a "Tenant" Get?

"Harry the Hermit" dropped in to see Judge Cunningham the other day and started complaining about that dilapidated house he lives in over near Greenwood Lake.

"Who's my landlord?" Harry wanted to know. "Whoever you pay rent to," says the Judge. "Don't pay any rent," says Harry. "Moved into that house twelve years ago and nobody ever came to collect."

"Well," says the Judge, looking mystified, "what do *you* have to complain about?" "Plenty," replies Harry. "Rain's pouring in my living room and if someone doesn't fix that roof, I'm moving out!"

Now Harry was only having a little joke, but from where I sit I've seen people act just about as nervy as this sometimes—*seriously.* Like those who enjoy all the rights Americans have worked for, and yet would take away some of those freedoms from others—for example, our right to enjoy a friendly glass of beer. I say these "leaks of intolerance" have no place in the "home of liberty."

State Traffic Deaths on Gain

140 KILLED DURING MAY, HIGHEST NUMBER SINCE YEAR 1941

Traffic accidents on Michigan streets and highways during May resulted in 140 deaths, the highest May fatality roll since 1941 when 193 were killed, according to the State Police monthly statistical report.

Compared with the same month last year, deaths increased 21, or 18 per cent, over 119. On the other hand, both injuries and accidents decreased. There were 4,111 injuries, a drop of 173, or four per cent, under 4,284. Accidents totaled 12,694, a drop of 2,641, or 17 per cent, under 15,335.

All of the fatality increase occurred on rural trunkline highways and was attributed in part to the fact that two or more persons were killed in each of 45 accidents. Two of these accidents accounted for five deaths each. Pedestrian deaths were down sharply throughout the state.

The traffic toll for the first five months of 1952 totals 562 deaths and 17,600 injuries in 64,942 accidents. Deaths were down 11, or two per cent, under 573 for the same period in 1951. Injuries decreased 95, or one per cent, under 17,695, and accidents decreased 6,038, or nine per cent, under 70,980.

Travel on Michigan highways for April, the latest month for which figures are available, was 2.15 billion miles. This was an increase of 14 per cent over the 1.9 billion miles traveled in April of last year. Mileage for the first four months of this year was up four per cent over the same period in 1951, or 7.3 billion as compared to 7 billion. The death rate per 100 million miles of travel, however, dropped 11 per cent, 5.74 under 6.47.

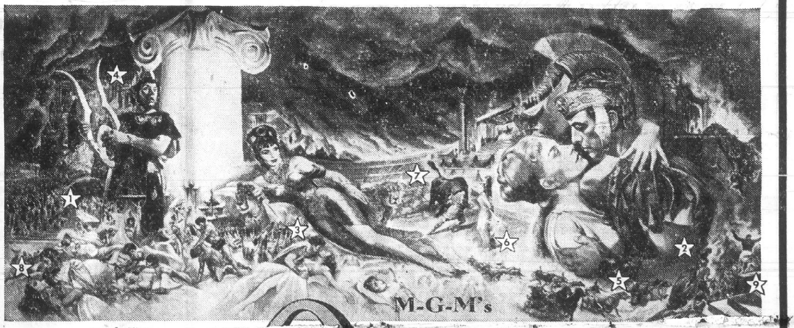
M-G-M presents one of the greatest motion pictures in entertainment history... three triumphant hours of unforgettable thrills!



1. [illegible] of the Roman legions with their shackled captives, to the acclaim of hundreds of thousands.
2. The fateful romance of the Roman commander Marcus (Robert Taylor) and the beautiful hostage Lygia (Deborah Kerr).
3. The half-crazed Emperor and his wicked Empress entertain hundreds at their palace with an all-night feast and orgy.
4. The city of Rome burned to the ground while the tyrant Nero (Peter Ustinov) watching, sings and plays his lyre.
5. Marcus races in his chariot to rescue Lygia from the flames; their seizure and imprisonment.
6. The mighty giant Ursus (Buddy Baer) wrestles in the arena with a maddened bull, to save Lygia, tied to a stake.
7. Hundreds of captive Christians driven into the Circus Maximus, to be torn apart by ravenous lions.
8. The beautiful slave girl dies with the master she loves (Leo Genn).
9. Marcus rouses the masses to fury against Nero; the attack on the palace; the death of Nero and the Empress.

No, It Is Not Same Old Fourth

VOLUNTEER FIREMEN ONCE PLAYED BIG ROLE IN NATIONAL CELEBRATION

The Fourth of July was celebrated Friday throughout Michigan, but fire departments didn't play the same role they once fulfilled at all such celebrations.

Reports in Michigan newspapers of the 1850's on file in the Michigan Historical Collectors at the University of Michigan show that the activities of the volunteer fire departments were the major part of the event in those days.

Smartly drilled fire companies took part in the big parade and later exhibited their skill in handling ladders, laying hose and similar fire fighting efforts. And the fire hall was frequently the center of the big dinner that was a traditional part of Fourth of July.

If there were any visiting fire companies, and usually there were competition between towns would develop. Most of the competition, however, was reserved for the Firemen's Tournament — held somewhere in the state on each Fourth of July.

In 1857, the tournament was held in Kalamazoo and Alert No. 1 of Albion won first prize—a silver trumpet. The following year, Albion was host to the tournament and Protection No. 1 of Jackson triumphed by throwing a stream of water 200 feet, 7 inches. Protection No. 1 of Battle Creek won first place on quantity by pumping 41½ barrels in three minutes.

But everybody wasn't satisfied with the judges' decisoins at Albion that year. The Adrian Daily Watchtower of July 6, 1858, contained a letter signed "L" that strongly intimates Protection No. 1 of Adrian deserved a better fate.

"Barefaced dishonesty" is what Mr. L believes took place at Albion, and he was equally convinced there was premeditation that no Button machine, such as the pumper used by Adrian, should carry off a prize.

The newspapers of the 1850's all contain mention of another aspect of the Fourth of July which is largely absent today—the arrival of throngs of persons by train.

The Hillsdale Standard of July 7, 1857, reports that, "At nine o'clock in the morning (of the Fourth), trains from east and west came in loaded with citizens from Sturgis, Coldwater, Quincy, Jonesville, Hudson and other places."

The firemen's tournaments drew crowds from a wide area. The editor of the Marshall Statesmen, in reporting about the 1858 celebration, tells of taking the 5 a.m. train to Albion and finding himself "in company with the Kalamazoo and Battle Creek fire departments besides a host of citizens." Then at 9 a.m., he reports the arrival of a train from Detroit with 13 passenger cars and several freight cars jammed full of riders.

At Saginaw there were trains too, but Bay City firemen (at least in 1859 and 1862) came down the river by boat, according to accounts in the Saginaw Enterprise.

Heavy Vote Seen Aug. 5th

TECUMSEH TOWNSHIP LIKELY TO CAST LARGEST VOTE IN HISTORY IN PRIMARY

If Tecumseh township votes as it registered for the August 5 primary election, it will cast the largest vote in the township's history, an interested political observer declared today.

Normally, a vote of 1,000 or less in a primary is considered "as usual" here. Prior to 1952, a normal registration in the township was about 2,200 or less. Previous balloting, then, meant that about one-half or less of the registered voters went to the polls.

This year, however, it seems to be different, according to township officials. Everybody—or almost everybody—in the township, who was 21 years of age or older seemed to have an interest in voting in the forthcoming election, and expressed the desire prior to July 7, which was the last day to register.

Registration figures at the office of H. H. Hanna, township clerk, show that Tecumseh's registered voting strength for the primary election next month is between 2,800 and 2,900, the largest in history.

"And the peculiar part about it," one official remarked today, " is that about 500 of the eligible voters registered in the month preceding July 7. There seemed to be a keen interest in politics

Tecumseh Enters Junior Baseball

LOCAL TEAM WILL PLAY AT ADRIAN AND PERHAPS IN STATE TOURNEY

Tecumseh has entered a junior baseball team, with Coach Elvan Duvall in charge, in the Hearst Nation Junior Baseball District Tournament in Adrian the week of July 21. Eight teams, including Tecumseh, Morenci, Blissfield, Clinton, Adrian, Monroe, Coldwater and Hillsdale have entered.

Games will be played at Riverside Park and The Island, in Adrian, and are scheduled to begin at 5:30 with seven innings of play. Tecumseh plays Morenci, Monday evening, at Riverside Park, while Blissfield plays Clinton at The Island. The winners of the two games will play at the Island, Wednesday, July 23. Tuesday evening, Adrian and Monroe will play at Riverside and Coldwater and Hillsdale at The Island. The winner of these two games will play Thursday evening, July 24, at The Island. The winner of the Wednesday and Thursday night games will play Friday at Riverside for the championship.

The outstanding features of the tournament will be that the championship team will go to Ann Arbor for state play on Saturday, August 2, and receive 15 gold baseball charms. All Star—15 players from losing teams will [illegible] Arbor Saturday, August 2. The outstanding boy at the Adrian tournament, regardless of winning or losing, will win a trip to Buffalo for game preliminaries on the Buffalo team. Also, all boys playing at Ann Arbor have a chance to be selected on the State All Star team at Briggs Stadium, August 9. Some members of this squad will be chosen to go to New York for the national tournament, August 20. The final winning team will get a $100 trophey for permanent possession.

Harry Wagner is manager of the Adrian tournament. He said that Perry Deakin and the Detriot Tigers are really making this opportunity possible for the Lenawee boys.

The tentative lineup for the Tecumseh team will be John Sisson, 1st. base; James Breitenwischer, 2nd. base; Jack Betzoldt, catcher; Dave Murphy, pitcher; William Benham, ss; Fred Long, 3rd. base; Dave VanWinkle, center field; Lynn Hunt, left field, and Jack Greenwald, right field. Other players will be R. Kruger, Gale Fisher, A. Hart and Ray Covell.

BURIED IN ADRIAN

Funeral services for Eugene W. Pilbeam were held Thursday afternoon at 2 o'clock at the Green Funeral Home with the Rev. Alvin Brazee of Manchester officiating. The bearers were Henry Hamilton and Duaine Service of Tecumseh, Lynn Harriott, William McElroy, George Price and Charles Brown, all of Britton. Burial was in Oakwood cemetery, Adrian. Friends and relatives attended from Britton, Ridgeway, Ann Arbor, Mt. Clemens, Cleveland Ohio, and Tecumseh.

State Police Officer Back Home From Japan

Captain Harold F. Mulbar, of the Michigan State Police, has returned to East Lansing headquarters after spending a two-year leave of absence in Japan as police and public safety administrator for the allied occupation forces.

It was Mulbar's third visit to that country. In 1946 he and former State Police Commissioner Oscar G. Olander went to Japan for 90 days to make a survey of the police system for the occupation forces. At the U. S. government's request, he returned there in 1948 as a police administrator, remaining about two years. In 1950 the government asked him to go back, this time as chief police administrator.

Later Dunbar was promoted to chief of the public safety division, which made him responsible for the Japanese coast guard, all fire departments, the prisons and the national civil police of 125,000 members.

Mulbar's mission was completed with the signing of the Japanese peace treaty and the return of civil authority to that government.

Prior to his departure the Japanese government awarded Mulbar their highest civilian decoration in appreciation of his services. He also received a citation from Brig. General Enius, assistant chief of staff at general headquarters.

Play Days End For Girl Scouts

PARENTS AND GIRLS ENJOY COOK-OUT FRIDAY EVENING, ENDING CEREMONIES

Girl Scout Play Days ended Friday evening, July 11, with a picnic supper featuring a stew made over an open fire, supervised by Mrs. Clifford Cameron, assisted by the following intermediate Girl Scouts: Carol Sue Rutherford, Phyllis Lepon, a registered Scout from Los Angeles, Calif., Joyce Anne Partridge, Mary Joe Tressler, Flora Nixon and Rita Crosby. These same Scouts, with Lois Kiser, also assisted as patrol leaders for the morning activities of shopping, fire building, cooking, etc., for the week.

On Tuesday, Mrs. Owen Partridge was supervisor of the day and was assisted by Mrs. Arthur Bowser, who instructed the girls in fire building. In the afternoon, Miss Janet Bowser assisted also in the organization of arts and crafts for the week. On Wednesday, Mrs. Wallace Rutherford was supervisor of the day, assisted by Mrs. Partridge and Mrs. Lyle Grigg. A breakfast cook-out of bacon, eggs and French toast was the main feature.

On Thursday, Mrs. Gerald Griffin, supervised and was assisted by Mrs. Victor Peterson, Mrs. Harry Crosby, Mrs. Doris VanValkenburg and Mrs. Harry Schuch. A hot-dog roast at noon and a hike to and through the Quaker Oats plant, where each Brownie Scout was presented a package of macaroni, made that day was of much interest to everyone.

On Friday, Mrs. Julius Vincze, supervised the day's activities and was assited by Mrs. Peterson, Mrs. John Hartley, and Mrs. Wellington Wotring. After a hamburger cook-out, the Tecumseh Greenhouse, southeast of town was the destination of the Brownie hikers in the afternoon.

Mrs. Clifford Cameron supervised the Intermediate Scouts each afternoon from 1 until 4 p.m., when the girls enjoyed butterfly collecting and the mounting of their catch. Phyllis Lepon of Los Angeles, Calif., a registered scout, and Bonnie Bleau of Nitro, West Virginia, registered Brownie Scout, were guests for

Three Offices Are Ransacked

TWO ELECTRIC FANS AND $5 IN CASH STOLEN IN LOCAL ROBBERIES

Police are investigating three office robberies and one attempted robbery, in which two electric fans and about $5 in cash were stolen.

Last Wednesday night, thieves entered the offices of Dr. Richard Limes in the Masonic Temple building. About $5 in cash was taken. The same evening the offices of the State Highway Department in the Wright building were entered and an electric fan was stolen. An attempt also was made to gain entrance to the office of Dr. John R. Robert Henson Dies; Funeral This Afternoon

Robert Henson, aged 71 years, died suddenly at his home, 25 Mill street, Sunday afternoon at 1:30, the result of a heart attack. Mr. Henson had lived in Tecumseh the last three years. He was born November 22, 1880, in Mitchell county, North Carolina, a son of the late James Clingman and Martha Sheppard Henson. Mr. Henson spent his adult lifetime in Lenawee county moving here from Blissfield. He married Stella Raymond in 1908 and she died in 1916. In 1922 he married Mamie Bowman who survives.

Survivors besides his wife are eleven daughters, Mrs. E. C. McUmber of Owosso, Mrs. Lawrence Johnson of Adrian, Mrs. Melvin Wegner and Mrs. Mahlon Bishop of Tecumseh, Mrs. Edwin Marine of Holloway, Mrs. James Loar of Toledo, Mrs. Wayne Dunbar of Adrian, and the Misses Arlene, Frances, Margaret and Betty Lou at home; six sons, Richard of Ypsilanti, Dallas of Fort Worth, Texas, James of Toledo, Robert Junior and Norman of the United States Air Force, Tacoma, Wash., and Charles at home; thirteen grandchildren and four great-grandchildren; two brothers, Joseph of Adrian and E. C. Henson of Jonesville; one sister, Mrs. Arbell Street of Johnson City, Tenn. He was preceded in death by his parents, one brother and five infant children.

Funeral services will be held Thursday afternoon at 2 o'clock at the Green Funeral Home with the Rev. Vance V. Miller of Adrian, officiating. Burial will be in Hunt cemetery, south of Adrian.

BRITTON YOUTH WINS 4-H CLUB SCHOLARSHIP

William L. Bortel of Britton, has been granted one of the fifth Michigan State College 4-H Club scholarships, it was announced this week at East Lansing.

The scholarships, granted by the State Board of Agriculture, governing body of Michigan State College, are for full tuition for a full four year course providing the students maintain good scholarship.

To be considered for the honor, high school graduates must have been in the upper third of their graduating class in scholarship and accomplished outstanding records in the 4-H Club program. This program is sponsored through the county extension offices and the state 4-H Club department at Michigan State College.

Dr. Robert Murray Opens New Dental Office Here

Dr. Robert J. Murray, dentist, of Elmyra, New York, opened his office today in the new building owned by Dr. R. C. Dustin, 103 West Brown street. Dr. Murray attended Fordham University in New York City, Holy Cross College at Worcester, Mass., and graduated in 1949 from the University of Michigan School of Dentistry. He served three years in the Navy, the last two years in Hawaii. Mrs. Ruth Vincent is the receptionist and assistant in his office.

Dr. Murray is married and has two sons, Robert and Mark. His family plans to move here as soon as living quarters are available.

M-50 Widening Now Under Way

REBUILDING OF PAVEMENT FROM BILLINGTON'S TO BRITTON IS STARTED

The widening and rebuilding of M-50, from Billington's Corners east to Britton is now under way.

The Knapp Construction Co., of Monroe, holders of the contract, have begun operations in the vicinity of Britton and Ridgeway and will work west along the route, it was said at the offices of the State Highway Department. The new pavement in the village of Britton will be 44 feet in width, and outside the village and through Ridgeway and west it will be 22 feet in width. Some trees are now being removed in the Ridgeway-Britton area to make way for the new construction.

Whether another crew will start work on the road west of Tecumseh at Billington's Corners and move eastward and meet the crew working from the east in Tecumseh seemed problematical today. However, it seemed likely that such a program would be worked out and that finally both crews would be working in Tecumseh at the same time, in an effort to speed up the building and widening inside the corporation here.

The work to be done inside the Tecumseh corporation is a major project. The center boulevard in both East and West Chicago Boulevard will be reduced from 14 feet to four feet, and curb lines on both sides will be set back, on West Chicago, nine or 10 inches. Also, it was said that the center boulevard strip in the street between Ottawa and Oneida streets would be removed. This area is rapidly becoming commercial.

At the east limit of Tecumseh, at the Universal Button Company's plant, a new bridge will be built over the River Raisin. This is necessary because the curve in the road there will be straightened.

How long it will take to complete the project depends largely upon weather conditions. However, it is hoped that the entire job can be finished by late October.

Standings Still Close In Softball League

The Recreation Softball League standings are still close with the FFA team forfeiting to the Jokers, Monday evening. Harvest time also made it necessary for the Farmers to forfeit a game because of a lack of players.

Dick's Standard Service team defeated the V.F.W. Explorers Monday by a score of 21 to 2. The Jokers and Dick's are still tied for first place. Errors still seem to plague the Explorers, but they finally settled down in the fourth. Jim Dick led the Service team with four hits out of five times at bat. Chattfield provided a line drive home run in the sixth inning. George Pontius was the winning pitcher and Bruce Packard the losing pitcher.

Vote Machines In Use Aug. 5

ONE MACHINE NOW ON DISPLAY IN BUTLER MOTOR SALES SHOWROOMS

For the first time in more than 40 years, voting machines will be used in an election in Tecumseh on August 5.

Six modern, automatic voting machines have been rented by the township, and they will be used for the first time in next month's primary election, according to LeRoy H. Titley, township supervisor.

"We do not anticipate any difficulty in the use of the machines, they are so very simple to operate," Mr. Titley said today. "Voters will find it far easier to cast their ballots by machine than they did in handling the bedsheet size ballots that are used in today's elections."

One of the machines is now on display in the showrooms of Butler Motor Sales, Ford garage building. Anyone who is interested in seeing how the machine works is welcome to visit the showroom and to observe its operation. Someone will be present to explain the machine's use, it was said.

Voting machines were used in Tecumseh more than 40 years ago, when they first made their appearance in Michigan, it was remembered. At that time they were complicated and clumsy to operate and they were soon discarded.

"The modern machine today is fully automatic and is very simple to operate," Titley said. "As I see it, it is easier and quicker to vote by machine than it is to use the old-fashioned ballot. I don't believe that any of our voters will find the machine's use difficult, and I know that they will like to use it, once they have voted."

Titley said that an inspector would be present at each machine to aid any voter in casting his or her ballot.

Voting machines are coming into general use. Adrian now uses them as does Ypsilanti. Clinton recently purchased two machines and Ridgeway is considering such a purchase.

In Tecumseh, the machines are being tried out on a rental basis. If they prove satisfactory, the rental price will be applied against the purchase price.

It was pointed out that the operation of the machine is less expensive than the old way of voting by paper ballot. Fewer people are needed to operate an election and counting boards are eliminated. The total of a machine's vote may be determined in minutes after the polls have closed.

Lopshire Slaps At World Gov't.

SAYS KOREAN "POLICE JOB" RESULT OF STATE DEPARTMENT BLUNDERING

Col. Arthur Lopshire, Republican candidate for Congress from the Second District of Michigan, and one-time military governor of a sector in Korea, slapped hard at New Deal blundering when he spoke, off the cuff, at the dinner meeting of the Rotary Club, Tuesday evening, at the Country Club.

The Korean "police action," Col. Lopshire said, is the result of State Department blundering. He declared that the 38th parallel dividing line in Korea was one of the first mistakes to be made. He defended Gen. Douglas MacArthur and deplored his dismissal by the President.

Discussing proposed world government, Lopshire warned that it may lead to world socialism. He pointed out that under such a government we would have a world court, a world army, navy and air force, and that our own courts, government and all of its branches would be secondary to such a force. "And the U. S. would have only a six per cent voice in the operation of a world government," he warned, "but we would be furnishing the bulk of the money and manpower."

"America needs to awaken to the creeping socialistic tendency," he declared. "American voters should take a definite stand and so should their representatives in Congress. Fence-straddling senators and congressmen have no place in American government."

POLICE CHIEF NAMED AS DEPUTY SHERIFF

Chief of Police George Kilbourn, Tuesday was named a deputy sheriff from Tecumseh township, by Sheriff Wade Willett. Chief Kilbourn succeeds the late William Hanna, former Lenawee sheriff. Mr. Kilbourn has been chief of police here for several months. Prior to that time he served for four years as a police officer in Adrian.

School Plans To Spend $272,413

ANNUAL BUDGET APPROVED AT MEETING: DR. HELZERMAN RENAMED TO BOARD

A school budget in excess of a quarter of a million dollars was approved and Dr. Ralph Helzerman was reelected to the board of education for a three-year term when voters went to the polls and attended the annual meeting of School District No. 7 here, Monday. Voting throughout the day, at the high school, was light. Only 75 persons cast their ballots. The annual meeting was held in the evening.

Dr. Helzerman, unopposed for reelection, received 73 of the 75 votes cast. Two ballots were not marked.

Voters also decided on two propositions. First, they voted to operate and maintain a school bus to bring children to school who live more than a mile from the school house. On this issue, 63 favored the plan, six opposed it. The second issue, to pay private individuals for bringing children to school who live more than a mile from the school house, and who are not served by the bus, also carried. On this issue the vote was 52 in favor of the plan, 17 against it.

Until District No. 5 merged with District No. 7, the Tecumseh District, (No. 7), had not owned a school bus. However, the merger made it necessary for the Tecumseh district to operate the bus to accommodate the youngsters living in former District 5. The steady growth of the enlarged district, however, is expected to crowd the facilities of the single bus. For that reason, the board felt that it would be more economical to pay individuals to bring the children to school than it would be to put a second bus into operation.

James McDowell, superintendent of schools, explained prior to the election that the expense of operating the bus, and the cost of bringing children to school by private car, would be paid by the state, if costs are held to a minimum. In Tecumseh's instance, Mr. McDowell said, the state will pay all of the cost, and there will be no direct expense to the taxpayers.

Prior to the annual meeting the board of education met and re-elected officers. Jens Touborg is president, Paul J. Breitenwischer, vice president, Dr. Helzerman, secretary, and Dwight Hodges, treasurer. Aden Mead is the fifth member of the board.

The annual budget for the 1952-53 school year, as approved by the electors, anticipates an income of $272,413.01 and similar disbursements. As of July 1, the district had a cash balance of $523.55. General property taxes will return $53,820.40, $750 is expected from delinquent taxes, $4,000 from text book rentals and $20,844 from tuitions. The Veterans Institute will return $8,000. The balance of the cash needed to make up the total will come from the several state fund sources.

It will require the entire income to operate the school, the budget shows. Expenses listed are administration, instruction, general operation, maintenance, fixed charges, auxiliary services and capital outlay.

The treasurer's report, showing a complete audit of the books, was submitted, and Mr. McDowell's report as superintendent, also was approved.

GOP Policy Criticized

LOCAL ATTORNEY, YOUNG REPUBLICAN'S CLUB HEAD WOULD DEBATE ISSUES

James C. Beardsley, local attorney and head of the Young Republicans Club, in a communication to The Herald, is critical of the Republican party for its failure to take a definite stand on certain controversial issues. There is, he says, a general feeling in both parties that such a stand must be taken in a way that is calculated to produce the most votes, rather than on the side that is right.

Mr. Beardsley is critical of such matters as farm subsidies, union monopolies and lack of limitation on income tax. He offers to debate the issues with any New Deal Republican or New Deal Democrat.

Mr. Beardsley's letter to The Herald follows:

"I note with considerable alarm that the present political campaign between Democrats and Republicans is largely being shaped around personalities and prejudices, and with too little regard to principles. Although I am violently anti-New Deal, I can not help but criticize the Republican party for its failure to take a definite stand on certain controversial issues. The general feeling prevails in both parties appears to be that a stand must be taken on controversial matters in a way that is calculated to produce the most votes, rather than on the side that is right.

Improvements In Local Streets

Additional improvements in Tecumseh streets were announced today by Clyde Eckler, village engineer.

The rebuilding and resurfacing of Pearl street, between Chicago Boulevard and Logan, and Logan street, between Evans and Pearl, has been completed, he said, and the streets are open to traffic. The sanitary sewer in Maumee street, north, will be completed by July 25 and then that street will be open.

New curb and gutter North Union street, north of Brown street, will be finished in about two weeks and then that street will be rebuilt and resurfaced.

In the downtown area, the New York Central Railroad plans to raise its tracks three inches at the Chicago Boulevard crossing. This will be done in about a week or 10 days, and a detour will be necessary. The track raising is necessary, Mr. Eckler said, because, when the Boulevard is resurfaced, a 3-inch blacktop coating will be laid over the present pavement.

Edward L. Furgason, 75, To Be Buried, Friday

Edward Laverne Furgason, aged 75 years, of 212 So. Democrat street, died Monday evening, at 11:50 at Herrick Memorial Hospital where he had been a patient for three weeks. [illegible] born in Lenawee county, March 15, 1877, and had spent his entire lifetime in this community. Mr. Furgason was employed at Tecumseh Products Company until ill health forced him to leave two months ago. His parents were Willard and Adeline Wilson Furgason.

Survivors are his wife, Mary; one daughter, Helen at home; two sons, Leonard Furgason of Tipton, and Robert Irwin of Britton; 21 grandchildren and nine great-grandchildren. He was preceded in death by his first wife, Myrtle Dunn, in 1938, and two sons, Bernard, in 1945 and Maynard in infancy.

Mr. Furgason was a member of the Odd Fellows, Tecumseh Grange, Rebekahs and Knights of Pythias.

Funeral services will be held Friday afternoon at 2 o'clock, at the Green Funeral Home with the Rev. Alvin Brazee of Manchester, officiating. The Odd Fellows will be in charge of the services at the grave at Tipton cemetery.

TWO FIRE CALLS

The fire department responded to two alarms here, Sunday afternoon. The first call, at 4 o'clock, was to the home of Dr. M. R. Blanden at the east village limit, to extinguish a grass fire. There was no damage. At 4:15 a "still alarm" to the old ice house on the Red Pond was answered. Sawdust caught fire, but there was no loss.

Due to illness in the family, I will not be in the village office for collection of taxes until further notice. Payment will be accepted at my home, 219 S. Pearl street. Myrna Tingley, village treasurer. 7-17

When Will The Taxpayers Wake Up?

In a recent speech, Henry W. Jordan, chairman of the North Carolina State Highway and Public Works Commission, discussed the comprehensive road test made in Maryland over a long period of time. Twelve state highway departments, along with other interested groups, participated in the test, which conclusively proved that weight of the vehicle is the big factor in causing road damage—and that the damage tends to increase geometrically as the weight rises.

After discussing the technical findings in detail he observed that undue damage could be prevented—by building thicker, stronger, and more expensive highways. He then asked this question: "Are we justified in spending the extra money from highway user taxes, paid by ALL motor vehicle owners, to provide more expensive heavy duty designs for those relatively FEW motor vehicles—perhaps two or three per cent—which may require such heavy duty highways . . . ?"

This is the crux of the matter. Mr. Jordan pointed out that the railroads solved such a problem years ago by making their roadbeds stronger where it was profitable to do so. And the railroads, of course, did this with their own money. In the case of the highways, most of the necessary funds would have to be contributed by the general taxpayers and the people who drive private cars and smaller trucks. In most states, currently available funds are nowhere near big enough to build the kind of roads the huge trucks require. And the public at large can't be expected to stand indefinitely for the tremendous amount of road destruction that is now going on.

Right here in Tecumseh and in Lenawee county—in fact all over the southern industrial area of Michigan—we are seeing the destruction that trucks are doing to our highways. We blame it to faulty building, freezing and thawing weather, rains and snows, but in the final analysis the Maryland test showed that it is the heavily loaded truck that causes highways to crack up.

A few years ago, under the Groesbeck administration, Michigan inaugurated its first gasoline tax and built most of the good roads that the state now has and still boasts about. Today, with a higher gas tax, we are not even able to maintain the roads that have been built, to say nothing about extending them.

As we see it, it is past time to shift to the truckers the rightful share that they owe for the destruction of the highways. Maybe they will object a little to paying more taxes, but others of us, who are not truckers, are objecting to paying taxes that the truckers rightfully owe. There is no more reason why the taxpayers should buy, own and maintain rights-of-way for trucks than there is that they should do it for the railroads.

Sooner or later, as a result of the Maryland test, both the truckers and the taxpayers are going to find a solution that will be fair and just. But if the solution is not found soon, angered taxpayers may not be as agreeable later as they are now.

No Reason To Fear Voting Machines

Voters in Tecumseh township, come next August 5, will cast their ballots on voting machines. The Township has rented six machines, they will be used in the election and perhaps the November election and, if they are found to give satisfactory results, the Township may apply the rental cost on the purchase price and keep them permanently.

Already we have heard some folk say that they feared to cast their ballots on a voting machine. Most of such fears have been expressed by folk in the past-middle-age group who have always voted on paper ballots, and who dislike a change. They fear that they might make an error, or that somebody might think that it took them a little longer than it should to register their vote.

There is absolutely no reason why anybody should fear the use of a voting machine. The operation of the machine is simple, it is accurate, and it is much faster than the old-style paper ballot system. At the end of the election the vote can be counted in a matter of minutes. This saves the expense of counting boards that generally work far into the night to arrive at the totals.

In Tecumseh, the voting machines will be on display, in fact one of them is now on display in the showrooms of Butler Motor Sales. There is ample time for anyone who has any fear of using them to acquaint himself with their operation. But whether he does or not, there is no reason why he should fear going to the polls to vote. He will find the machine's operation to be simple and, after he has voted by machine once or twice, he would certainly hesitate before he would agree to go back to voting the old-fashioned way.

Inside The Capitol

By Lee M. Thurston
Supt. of Public Instruction

One month ago, your superintendent of public instruction became involved in a program dealing with getting out the vote, and better election procedures. It all came about because of the 1948 general election. Most people will recall there was a recount for the office of Governor. It showed that many people marked their ballots improperly and thereby lost their votes. It showed a lack of uniformity in counting procedures and errors of one type or another in such things as sealing ballot boxes, initialing the ballots, and the like. The suggestion for improving the situation came from Grover Dillman, President of the College of Mines at Houghton in the Upper Peninsula. He wrote a letter stating that the schools, the colleges, and every adult educational facility could be used to give Michigan efficient election machinery. The matter was later discussed with the college presidents of the State. They all agreed to help. Recently there have been meetings between city and county clerks and the state office of Elections. Out of these meetings came the request that your superintendent of public instruction serve as chairman of a state elections education advisory committee. The membership of this committee is made up of a representative of farm groups, the CIO, the AF of L, schools and colleges, newspaper, radio and television, and others.

The first meeting of this committee was held at Michigan State College, and revealed on startling fact. In the 1948 general election, Michigan stood twenty-ninth in the percentage of votes cast—a poor showing for a state that is first in so many things. This new state committee has set as the goal for Michigan a total of 2,500,000 ballots in '52. That is a 20 per cent increase over 1948. Every community in Michigan is asked to organize a Get-out-the-vote campaign.

Americans Are Eating Twice As Much Chicken

Americans are eating more than twice as much chicken as they did four years ago, said a poultry specialist for a national food chain.

Howard C. Pierce, director of poultry research for A & P Food Stores, cited the production of 791,000,000 commercially grown meat chickens in 1951, two and one-half times the country's 1948 production.

"I know of no other segment of the food industry that has more than doubled its production in a period of four years," he said in a talk at the Second Annual Michigan Broiler Day program at Michigan State College.

Despite some losses to growers in the early spring when the record supply of broilers tumbled prices, Pierce said, anticipated production this year will range up to a million more meat chickens than were grown in 1951.

"While the meat chicken industry has made outstanding advances, yet its market is not by any means saturated on a yearly basis," he said.

"Our population is increasing at the rate of two and one-half million people a year. These additional eaters alone, at the present rate of consumption, should provide markets for 37-1/2 million pounds of chicken. This would call for an increase in production of more than ten million chickens a year."

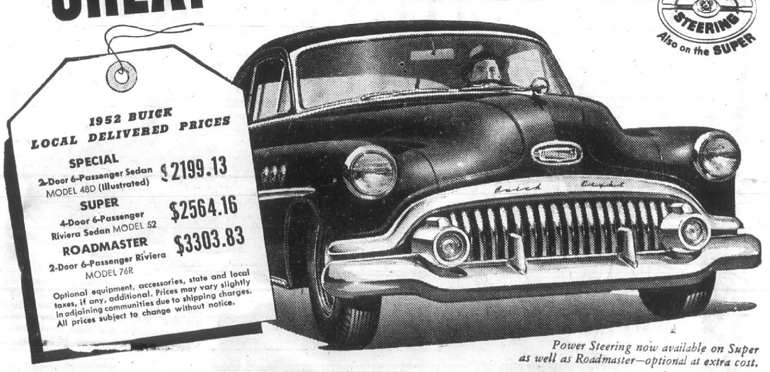
How's Business ?
GREAT – with prices like these



1952 BUICK LOCAL DELIVERED PRICES
SPECIAL 2-Door 6-Passenger Sedan MODEL 48D (Illustrated) $2199.13
SUPER 4-Door 6-Passenger Riviera Sedan MODEL 52 $2564.16
ROADMASTER 2-Door 6-Passenger Riviera MODEL 76R $3303.83
Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities due to shipping charges. All prices subject to change without notice.

Power Steering now available on Super as well as Roadmaster—optional at extra cost.

THIS is—to coin a phrase—a "shopper's market."

Folks are taking a keen look at what they get for what they pay—and they're taking a double look at price tags.

That's the kind of market where Buick really shines.

Do you know why?

Buick prices are down within easy reach of the folks who buy what's known as "the low-priced three."

Fact is—a big chunk of Buick sales comes from the folks who trade in one of this low-priced trio.

For very few extra dollars, they're getting a lot more automobile.

They're getting more power—and the thrill that goes with it.

They're getting "big-car" comfort. They're getting a ride that cost a million dollars and more to develop.

They like the room, the fabrics, the extra appointments they find in the smart-stepping beauty pictured here. And they like Dynaflow Drive.*

They like the way it handles. They like the way it's engineered. They like the belt they get out of touching off the power of its Fireball 8 Engine—and they like the miles they get from a gallon of fuel.

So Buick sales are booming, Not just the SPECIAL—but also the SUPER and ROADMASTER. Folks find that each one is the buy in its field.

When we tell you that business is great, we can back up that statement with figures. More people are buying Buicks than any other car at their price or above.

Why don't you come in and see for yourself what's behind this popularity?

If you can afford a new car, you can be the proud owner of a Buick.

Equipment, accessories, trim and models are subject to change without notice.
**Standard on Roadmaster, optional at extra cost on other Series.*

Cost of Living Near New High

JUNE RISE IN PRICES MAY BE AN ALL-TIME RECORD FOR THE U. S.

Washington—The government reported food prices went up three-tenths of 1 per cent in June. This means that the cost of living may have soared to its all-time high.

The Bureau of Labor Statistics (BLS) said a special food survey, taken in eight key cities on June 15 shows that grocery and meat prices are 14 per cent higher than they were just before the Korean war broke out more than two years ago.

And, since food represents about a third of the total spending of the average city family, the rise may have helped push the cost-of-living index up to or beyond the record set last winter.

The cost-of-living index stood at 189, on May 15, only one-tenth of a point below the record of 189.1 reached in December and January. The June 15 index of all consumer prices will not be ready for another three weeks, but it is expected to climb because rents—another big item—also are rising.

Increases in egg, fruit and vegetables prices as well as in meats and fish were mainly responsible for the food price rise between May 26 and June 15, the BLS said. Egg prices jumped the most—4.7 per cent.

The special survey was made in Atlanta, Boston, Chicago, Columbus, New York, Richmond, San Francisco and Washington.

Special surveys of food prices have been made for several months past because of their importance in the consumer price structure.

By surveying eight cities well distributed geographically, BLS figures it gets a picture of food trends at least three weeks earlier than if it were to wait for completion of reports from the larger group of cities surveyed for the regular consumer price index.

The food price index on June 15 stood at 231.6, using the 1935-39 average as 100.

The wholesale price level was unchanged for the week ended July 1, BLS reported. This indicated that a decline evidenced for some weeks is now leveling off.

The wholesale index for all commodities stood at 110.7, using the 1947-49 average as 100. This was the same as in the previous week and was down from 111.6 in May and 115 in January, 1951, when price control was imposed.

The bureau reported generally higher wholesale prices for livestock, textiles and fibers. Grains were down and natural rubber prices dropped sharply. Farm prices were up 2.1 per cent.

FORESTERS' MEETING SCHEDULLED AT U-M

ANN ARBOR—Land use trends and developments near large metropolitan areas will be the theme of the fall meeting of the Lower Michigan Chapter of the Society of American Foresters at the University of Michigan September 26-27. About 250 persons are expected.

The lecturer was a celebrated Doctor of Law, and his talk was to be on "Fools." The chairman who was something of a humorist, stood up to introduce him.

"Ladies and gentlemen," he said. "We are now to have a lecture on fools by one"—he paused, and there was loud laughter before he resumed — "of the wisest men in the country."

The lecturer then rose to speak. "Ladies and gentlemen," he said, "I am not half so big a fool as the chairman"—he paused, and again there was loud laughter—"would have you suppose."

JACK DAVIS, OLYMPIAN . . . University of Southern California's Jack Davis, who is a rare combination of a sprinter and hurdler, exhibits his starting form, off the blocks. Here he was getting in trim for the hurdles in the AAU meet at Long Beach. But he was ready for the sprints in the U.S. Olympic trials. When Jack isn't training, he and his girl friend relax at her piano and enjoy their Beethoven and Bach. He earns his board by driving a jeep towing a street roller.

There Are Ways To Stop Insects on Potatoes

This year potato growers should protect their potatoes from the ravages of disease and insects, according to E. J. Wheeler, Michigan State College farm crops authority.

Late blight so common last year again is a threat this coming summer and fall. Much of the seed planted this spring contained the blight organisms. The cool, moist soil this spring has been favorable for the development of late blight.

Wheeler says that insects are always present and this year is no exception. The first insects to cause damage to the plant are the tiny black flea beetles. They puncture small holes in the leaves. Next comes the leafhoppers and finally the aphids or plant lice make their appearance.

The control of insects and diseases is complete only when a spray containing both a fungicide and an insecticide is applied at intervals of a week, under most favorable weather conditions, to two-week intervals during unfavorable conditions.

The chemical materials used, if they are standard recommended products are no more important than the time of application. The plants should be completely covered with spray from the time they are from four to six inches tall until they reach maturity, Wheeler advises.

TROUBLE TROUBLE: In O'Neill, Nebr., after the weekly newspaper's only reporter came down with flu, the typesetter had 4 teeth extracted and had to go to bed, the pressman got pneumonia, the office manager also got sick, and the furnace blew up, the editor single-handedly got out an 8-page edition instead of the usual 12 pages, then got the final crushing blow when the village's chief of police was murdered—just a little too late for the news to make the paper.

DIPLOMA GRANTED

The board of education, in session here Monday evening, approved the issuance of a high school diploma to Garland Holmes, now in military service. Mr. Holmes completed the first semester of his senior year before he was called to service. He has since taken the G. E. D. test, and passed it.

GOP Policy

(Continued from page 1)

"I realize that many matters facing the American of today are relative matters and upon which there may be a legitimate diversity of opinion. On the other hand, certain issues are absolute and upon which there can be no difference in opinion. I refer to such matters as farm subsidies, union monopolies and lack of limitation on income tax. These are three of the main issues which I declare to be wrong and upon which most politicians fail to take a definite stand.

"If a voter has not yet resolved his mind on the above three matters, I submit that he is not qualified to vote. Those there issues are basic and absolute.

"I am willing to meet any adversary any time, anywhere, to debate any of the three above issues (as well as certain other ones). It is my opinion that union monopolies and farm subsidies are wrong and that a limitation on the personal income tax is right. If there be any New Deal Republican or New Deal Democrat in the vicinity who would care to accept the challenge, I should be happy to meet him and to make the necessary arrangements.

"As I am not running for any office, I can afford to say what I know to be the truth."

ANNUAL REUNION

The second annual Hebb-White reunion was held July 13, at the 4-H building on the Adrian fairgrounds. Wayne Hebb was in charge of the program and the following new officers were elected for the coming year: President, Arthur Brown; secretary, June Hebb; treasurer, Lavern Bitely; Howard Wilson and Wayne Hebb, committeemen; and Fred and Glenn White, Earl Hebb and Ruby Gallows, entertainment.

Those enjoying the potluck dinner at noon were Mrs. Sue White and Mr. and Mrs. Bob Schumacher of St. Clair Shores, Mr. and Mrs. Victor White, Mr. and Mrs. Glenn White and family, Mr. and Mrs. Keith White and family of Roseville, Mr. and Mrs. Fred White, Mr. and Mrs. Jack White and family of Utica, Mr. and Mrs. Clifford Nives and family and Mrs. George Hebb and family of Blissfield; Mr. and Mrs. Willis Butts and family of Petersburg, Mr. and Mrs. Wayne Puttman, Mrs. Marie Strowser and family, Mr. and Mrs. Ted Gallows and son, Mr. and Mrs. John Hebb, Mr. and Mrs. Arthur Brown and son, Mr. and Mrs. Earl Hebb and son, Mr. and Mrs. Howard Wilson and son, Mrs. Merle Autin and son, Rosie and Dianna Dermeyer of Adrian, Mr. and Mrs. Irving Brown and family of Sand Creek, Mr. and Mrs. Hal Bates and family of Palmyra, Mr. and Mrs. Lavern Bitely and family of Allen Park, Mr. and Mrs. Hugh Hebb and family of Hudson, Mr. and Mrs. Ira Hebb, Carol Hebb and Mr. and Mrs. Wayne Hebb and family of Tecumseh.

way office, but failed.

Friday, during the noon hour, entrance was gained to the office of Dr. Arthur Brown in the Sage building. An electric fan was stolen.

In all instances, Chief of Police Geo. Kilbourn said, entrance was gained by prying the locks open. A large screwdriver or wrecking bar probably was used.

The chief said that there was every indication that the work was done by the same thieves who about three weeks ago ransacked half a dozen lawyers' offices in Adrian. Entrance there was gained in a similar fashion.

among the young folk. There are many registered voters here who will cast their ballots for the first time, not just because they have turned 21 years of age, but because for the first time in their lives they are interested in what goes on at an election."

It will be interesting to learn, as soon as township officials complete a check-up of the new registrations, whether men or women are in the lead in the new voter list. Some folk seem to feel that the women may take the lead.

Township officers pointed out today that perhaps some folk who failed to register for the August primary will desire to cast their ballots in the national election in November. Registrations for the November election will be received at the township clerk's office until Monday, October 6.

Any person who has lived in the state for six months and in the township for 30 days is eligible to register and vote in the November election.

"A Little Neglect May Breed Great Mischief"

Nowhere is the wisdom of Franklin better exemplified than in our everyday health where precaution is far more effective than cure.

Most important is regular visits to your Doctor. Keep him informed on all details of health, and have frequent check-ups. While neglect breeds mischief, such care brings great peace of mind.

Sunday evening, Mr. and Mrs. Oscar Bryan and family entertained at a family supper on the lawn, honoring the birthday anniversaries of their son, Johnny and her mother, Mrs. Wintersteen. The guests included Mr. Wintersteen, Miss Marie Wintersteen, Mrs. Bovee and son of Texas, Mr. and Mrs. Wallace Bryan and Mr. and Mrs. Robert Mohr and family of Clinton. A large birthday cake centered the table. Mrs. Wintersteen and Johnny were presented with gifts.

Young Children Stutter When Learning To Talk

All children stutter when they are beginning to learn to talk. The constant repetition of syllables and words is like the repetition of the muscular patterns involved in learning to walk and, according to records of the language of pre-school children, is no more frequent in "stutterers" than in normal children in the early years, says child expert Irma Simonton Black. Writing in Redbook Magazine for July, she cautions parents against treating their children like stutterers at this stage:

"A child learns to talk as he learns to walk — by constant energetic repetition of the muscular patterns involved in the activity. His tongue literally trips over words the way his feet trip over rugs and steps. Actual records of the language of pre-school children have shown that normal children in the early years repeat as many syllables and words as those who are labeled 'stutterers' by their families.

"What happens is that when parents decide their child is stuttering, they begin ot treat him like a stutterer. They remind him to take a deep breath, or to talk slowly, or to think before saying anything more. Even parents who do not nag show their concern in their faces. And this concern is liable to push a youngster into an unhealthy awareness of his own speech processes.

"When your own pre-school child falters over a word, or repeats it several times, take it easy. Don't comment on it to him or to anyone else in his presence. Remember that these repetitions are a normal and inevitable step on the way to fluency.

"The school-age child of six or over who still shows a marked tendency to repeat sounds may, on the other hand, be a real stutterer. But a direct attack on his problem will be just as harmful as it is with a younger child. If it is evident that he needs help, get it from a speech or a child-guidance clinic."

Main street in the Village of Britton looks as though a cyclone had struck it as State Highway Department contractors remove trees, preparatory to widening Trunkline M-50 through the town. Photos, taken last week-end, show (upper right Main street looking westward; upper left, some of the felled trees in front of the home of Ford Exelby and, lower, a couple of large trees cut in front of the home of Dr. W. T. Claxton. In all, about 100 trees are being removed in the village. The trees, according to some of the older residents, were planted about 1870. Only about half of them were sound, it was said, and probably would have had to have been removed in 20 years or less.

Accidents Fatal To 2

FORMER ADRIAN COMMISSIONER FATALLY HURT IN CRASH NEAR CAMBRIDGE

Two persons lost their lives, one of them a former official of the City of Adrian, in traffic accidents in this area during the past week.

William E. Meyers, aged 68 years, died in Herrick Memorial Hospital here early Saturday morning the result of injuries suffered a few hours earlier in a head-on car accident on US-112 near Cambridge Junction. He was the 10th traffic fatality in the county this year.

According to state police from the Clinton Post. Mr. Meyers was driving his car east on US112 west of Cambridge when it crashed head-on with a car driven by Harl Curtis, 29, of Detroit. The Meyers car, it was said, gradually drifted into the wrong lane of traffic. Meyers had experienced a mild heart condition for the past two years and this may have played a part in the accident.

Meyers and Mr. Curtis and his wife, Frances, 25, and a passenger in the car, Carol Dickins, 13, all were removed to Herrick Memorial Hospital here. The wreck occurred about 11:30 Friday night and Meyers lived until 3:30 a.m.

Meyers was a former official of Adrian, having served as com-

Storm Damages Electric Lines

TECUMSEH WITHOUT LIGHT OR POWER FOR NEARLY TWO HOURS, FRIDAY P.M.

Tecumseh was without electric lights or power for nearly two hours, Friday afternoon, the result of a wind and electrical storm that struck this vicinity about 4 o'clock.

The power line break resulted from heavy tree branches falling across primary lines of the Consumers Power Company on Mill street. It took workmen the greater part of two hours to repair the break.

There were several sharp flashes of lightning as the storm rode in from the southwest on a cyclone-like wind.

According to records at the Consumers Power Co., the rainfall here has amounted to 3.17 inches for the first 22 days of July. Normal rainfall for July is 2.83. Until last Friday, only .5 of an inch of rain had fallen. Tuesday afternoon's storm that seemed to break the back of the heat wave brought rain that measured .27 of an inch.

Official thermometers here showed that in the first 22 days of July temperatures were in the 90's during 20 of the days. High temperatures were 99, never 100. Tuesday's high reading was 97.

Humidity readings also were high, sometimes equaling the temperature.

LAMP POST BROKEN

A motorcycle was blamed for an accident at the corner of Chicago boulevard and Union street, Saturday at 10:30 p.m. Kenneth H. Koester of Toledo, driving south on Union street, stopped at the intersection and then proceeded to turn east. The motorcycle, going east on the boulevard, threatened to cut him off and in negotiating the turn Koester's car hit an ornamental lamp post in the boulevard, causing it to break. There was no damage to the car, police said.

Priest Injured In Plane Crash

FORMER PASTOR OF ST. ELIZABETH'S HERE IS RESCUED FROM MOUNTAINS

The Rev. Fr. Lambert LaVoy of Detroit, former pastor of St. Elizabeth Catholic church here and a native of Deerfield, suffered a broken leg, Monday of last week, when his light plane crashed on the steep mountain slope near Penticon, British Columbia. His companion, the Rev. Fr. Vincent Myrich, also of Detroit, was not seriously hurt.

The Rev. Fr. Myrich walked out of the mountain wilderness 10 miles from Penticon, to summon aid for his fellow priest. An 11-man searching party rescued the Rev. Fr. LaVoy from his lonely mountain perch on Wednesday, where he had lain helpless and without food or water for 54 hours.

When the party arrived they found Fr. LaVoy standing beside his wrecked ship. He had fashioned a rude pair of crutches from tree limbs. His first words to the searchers were, "Hi, fellas, got anything to eat?"

Miss Rebecca Preston Is Buried at Holloway

Miss Rebecca Preston, age 82 years, died Thursday afternoon at 2:30 at her home, 216 South Pearl street. She had been in failing health for several years. Miss Preston was born in Antrim, Ireland, March 17, 1870, the daughter of John and Mary Cameron Preston. Her adult lifetime was spent near Holloway wih the exception of 27 years in Tecumseh. She was a member of the Tecumseh Presbyterian church. She was preceded in death by her parents and one sister, Elizabeth.

Survivors are one brother, James W. Preston and one niece, Miss Ruby Preston, both at home. Several cousins also survive.

Funeral services were held Sunday afternoon at 2:30 at the Green Funeral Home with the Rev. George Walworth officiating. Burial was in Holloway cemetery. The members of the Welcome Class of the Presbyterian church, of which Miss Preston was a member, attended in a body. The bearers were John Smith, Vern Dove, James Moore of Blissfield, John Moore of Creston, Iowa, Hamilton Moore of Britton and Glenn Preston of Detroit. Friends and relatives attended from Detroit, Britton, Milan, Blissfield, Adrian, Holloway, Palmyra, Dundee and Creston, Iowa.

ADMITTED TO BAR

Yale Leland Kerby, son of Mr. and Mrs. Yale Kerby, was admitted to the Lenawee county bar last week upon motion of an Adrian attorney, LaVon B. Kuney. Mr. Kuney presented Mr. Kerby to Circuit Judge G. Arthur Rathbun and recommended his admission to the Lenawee organization. Mr. Kerby was graduated from the law school at Ohio Northern University at Ada, Ohio, in June and recently passed his Ohio and Michigan bar examinations. Mr. Kerby has made no definite plans as to where he will locate.

Blissfield Plans Harvest Festival

LEGION'S 23RD ANNUAL CELEBRATION TO BE STAGED AUGUST 1

The 23rd annual Harvest Festival will open Friday, Aug. 1, on Ellis Playground, Blissfield, and continue for two days under sponsorship of the Robert Meachen Post No. 325, American Legion.

Harold Kerbawy, past commander of the post and general chariman for the Festival, announces some outstanding attractions in entertainment.

Besides the giant Midway, there will be thrill rides and amusements as well as Merchants' displays extending to the far end of the park.

Free acts will be presented before the grandstand Saturday night, with two games of baseball scheduled by the Blissfield Independents for Friday night and Saturday afternoon.

Added attraction Friday night will be round and square dancing on the tennis courts to the music of Art Smith's orchestra.

Highlight of the program for Saturday morning will be a tractor pulling contest, scheduled for 10 o'clock, with Richard Ogden as chairman. Any who wish to enter may phone him at Blissfield 401-R or write him at Route 2, Blissfield.

Speed Leading Traffic Killer

LOCAL CHIEF WARNS THAT MISHAPS COST 1,600 LIVES IN 1951

Chief Geo. Kilbourn, of the Tecumseh Police Department is reminding motorists that although speed control is being stressed during the current traffic safety campaign in Michigan, the dangers of driving too fast are present all year around.

"Speed," Chief Kilbourn said, " is the leading traffic killer every day of the year. Although speed takes its heaviest toll during the summer season, it continues to show up as the predominant factor in traffic deaths during the fall, winter and spring.

"For several weeks the Tecumseh Police Department and other police agencies throughout Michigan have been urging motorists to practice strict, self-enforced speed control. The state law itself requires that speed be adjusted to all conditions.

"Last year 1,604 persons were killed and 48,418 injured on Michigan streets and highways. That was a daily average of 138 casualties. The highest daily toll was recorded in July with 160 casualties.

"This traffic record is inexcusable when we realize that most of the accidents, injuries and deaths could have been prevented. One or more drivers were reported as violating traffic laws in seven out of every ten fatal accidents. Of all the violations reported, 44 per cent were for driving too fast for conditions.

"Drivers should realize that the menace of speed can be checked only through their own efforts. They should remember that speed control is always a matter of life or death."

FOOTBALL MEETING

There will be a meeting of all football candidates at the Central school gymnasium tonight (Thursday) at 7 o'clock. Coach Victor Lawson, new football coach, has requested that all boys interested in football be present. Preparatory plans for physicals and practice will be made.

CARS COLLIDE

Cars driven by Ray McKenzie, Tecumseh, and Herbert J. Schott, Rt. 3, Manchester, were involved in an accident at Evans and Chicago boulevard, Friday at 9 p.m. Schott was given a summons by police for failing to yield right-of-way. Police said that damage to the cars was slight.

Miss Mary Brown, daughter of Dr. and Mrs. Arthur Brown of Tecumseh, will attend the 10th annual national convention of the Alpha Sigma Tau Sorority, to be held August 20-22 in the Conrad Hilton Hotel, Chicago. Delegates will assemble from collegiate and alumnae chapters throughout the U. S. The Alpha Chapter of the sorority was founded in Ypsilanti in 1899. Miss Brown is president of that chapter and will attend the convention as a delegate. She is also being entered by the Ypsilanti chapter as its candidate for "Convention Queen." The successful candidate will appear on a television show. Miss Brown is a junior at Ypsilanti State Normal College. She is majoring in early elementary subjects.

Golf Match To Help Hospital

AUXILIARY SPONSORS PUBLIC CONTEST AT COUNTRY CLUB, SATURDAY AT 2 P.M.

If you're interested in helping the Herrick Memorial Hospital Auxiliary in making it a little more pleasant and comfortable for patients at the hospital by always having a plentiful supply of ice available, you can do so, Saturday afternoon, and at the same time see an excellent golf match, preceded by a golf clinic, and all for just a dollar.

The Auxiliary is sponsoring the clinic and match at the Country Club, Saturday afternoon. The clinic will start at 1:30, the match at 2 o'clock. The public is welcome to attend, and tickets may be purchased either at Butler Motor Sales, Hanna's Insurance offices or at the Club.

Four top-fight golfers will participate in the clinic and the match. Frank Stranahan of Toledo, internationally known amateur golfer, will play in a match with Lloyd Gullickson, golf profesisonal at the Inverness Golf Club, Toledo, Jake Fasseske of Adrian, former professional there and two-time winner of the Michigan Open Golf Championship, and Leo Bishop, professional at the Tecumseh Club.

"Never before have Tecumseh golf enthusiasts been offered such a show of skill on the local course," an interested member of the club said today. "We believe that hundreds of Tecumseh folk will turn out for the match, and for the clinic that precedes it. All players are contributing their time to this worthy cause, and we feel certain that Tecumseh will support it, too."

There will be refreshment stands near the course, and all proceeds, including the gate receipts, will be turned over to the Auxiliary.

The Auxiliary plans to purchase a new ice-making machine and have it installed at the hospital. The machine costs about $500. It will be sufficient in size to furnish almost unlimited quantities of ice for the hospital, an important factor in the care and happiness of patients.

SUMMONS ISSUED

Raymond J. Betzoldt of Clinton, was issued a summons by local police Friday evening, on an excessive speed charge. Police say that his car struck a tree in the 600 block on West Chicago boulevard, at 9:30, Friday night.

German Student Leaves For Home

Alfred Borne of Frankfort, Germany, who spent a year in Tecumseh as an exchange student, sponsored by the Rotary Club, leaves today for Dearborn and New York City. This week-end he will sail for his home in Europe along with 75 other students from Germany. All of the German boys and girls were brought to Michigan under the Rotary exchange plan, a year ago, so that they might know and better understand American ways and customs.

Mr. Borne graduated in June from Tecumseh high school. However, because the high school term in Germany is longer than it is here, he now must attend school for two more years before graduating in Frankfort.

In a brief talk to the Rotarians, meeting for dinner Tuesday evening at the Country Club, Borne expressed his appreciation to the club for sponsoring his visit here, and for the opportunities afforded and friendships made.

"When I return to Germany I will be able to tell my friends about the experiences I have had, about American ways of life and about democracy," he said.

C. O. Butler, in whose home Alfred lived for several weeks, expressed regret that he was leaving. "He has been a fine boy, courteous, anxious to be of assistance and always willing to cooperate. We have learned to think of him as a son," he said.

Curb, Gutter Program Confirmed By Council

The village council authorized disbursements of $6,160.26 for operating overhead and $18,509.94 for the building of the new sewage disposal plant when it met in regular session, Monday evening.

The petition from F. M. Rice. W. Pottawatamie street, for curb and gutter along his property was accepted and ordered scheduled.

Special curb and gutter assessments on North Union, Ottawa, Maumee and Pottawatamie streets, as established in a special assessment area, were confirmed by the council and the clerk was authorized to make the necessary legal confirmation.

Purchase of several items needed for the further construction of the sewage disposal plant was authorized and reports of the treasurer, the police department and committee and department heads were read and approved before the council adjourned.

Occidental Road Paving Is Due To Start Soon

Paving of the street from the end of Adrian street around Tecumseh Acres to Occidental Road in Tecumseh township should start any day, according to LeRoy H. Titley, supervisor. The contract for the work has been awarded, he said, and the job should be finished shortly.

Paving of Occidental Road from the point where it joins Russell Road and south through Raisin township to where it joins a pavement near the Herbert Roff farm has been ordered by the State Highway Department. The contract for this work will be awarded the end of this month, and should be finished by November 15.

LINOTYPES ARE HALTED TWICE BY LIGHTNING

Twice, Monday afternoon about 4 o'clock, during an electrical storm, lightning came in over wires leading to linotypes in The Herald office and both times put the machines out of operation.

The first flash affected only one machine. It destroyed a fuse in a three-phase line, causing the motor to run backwards. Hardly had an electrician repaired the damage before there was a second bolt. This time it destroyed fuses on two linotypes.

The electrician returned, repaired the damage and operation continued.

Social Aid Benefits Up

MORE THAN 2,000 IN LENAWEE COUNTY TO RECEIVE LARGER CHECKS

About 9,400 people in the Jackson area which includes Lenawee county, will receive higher social security payments beginning early in October as a result of the social security amendments which President Truman signed into law last week.

Raymond C. Backus, manager of the Jackson social security office, emphasized that on one needs to apply for the increased payments. "The Social Security Administration is already changing the amounts," he pointed out. "We expect to get them changed in time to have them in the mail October 3, the regular delivery date, but if in a few cases we don't meet that schedule we'll send the regular check and make up the the difference in a later check." Of the 9,400 people, approximately 2,100 reside in Lenawee county and are serviced by Alton Swanson, representative of the Jackson office for Lenawee county.

Mr. Backus pointed out that although nearly every family receiving payments would receive an increase, the additional amount would not always be divided among all the members of the family receiving monthly checks. In some cases the entire increase will go to the retired worker.

Appeal Decision, Hardy Will Case

PROBATE COURT RULING TO COME UP FOR REVIEW BY CIRCUIT COURT

A probate court decision in the estate of the late Dr. P. B. Hardy of Tecumseh, will come before the circuit court for review as a result of an appeal by Col. Clarence W. Hardy of Fort Jay, N.Y., a son of the doctor. Dr. Hardy died August 5, 1951. He was the dean of Lenawee medical men, having practiced in Tecumseh and in this vicinity for 55 years.

The appeal from the probate decision was filed by Col. Hardy through his attorney, James C. Beardsley. It was based on the decision to make Dr. Hardy's widow, Mrs. Bernice Hardy, the sole trustee for the estate. According to the terms of the will, the estate was to go to Mrs. Hardy for her support until death. Upon her death, Col. Hardy and the heirs of the late Harold D. Hardy, another son, were to receive the estate.

According to Probate Judge Bernard N. Williamson, this provision implied the establishment of a trust for the lifetime of Mrs. Hardy. He appointed Mrs. Hardy sole trustee over the objection of Col. Hardy at a hearing on April 7, 1952.

Col. Hardy contends in the appeal that a disinterested person should be named as trustee for the estate.

Says Present Weather Parallels That of 1935

Don't tell George Kilbourn, chief of police here, that this is the hottest summer that Lenawee county has ever experienced. If you do, he'll probably give you an argument.

It was hot all summer long, Kilsummer is a parallel, in hot weather at least, with the summer of 1935, which he remembers vividly, for many reasons. He can almost give you days and dates and temperatures.

It was hot all sumer long, Kilbourn relates, and he remembers especially, in August, when he went to the hospital with a fractured skull, how for four weeks the temperature was high, "just like last Monday."

"And if you'll recall the winter of 1935-36," he says, "it was bitter cold and we had snow, snow and snow." He remembers that, too, because at the time he was working for the highway department.

If the chief's predictions come true, Lenawee may be in for continued heat until fall and then for a long, cold winter.

There are those in Tecumseh who hope that he is wrong on both counts.

RECKLESS DRIVER GIVEN JAIL TERM

William Pangburn of Adrian, was arrested by police here Saturday evening, charged with reckless driving. Arraigned before Justice Robert French, he was sentenced to pay a fine of $50, costs of $8.60 and to serve 15 days in the county pail. In default of the payment of the fine and costs, the jail sentence was increased to 60 days.

Consumers Fix Price, Quality

Did you ever wonder how a manufacturer arrives at a selling price for his product? Ever wonder why the price of some products show a steady reduction, others an upward trend?

Generally speaking, prices are fixed by the consumer. The law of supply and demand becomes operative, manufacturing know-how begins to work and, if the product "takes" with the public, prices generally decrease as production increases.

If you think that isn't true, think back a couple or three years about television. A set that cost $500 three years ago can be purchased for about 40 per cent less today. The price of tubes and other parts going into the repair of televisions also is less. The reason is that the demand for television sets has doubled and redoubled. Production is in the mass stage and, as a result, costs are cheaper.

Now let's go back 50 years and talk about carriages — horse drawn. At that time $225 or $250 would buy a fine, luxury buggy. Labor was cheap, so was material and there was a demand for carriages. Everybody rode in one. Then along came the automobile—the horseless carriage—and the buggy manufacturing business went on the rocks. Today, if you wanted a good luxury carriage you probably would have to have it custom made. The price—probably four times what it was in 1900.

And so it is in a competitive economy that the consumer is soverign.

That is a highly important fact which is often overlooked, especially by those who urged a so-called "planned economy"—which is a pleasant sounding term for an economy run by politicians, under the direction of political administrators who often have had no practical experience in the enterprises they regulate, and who may be totally unacquainted with the day-by-day problems involved in operating a business.

Under the free, competitive system, business can survive only if it pleases the consumer. The manufacturer produces not what he may want, but what his customers want. The storekeeper stocks the goods which, in his estimation, will find an eager market. The whole complex system of production and distribution is geared to the desires, needs and whims of the consuming public.

Moreover, this system offers the consumer greater protection than any other ever devised. It guarantees that, with few exceptions, he will get the best quality possible for the money—the man or woman who is bilked into buying a shoddy, misrepresented article will avoid it like the plague on the next shopping trip. And it guarantees also that the prices will be as low as the conditions of the time permit. To most people, low price is a major inducement. Every manufacturer and every retailer, in the interest of survival, must try to keep his prices lower than those of competitors.

Yes, in a competitive economy the consumer is soverign, if the law of supply and demand is allowed to operate.

We Dislike Being Discounted

A year or two ago one was able to go to Canada—just across the Detroit River—and spend American dollars at a premium, ranging from two to five per cent.

Today, when one crosses the River into Canada he finds that American dollars are discounted, generally about two per cent.

The reason is that in the United States we have inflation—our dollars are not worth as much as they formerly were and Canada has discovered this and has decided that a "mark down" is necessary.

Canada is a much smaller country than the United States and it has, in the last 100 years been a much more backward country than ours, but nevertheless it has learned, particularly since World War II, that sound fiscal economy is essential. And in discounting American dollars that is exactly what it is saying to the folk of the United States.

Frankly, we've always been happy to say that we were Americans, that we lived in the United States, the greatest country on earth. We still think that this is the greatest country on earth, and we're still mighty proud to be a part of it but we're honestly ashamed to have our dollars discounted when we go to Canada. We don't think that it is cute to have the Canadians "mark down" our currency—we think it's just as good as Canada's cash.

But we must admit that we have inflation, and we must admit, too, that Canada may be saying to us, in a rather firm way, that it is time that we, here in the U. S., put our financial house in order, too.

NOW you can get
BUICK POWER STEERING†
on the SUPER too!

6-passenger Roadmaster Convertible.

It saves your strength – and it might save your life

CAN you imagine parking a car as easily as you steer it on a straightaway?

You twirl the steering wheel with one hand—turn the front wheels until you get the last inch of advantage from Buick's short "turning radius"—spot the car in a tight spot at the curb—or swing out when the car parked in front of you seems impossibly close.

For this alone a lot of people—especially women—are saying that Buick's Power Steering is the biggest advance since Dynaflow Drive.*

But you're going to find out something more as you pile up the miles.

You're going to feel the same confident and thrilling sense of command you have always felt in a Buick, because Power Steering only goes into action when extra effort is needed to turn the wheels.

You're going to find that your front wheels track just as they always have—that they automatically swing back on course, after you've made a turn, when you ease your grip on the steering wheel.

You're also going to find that Power Steering takes over when your front wheels hit loose dirt or sand—road irregularities and chuckholes—and smoothes down their jerk or tug on the wheel in your hands.

All this adds to the ease and pleasure of driving. But it adds to the safety, too, because, in the rare event of a blowout, Power Steering helps you keep control. There's no sudden and violent jerk ever when this helping hand's on the job.

Add to this the level-gaited serenity of Buick's Million Dollar Ride—the "rarin' to go" exuberance of its Fireball 8 Engine—the spread-out room, the luxurious fabrics—the way this great performer can turn up its nose at gas stations—and there's only one smart thing for you to do:

Drop in — or pick up your phone — and arrange to give this marvel a tryout. Even the price says, Better buy Buick now.

*Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Now available on Super as well as Roadmaster—optional at extra cost.*

ANNUAL MEETING
Tecumseh Board of Education District No. 7
July 14, 1952

The Annual Meeting of Tecumseh School District No. 7 was called to order by the Superintendent, James McDowell (in the absence of President Jens Touborg and Vice-President, Paul Breitenwischer), at 8:20 p.m.

Members present: Ralph Helzerman, M.D., Mr. Dwight Hodges, and Mr. Aden Mead.

Members absent: Mr. Jens Touborg, and Mr. Paul Breitenwischer.

The minutes of the last Annual Meeting were approved as read.

Dr. R. F. Helzerman presented the report of the Secretary which was approved upon motion by Mr. Fred Dickinson, seconded by Mrs. Mildred Brooks.

Report of the Secretary to School District No. 7, Tecumseh, Michigan

Your Secretary is pleased to present at this time the following statement taken from the report of the Auditor, Collins and Buri, Certified Public Accountants, who were employed by the Board of Education to audit the Board accounts.

"Gentlemen:

We have examined the cash receipts and disbursement records of Public School District No. 7, Tecumseh, Michigan, for the fiscal year ending June 30, 1952, and herewith submit the following statements:

Schedule A—Board of Education Funds—Statement of Receipts and Disbursements for the fiscal year ending June 30, 1952.

Schedule B—Extra Curricular Activity Funds—Statement of Receipts and Disbursements for the fiscal year ending June 30, 1952.

In connection with our examination we reviewed the system of internal control and accounting procedures, and examined or tested accounting records and other supporting data by methods and to the extent we deemed appropriate.

All recorded receipts were traced into the bank accounts, which in turn were reconciled by direct correspondence with the depository. Rceipts from taxes were confirmed by the Township Clerk but confirmation of State receipts has not yet been received.

Public School District No. 5 was announced by District No. 7 in February 1952, at which time you received $1,174.72 and a school bus from District No. 5. The money was deposited in a separate "Annexation" bank account and receipts and disbursements for the balance of the fiscal year relating to the former District No. 5 were segregated through use of this account. We have reviewed the records of this account and have included the entire fiscal year's transactions in the General Fund statement, both separately and as combined with District No. 7. We understand that it will be necessary to report in this manner to the State. This bank balance as of June 30, 1952 should now be combined with your regular bank account.

Operating liabilities of the School District are being paid currently. Land for new school sites was purchased during the year for $14,310.00, $8,350.00 of which is still owing on two land contracts and payable, together with 4% interest, as follows:

Contract No. 1 for $600.00, due May 23, 1953.
Contract No. 2 for $7,750.00, due November 1, 1952, 1953, 1954

With respect to Contract No. 1 (Julia A. Anderson) we suggest that when title is taken the School District be more clearly defined than in the contract.

Alterations to Central School were not completed as of June 30, 1952, and disbursements to that date for the alteration work totalled $26,910.95.

School bonds outstanding mature as follows:

$45,000.00 — July 1, 1952
$45,000.00 — July 1, 1953

Interest at 1-¾% is payable January 1st and July 1st and to June 30, 1952 was paid when due. Payment for bonds and interest due July 1, 1952 was made to the Trustee on July 3, 1952.

A new school bond issue of $650,000.00 was approved by the District electorate on May 6, 1952, proceeds to be used in erecting and furnishing an additional elementary school house and additions to the present high school building. Additional tax levy was also approved to retire the bonds over a fifteen year period. The bid of Halsey, Stuart & Company, Inc., of Chicago, Illinois, for purchase of this bond issue has been approved by the Board but no proceeds have been received by the District to date.

During the fiscal year under review transfers were authorized between Board Funds as follows:

From the Bond Debt Fund—$24,350.00 to the General Fund.
$11,000.00 to the Building and Site Fund
From General Fund—$24,904.17 to the Building and Site Fund

An amount of $601.20 erroneously deposited in the Biulding and Site Fund bank account prior to June 30, 1952 has been allowed to remain in that account, and in the attached statements we have shown this transfer as follows:

From the General Fund to the Building Fund	$250.00
From the Bond Debt Fund to the Building Fund	351.20
	$601.20

The balance remaining in the Bond Debt Fund after transfer to the other accounts is insufficient to retire outstanding bonds for which the Fund was created. The necessary amount of $11,224.44 to call the bonds on January 1, 1953 was transferred to the Bond Debt account on July 7, 1952.

In connection with insurance, we recommend that coverage on the Public Library be reviewed; that you consider bonding custodians of the extra-curricular activities funds; and that limits of bodily injury liability in your school bus policy be substantially increased.

We found your records to be well kept and information readily available.

Yours very truly,
Collins & Buri
Certified Public Accountants"

Submitted by,
R. F. Helzerman, M.D., Secretary

Mr. Dwight Hodges presented the report of the Treasurer which was approved upon motion by Mrs. Fred Dickinson, seconded by Mr. H. H. Hanna.

Report of The Treasurer to School District No. 7, Tecumseh, Michigan

Your Treasurer is pleased to report to you at this time the Board of Education Funds from July 1, 1951 to June 30, 1952 as audited by Collins and Buri, Certified Public Accountants, Detroit, Michigan.

Submitted by,
Dwight Hodges, Treasurer

The budget for the year 1952-1953 was then read by the Superintendent of Schools which was approved upon motion by Mr. Roy Titley, seconded by Mr. H. H. Hanna.

1952-1953 Budget
Tecumseh Public Schools
Tecumseh, Michigan

Submitted to the Board of Education July 14, 1952. James McDowell, Supt.

Receipts:

The General Fund Cash Balance on July 1, 1951 as shown by the books and the audit was $7,351.73 of which $12,000.00 was actually borrowed in advance on 1951-52 state aid receipts, thus the general fund actually had a deficit of $4,648.27 on July 1, 1951.

The General Fund Cash Balance as shown by the audit and books on July 1, 1952 is $823.55, consisting of:

	$24,841.12	Regular Account Cash Balance
	349.47	Recommended Transfer from Present Bldg. & Site Fund.
	6,857.40	Transfer from Annexation Account
	$32,047.40	
Less	11,224.44	Transfer to Bond Fund to retire present bonds
	20,823.55	
Less	20,000.00	Advance on 1952-53 Receipts
	823.55	Cash Balance.

I am, therefore, starting the 1952-53 school year with the actual cash balance of $823.55 having wiped out the deficit of $4,648.27 from the 1952-51 year. The $20,000.00 advance for 1952-53 has been listed in the $128,737.06 included in item 232, State School Aid, under receipts.

REPORT OF THE SUPERINTENDENT
ANNUAL MEETING — JULY 14, 1952

I am happy to present this report concerning the work and activities of the Tecumseh Public Schools for the school year which closed June 30, 1952.

The September 1951 enrollment was 711 in the elementary school and 514 in the Secondary School. The final enrollments in May 1952 were 716 in the elementary and 505 in the secondary school. This is a net loss of four pupils, 1225 - 1221, which is unusually small. There were twenty elementary teachers, nineteen secondary teachers, four special teachers, a school nurse, a speech correctionist, elementary and secondary principals, Veterans Institute instructor, and myself on the educational staff. There are also a combination librarian and secretary to the principal, one full time and one part time secretaries to the superintendent, a supervisor of buildings and grounds, and five custodians. Since the Public Library is also under the jurisdiction of the Board of Education and there are two librarians, the total number of persons employed directly by District No. 7 is sixty.

School was held at four locations during the year,—West Branch, Brownville, Central and the High School. These buildings were adequate for our enrollment and the children were well supplied for their physical needs during the year.

During the schol year the staff strove to achieve, in the elementary and secondary schools, at least the following specific educational objectives:

1. Administer to the needs of each pupil as an individual, according to his abilities.
2. Make certain that **each** pupil has **some** degree of success in each day of school life here.
3. Teach a respect for and an interest in continuing a democratic form of government.
4. Promote opportunity for self-awareness through class and out-of-class activities—a meeting place for children and young people to grow up in, under the stimuli of others of similar age.
5. Some specific training in home-making and home life problems.
6. A reasonable mastery of the fundamental tools, reading, writing and arithmetic, as an aid to everyday life and a foundation for greater growth in educational fields.
7. An interest in and support for personal health and community health.
8. An awareness of good leisure time activities.
9. The stimulation of developing ideals.
10. The promotion of the ability to live successfully in a changing environment.

New class schedules were set up in the grades and high school so that all pupils who desired might eat in the Cafeteria without overcrowding. The secondary school schedule was changed from three hour periods and four three quarter hour ones to six hour periods which has provided a much more satisfactory use of time in the classes and is well liked by both pupils and teachers. Important foreward looking strides have been made in the physical set up for the Tecumseh school children this year. The Central School remodelling is reaching completion at a cost to date of approximately $26,910.95. When school opens in the Fall it will be an up-to-date elementary school with new lighting, room arrangement, color, toilets, and other facilities suitable to elementary use. Grounds at all schools have been improved; new fences built and old ones repaired, lawns leveled and seeded, and many other like improvements. Some new furniture for the buildings has been purchased where needed. The Board houses have been improved and present new faces to the public. New firedoors were installed at the high school following the State Fire Marshall's recommendations. The need for additional buildings to house the increased enrollments was recognized and plans formulated for meeting same early in October. By March the final authorization of the annexation of District No. 5 to District No. 7 was received from the State Department of Public Instruction. Following considerable preparation by brochures, newspaper, and other publicity, the electors voted early in May, fourteen to one, to borrow $650,000.00 to build a new elementary school and additions to the high school; said loan to be repaid by a 13 mill tax for 15 years if necessary. Recently these Tecumseh School Building bonds were purchased by Halsey, Stuart & Co., Inc. of Chicago. Warren S. Holmes and Company, Architects, have the plans for said buildings nearly completed and bids are to be let in the Fall. The Board has also purchased two pieces of property to meet future needs, one on North Union Street and the other on South Adrian Street. A $100,000.00 anonymous gift towards the building project was received and accepted by the Board.

Extra-curricular activities in the high school have been carried on as usual. In the field of sports as well as debate and speech activities Tecumseh met with its usual success. The F.F.A. excelled in judging contests and in speech contests, as well as in its regular activities and yearly banquet. The Cooperative Training Program showed marked advances and its annual banquet was well attended. The Tecumseh Schools joined the newly organized Recreation Coun-

Obituary

Edward LaVerne Furgason, the last of eight children of Willard and Adaline Wilson Furgason, was born March 15, 1877, in Franklin Township, and passed away July 14, 1952, in Herrick Memorial Hospital, where he had been a patient for three weeks.

Mr. Furgason's mother passed away when he was eight years old, and he made his home with the John Monagin family until his marriage to Myrtle Dunn on Nov. 24, 1898.

To this union three children were born. Bernard, Leonard and Maynard. The family were farmers in Franklin and Tecumseh Township until 1926, when they moved to Tecumseh where he lived until his death. He was an employee of the H. E. Whelan Co., for 15 years and for the last 10½ years was employed at the Tecumseh Products Company.

In 1940, he married Mary D'Arcy, who survives; also a daughter Helen at home, two sons, Leonard of Tipton and Robert Irwin of Britton. 21 grandchildren, nine great-grandchildren, several nieces and nephews and a host of friends. A granddaughter, Verna, made her home with the Furgasons until her marriage.

He was preceded in death by his first wife Myrtle in 1938 and two sons, Bernard in 1945, and Maynard in infancy. Also a grandson, Gordon, who was killed in World War II in Italy in 1944.

He was a faithful member of the Odd Fellows of which he had been a member nearly 25 years; the Rebekahs, Tecumseh Grange and Knights of Pythias.

He will be greatly missed by the family and all who knew him.

Straits Ferry Traffic Sets New High Record

Michigan State Ferry traffic across the Straits of Mackinac set a new relord for the first six months of the present calendar year, surpassing the first half of 1951 (previous high record year) by 16.6 per cent, according to figures released by Highway Commissioner Charles M. Ziegler.

During the first half of 1952, the State Ferries carried 212,761 vehicles between Mackinaw City and St. Ignace, compared to 182,489 vehicles in the corresponding period of 1951.

The number of adult passengers carried by the State Ferries in the first half of 1952 was 270,994, an increase of 30,720 or 12.8 per cent over the number of adult passengers carried in the first half of 1951.

It was interesting to note the number of children who rode the State Ferries in the first half of this year was 21,510, compared to 12,079 in the same period of 1951, an increase of 78 per cent.

Macon

Mr. and Mrs. Ray Hendershot of Brooklyn were host to the Macon Community Club, Tuesday evening with twenty-seven attending. Ray Hendershot opened the meeting with a song by the group followed by the Lord's Prayer. Following a short business meeting, Mrs. Charles Gorton had charge of the program. Readings were by Mrs.. Clayton Bigelow, Mrs. Blanch Travis, and Mrs. Gorton. Mrs. Ralph Halladay played two piano selections. Mrs. Melvina Travis had charge of a guessing game. Ice cream, cake and pie were served.

Mr. and Mrs. Verl Sanch entertained 60 Thursday evening at a weiner roast and picnic supper. It was a meeting of the Grange Fair Booth Committee and their families. Robert Irwin of Britton showed colored slides.

Mrs. Enola Hall is ill and was taken to the Herrick Memorial Hospital Thursday.

Mr. and Mrs. Hamilton F. Moore and sons spent Friday evening with Mr. and Mrs. Chalmer Bruder and family in Belleville.

Several members of the Youth Fellowship attended the show in Clinton Tuesday evening. They held their regular meeting Sunday evening with 12 present. Donald Moore was the leader. Mrs. Gorton gave a reading about George Washington Carver.

Pfc. William Rhoades, son of Mr. and Mrs. Floyd Rhoades is spending a 20 day furlough at his home, before going to the Mediterranean area.

The annual tea of the W.S.C.S. will be held Thursday afternoon at two o'clock. Lynn Wilson of Clinton will be the speaker.

Mrs. Anna Hendershot of Tecumseh is spending several days with her daughter, Mrs. Elton Osborne.

Mrs. Truman Jordan, Mrs. Ray Gilmore, Mrs. Wilma Briggs and Mrs. Hamilton Moore attended the Ann Arbor District Women's Society of Christian Service Officer's Training and Seminar held in Blissfield Tuesday.

Mr. and Mrs. Hamilton Moore and sons were Sunday dinner guests of Mr. and Mrs. Delmar Bruder in Ypsilanti.

Mrs. Mike Papp entertained the Macon Homemakers Extension Club, Thursday. Following a dessert luncheon, the meeting was called to order. The questionnaire of the Country Women's Council was read and discussed. It was decided to hold th August meeting a week earlier so that some of the women could attend the Extension Camp. On September 10th the Club will entertain the Macon Club and Northeast Britton Extension Club at a dessert lunch. It will be held at the Macon Methodist church. Several plan to attend the Homemaking Conference at East Lansing, Thursday.

Church News

Rev. Sam Burns, a recently returned missionary from Africa will be the guest speaker on Aug. 17th

Rev. Rial Simons of Flat Rock and former pastor of Clinton-Macon churches, will be guest pastor August 24th. A picnic dinner will be held in Clinton for both church congregations. No Sunday school or church will be held August 31.

Following Choir practice Wednesday evening, the group surprised Mr. and Mrs. Carl Thomas, who celebrated their 25th wedding anniversary Friday. Ice cream and cake were served.

WED IN TENNESSEE

Mr. and Mrs. Gordon Greiman have received an announcement of the marriage of Miss No'reen Hartley of Elyria, Ohio, to Maynard Abbott, jr., of Medina, Ohio. The wedding took place in Jellico, Tennessee, June 30. Mrs. Abbott formerly lived here. Shis is the daughter of Mr. and Mrs. Richard Hartley of Elyria, Ohio. At present they are making their home in Syracuse, New York.

If its news, phone 476.

Learning To Ride Bike Is Good Driver Training

Learning to operate a bicycle safely is good proving ground for operating an automobile . With that in mind, Lennah K. Backus, child development specialist at Michigan State College, urges parents to prepare their children for that exciting moment when they have their first two-wheeler.

Is your youngster thoroughly grounded in traffic rules of his community? she asks. He must know that a bicycle rider is as responsible for the rules as the driver of any motor vehicle— and ignorance of the law is no excuse. He will need to learn to obey all traffic signs and signals and ride cautiously at all times to avoid sudden stops or turns.

Mrs. Backus recommends that parents and children both study up on local rules, too. In some communities, riding on sidewalks is prohibited and certain light specifications are required for night riding. Too, bicycle licenses must be purchased in many places.

In addition to knowing the rules and riding cautiously, his bicycle should be checked at least once a year to keep it in safe riding condition. Check the brakes, the tires, lubricate all moving parts and keep the bell, horn and lights in good working order.

Perhaps the parent can encourage children to park their bikes away from driveways and off sidewalks where they might cause minor accidents, Mrs. Backus said.

Social Aid

(Continued from page 1)

Amount of the increase for a retired worker will range from $5 to $8.60, with the average about $6. Where several members of a family are reciving payments, the total increase to the family can be as much as $18.90. A few benefits now being paid, and most of those payable in the future, will be based on earnings after 1950 instead of after 1936. The amended law provides a new formula for determining the amount of the payments in these cases. Under it, a retired worker's monthly benefit would be 55% of the first $100 of his average monthly earnings plus 15% of the remainder up to $200.

Beginning September 1, the new law increased to $75 a month instead of $50 the amount of money a beneficiary may earn and still receive the monthly benefits. Self-employed people entitled to old-age and survivors insurance benefits may receive the payments for each month of the year if their net earnings during the entire year are not over $900.

The amended law contains a provision of special importance to self-employed people who have retired or plan to retire during 1952. Before the passage of the amendments their earnings for the year in which an application was made could not be used to figure their old-age benefit payments. Now, those self-employed people who orginally applied for benefits in 1952 may re-apply at the close of the taxable year and have their 1952 earnings used in figuring their monthly benefit payments. In general, this will increase the monthly benefit payment to self-employed persons.

A similar change in the law now permits insured wage earners who retire in 1952 to have their wages for this year used immediately in figuring the amount of their benefit payments. Therefore, it was necessary for them to come back after the end of the year in order ot have all of their covered wages for 1952 included in the computation of the benefit amount.

Another amendment allows beneficiaries aged 75 or over already on the rolls to take advantage of the higher benefit payments provided under the new formula, if they have had at least a year and a half of covered work after 1950.

The amended law allows social security wage credits of $160 for each month of active military or naval service after July 24, 1947. This provision is simply an extension of the one which already gives social security wage credits to servicemen of World War II. It applies to service in the armed forces up to January 1, 1954.

Of advantage to the survivors of deceased service people is a provision in the amended law extending the time for claiming a lump-sum death payment. This applies to servicemen who die abroad and are later returned to the United States for burial or reburial. Survivors who pay the burial expenses may now claim reimbursement up to two years after the reburial instead of two years after the serviceman's death.

Mr. Swanson stated that he is in the Municipal Court Room, Adrian City Hall every Tuesday at 11:00 a.m. to answer all questions pertaining to Social Security.

Accidents Fatal

missioner of public safety for two years, beginning in 1930. Since that time he had been employed by the State Highway Department as a weighmaster at Cambridge. He was on his way to work when the mishap occurred.

Raymond G. Jenkins, 16, of Adrian, was fatally injured at 9 p.m., Friday, in an accident that happened a few hundred yards south of the Michigan-Ohio line, on Route 109. He suffered a fractured skull and died enroute to Bixby Hospital, Adrian.

Young Jenkins and five companions were on their way to a carnival at Lyons, O. Raymond was driving. He apparently lost control of the vehicle on slippery pavement and it overturned. No one else was seriously hurt.

Roy Wall, 27, of Palmyra, was removed to Bixby hospital Friday evening following an accident on M-52 at Underwood Hill. His wife and Jean Maynard, 17, passengers in the car escaped injury.

According to officers, Wall lost control of the car and it skidded and struck a bridge. The pavement was wet. The car was badly damaged.

Saturday and Sunday, with temperatures in the high 90's, traffic was on the move throughout southern Michigan and in Lenawee county it was bumper-to-bumper traffic on most of the trunk lines, especially in the evenings.

Sheriff's deputies, state police and city police reported that 15 persons were hurt in accidents over the weekend in the county.

Five were injured at 7:10 Saturday evening on M-50 at the intersection of Pentecost Road in a two car mishap. Dennis Racer, 25, Toledo, was attempting to make a left turn when his car was hit almost head-on by one driven by William Keas, 33, of Tecumseh. Racer was given a summons by state police for failing to yield right of way.

Keas suffered bruises and head injuries, Racer from shock and bruises. Others hurt, all in the Racer car, were Betty Parrish, 27, Valentine Ponan, 47, and James Burgess, 12, all of Toledo. They were removed to Herrick Memorial Hospital here for treatment.

Horace Nelson, 33, Detroit suffered arm and knee injuries in an accident Saturday night seven miles west of Clinton on US-112. He was a passenger in a car driven by James Butterfield of Detroit. The Butterfield car ran off the pavement and then turned over when the driver lost control. Nelson was treated at Herrick hospital here and Butterfield was given a summons for excessive speed.

William D. Thorpe, 19, Toledo, suffered head injuries in an accident on US-112 two and a half miles west of Clinton, Sunday morning. Police said that a vehicle driven by Samuel Wines, 19, Toledo, in an Ohio National Guard convoy enroute from Grayling to Toledo, was hit in the rear by another car driven by John Koechley, 17, Toledo. Koechley suffered head cuts. Both men were treated at Herrick Hospital here.

Cars driven by Henry Ivan, 28, Britton and Thomas Everlove, 19, Tecumseh, were involved in an accident just west of the Monroe county line on M-50 Saturday evening. Ivan was given a summons for failing to signal for a right turn and Everlove for failing to stop in an assured clear distance ahead.

Four Toledoans were hurt about noon Saturday when a car driven by Clarence May, 57, Chelsea, ran into a car parked by Theodore Czubachowski, 34, Toledo, in the village of Clinton. The injured, passengers in the parked car, all of Toledo, were treated by Clinton doctors.

SWEDES SHOT DOWN BY RUSSIANS . . . Four of the crew of a Swedish reconnaisance plane, shot down by Russian jet fighters, are welcomed, after rescue, back home at Barkaby airfield, Stockholm. The Swedish plane, a Catalina-type, had reported by wireless that it was being attacked by Russian fighters. Several minutes later it reported that it was hit. It was attacked 34 miles from Soviet territory as it searched for a lost Swedish bomber. A German trader picked up the crew of the plane shot down by the Russians and put six members of the crew off at Finland from where a Swedish plane transported them back to Stockholm. Signs of strain are still visible on their faces.

FAIREST OF THE UNITED NATIONS . . . Rene Malhame (center) of Lebanon was judged "Miss United Nations" at a fashion show held at the Waldorf Astoria hotel in New York City. Young women of the United Nations colony were models at the show. Close contenders for the title won by Miss Malhame were Blanca Alvarez (left) of Venezuela and Myra Yaron of Israel. Many types of feminine beauty from far away lands competed in the show that designated Miss Malhame as the fairest.

Queen of Beauty Queens To Be Named at State Fair

The first call has been issued by the Michigan State Fair for "The Queen of all Michigan Beauty Queens."

Her title will be "Miss Michigan State Fair of 1952" and she will be chosen by nationally known judges and named on Wednesday, September 3. Governor Williams again will crown the lady. The State Fair opens August 29 and runs through September 7.

To qualify for the State Fair contest the candidate must have won a sponsored Beauty Contest in Michigan since the last State Fair. She must be at least 17 and not over 25 years of age.

Only one Queen may be sent by the sponsoring group which pays the Queen's expenses. Entry must be made by August 20 on an official entry blank and mailed to the State Fair in Detroit to the attention of Graham T. Overgard, special events director.

The various queens will be invited to the opening day parade through downtown Detroit and to parades and other functions on the Fairgrounds.

Last year it was Miss Janet Lewis of Detroit who as "Miss All American Legion Girl" won the State Fair crown.

Here are some of the Queens who are expected for this year's contest: Eaton County Lions Club Queen, Cherry Pie Baking Queen, Shiawassee County Fair Queen, 1952 Flushing Homecoming Queen, AuGros Onion Queen, Blue Water Queen, Bean Queen, Lapeer Day Queen, Queen of Bay Port Homecoming, Midland Queen, Frankfort's Queen, Sugar Beet Queen, Trout Queen, Rose Queen, Lilac Queen, Upper Peninsula State Fair Queen, Hamtramck Queen, Fisherman's Festival Queen, Miss Straits of Mackinaw, Peach Queen, Pickerel Queen, Snow Queen, Grape Queen, Miss Photo Flash of '52, Dairy Queen and others.

Boat Trips Cut Motorist Travel

SHORT FERRY BOAT RIDES ON GREAT LAKES ADD TOURING PLEASURE, TOO

Milwaukee—Cross-country motorists, traveling either east or west, don't have to drive all the way. A short inland water trip over any of Lake Michigan's auto-ferry systems between Wisconsin and Michigan shores saves both driving time and mileage.

Railroad men have been saving time this way for years, for the largest car-ferrying system in the world is found here on Lake Michigan which has a fleet of 14 vessels operating out of eight ports. In the summer, most of these ships which specialize in railroad freight cars go into the tourist business and carry autos and passengers.

One line, the Wisconsin & Michigan Steamship Company, which travels between here and Muskegon, Mich., is devoted exclusively to auto and passenger traffic. Following an irregular schedule during the winter months when the SS Milwaukee Clipper transports well over 250 new autos each trip, it operates daily eight-hour sailings from May 16 to Sept. 8.

Due to the fact that no new passenger shipping has been built on the Great Lakes for many years, passenger traffic had fallen off considerably from the days when cross-lake excursions were frequent and offered by a number of lines. However, rebuilt from the hull up and given sleek modern lines in 1941, the Clipper did for lake traffic what the streamliners did for the railroads — gave new interest in lake travel.

Now motorists find that not ony can they save mileage and avoid congested areas — particularly that around Chicago and the industrial Gary concentration —but also they can have a pleasant taste of real ship life, traveling in a stateroom at night or taking a day trip.

In addition to the Clipper, auto-ferry service is provided during the summer by the Chesapeake & Ohio Railroad between Milwaukee and Ludington, Mich., between Ludington and Manitowoc, Wis., and between Ludington and Kewaunee, Wis. The Ann Arbor Railroad operates a system between Manitowoc and Frankfurt, Mich., and Frankfurt and Sturgeon Bay, Wis.

Tourists are advised, however, that the schedules of these combination railroad-auto ferries are dependent on freight shipments and are sometimes delayed.

500 BAND CONDUCTORS DUE AT U-M WORKSHOP

ANN ARBOR—Five hundred of the leading school band conductors in the United States will attend the Fourth Annual National Band Conductors Conference Workshop at the University of Michigan, July 21-26.

William D. Revelli, director of University Bands, will be the general chairman. Featured during the week-long workshop will be such nationally known men as William Ludwig, of Chicago, an outstanding authority on percussion instruments; Eugene Carrington, educational director of the Allied Radio Corporation of Chicago; Earle L. Kemp, famed physicist who is connected with the Conn Band Instrument Company of Elkhart, Ind.; Phil Lang, musical arranger for such Broadway shows as "Guys and Dolls"; James Pellerite, solo flutist with the Detroit Symphony Orchestra; and Harold Brand, Euphonium soloist of the U. S. Navy Band of Washington, D. C.

If You Are A Woman, Vericose Veins Are Likely

The chances are eight to two that if you are a woman, you will have varicose veins after forty. But if you know the causes for unsightly dilated veins, you can help prevent them, says Andre Fontaine, or if you have them, you can keep them from becoming ulcerous and disfiguring. In McCall's for July, he describes three type of varicosity and tells you things that might help in some cases:

"Varicose veins are ugly, unpleasant and widely pervalent. Although millions of women suffer from them, most have either no information or a hatful of misinformation about them. And since statistics make you a likely candidate for this defection of your body there are things you ought to know about it.

"There are at least three kinds of dilated veins. The commonest type occurs when the valves in your veins are damaged. These valves, which operate a little like one-way doors, normally open to let the blood through on its way up to your heart, then slam shut again to keep it from falling back. When one valve fails to work, the valve below it carries a double load and the vein involved distends under the pressure —in other words, becomes varicose.

"Mild cases of varicose veins can sometimes be handled by injecting the vein with a solution which causes the walls to thicken until the vein is filled solid. The blood then detours around the blocked section. An auxiliary section will take up the load without too much difficulty.

"The other two types of dilated veins are much rarer than simple varicose veins. Thrombosis occurs when a vien is blocked by a blood clot. Once it's blocked the blood backs up, like water behind a dam, and the pressure of it causes the vein to distend.

"The third kind of dilated vein, called 'arterial varices,' occurs when blood is pumped directly into a vein from an artery. In some people the blocks that close the connections between arteries and veins shortly after birth aren't too substantial, and under strain they give way. Blood from the arteries is pumped into the relatively thin-walled veins which can't take the pressure and blow up like a balloon.

"These are a few of the ways to prevent or help varicose veins.

"Don't wear elastic garters or anything else tight around your legs.

"Dont' stand still a lot. Move around as much as your work permits, or sit down.

"If you have defective arches get them tended to promptly. They twist your legs around, and prevent the bolod from flowing freely.

"When you have to lift something heavy see if you can't train yourself to take a deep breath first and hold it while you're lifting. This helps pull the blood up from your legs. Otherwise, you put a strain on your leg veins.

"Stop smoking. Tobacco causes spasms in blood vessels.

"And, of course, see a doctor promptly."

Schools Do Not Meet Demands of Industry

Education today lacks realism from the standpoint of the modern work-a-day world, a University of Michigan educator contends.

Ralph C. Wenrich, professor of vocational education, claims that it is a mistake to give all young peoplet he same kind of instruction. His opinion is that:

"If we insist on giving all youths a general or college-preparatory secondary school education, we are not giving them an equal opportunity to succeed in life."

He points out that less than eight per cent of Michigan's labor force is engaged in the professions, while approximately 65 per cent is in industrial pursuits, about 20 per cent in business, and fewer than eight per cent in agriculture.

"Educational opportunities in Michigan high schools are definitely slanted in favor of students planning to go to college to study a profession," the educator charges.

"But unfortunately less than 25 per cent of our youth are attending high schools which provide the opportunity to get an education for work in industry. This is in spite of the fact that in Michigan 65 per cent of our labor force is employed in industry," Prof. Wenrich asserts.

"It's time we recognized that such values as honesty, appreciation of beauty, devotion to truth, respect for excellence, and the pursuit of happiness can all be taught in a vocational program.

"The beauty of the grain of a walnut board or the odor of freshly cut pieces of pine lumber can be the source of cultural stimulation in no less degree than oil paintings and symphonic music," Professor Wenrich declares.

SAY IT ISN'T SO! . . . Strange indeed is water spouting from a Pittsburgh electric light pole. A water main beneath the surface apparently sprung a leak and pressure caused the water to rise in the hollow pole. Holes in the pole provided spigots. No one would have believed this if merely told about it, but fortunately the cameraman was on hand at the right time, and here is pictoral proof of a light pole making a hydrant. Police are taking the phenomena as a matter of course in a calling that involves many strange events.

Cooperation Is Urged In Water Conservation

For their own protection, townspeople should cooperate promptly and willingly with their water departments in conserving water during hot weather, the state health department said today.

A satisfactory quality of water is tied in closely with water pressure, John Hepler, Director of the Division of Engineering, stated. Whenever water pressures are down, water works operators and health officials must start immediately to make tests to assure that quality is maintained.

While most towns in the state have an adequate water supply for normal requirements, the abnormal use during hot weather may more than double the average daily consumption.

"When pressures get so low that you can't drow water from second and third floor faucets, it's high time regulations were imposed," Mr. Hepler said. "Municipal officials must furnish a safe water and to do that they must keep the water pressure up. It may be temporarily necessary to sacrifice the green appearance of the lawn, but from a standpoint of health and fire protection it is more than worth it. Cooperation with the water department at such times is a community necessity."

Many communities have plans, others are planning, and still others should plan to develop feeder mains for outlying areas to assure adequate supplies and normal water pressures at all times, he declared.

BOTH KINDS ARE NOW CORRECTED WITH AID OF SURGERY, DOCTOR SAYS

Two forms of impaired hearing out of the three types recognized among the 15 million deaf people in this country can be corrected through surgery, states a University of Michigan physician.

The first type, usually observed in children, may result in permanent affliction if allowed to go untreated, Dr. Albert C. Furstenberg, dean of the Medical School, explains. It usually is due to pressure within the middle ear and is caused by a mass of adenoids which closes the opening between the ear and nose.

He points out that correction of this condition is often simple and that hearing is usually restored by removing the adenoids.

Another hearing defect is caused by a disease which, until recently, has resisted all forms of treatment, he asserts. It is now corrected through a new technique in surgery which is a highly technical procedure and performed under magnifying glasses.

Dr. Furstenberg explains that the disease, known as ostosclerosis, causes extra bone to form and grow within the middle ear, beyond the ear drum, along which the sound waves are transmitted to the nerve of hearing.

There is no known medical treatment of any value in this type of hearing defect, he states. The only way to corect it is a surgical one called the fenestration operation. This is the new technique that creates a window through the bone covering the hearing nerve and opens a new route for sound waves to travel to the nerve of hearing.

This operation cannot be recommended as a positive cure for all deafness, Dr. Furstenberg cautions. But persons who have this particular form of deafness usually obtain serviceable hearing after surgery has been employed.

The general type, and by far the form with the highest percentage of cases and common in adults, is the so-called nerve deafness. It is due to some degree of degeneration of the nerve of hearing and is often caused by poisons in the blood stream, such as that produced by scarlet fever, measles, mumps, infected teeth and other diseases.

Unfortunately, there is no medicine, operation or any form of teratment that will restore the hearing to normal, he says, once this sensitive hearing nerve is damaged.

ANNUAL MEETING

(Continued from Page Four)

cil whose purpose it is to operate the Recreation Field and also become associated with the newly formed South Eastern Michigan Conference in Athletics.

Adult Education classes were held and fifty-two enrolled in six classes. The P.T.A. was active throughout the year and a rather outstanding banquet was held by the Alumni. The young adult farmers classes have been very successful this year. The School Nurse and Speech Correctionist were active throughout the year and their programs well received. The Veterans' Institute functiond throughout the year.

Buildings damaged by fire and burglary were fully covered by insurance.

Since the annexation of District No. 5, it has been necessary, because of State Library Rules, to hire a fully qualified head librarian, with Miss Harding remaining as assistant. Other library improvements have also been authorized.

The State Department of Public Instruction audited our child accounting and financial records in February and complimented us on our carefully and accurately kept records.

Custodians received a raise in salary in July and a revised Teachers' Salary Schedule prepared through the cooperation of the teachers, Board of Education and Administration was approved in February. The new schedule encourages teachers to furthr their education and is in keeping with other advanced procedure in this State.

Tecumseh is fortunate in having a superior percentage of advanced degree personnel.

Tecumseh schools cooperated with the State Department in presenting the questionairre, "How Would You Answer This?" to the public. Constructive criticisms have been carefully examined and remedies studied.

The plan for division of grade and junior high school pupils into heterogeneous groups was recommended by the administration and teachers and adopted by the Board for the Fall of 1952. No longer will children be divided into fast, medium or slow groups in Tecumseh.

As I conclude this report may I mention my personal appreciation to the excellent Board of Education with which it has been my privilege to work and to the people of this community who have so willingly cooperated in all our school projects. I am proud to have been your superintendent during this busy and important year.

James McDowell, Superintendent of Schools

Miss Ruth Harding, Librarian, requested Mr. McDowell to read the Annual Report of the Librarian which she had prepared. It was approved upon motion by Mrs. Hilda Will, seconded by Mr. Fred Dickinson.

Public Library Budget 1952-1953

Receipts Cash Balance on hand July 1, 1951 was included in the General Fund cash balance as explained in the Public School Budget, consequently there is no cash balance on hand.

Mr. McDowell reported that Dr. R. F. Helzerman, having filed a petition in order, was eligible by law to the Board of Education. The Election Board, Mr. Rudy Mead, Mr. H. H. Hanna, and Mr. LeRoy H. Titley, presented their reports which, when canvassed, gave Dr. Ralph F. Helzerman unanimous election to the Board of Education for a three year term. Seventy-three votes were cast. The proposition, "Shall School District No. 7, Tecumseh Township (Tecumseh Public Schools), Lenawee County, Michigan, furnish transportation by bus of pupils to public schools in this district who live more than one mile from the schoolhouse?" was passed by a vote of 63 to 6,, total votes cast—69.

The proposition, "Shall District No. 7, Tecumseh Township (Tecumseh Public Schools), Lenawee County, furnish funds for transportation by private car of pupils to public schools in this district who live more than one mile from the schoolhouse?" was passed by a vote of 52 to 17, total votes cast—69.

Following some discussion concerning transportation problems, upon motion by Mr. H. H. Hanna, seconded by Mr. Fred Dickinson, the meeting was adjourned.

Miss Alice Chinchik Bride of Marvin G. Sell

Friday evening, July 18, Miss Alice Chinchik, daughter of Mr. and Mrs. Daniel Chinchik of Blissfield, became the bride of Marvin G. Sell, son of Mr. and Mrs. Dayton Sell of Clinton, in a pretty wedding at the home of her parents. Baskets of white flowers and garlands of lalac leaves afforded the rooms. The Rev. Murray Hewgill of Clinton, performed the ceremony.

Mrs. Leo Corbett of Blissfield, furnished a background of organ music and accompanied the Misses Marlys and Evelyn Arnold of Tecumseh, who sang "I Love Thee", "Because" and "The Lord's Prayer."

A gown of imported Chantilly lace over white slipper-satin featured the ballerina length, long-sleeved gown worn by the bride. A pointed, stand-up collar revealed a singe strand of pearls, a gift of the groom. The headpiece of white French lilacs secured the illusion elbow length veil. The bride carried an orchid corsage on a white fan background.

Attired in a ballerina length, pink net gown, Miss Bettydel Smith of Detroit, served as bridesmaid. She carried an arrangement of rubrum lilies.

Elwyn Sell of Clinton served his brother as best man.

Mrs. Chinchik, mother of the bride, wore a cocoa-colored lace dress over taffeta and Mrs. Sell wore a dress of old rose.

Mrs. Sell is a graduate from Detroit Business College and the Detroit Institute of Musical Arts. Mr. Sell is a graduate of the University of Michigan and a member of the Delta Sigma Phi fraternity.

Following a reception at the Lenawee Country Club, in Adrian, the newlyweds left on a wedding trip through Canada, after which they will reside in Blissfield.

Guests attended from Ypsilanti, Adrian, Clinton, Blissfield, Detroit, Tecumseh and Cadmus.

When serving soup on the porch or in the backyard, plan one that can be poured easily from a pitcher and sipped from a cup. Dispenses with spoons and a space-taking tureen.

From where I sit ... by Joe Marsh

Me—Advising a Banker!

The Missus and I were invited to dinner over at Balesville the other night. I sat next to a banker from the state capital.

"Mighty nice country you've got down there," he says. "Don't be surprised if I come to live there myself. In a few years I plan to get away from everybody, buy a farm and just take it easy."

"Well," I told him, "we'd like to have you. But when someone plans to buy a farm and 'take it easy' he often winds up working harder than ever. It takes *work* to run a farm right no matter how many hands you can afford to hire.

"And from where I sit," I continued, "you won't 'get away' from people either. Neighbors are plenty important in a farming community—whether it's helping one another out or just friendly visiting over a sociable glass of beer." "Hard work and neighbors dropping in all the time?" he asks, looking at me over his glasses. Then he smiles and says, "Sounds wonderful. You've just sold me on a farm."

The work will consist of placing 20 Ft. Bituminous Aggregate Surface Course (4.01) on the Existing Surface.

Completion date for entire project November 15, 1952.

The Department's Standard Specifications (1950 Edition), its current Soils Manual, the plans for this project, the special provisions governing subletting and assigning the contract and the employment and use of labor, and the proposal blanks (all of which are essential parts of the contract) may be examined at the district office of the Department at Redford, Michigan, at the County Road Commission, Adrian, Michigan, and at the Michigan Road Builders Association, Lansing, Michigan, but may be obtained only at the office of the Contract-Estimate Engineer, 222 Townsend Street, Lansing, Michigan, up to 5 P.M. of the day preceding the opening of bids. A fee of three dollars will be charged for furnishing plans or proposal blanks, which will not be refunded.

Full cooperation in carrying out the special provisions will be required. Minimum wage paid to labor employed on the contract shall be as follows: Skilled labor $0.95 per hour. Intermediate labor $0.85 per hour. Unskilled labor $0.75 per hour.

A certified or cashier's check on an open, solvent bank, in the sum of $2,000.00, payable to Charles M. Ziegler, State Highway Commissioner, must accompany each proposal. All such checks will be returned promptly after the bidding, except that of the lowest bidder will not be returned until execution and delivery of the contract to the State Highway Department.

The right is reserved to reject any or all proposals.

VACATION MOTOR TRIP

If You Own a Buick or a Chevrolet, See Us First

If you drive a Buick or Chevrolet, and are planning a motor trip, see us before you leave. Let our mechanics check your car, your battery and your tires to determine their condition.

It's no fun on a motor trip to have car trouble. And there's no reason for it, either. Careful inspection of your car before you leave can avoid on-the-road difficulties.

If you're planning a trip, stop in for a check-up. It's the best insurance you can buy.

We'll be happy to be of service to you at any time.

Voters To Polls, Aug. 5

HEAVY BALLOTING FORECAST IN TECUMSEH, NEARLY 2,800 ELIGIBLE

With approximately 2,800 voters registered and eligible to cast their ballots in the primary election on Tuesday, August 5, one of the heaviest votes in Tecumseh township's history is fore cast.

Voting, as in the past, will be done in the Council Building on South Evans street. The polls will be open from 7 a.m., until 8 p.m., Eastern Standard Time.

For the first time in Tecumseh in more than 40 years, voting machines will be used in the election. The township has rented six of the machines for use next month and in November and, if officials are satisfied with their operation the rental price may be applied against the purchase price of the equipment.

In next Tuesday's election, a voter must choose his party, either Democratic or Republican. It is imposible to vote for candidates on both tickets in a primary, under Michigan law.

The Republican party has entered candidates for all offices to be filled, national, state and in the county. The slate is as follows:

For governor, Fred M. Alger, Jr., Donald S. Leonard and William C. Vandenberg. Mr. Alger at present is Michigan's secretary of state, Mr. Leonard is former commissioner of the state police, and Mr. Vandenberg is Michigan's lieutenant governor.

For lieutenant governor, Harry Henderson, Clarence A. Reid, George W. Welsh and David E. Young.

For United States senator, Eugene C. Keyes, John B. Martin, jr., Charles E. Potter and Clifford Prevost are the candidates for full term nomination. For United States senator to fill vacancy for the term ending January 3, 1953, the candidates are Mr. Martin and Mr. Potter.

For representative in congress, Arthur P. Lopshire, Macon farm-

GRENVAL SPANGLER OFFERS TO DISCUSS ISSUE WITH JAMES BEARDSLEY

James C. Beardsley, local attorney and president of the Young Republicans Club, in a communication to The Herald two weeks ago, was critical of the Republican party for its failure to take a definite stand on certain controversial issues. The general feeling prevails in both parties, he declared, that a stand must be taken on controversial matters in a way that is calculated to produce the most votes, rather than on the side that is right.

"Certain issues are absolute," Mr. Beardsley wrote, "and upon which there can be no difference in opinion. I refer to such matters as farm subsidies, union monopolies and lack of limitation on income tax. These are three of the main issues which I declare to be wrong and upon which most politicians fail to take a definite stand."

Beardsley then threw down a challenge to debate any of the issues, at any time, with any adversary.

Grenval Spangler of Tecumseh has agreed to debate one of the issues, through the columns of The Herald, with the attorney. The issue to be discussed is the proposed ceiling on income taxes.

Beardsley's thoughts on the tax ceiling are printed herewith. Next week, Mr. Spangler will be given an opportunity to express his views.

Beardsley's discussion follows: I am happy to announce that Mr. Grenval Spangler of Tecumseh has accepted the negative of the views which I expressed in last week's Herald. We are both agreed that issues of this sort have been kept too long from the public forum. We have decided to treat upon the

DOG IS RESCUED IN HIT-RUN ACCIDENT

Friday afternoon at 5:15, a hit-run driver struck a small black cocker dog in the street in front of the Tecumseh Electric Supply on W. Chicago boulevard. George Derby went to the animal's rescue. After giving first aid he kept the dog in the store until Saturday when, apparently more scared than hurt, it ran out of the building and probably to its home.

If some child missed his dog Friday night, it was in good hands, thanks to Mr. Derby. The driver of the hit-run car did not stop.

22 Adrian Women at Golf Meet on Wednesday

Twenty-two women of the Lenawee Country Club of Adrian were guests last week Wednesday at the Tecumseh Country Club. Golfing in the morning and afternoon was enjoyed. Winners in the Adrian group during the day were Mrs. Bea Hazen, Mrs. Marjorie Hamsen, Mrs. Rose Leone and Mrs. Jean Horvath. The Tecumseh winners were Mrs. Hal Kelso, Mrs. Bert Ousterhout, Mrs. Vincent Haight and Mrs. Paul Clauda.

The golf committee for the day was Mrs. O. W. Laidlaw, Mrs. R. H. Moore and Mrs. A. L. VanWinkle. They were assisted by members of the regular committee. Several of the Adrian women remained for the luncheon and cards in the afternoon. The hostesses were Mrs. P. G. Colgrove, Mrs. Richard Preston, assisted by Mrs. Jessie Sluyter, Mrs. Frank Smith, Mrs. Kelso and Mrs. A. W. Merz.

The women golfers of the Tecumseh club were guests of the Monroe Country Club, Wednesday.

TWO LOCAL STUDENTS GET DEGREES TODAY

Two students from Tecumseh will be graduated from Western Michigan College, Kalamazoo, at commencement exercises to be held this evening, July 31.

They will be among 193 students who will receive degrees. Dr. Luther Gable, mining engineer, will give the commencement address.

Those graduating with the degrees they will receive are: Lela Colson, 107 Pottawatamie street, Bachelor of Science, and Helen Sisson, Munger Rd., Bachelor of Arts.

BARN FIRE EXTINGUISHED

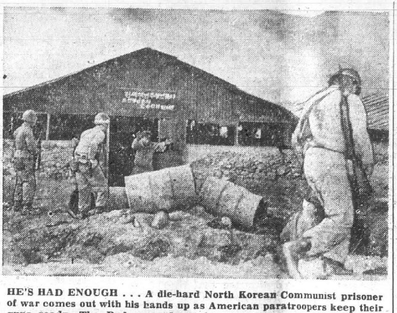
The fire department was called to the Victor Voorhees farm, Pennington Road, northeast of here, Saturday morning at 9:20. Straw in the loft of a large barn had ignited, but it was extinguished before the department arrived. It is believed that the fire must have started from sparks from a tractor, which had been driven off the barn floor, about 20 minutes earlier.

AT BANKING SCHOOL

Merlyn H. Downing, an assistant cashier of the United Savings Bank of Tecumseh, and Journey Stoner, note teller, will complete a two-week course at the University of Michigan School of Banking at Ann Arbor, this week. They will return to their duties in the banking offices here, Monday.

NO ROTARY MEETING

There was no meeting of the Tecumseh Rotary Club on Tuesday of this week, because the month of July has five Tuesdays. Regular meetings will be resumed on Tuesday, August 5, at 6:15 p.m., at the Country Club.



HE'S HAD ENOUGH . . . A die-hard North Korean Communist prisoner of war comes out with his hands up as American paratroopers keep their guns ready. The Red surrendered his stronghold after "get tough" assaults had broken up some large prisoner compounds. The "get tough" policy has been adopted by the U.N. forces to keep the compounds broken up into smaller enclosures and to keep discipline over all prisoners on the island, whether or not they are lodged in compounds.

Police Ask For Cooperation In Holding Down Double Parking

Police Chief George Kilbourn believes that there is too much unnecessary double parking in downtown Tecumseh and, for that reason, he is asking the cooperation of motorists in holding such a practice to the minimum, in an effort to avoid the issuance of traffic summonses.

"We don't want to get rough or tough," Chief Kilbourn said, "but there is at the present time too much unnecessary double parking in the downtown district. By too much double parking, I mean that motorists are leaving their cars double parked and unattended for 10 and 15 minutes at a time."

The chief declared that he dislikes issuing parking tickets to everyone who double parks for a minute of two to run in to a store to buy a newspaper or pick up a loaf of bread. But he does think that when cars are left for more than five minutes the practice should be discontinued.

"We know that the public moves on wheels, and that everybody is busy trying to make their minutes count, but so are the people busy who have parked their cars properly at the curb, and have deposited their money in the parking meters for the privilege. When properly parked cars cannot move because they are penned in by double parkers, that is wrong, too," Kilbourn said.

The chief also urged that all double parking be discontinued between 3:30 and 4 p.m., the period when factories are changing shifts and traffic is extremely heavy.

"When cars are double parked at the 3:30-4 o'clock period, it makes the movement of traffic dangerous," he said.

"We want to cooperate with the public," Kilbourn said. "We don't want to give anybody a traffic ticket unless it is necessary. That is why we're asking the motorists to play fair with us. If they'll do that, then we'll be fair with them. However, if they fail to heed our warning, and clutter up the streets too much, so that it is difficult for traffic to flow, then there is nothing left for us to do but enforce the no-double-parking ordinance. I'm certain, however, once the public understands our problems, motorists will be glad to cooperate."

JAMES JOHNSTON HURT WHEN AUTOS COLLIDE

James Johnston, 69, of Rt. 2, Tecumseh, is a patient in Herrick Memorial Hospital, suffering from injuries received Saturday morning at 8 o'clock in an accident at Murphy and Allen Roads, northeast of Tecumseh.

Mr. Johnston's car and one driven by Matt Walden, 24, of Clinton, R.F.D., collided at the intersection. Mr. Johnston suffered head injuries, a broken shoulder and six broken ribs.

Softball League Tied After Monday's Games

Standings in the Recreation Center Soft Ball League after Monday evening's games are still tied.

The FFA again forfeited its game to Dick's Standard Service, because of a lack of players. The Jokers defeated the V.F.W. Explorers in the second game at 8:30. Sam Hamilton was the winning pitcher, and Bruce Packard the losing pitcher. The Jokers again had too much power for the Explorers. The light air made possible three Joker home runs in the sixth inning. James Whitecotton proved to be the Explorers defensive star with three spectacular catches in center field.

The season's standing to date are:

Butler Motor Sales Is Host at Service Meet

Thirty-five mechanics from Ford garages in this area were guests, Monday evening, at a service meeting, sponsored by Butler Motor Sales in Tecumseh. Towns represented included Clinton, Blissfield, Adrian, Hudson, Fayette, Morenci and Tecumseh.

Marion Diedrich, a representative of the Ford Motor Co., and four service travelers from the company, were present and discussed with the group ways and means of improving service to customers. Later, several movie films were shown. At the conclusion of the meeting, Charles O. Butler and members of his organization served a lunch.

It was decided to hold similar meetings, probably monthly, with dealers in other town represented as hosts.

BRITTON PLANS FOR HOMECOMING, AUG. 15-16

The Independent Order of Oddfellows will sponsor a homecoming in Britton, Friday and Saturday, August 15-16. A feature will be an amateur contest, the winner of which will be eligible to compete in an all-county contest later with a $100 savings bond as first prize. Anyone in the Britton area is eligible to enter the contest. They should contact Earl Griffen for entry blanks.

Attractions at the homecoming include a merchants' display, games, kiddie rides, and varied entertainment with many prizes.

Indians Lose In Semi-Finals

FIVE LOCAL BOYS, HOWEVER, WILL PLAY ON ALL-STAR TEAM IN ANN ARBOR

The Tecumseh boys lost to Adrian by a score of 6-4 in the semi-finals of the Hearst Times Baseball Tournament, held in Adrian last week. The semi-finals were played at the Island, Saturday afternoon at 2 o'clock.

Due to rain Monday and Tuesday, the tournament did not get under way until Wednesday. Tecumseh played the Morenci team Wednesday evening at Riverside and defeated them by a score of 10-2 in a brilliant two hitter pitched by Jim Breitenwischer. Bill Benham was the star of the game hitting a single, double and a four-run homer.

The Tecumseh boys defeated the Clinton boys, Friday evening at Riverside Park with Bill Benham pitching for the local team. He shut out the Clinton team allowing only one hit. The final score was 9-0.

Coach Elvan Duvall was in charge of the team and also will coach the All Star Team in Ann Arbor in play August 2. Five boys from Tecumseh, Bill Benham, Jim Breitenwischer, Gale Fisher, Jack Betzoldt and John Sisson, will play on the All Star Team. The team will be composed of boys from Blissfield, Tecumseh, Morenci, Adrian and Clinton. Boys will be picked from each team playing in Ann Arbor to play later in the game at Briggs Stadium.

Former Pastor Dies Suddenly

REV. JAMES C. MURDOCH SUFFERS STROKE AT HOME IN MORRIS, ILLINOIS

The Rev. James Cameron Murdoch, former pastor of the Presbyterian church here, died in his home at Morris, Illinois, last Thursday morning at 11 o'clock following a stroke which he suffered two days earlier. Funeral services were held Saturday in the Morris Presbyterian church, with burial in Evergreen Cemetery in that city.

The Rev. Mr. Murdoch came to Tecumseh in April of 1942 from Detroit following a year's retirement made necessary because of ill health. He served the Tecumseh church as its pastor until 1947 when he moved to Princeton, Ill., to become the pastor of the Presbyterian church in that city. He accepted the pastorate of the First Presbyterian church in Morris in July of 1951.

Under his leadership in the church in Morris the membership there had grown an average of two persons per week. A building fund of $51,000 was also raised and plans were under way for an extensive building program.

Survivors are the widow, Catherine, five sons, James of Ann Arbor, John of Chelsea, Douglas of Tecumseh, George with the U. S. Navy, now stationed in Hong Kong, China, and Robert, also in the Navy, somewhere at sea; a daughter, Mrs. Lucille Reinhardt of Royal Oak; his parents, Mr. and Mrs. John Murdoch of Leamington, Ont., Canada, three sisters, Mrs. Anne Hopwood, Mrs. Jean McAlpine and Mrs. Elizabeth McAlpine, and four brothers, Douglas, Cameron, Wallace and Allan Murdoch, all of Detroit.

Mr. and Mrs. Douglas Murdoch and James Spooner of Tecumseh attended the services. Mr. and Mrs. Murdoch left here last week Tuesday evening, after his father had been stricken, and were in the home in Morris at the time of the father's death.

Mrs. James C. Murdoch expects to remain in Morris for a few weeks and she then may come to Tecumseh to join her son and wife. Douglas Murdoch is a member of the faculty of the Tecumseh Public Schools.

Student Nurses See Farm Life

WAYNE GIRLS VISIT RURAL AREAS TO LEARN MORE ABOUT AGRICULTURE

In order to better acquaint the Wayne University student nurses, training at Herrick Memorial Hospital, with the agricultural aspects of rural living in Tecumseh, Miss E. Simonson, public health nurse here, and Paul Burns, vocational agricultural instructor at the high school, participated in a discussion of farming and conducted a tour of two farms, during the past week. The tour included the Meadowridge Dairy Farm at Ridgeway, and the farm of Lawrence Young and family.

Dale Dean, manager of Meadowridge, discussed with the students the skills and scientific knowledge involved in the raising of registered Jersey cattle. He answered many other questions which aided the students in better understanding the operation of a large-scale dairy farm.

Although Mr. Young was busy harvesting grain, he took time off to show the students his barns, his dairy cows, and points of interest on the farm. Here again, the students saw the scientific reasoning applied in order to conserve energy and at the same time produce more from the family farm. Mrs. Young added much to the tour by showing the students the conveniences of the modern farm home.

There are four Wayne students training at the local hospital. They expressed their appreciation to Miss Simonson, Mr. Burns, Mr. Dean and Mr. Young and his mother for the interesting and educational tour.

Carl R. Williams, 53 Tecumseh Farmer, Dies

Carl Raymond Williams, aged 53 years, died at his farm home on Russell Road, Sunday evening at 7:45, after an illness of six months. Born in Big Rapids, Feb. 28, 1899, he was the son of the late Fred and Kittie Wermeth Williams. He had been on the farm here for 10 years, and spent his entire lifetime in Lenawee county. He was a member of the Clinton Congregational church and the Raisin-Tecumseh Farm Bureau.

Survivors are his wife, Bernice Marie Ruesink Williams, two daughters, Mrs. Elberta Finkbeiner of Saline and Mary Ellen at home, two sons, Corp. Rogers Williams, Ft. Worden, Washington, now home on 30 day emergency furlough, and Richard at home; two grandchildren, Donald and Barbara Jean Fiukbeiner; one brother, Richard of Detroit; seven sisters, Mrs. Chester Schulz, Mrs. Jack Hammill, Mrs. Russell Watson and Mrs. Elwood Kilbury, all of Onsted, Mrs. Ruby Smith of Adrian, Mrs. Doc Edwards of Tecumseh and a sister Lorraine, in California. He was preceded in death by his parents, a brother, Archie, and a sister, Mrs. Floyd Parsels.

Funeral services were held Wednesday afternoon at 2 o'clock, at the Green Funeral Home with the Rev. Murray Hewgill of Clinton, officiating. Burial was in Tipton cemetery.

Korean Vets To Get Federal Aid

COMPENSATION, SIMILAR TO WORLD WAR II PAYMENTS, TO BE MADE BY U. S.

Federal Unemployment Compensation for Korean veterans, similar to the Servicemen's Readjustment Allowances paid World War II veterans, will be paid after October 14, 1952, Clifford Rice, manager of the Adrian office of the Michigan Employment Security Commission announced today. This announcement is made in response to dozens of daily queries at M.E.S.C. branch offices throughout the State, Mr. Rice said.

The payments will amount to $26 a week for not more than 26 weeks, and are paid by the federal government through the M.E.S.C.'s claims division. To be eligible, a veteran must have service in the armed forces after June 26, 1950, and must have been discharged under conditions other than dishonorable.

Unemployment Compensation under this program may not be paid within 31 days after discharge if the veteran receives $100 in mustering out pay; not within 61 days if he receives $200 of such pay; not within 91 days if eligible for $300. (This provision is inserted because $300 is paid overseas veterans with more than 90 days service; $200 to veterans with more than 90 days service in the United States, and $100 to veterans with less than 90 days service).

The veteran's Readjustment Assistance Act, under which this unemployment compensation is payable to veterans of the Korean conflict, provides that veterans must serve a one-week waiting period after their claim has been filed. They will be eligible for compensation in the second week, if still unemployed. He must be able to work, and available for work. If the veteran has benefit rights under any state unemployment insurance program, or under the Railroad Unemployment Insurance Act, he must first claim such benefits. In Michigan, Korean veterans' wage credits in employment covered by the Michigan Employment Security Act are frozen as of the time they entered military service. This entitles them to state benefits if they had previously earned any wage credits. However, Mr. Rice said, many of the Korean veterans have entered the armed forces without having any work experience at all. The Federal Act is of particular benefit to these young vets.

COUNTRY CLUB CONTEST STAGED SATURDAY TO AID HERRICK HOSPITAL

Jake Fassezke, former professional and two-time winner of the Michigan Open Golf Championship, now the pro at the Lenawee Country Club in Adrian, and Leo Bishop, pro at the Tecumseh Country Club, were defeated by Lloyd Gullickson, golf professional at the Inverness Golf Club, Toledo, and Frank Stranahan, internationally known amateur golfer, in an exhibition match at the Tecumseh Country Club, Saturday afternoon. In the best ball match, Stranahan and Guillickson won by a 63-65 score.

Individual scores were as follows: Bishop, 34-36 for 70; Fassezke, 36-35 for 71; Gullickson, 34-36 for 70; Stranahan, 36-35 for 71.

Prior to the match the golfers staged a clinic and exhibition for the more than 200 spectators who watched the contest.

The exhibition was staged by the Herrick Memorial Hospital Auxiliary as a money-raising venture to secure funds with which to purchase an ice-making machine for the hospital. All of the proceeds from the gate were turned over to the Auxiliary, and will be applied against the purchase price of the ice machine.

Teen-Age Golf Tourney Announced For August

Elven Duvall in charge of Tecumseh's summer recreation program, announced today that there will be a boy's teen-age and girl's teen-age golf tournament at the Tecumseh Country Club, Tuesday, August 5 for the boys, and Thursday, August 7 for the girls.

Leo Bishop will be in charge of the tournament and those wishing to enter are to report at 9 a.m. Two trophies will be presented to the winners (one for the boys and one for the girls).

VOTING MACHINES WILL SPEED UP RETURNS IN TUESDAY'S PRIMARY ELECTION

It'll Take About 20 Minutes To Count Tecumseh's Vote

Twenty minutes after the polls close on Tuesday, August 5, it will be possible to announce the result of Tecumseh's voting in the primary election.

The quick tabulation will be the result of the use of voting machines in this township for the first time in more than 40 years.

Normally, after a heavy election, it takes from six to eight hours and sometimes even longer to determine the result of the voting.

The polls will close next Tuesday at 8 p.m. As soon as the final vote has been cast, election officials will lock the machines, pull a lever or two and out comes the tabulation of the 13-hour-long election. All that becomes necessary then is to add the totals from each machine, (Tecumseh will be using six machines) and the final results can be obtained.

Voters should have no fear of using the voting machines in next week's balloting, LeRoy H. Titley, township supervisor, said.

"The voting machines are very simple to operate, they cannot be tampered with, and, in reality, electors will find their use much less difficult than handling the bed-sheet-size paper ballots of years gone by," Mr. Titley said. "We believe that once the voters in Tecumseh township have used the machines they would dislike returning to the old-fashioned method of voting."

One of the voting machines to be used in next Tuesday's election is now on display in the salesrooms of Butler Motor Sales in the Ford Garage Building. E. M. Campbell has been commissioned by the township board to be at the salesrooms each afternoon between now and the election, to explain the use of the machines to the voters. Scores of folk already have inspected the machine and have been instructed in its operation.

"We don't want voters to think that there is anything difficult in the use of the voting machine," Titley said. "Anyone who is at all timid about using one should go to the salesroom sometime this week or next Monday and watch it work. However, for those who find such a visit impossible, we will have instructors at the polls to assist voters and to explain the machine's use."

It is expected that Tecumseh will cast one of its heaviest votes in history on Tuesday. Approximately 2,800 persons are registered and eligible to cast their ballots in the primary.

What Do You Know About Canada?

Living only about 60 miles from the Canadian border, many folk in Tecumseh and Lenawee county visit Canada more often than they visit the Upper Peninsula of Michigan. They think nothing about a Sunday's pleasure drive across the international border, and they do it with very little more interruption than driving to Toledo in Ohio.

Recently, Canada has been discounting United States currency. We have inflation here and, it seems, Canada thinks our dollars are too cheap to compete with her dollars. Some of us may wonder just how Canada, "that small country to the north of us," can do it. Before we form any hardened opinion, lets' look at Canada for a moment.

Canada has an area of 3,845,144 square miles. The United States has an area of 3,022,387 square miles—small than Canada.

Canada ranks third among the top trading nations of the world, with only Great Britain and the United States ahead of it. It is the leading supplier of the world's copper, lead, zinc, nickel and aluminum, while 82 per cent of the newsprint now produced is grown in Canadian forests.

Canada's uranium resources rival those of the Belgian Congo. It is expected that next year 500 tons of uranium will be produced daily at a new mill in Saskatchewan.

Canada, it seems, is a dynamic land where today's goals are tomorrow's normals. Its future seems unbounded and its potential staggering.

Through free enterprise and the adventure of industrial pioneering, Canada has raised its gross national product 81 per cent since 1939 as compared to 61 per cent for the United States.

Canada's money is one of the strongest going currencies. That's why Canada is discounting United States currency about two cents on the dollar.

Perhaps we have been too busy "growing up" here in the United States to take time off to consider that Canada, too, has been growing up. We have taken for granted that the nations are big brothers, that we are all friends and that we shall always be friends. But we should remember that Canada is not the tail of our kite.

Discussing Canada's dislike at being taken for granted in the United States, Merrill Denison has written in the Saturday Review's "Report on Canada" issue:

"It would be a mistake to brush these things off as unimportant or inconsequential. Canada is very sensitive on these scores and has the capacity to get tough with us.

"Eighty per cent of our newsprint comes from north of the border: it could easily be rationed in the name of conservation. A large volume of our east-west truck and rail traffic passes through Southern Ontario: it could easily be regulated to a costly trickle . . . ."

And there are other pressures that Canada could bring to bear. But she doesn't and she wouldn't, because Canada is a staunch friend.

One Vote Can Be Important

There are many folk who will stay away from the polls come next Tuesday, August 5, the primary election date. They'll stay away because they think that their vote—just one vote—won't make any difference.

More times than you think, a single vote decides an election. One vote elected a president of the United States.

One vote made Texas part of this country; one vote admitted California, Idaho, Washington and Oregon.

One vote has decided hundreds and perhaps thousands of issues—some even more important to the people of a given community than who's president of the United States.

Rutherford B. Hayes became president of the U. S. by a single electoral vote. One vote in the House of Representatives made the draft act of World War II the law of the land, and called millions of men to service.

Before you decide not to vote next Tuesday, consider what one vote means. Perhaps your vote—just one vote—would change the election.

ONE VOTE is important.

Meadowridge MILK

Is The Milk You Buy Of Jersey Value . . . ?

Many dairy companies have their milk routemen carry Jersey milk to sell — at a premium price. Many wise patrons know the extra goodness and extra value of this best of all milk.

It is with pride that we point out that Meadowridge Milk prepared and distributed by the Tecumseh Dairy is almost wholly Jersey milk. The Meadowridge Farms, near Tecumseh, are among the world's finest Jersey Dairy farms. This extra quality costs no more.

NEW PLANE IN KOREA CAN CARRY 200 MEN

Tokyo—Giant C-124 Globemaster transports, each capable of carrying more than 200 passengers or 25 tons of cargo, are now making regular flights between Japan and Korea, Far East Air Forces have announced.

First regularly scheduled Globemaster flight was made early in July with Brig. Gen. Chester E. McCarty of Portland, Ore., at the controls. General McCarty is commander of the 315th Air Division (combat cargo), which handles the Korean airlift.

On the inaugural flight the Globemaster carried five jet engines weighing 23,000 pounds, 30 passengers, and its regular crew. It brought back airplane parts, 12,000 pounds of empty oxygen cylinders, and 30 passengers.

BIG BANG for the Bored Car Owner

Have you ever driven a Buick SPECIAL?

Do you know how it feels to touch off the most powerful engine you'll find in any car of its pounds and price?

Do you know that it almost steers itself—holds its course like an airliner on the beam—even comes back on course after taking a turn?

Do you know that there's silken magic in its Dynaflow Drive*?

Do you know how many miles it can get from a gallon of gas?

Do you know that it has a Million Dollar Ride?

Mister, if you haven't found out such things, you're missing a lot of fun every mile you drive.

You're missing the fun of bossing around a big hoodful of high-compression, valve-in-head Fireball 8 Engine.

You're missing the fun—and comfort—of riding on four big, soft, easy-acting coil springs.

You're missing the fun of feeling daisy-fresh with half-a-thousand thrilling miles behind you.

You're missing, in short, the fun of owning a Buick.

And it's nobody's fault but yours because—at the prices we're asking for this beauty—you can afford a Buick if you can afford any new car.

How about checking up on what you've been missing?

Macon

Rev. Vaughn Whited took seven Cub Scouts of Macon on a hike through Mrs. Mary Howell's woods recently. They cooked their dinner and returned to Macon for a swim. Everyone enjoyed the day.

Mrs. Lois Jordan and Mrs. Hamilton Moore attended the Ann Arbor District Seminar and Officers training school held in Blissfield, Tuesday. Mrs. Moore is district secretary of Children's Work. She attended the Seminar held Thursday at Grass Lake.

Mrs. Clayton Bigelow, Mrs. Herbert Morden, Mrs. Clarence Schroeder, Mrs. John Taylor and Mrs. Mike Papp spent Thursday in East Lansing attending the Homemakers conference.

Marjie Papp, Truman Jordan, and Dean and Donald Moore are spending this week at Judson Collins Camp at Wamplers Lake. Rev. Vaughn Whited is one of the counselors for this week.

Mr. and Mrs. Glen Reynolds, Jr., and daughter Mary Alice of Gibson City, Illinois, spent several days with Mr. and Mrs. Bert Bruder.

Walter Morden returned to the hospital in Ann Arbor Thursday.

Mr. and Mrs. Edward Furlong of Ypsilanti spent Sunday with her parents, Mr. and Mrs. Bert Bruder.

The annual Macon W.S.C.S. tea was held Thursday afternoon at the church. Ninety ladies enjoyed the talk and pictures shown by Lynn Wilson of Clinton. He spent part of the past school year in Germany. Mrs. Amos Wilson sang a number and played a piano solo. Mrs. Wilson also played the march for the ladies to go to the dining room where tea was served.

The Macon Youth Fellowship will meet with Dean and Donald Moore Sunday evening at seven o'clock.

Ernest Kollar, son of Mr. and Mrs. Paul Kollar, fell while combining this past week and broke his leg.

Mrs. Anna Hendershot has returned to her home near Tecumseh after spending several days with her daughter.

Farm Accidents Can Be Reduced

MISHAPS LAST YEAR COST THE LIVES OF 81 ON FARMS, REPORT SHOWS

Farm accidents caused 81 deaths in Michigan last year. This toll was recently revealed by the state department of health. And this costly loss is even greater when we consider also the crippling, handicapping injuries that cause so much lost time.

David Steinicke, Michigan State College farm safety specialist, says this report points up the need for National Farm Safety Week, July 20-26. The week should be the beginning of an all-out effort to cut farm accidents to a minimum. The Michigan farm and home accident toll can be cut nearly to zero, Steinicke reports.

There's a big "if" in that statement though. It is "if farmers and homemakers will eliminate all ten danger spots on every farm in their county."

A good way to begin a safe 12 months is to eliminate at least ten hazards on the farm right now, Steinicke believes. Here are some suggestions for eliminating hazards. Repair all defective steps and ladders. Remove all nails from loose boards. Clean yard of rubbish, garden tools, forks and hose. Avoid storing loose materials overhead, Steinicke urges.

Store gasoline out-of-doors, underground, or in an isolated building. Clean stairways of brooms, mops, tools, magazines and toys. Get rid of oil-saturated or paint rags. Build a safe bull pen to keep bulls in.

In addition, there are many more hazards that can be eliminated on every farm, Steinicke feels. Eliminating them may mean saving you or a member of your family from serious injury or death.

Clinic Helps Detroiter Regain More Normal Life

Three years ago William A. Floyd of Detroit was down for the count, but he got up at the count of nine to battle life again with a new hope found in the clinic of the University of Michigan Medical School's Department of Physical Medicine and Rehabilitation.

Following an automobile accident, Oct. 15, 1949, Floyd lay for two years with a broken back and his spinal cord completely severel before he decided to do something about it.

He entered the physical medicine and rehabilitation clinic at the University Hospital July 5, 1951. At the clinic, paraplegics, (persons with paralysis of the lower part of the body) are taught several ways to walk with crutches and are given hope for a more active life through the work of the clinic.

Under the direction of Dr. James W. Rae, Jr., medical director of the department, Floyd joined a group of patients similarly handicapped but all on the road back to a spiritual as well as a physical rebirth.

After a year at University Hospital, Floyd is able to walk with crutches. He uses the "swing two" gait which is one of the special ways the paraplegic is trained to walk. The "swing two" movement requires the patient to move both crutches ahead, rest weight on arms and move the feet forward to meet the crutches. At this point the weight is shifted back to the legs and the crutches are moved ahead again where the first movement is repeated.

Other gaits in which Floyd is proficient are the "four point" and the "swing through." These movements are taught by physical therapists who demonstrate the action before the patient and help him to master the technique. Whether a patient uses one or all of the gaits for movement depends upon the nature of his paralysis.

"We do not perform miracles," Dr. Rae points out. "Our aim is to help the patient make the most of whatever he has left. We attempt to restore an individual to the highest level that he is capable of reaching—physically, mentally, socially and economically.

"Floyd applied for and received a driver's license a few weeks ago. He went fishing recently without assistance. Now his future plans include employment which was made possible through job training at the University Hospital.

"We not only treat the individual's handicap. We also treat him from a psychologic standpoint as well. It is important that the severly handicapped patient be adjusted to family life, given job training and placement before he can return to society as a useful member."

HAPPY HOME BUILDERS PLAN FOR BARBECUE

The Happy Home Builders Class of the Baptist church held a family picnic at Wamplers State Park, Monday evening. During the meeting plans were made for another barbecue and ice cream supper to be held on the church lawn, Saturday evening, August 2, at 5 p.m., until all are served. In case of rain the barbecue will be held in the church. Mr. and Mrs. D. J. Cook, Mr. and Mrs. Lawrence Holdridge and Mr. and Mrs. Cy Bailey are the supper committee. Another barbecue will be held Saturday, August 16.

WIN CADDY MEET

During the recent Caddie Tournament held at the Tecumseh Country Club, Val Spangler and Tommy Neitling were the winner and runner-up and therefor were the two to take part in the Toledo Blade Caddie Tournament at Sylvania Country Club. Unfortunately, the two boys did not qualify. Val had a score of 98 and Tommy a 112. But both boys received trophies presented by the Toledo Blade Caddie Tournament for winning at the local golf course.

BAPTIST PICNIC

The Baptist Ladies Union will meet at the home of Mrs. Floyd Bryan, Thursday, August 7, at one o'clock for a picnic. Members are asked to bring sandwiches, table service and a dish to pass, unless otherwise notified.

Miss Mary E. Reasoner Weds Joseph Brown, jr.

The First Presbyterian church was the scene of an informal wedding, Saturday afternoon at 2 o'clock, when Miss Mary Elizabeth Reasoner, daughter of Mr. and Mrs. Bradley Reasoner of Tecumseh, became the bride of Joseph F. Brown, jr., son of Joseph F. Brown of Iron River. The Rev. George E. Walworth performed the single ring ceremony.

Mrs. Kenton Hunt, organist, played traditional wedding music preceding the ceremony, and the wedding march as the couple approached the altar.

The bride, given in marriage by her father, chose a street length dress of white lace over teal green, and to complete the ensemble a small lace hat and short veil, long gloves and a bouquet of white roses and bebe carnations. Mrs. James Smith of Tecumseh, matron of honor, wore a brown and white striped sheer nylon dress with white accessories and carried a bouquet of yellow roses and carnations.

Raymond Gaiser of Monroe, cousin of the bridegroom, served as best man. The ushers were George Reasoner, brother of the bride, and James Smith, both of Tecumseh.

A reception was held for 50 guests in the Fellowship Center of the church, immediately following the ceremony. Miss Virginia Reasoner, sister of the bride, was in charge of the guest book. Nancy Howell and Jean Durschell assisted with the serving. The bridal table was centered with a beautifully decorated wedding cake and summer cut flowers were used throughout the room. Friends and relatives were registered from Lansing, Osseo and Tecumseh. Mr. Brown's sister, Miss Bernice Brown of Iron River also attended.

Mrs. Brown is a graduate of the Tecumseh high school class of 1944 and Mr. Brown a graduate of Iron River high school. Both are employed by Admiral Corporation. Mr. Brown served two years in the Navy after graduation. The newlyweds are planning a two week's vacation in September. They are making their home at 209 South Evans street.

Ceiling On

(Continued from page 1)

income tax ceiling first. He will answer this letter in next week's Herald, and I will reply with a rebuttal the following week. No decision has been reached yet as to whether we will proceed with the other matters.

Although I am a Rpublican, I hope that those who disagree with me will not take it out on the Republican party in November. Perish the thought! I speak for myself alone.

I will proceed with my reasons why I feel that a definite, percentage-wise ceiling should be placed on the income tax:

1. The economy of this country was originally dedicated to the proposition that what a man could decently get, he could keep. By penalizing the large earner, we are cutting off our noses. The former wealth of this Nation, which was available for investment in new enterprises, is rapidly drying up. Most ventures require an accumulation of wealth before they can be successfully launched. This accumulation cannot be obtained from the lower income brackets, and the higher brackets are losing both the means and the incentive. And yet the capital must be obtained somewhere of our economy is to expand and our production increase. For it is production, and material goods, alone which spell national wealth. Wealth grows in magical ways! Let us say that a wealthy man builds himself a house worth $100,000. The carpenters and masons have received $100,000 which they, in turn, pass on to others. The owner has a house worth $100,000. The land upon which the house is built is now more valuable. Even the neighbor's land is worth more. (If he built a needed factory, the inference is multiplied). No one is the loser, everyone in the Nation gains—one way or another—for the money went into production. Yet if the Government has taxed away the $100,000, we never see it. If spent domestically, that portion which filters down into productive potential is pitifully small—and may be actually spent to discourage production to the detriment of every person, high or low, in the Nation.

2. The tax hurts the lower income bracket. The rich man already has the money. But how can a man who is not wealthy, ever become so? — or even comfortably ahead? The small earner is doomed from the very beginning, for the tax is not the possession of wealth—but on the obtaining of it.

3. Lastly, lest it be thought "unfair" that a large earner have a percentage ceiling (say 25%) which would enable him to keep $75,000 of his annual $100,000, whereas a $10,000 man could keep only $7,500—I submit that it is precisely as fair, neither more or less, than our system itself. For if it be not "fair" for a man to keep, after taxes, a proportionately larger amount than a smaller earner, then it is not "fair" that he make proportionately more to begin with. Once this latter conclusion is reached, the signpost to the tattered and motheaten mediocrity of Socialism is beckoning, and the Great and Vital American Dream becomes a nightmare.

To summarize: Unless we deny that incentive is a prime ingredient of our economic system, and that production is of paramount importance, we must place a definite ceiling on the income tax.

Holloway

The Holloway Presbyterian church will hold their annual picnic with the Sunday School on Aug. 7 at Wamplers Lake State Park with potluck supper at 6:30.

Miss Margaret Ann Lunn is visiting this week with Mr. and Mrs. Eryl Rainey and daughter Barbara at their cottage in Kingsville, Ont.

Mr. and Mrs. Ron Beaverson of Detorit spent Sunday as guests of Mr. and Mrs. Alton Wellnitz and family.

Mr. and Mrs. Lee Beckey of Salina, Kansas, is visiting for a few days with Mr. and Mrs. Amiel Wellnitz.

Lt. and Mrs. Max Gritzmaker and daughter Stephanie of Mulvane, Kansas, left Sunday for East Lansing after spending a week here with his parents, Mr. and Mrs. John Gritzmaker. Lt. Max Gritzmaker is now stationed at Wichita Air Base. Friday evening Mr. and Mrs. John Gritzmaker entertained 22 relatives and friends with a picnic supper honoring the couple.

Mr. and Mrs. Wilson Sawyer entertained this week-end Mr. and Mrs. John Williamson and children of Manistee. Sunday, the Sawyers entertained Mr. and Mrs. Calvin Gritzmaker and son of Adrian, Lt. and Mrs. Max Gritzmaker and daughter of Mulvane, Kansas, Mr. and Mrs. John Gritzmaker of Holloway and Allen Reister of Onsted.

Mrs. James Felton was a week-end guest of Mrs. Raymond Martolock in Hillsdale.

Mr. and Mrs. Elmer Harper entertained Mr. and Mrs. Dean Schnierla of South Bend, Ind. for the week-end.

Mr. and Mrs. John Rennie, Mr. and Mrs. Ken Martin and children and Mr. and Mrs. Edward Rennie of Detroit were Saturday supper guests of Mr. and Mrs. Robert Mitchell. They all attended the wedding of Betty Mitchell and Robert Ousterhout later in the evening.

Mr. and Mrs. Gene Frost entertained 40 guests in their home Sunday evening honoring their son, Donale, and daughter, Karen, who have birthdays on the same day. The children received many lovely birthday gifts from those present.

Do You Suffer From Hay Fever?

POLLEN COUNT IS LOW IN THIRD OF MICHIGAN'S LOWER PENINSULA

Hay fever sufferers can expect to find comparative relief from ragweed pollen in the northern third of Michigan's lower peninsula and in most of the Upper Peninsula.

Findings over a ten-year period (1940-49) during which the Michigan Department of Health made annual ragweed pollen surveys in stations located throughout the state, show that there is little or no change in the relative distribution of ragweed pollen from year to year.

A summary of the findings during the last five years the survey was conducted shows that 16 cities had an average of five days or less per year during which the pollen count reached 100 grains per cubic yard of air in a 24-hour period. This is the point at which persons susceptible to hay fever usually show symptoms.

Lowest was Boyne City, which had an average of no days when pollen counts reached 100 grains per day. St. Ignace and Sault Ste. Marie averaged one day; Isle Royal, two days; Charlevoix, Houghton and Petoskey, three days; Alpena, Marquette and Rogers City, four days; Cheboygan, Gladwin, Mackinac Island, Munising, Newberry and Ontonagon, five days.

Fifteen other cities had an average season of from six to 10 days when pollen counts reached 100: Baldwin, Eagle Harbor, Frankfort, Ironwood and Manistique, six days; Crystal Falls, Escanaba, Grayling, Mackinaw City and Watersmeet, seven days; Gaylord, eight days; Cadillac and Roscommon, nine days; and Ludington and Powers, 10 days.

Those having the longest seasons of heavy pollen concentration were Coldwater, 33 days; Sturgis, 30 days; Grand Rapids, 28 days; Saginaw, 27 days; Battle Creek, and Lansing, 26 days; Midland and Mt. Clemens, 25 days; Flint, 24 days; Benton Harbor, Jackson and South Haven, 23 days; Eloise and Hillsdale, 22 days; and Bay City, 21 days.

Ragweed begins to pollinate in Michigan about mid-July, but it is not until mid-August that the concentration reaches 100 grains per cubic yard of air per day in any part of the state.

While these averages show that generally hay fever sufferers can expect relief by going North to escape the high pollen areas, it should be remembered that pollen frequency in the air differs widely at a given moment in different parts of a city or county. It fluctuates greatly from hour to hour and day to day.

Concentrations of ragweed pollen are also modified by winds which carry the pollen many miles, by lakes into which the pollen is dropped, by rain which dampens down the pollen and by many other environmental conditions.

It is estimated that about 95 per cent of hay fever in Michigan is caused by ragweed pollen.

Copies of "Ragweed in Michigan" containing a detailed map and table showing average pollen concentrations in 62 locations over the five-year period, is available without charge from the Michigan Department of Health, Lansing 4.

Accidents Cost Working Years

DEATHS IN 1950 NUMBERED 3.783 AND COST 58,000 WORKING YEARS

Accidents, fourth leading cause of death in the state, rank first in toll of working years, according to a study made by the Michigan Department of Health. Working years are estimated as those from ages 18 to 65.

In 1950, accidents were responsible for 3,783 deaths in Michigan and the loss of nearly 58,000 working years.

While almost five and one-half as many persons died from heart disease as from accidents, the average age at death from heart disease was 67.9 years. Statistically speaking, this caused no loss in working years. Over twice as many died from cancer, but with 62.2 years the average age at death, there was an average loss of only 2.8 working years per death. Over one and one-half times as many persons died from apoplexy. The average age at death was 70.4 years, so there was no loss of working years.

From the standpoint of statistical averages the person dying from heart disease or apoplexy actually had a dividend of three to five years over what is normally considered a working life, while the accident victim fell short by 15.3 years and the motor vehicle accident victim by 23.6 years.

Most accidents in Michigan occur on the highway, with almost as many at home and a much smaller number on the job.

Falls are the leading cause of fatal home accidents, with burns and scalds, mechanical suffocation, poisoning, gas and firearms following.

Persons 65 years of age and over suffer the greatest number of home accidents, with children under five a close second. At these two ends of the life span, home accidents outnumber motor vehicle accidents, accounting for over half the accidental deaths.

NEW RECORD . . . George Roseme, University of California, hurled the javelin out of the field and into the track for 228', 8¾"—a new NCAA track and field championship meet record. The meet is a qualifying event for U.S. Olympics team.

The Methodist church school plans its annual picnic for Tuesday evening, August 5, at Wamplers Lake State Park with a potluck picnic supper. For transportation, meet at the church at 5:45 p.m.

Mr. and Mrs. Fred Bryan and son spent the week-end in Muskegon as guests of Mr. and Mrs. J. Hammond. Miss Lulu Esterline of Cambria is spending two weeks in the Bryan home.

A guest at the home of Mrs. John Gittus for several days this week is Mrs. Harry Coleman of Dundee.

Mr. and Mrs. Stewart Niblack arived here Sunday evening from Memphis, Tenn., where he was in military training. Saturday Stewart reports at La June, North Carolina for further training.

TO MEET AT LAKE

The past presidents of the American Legion Auxiliary will meet tonight, (Thursday) at the cottage of Mrs. Joseph Russell at Wamplers Lake. The assisting hostess will be Mrs. Laine Holden.

Baby Colic Medicine Also Good For Corns

ANN ARBOR—The oil of wintergreen remedy grandma used for baby colic is also used as a caustic lotion to remove corns, according to a University of Michigan pediatrician.

The oil is the juice extracted from leaves of the wintergreen or "checkerberry" plant, Dr. Ernest H. Watson, associate professor of pediatrics in the Medical School, explains. It consists mostly of methyl salicylate, a close relatice to acetyl salicylic acid or aspirin. Both are deadly poisons to children if given in over dosages.

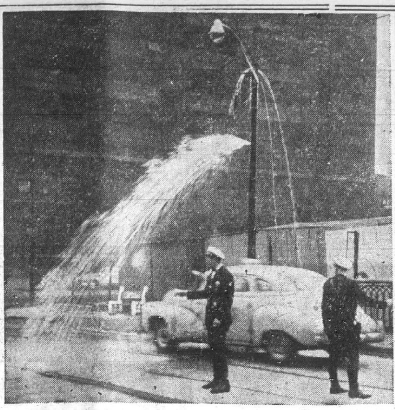
This "old wives" remedy for colic has been used for generations he states, but it is not generally known that this same oil is used as a foundation for certain patented drugs sold as liniment for rheumatism and also as a lotion to remove corns.

A fatal dose of this pleasant smelling poison for most infants would be measured in drops rather than teaspoons, he points out. It creates a feeling of warmth in the baby's stomach which temporarily relieves its discomfort.

It's natural for a baby to cry when hungry, he asserts. Crying causes the baby to swallow air and becomes uncomfortable with colic. So the infant cries all the louder, swallows more air and becomes panicky.

The best remedy for colic is the "demand" feeding schedule which attempts to let the baby decide when it is hungry, Dr. Watson advises. It is simple to follow, since junior will voice his desires when hungry. A good old fashioned burping after meals is also recommended.

Do not use oil of wintergreen for colic except upon advice of a physician and then adhere strictly to the dosage as prescribed, he says.



SAY IT ISN'T SO! . . . Strange indeed is water spouting from a Pittsburgh electric light pole. A water main beneath the surface apparently sprung a leak and pressure caused the water to rise in the hollow pole. Holes in the pole provided spigots. No one would have believed this if merely told about it, but fortunately the cameraman was on hand at the right time, and here is pictoral proof of a light pole making a hydrant. Police are taking the phenomena as a matter of course in a calling that involves many strange events.

Indiana Girl Bride of Dr. Richard Hammel

The Christian church in Cynthiana, Indiana, was the scene of a pretty wedding, Tuesday afternoon, July 22, when Miss Jean Wilkinson, daughter of Mr. and Mrs. J. L. Wilkinson of Cynthiana, became the bride of Dr. Richard Hammel, son of Dr. and Mrs. H. H. Hammel of Tecumseh.

Miss Dolores Weaver, of Worchester, Mass., was the maid of honor. William Nettleman, M.D. of Toledo, Ohio, was the best man.

The bride is a graduate of Protestant Deaconess Hospital School of Nursing in Evansville, Ind. Dr. Hammel is a graduate of the University of Michigan, School Medicine.

After a short trip the couple will reside in Tecumseh where Dr. Hammel, on August 11, is opening offices on East Chicago Boulevard for the practice of Medicine. ,

Attending the ceremony in Cynthiana from Tecumseh were Dr Hammel's parents, Dr. and Mrs. H. H. Hammel, and Mr. and Mrs Karl Schneider.

DAUGHTER TO WED

Friends here have received an announcement from Mr. and Mrs A. Wilber Eaton of Swampscott Mass., of the engagement of their daughter, Nancy Anne, to Robert Wesley Page, son of Mr. and Mrs B. David Benfer, Jr., of Dallas Texas. Both Miss Eaton and Mr Page served at the American Embassy in Tehran, Iran, for several years.

Miss Eaton is a graduate of Boston University and the Katharine Gibbs School. Mr. Page is a veteran of service with the Navy and a graduate of Texas Agricultural and Military College. A fall wedding is being planned.

Corn Crop Up, Wheat Crop Off

DEPARTMENT OF AGRICULTURE FORECAST SAYS HARVEST NEAR NORMAL

Washington—The Agriculture Department has estimated that farmers will harvest a 3,365,089,000-bushel corn crop this year, very nearly meeting government goals for the key feed crop.

The forecast by the department's Crop Reporting Board was the first of the year for corn, which will have a direct bearing on future supplies of meat, eggs, and dairy products.

The second estimate of the wheat crop was put at 1,249,019,000 bushels. The goal was 1,165,000,000. Last month's forecast was 1,326,157,000.

Even though wheat prospects have declined, the estimated 1952 crop would still be the third largest on record, falling behind 1947 and 1948.

The corn forecast was considerably above last year's crop of 2,941,423,000 bushels. Secretary of Agriculture Charles F. Brannan had asked for 3,375,000,000 bushels this year.

The department estimated that 82,232,000 acres of corn will be harvested, 1.1 per cent more than last year. It estimated the yield per acre at 40.9, compared with 36.2 last year.

The wheat forecast included 1,048,421,000 bushels of winter wheat and 200,598,000 bushels of spring wheat. The June estimates were 1,060,298,000 and 265,859,000 respectively.

Wheat acerage was estimated at 70,407,000 a 14.6 increase over 1951. Of this, 50,278,000 acres are winter wheat and 20,129,000 are for the spring crop. The per-acre yield was put at 20.9 for winter and 10 for spring.

The department said that prospects for 1952 crops now point to a total farm production second only to the record harvest of 1948.

It said total acreages planted to crops and total acreages estimated for harvest are each slightly larger than average. It said yield prospects show a "wide variation."

The department said corn, wheat, and perhaps soybean crops will be near record this year. But it said rice now appears to be the only major crop likely to hit a new high.

The department said "relatively small stocks" of grains stored on farms will help provide storage space for the new crops.

Mosquitos Hold Conventions, Too

THEIR ARRIVAL IN ARCTIC KEEPS THE AREA BUZZING FOR MONTHS

Washington—For one reason or another practically everybody has been interested in conventions.

The season being so brief, the delegates naturally are intensely active day and night. They dispense with sleep. They appear in swarms overnight. They never gather until the weather is hot and preferably humid, and for a meeting place they choose, whenever possible, a locality heavily populated with livestock.

We refer, of course, to the mosquito conventions in northern Canada.

From your first annoyed slap in June until last distraught wallop in September, it probably never occurred to you that the best place in the world to find mosquitos by the million is in the Arctic Circle. This information may not cause changes in anybody's vacation plans, but it is nevertheless a fascinating fact.

Even if you went to the tropics you would not find so many of the pesky insects as you would in the muskeg country of northern Canada.

The reason is simple. In that area of the world the ground remains frozen the year around except for a warm six-week period in summer when the surface thaws a few inches deep. With a frozen foundation, drainage is impossible and thus millions of square miles of shallow water become available for breeding grounds.

Back in the early 1940's, long before DDT was a household word, the United States Government dispatched to the Hudson Bay area a small group of entomologists headed by Harry H. Stage of the Bureau of Entomology and Plant Quarantine, United States Department of Agriculture. They were accompanied by a handful of army enlisted men who volunteered to get bitten. (The biting rate proved to be 61 a minute.)

There the group lathered themselves and one another with various new insecticides. At considerable expense of comfort they took up the serious business of counting mosquitos on each others' backs.

Among other things, Mr. Stage and his assistants found that mosquitos are color-conscious. In a 30-second period four mosquitos landed on a white shirt, 15 on a black shirt, 31 on an olive drab shirt, and 97 on a bare back.

Their findings confirmed the value of DDT as an effective insecticide and thus saved American soldiers in many parts of the world from much discomfort during the war years.

Mr. Stage has spent many years playing host to mosquitos. His investigations took him in 1945 to bauxite mining village in Surinam, Dutch Kuiana. So effective were the methods of applying DDT in these areas that a Djoekas (native) couple, in grateful recognition, named their baby boy DDT.

The United States is divided into some 250 mosquito control districts. Each year they spend more than $6,000,000 to protect 26,000,000 persons from mosquito annoyance.

Recently in test areas in Florida and California it has been found that mosquitos have gradually built up a resistance to DDT. The best way to counteract this tendecy, entomologists believe, is to treat only adult mosquitos, not larvae.

When large-scale control campaigns are directed against mosquitoes in larva stage, most of the insecticide-susceptible insects are destroyed, leaving only the resistant mosquitoes. This, of course, increases the possibilities of a quick build-up of a resistant mosquito population. By treating only the adult mosquitoes and by draining and filling mosquito breeding areas, this trend may be reversed.

For ridding the home of mosquitoes, Mr. Stage says there is nothing better than a DDT or pyrethrum aerosol bomb.

YOUTH EDUCATION URGED FOR JAPAN

Silver Bay, N. Y.—Japan takes to democracy, but the movement must be nourished by the young people, an American educator says.

Dr. Russell Burgin of the International Christian University in Tokyo said that Christian education was important in developing a new generation of responsible young leaders in Japan.

He spoke to more than 500 Protestant clergy and laymen assembled at this Lake George community to celebrate the 50th anniversary of a missionary education movement, the conference on the Christian World Mission, as it is known now.

Sponsors of the observance are four units of the National Council of Churches of Christ in the U.S.A.; the Joint Commission on Missionary Education, the Department of Foreign Missions, the Department of Home Missions, and the Department of United Church Women.

LIQUOR AND BEER CONSUMPTION UP

Washington—Americans spent almost one half as much on alcoholic beverages last year as they did for the things they wear.

The Commerce Department said $9,150,000,000 was spent on liquor, wine, and beer, an average of $59.80 for every man, woman, and child in the country.

At the same time they spent about 20 billion dollars for shoes and clothing.

The breakdown by drink, with per capita consumption in brackets:

Beer — $4,490,000,000, up 110 million dollars over 1950 ($29.35); liquor and other distilled spirits —$4,180,000,000, up 370 million dollars, down 30 million dollars ($3.13).

One third of all this money for beer, liquor, and wine went to the government as taxes.

Change Is Urged In The Teaching of Latin

Latin teachers should take a completely new approach to the teaching of their subect, in the opinion of Dr. Waldo E. Sweet, visiting University of Michigan faculty member.

Dr. Sweet, who is from the William Penn Charter School, Philadelphia, is heading a workshop for Latin teachers at the University this summer. Application of the discoveries of linguistic science to modernize antiquated Latin teaching methods is being made in the workshop.

"Findings of linguistic science have had little effect upon the teaching of Latin. Today Latin is taught essentially the way it was taught in Roman schools. There's one great difference, however," Dr. Sweet pointed out. "The Roman school boy already understood Latin."

He pointed out that in the past Latin textbooks have paralleled English grammars because it was erroneously believed that English grammar was just like that of Latin.

"This is, of course, an almost complete illusion because English indicates its meaning chiefly by word order and by helping words such as prepositions and auxiliary verbs, whereas Latin indicates its meaning chiefly by inflection."

Solution of the problem, Dr. Sweet believes, is to emphasize the contrasts, not the similarities of the two languages.

"Although people have been learning language for thousands of years, they haven't been employing language analysis. Therefore, the nature of the difficulties is not immediately apparent. The teacher, until now, has arrived at correct techniques only by intuition.

"For efficient instruction," Dr. Sweet urges, "you must analyze both the language to be learned and the learner's own language. By comparing them, you will discover the differences between the two languages. Then you will be able to go ahead and devise techniques to overcome them."

Carrying out techniques developed at the William Penn Charter School, the University workshop group is preparing and using audio-visual devices, such as recordings on disc and tape, film strips and slides to up-date old, ineffective teaching methods.

Friends have received word of the birth of a son, Clyde Bruce, to Mr. and Mrs. Clyde Smith of San Diego, Calif. Mr. Smith is the son of Mr. and Mrs. William Smith of Flat Rock, Mich. Clyde will receive his discharge from the Marines, Friday, and the family will leave for Michigan soon.

Donald Bailey who recently enlisted in the Navy is spending a fourteen day furlough with his parents, Mr. and Mrs. George Bailey. He has completed his training at Great Lakes as construction apprentice and will report to the Great Lakes Training Center for his new location. Sunday, Mr. and Mrs. Bailey and family visited relatives in Jackson.

Mr. and Mrs. Harry Futrell of Vandercook Lake were Friday night dinner guests of her sister and husband, Mr. and Mrs. Rhae Henkel.

Mr. and Mrs. F. E. N. Thatcher and daughter, Mrs. William Wright were in Muskegon last week, to attend the funeral of their son's wife, Mrs. Garfield G. Thatcher, whose death occurred July 17, at her home in Hollywood, Florida. Garfield Thatcher and his daughter, Carol, spent a few days here with his father, F. E. N. Thatcher before returning to their home in Florida. Mrs. Thatcher and daughter Mrs. Wright, and two children, left Saturday for a vacation at Scenic Lodge on Lake Michigan, near Muskegon.

NEW SOCIETY FORMED

The Altar Guild, a newly formed organization of Grace Lutheran church, met in the church parlors last week Wednesday evening with Mrs. Rhae Henkel, directress, presiding. An educational study of the Study Book was held. During the social hour Mrs. James Tonneberger and Mrs. George Heeman served refreshments. The other officers are Mrs. George Bailey, assistant directress; Mrs. Heeman, secretary, and Mrs. A. Jeschke, treasurer. The next meeting will be held Wednesday, August 20. During the business meeting the constitution was adopted. The members in charge of the altar work are Mrs. Tonneberger, Mrs. Oscar Bryan and Mrs. Herman Blohm. Their terms expire October 22.

4-H'ERS HONORED

Two Lenawee county 4-H'ers draw comment in the August CAPPER'S FARMER for their work at the 1951 Michigan state 4-H fair. They are Julia Mead, Sand Creek, and Charles Bishop, Britton. Julia appears in a photograph accompanying the article.

Julia was one of eight finalists in the achievement booth contest, says the nationally-circulated farm magazine. Charles Bishop took home the honors in the plowing contest.

"Around 2,000 boys and girls take part in the annual event,' says the story in part. "They handle exhibits, put on demonstrations and participate in entertainment and recreation. At week's end they depart for their homes filled with determination to go on making the best better!"

Easy, "Paper Plate Meals" Are Cool and Delicious

Summer meals can be tempting and nourishing without long hours of preparation in a hot kitchen. Follow a "paper-plate" philosophy, open a can or a jar, use a ready mix, or take a package from the freezer, says Charlotte Montgomery in advising the young homemaker in Redbook Magazine for July. Among the clever ideas she gives for quick cool summer dishes are recipes for "shrub," a delicious, old-fashioned fresh-fruit drink; some main-dish flap jacks; and refreshing desserts made up from glass jars of "junior" and "baby" foods:

"Summer meals shouldn't tax our energies or our digestions. Plan so that they're tempting and nourishing, yet put together with the least effort. For example, you can make your own homemade bread by using a hot-roll mix.

"You can make pancakes right on the table, terrace or porch with easy pancake mixes. Roll griddle cakes around hash or frankfurters, stuff them with cottage cheese, and blanket with sour cream—'cheese blintzes' to the restaurant trade.

"Here's a new twist: add a 5½ oz. can of broken-up tuna, oil and all, and 1½ cups of milk to 2 cups of pancake mix. Make 3-inch cakes and serve with sauce made of one can of concentrated mushroom soup and ½ cup of milk. Toss together a green salad, and you have a super meal.

"'Shrub' is a real down-country old-fashioned name for a fresh-fruit drink. Lemonade shrub is made by putting ¼ cup of sugar and 3 cups of water together and bringing it to a boil, stirring until the sugar is dissolved. Add a 6-oz. can of concentrated lemonade and 2 cups of water. Freeze for 3 hours; trim with berries, cherries or mint.

"Orange shrub calls for a bit more sugar (½ a cup is about right) and is zestier with a tablespoon of lemon juice added before freezing. Shrub should be served mushy, with a straw or long spoon, or both. Beat if too firm.

"Some very easy and delicious desserts can be made from the contents of those little glass jars of 'baby' and 'junior' foods. For instance, stir one jar of junior peaches into a package of orange-flavored gelatine dessert, cool, and add two beaten egg whites. Without the gelatine, sweetened, and with a pinch of salt and a bit of grated lemon rind, you'll have 'snow,' fine with a thin custard sauce.

"Iced tea and coffee are refreshing summer drinks. For 'coffee diable,' stir in sweetened whipped cream to which brandy has been added and top with more whipped cream, sprinkled with nutmeg. Make a coffee float by stirring vanilla ice cream into chilled coffee. Instant tea and coffee save time."

Jackson Riot Work Cuts State Police Activity

With a detail of officers still on duty at Jackson prison, field activities of the Michigan State Police again showed a sharp reduction in June, but not as great as in the preceding month.

According to the departmental monthly activity analysis, officers available for patrol and general police work make 6,522 arrests in June, 20 per cent below the 8,166 in June of 1951. This included 5,770 arrests for traffic offenses, a 21 per cent decrease under the 7,323 last year.

The report showed, however, that a number of officers had been released from the prison detail since the outbreak of the riot April 20. This additional manpower accounted to a large extent for a 26 per cent increase over the 5,176 arrests made during May.

Department vehicles traveled 790,908 miles in all activities. The 17,062 property inspections made in June were 28 per cent below last year and the 2,921 liquor inspections represented a 16 per cent decrease.

The East Lansing headquarters identification bureau received 7,640 sets of fingerprints. This brought the total on file to 3,543,439, of which 1,837,586 are in the criminal section and 1,705,853 in the non-criminal.

Through fingerprints the bureau identified 25 persons wanted by police as fugitives from justice. In handling 457 sets of fingerprints in connection with applications for licenses to carry concealed weapons, 51 applicants were found to have criminal records.

The Fish Are Biting In Michigan's Lakes

The fish are biting, the water is perfect for swimming and Michigan's tourist and vacation season is in full bloom. All of which means that the state's highway system is being taxed to capacity these days by the record volume of vehicle traffic that is now moving over the state highway system.

Highway Commissioner Charles M. Ziegler joins with safety and police officials in appealing to all persons who use the highways to be cautious when drivinv. "Just a little extra care can save a life, possibly your own," the Commissioner warns, "so don't take a chance on ruining your own summer. You may save a life and possibly your own by not only watching your own driving habits but being on the alert to avoid others who drive recklessly."

Your greatest happiness comes when you truly give something of yourself.

Telephone Company To Change Name, August 1

The previously announced change in name from Michigan Associated Telephone Company to General Telephone Company of Michigan becomes effective August 1, officials of the company said today. Announcemnet of the proposed change was made earlier in the year and necessary details have now been completed, it was said.

Michigan Associated is a subsidiary of General Telephone Corporation, parent concern of fifteen telephone companies operating in nineteen states. Names of all major operating companies have been changed to include the word General, thus obtaining greater recognition of the largest independent telephone system in the country, with assets in excess of a third of a billion dollars.

Officials emphasized that the change is in name only; with properties and personnel not being affected. They asked that after August 1 all communications be directed to General Telephone Company of Michigan and that checks in payment of services be made payable accordingly.

LUTHERAN PICNIC

The church school picnic of Grace Lutheran church was largely attended Sunday, with potluck dinner being served at the church at noon. Games were played in the afternoon on the lawn in charge of the teachers of the various classes. Ice cream and pop were furnished by the Sunday School.

Riddle: From our collection comes this: There are two holes in a tree, one 10 feet above the other. There is a squirrel in the tree. He continues to run from one hole to the other. The first trip took him five seconds and if he increases his speed one foot per second, how long will it be before he is sticking his head out of both holes a the same time?

MICHIGAN needs 'em BOTH!

Dwight D. Eisenhower

NO SHIRT-TAIL RIDER—
FRED M. ALGER

Fred M. Alger

Alger became an enthusiastic Eisenhower for president supporter more than a year ago, when the two met and talked over the country's needs, seeing eye to eye.

Alger was the first state official, and the only candidate for governor to endorse Eisenhower. He was criticized for doing so. It wasn't good politics. Good politics dictated that he ride the fence. He wouldn't because he believes the people should know where a candidate for office stands.

The Eisenhower-Alger combination is a natural.

Both are agreed that the Nation's defense comes first.

Both have proven themselves good and able administrators, Ike in the European zone, Alger as an efficient, economy-minded, three-term Secretary of State.

Both are full-time veterans of World War II.

Both have records bespeaking unalterable hatred of dictatorship, Ike in arming the western world against Stalinist aggression; Alger as leader of the movement which ended machine rule of the Republican Party of Michigan.

They understand each other.

It's a pair that can't be beat.

For Michigan and the nation, it's

IKE and FRED

Tecumseh Voted About 100 An Hour; Voting Machines Taken In a Stride

Electors in Tecumseh township took the new voting machines in a stride, Tuesday, and during the 13 hours that the polls were open cast perhaps what may prove to be the largest primary vote in the township's history.

A total of 1,237 persons cast their ballots, an average of nearly 100 votes an hour throughout the day.

Voting started promptly at 7 a.m. Robert H. Moore cast the first ballot in the west side precinct, and John Saling was the No. 1 voter on the east side.

Election officials reported very little difficulty on the part of the voters in the use of the automatic machines. In some instances, explanations of their use was necessary.

"The machines didn't seem to bother the voters too much," one

Village Chooses A New Engineer

Ed J. Nelson, former superintendent of the Cyclone Fence Co., here and more recently manager of the Cyclone company's plant in Greensburg, Ind., has been named as village engineer to succeed Clyde Eckler, it was learned today. Mr. Nelson will assume his duties on September 1.

Mr. Eckler has been engineer here for the past year. He tendered his resignation to the council about a month ago, and at its Monday evening session, Council accepted it, effective the first of next month.

Mr. Nelson has been at work here for some time as one of the officials on the new sewage disposal plant.

When the Cyclone plant moved from Tecumseh, several years ago, Nelson was transferred to DeKalb, Ill. Later, he transferred to Greensburg but was forced to retire about a year ago, due to illness. This spring, he returned to Tecumseh to accept the village job in the sewage plant construction.

The council referred to the street committee a petition of residents of S. Union street, asking for proper road grade, sidewalks and street lights. H. H. Hanna's petition for curb and gutter on S. Adrian street was referred to the engineer. A taxicab license for six months was granted to Herbert Watkins.

Current bills were audited and ordered paid, and reports of department heads and committees were read and placed on file.

Ceiling on Taxes Is Not Solution

GRENVAL SPANGLER REPLIES TO ATTORNEY IN LOCAL DEBATE

Grenval Spangler, local resident and a representative of organized labor, who, two weeks ago, agreed to debate federal tax issues with James C. Beardsley, attorney and head of the Young Republican Club, this week replied to Mr. Beardsley's article in the July 31 issue of The Herald, in which Beardsley proposed a ceiling on income taxes.

Mr. Spangler's communication to The Herald, answering Beardsley's proposal, is as follows:

After reading Mr. Beardsley's challenge printed in the July 17th issue of the Herald, I called on him. We found that we agreed on some things, completely disagreed on others, and differed only as to degree on others; but we were sincere in trying to do something constructive about such controversial issues as where to limit income taxes and what to do about the labor-management problem.

I welcome this opportunity to accept the negative side because as a laboring man I realize that very few laboring people have the time and means to thoroughly study and analyze the social and economic factors that control

Eagles Purchase Brodersen Bldg.

Dr. C. N. Brodersen announced today that he has sold his building on South Evans street to the Fraternal Order of Eagles. Possession of the building, however, will not be given until such time as Dr. Brodersen acquires new offices for himself.

Brodersen purchased the building, the former Chic Cigar Factory, in 1941. It underwent extensive remodeling and redecorating and he occupied it first in May of 1942. The first floor is used for office purposes, the second floor as an apartment.

The F. O. E. formerly was located in the room above the Baldwin Hardware Co., on Chicago boulevard. When that building was destroyed by fire two years ago, the lodge rooms were moved to the Sage Building on W. Chicago boulevard, where they are now located.

TWO MEN ARE FINED

Wendall H. Belt and Dennis Clark, both of whom gave their addresses as the Ferris Trailer Camp, were arrested by police at 12:30 a.m., August 3, for being disorderly. Police said that the men had been fighting. On Monday, in Justice Robert French's court, Clark paid a fine of $10 and costs of $8.60 when he pleaded to a disorderly charge. Belt drew a $15 fine and similar costs. He pleaded guilty to being drunk and disorderly.

Record Vote Is Cast On Tuesday

ALGER EASY VICTOR IN 3-WAY GOP RACE; WILLIAMSON, KUNEY NOMINATED

In what may be, when final returns are in, the largest primary election vote ever cast in Michigan's history, more than 1,200,000 voters went to the polls on Tuesday to choose party nominees and to choose candidates for non-partisan offices.

Like Michigan's, Lenawee county's vote also was large for a primary, nearly 12,000 electors going to the polls. In Tecumseh and Tecumseh township, 1,237 cast their ballots—believed a local record.

Tecumseh voted with the county and the state in making its choice for both Republican, Democratic and non-partisan candidates.

In the three-cornered Republican race for the nomination for governor, Fred M. Alger, jr., secretary of state, held a commanding lead over his opponents. With most all precincts reported, Alger's vote was more than 305,000 to Leonard's 196,000 and Vandenberg's 203,000.

There were indications, however, that Alger would be in for a tough race in November. Gov. Williams, unopposed for renomination on the Democrat ticket, polled about 320,000 complimentary votes.

In the contest for lieutenant governor on the Republican ticket, it appeared that the final outcome might have to wait for late precincts. Geo. Welsh and Clarence Reid were the leading contenders.

For U. S. Senate, full term, Charles Potter was an easy victor over his two opponents, Eugene Keyes and John Martin. Potter rolled up a vote of more than 277,000 to Martin's 154,000 and Keyes' 128,000.

Blair Moody, incumbent senator and a Democrat, won an easy victory over his opponent, Lewis Schwinger. Moody polled about 224,000 votes to Schwinger's 36,000.

In the congressional race, locally, Arthur P. Lopshire of Macon, gave Cong. Geo. Meader of Ann Arbor, a run for his money. Meader polled 368 votes to Lopshire's 343. The third man in the contest, Norman Sulier of Monroe, polled 94 votes.

In the district, however, it was a different story. Incomplete returns gave Meader well over 7,000 votes, Lopshire, 1,800 votes

DELEGATES ARE NAMED TO COUNTY CONVENTIONS

Delegates chosen to the county conventions by the Republicans and Democrats in Tuesday's election are:

The six receiving the highest vote on the Republican ticket: H. H. Hanna, 75; J. C. Beardsley, 53; Florence Howe, 57; Gibbs Barber, 46; Cornelia Walker, 43 and L. H. Titley, 44.

On the Democratic ticket, the vote was as follows: F. E. N. Thatcher, 2; Daisy Thatcher, 2; Ben Hammack, 2; Grenville Spangler, 2; Donna Elliott, 2; Cecil Smith, 1; Wiley McCann, 1; T. J. Wagner, 1.

FINGER IS BURNED

Clarence Merllatt suffered a slight burn on one of his fingers, Tuesday at 6:55 p.m., when a bottled gas tank ignited as he was attempting to hook it up to a stove in his trailer at Paul's Trailer Court. The fire department was called but there was no damage, it was said.

PAYS FINE, COSTS

Kenneth L. Randolph, 23, Tecumseh, paid a fine of $15 and costs of $8.60 in Justice French's court Saturday, after he had plead guilty to a charge of being drunk and disorderly. He was arrested at 10:45 p.m., Friday, by local police in the downtown area.

MRS. JAMES VERSHUM, RIDGE RESIDENT, DIES

Mrs. James Vershum of Ridge Road, R.F.D. Britton, died suddenly at her home Wednesday morning at 7 o'clock.

Mrs. Vershum is survived by her mother at Riga, six daughters, Coleen and Marjory at home, Mrs. Forest Abner, Mrs. Al Schwede and Mrs. Richard Upell of Tecumseh; Mrs. Doris Ditmore of Ottawa Lake; five sons, Harvey, Lewis, James, Russell and Richard; also, sisters and brothers survive.

Funeral arrangements have not been made.

Dr. R. T. Hammel To Open Offices

Dr. Richard T. Hammel will open his offices at 401 East Chicago Boulevard on Monday, August 11, for the practice of medicine.

Dr. Hammel is a son of Dr. and Mrs. H. H. Hammel. He is a graduate of Tecumseh high school and the University of Michigan School of Medicine. He also served for three and a half years in the Navy, in the Pacific theatre, in World War II.

The house in which Dr. Hammel's office is located was recently purchased from Arthur Harding, who had owned the property for 64 years. It has been completely remodeled and redecorated to suit the needs of the new occupant.

The former Harding house is an interesting building. It was originally known as the "Beehive Inn." and was built over 100 years ago. The main frame consists of 10 by 10-inch solid walnut timbers. Smaller timbers are of oak and many boards are of whitewood, 12 inches wide.

In the old stagecoach days, the Inn was a favorite rendezvous for wedding parties.

Through the kindness of Mr. Harding, Dr. Hammel has come into possession of many antiques that have been in the house for a hundred years or more. These include furniture, a candle maker, molasses jug, etc. Eventually the doctor hopes to have a cabinet made to house the relics in his office as a reminder of the day when the building was used as a stop-over for those traveling by coach along the Monroe-Chicago stage line.

Jokers Win In Trophy Contest

The individual trophy play off in the Recreation Soft Ball League began Monday evening at 7:30 with the Jokers defeating Dick's Standard Service team. Tight defensive play and dependable pitching featured the game. Max Brandt led the Jokers with two home runs in four times at bat. Sam Hamilton, the winning pitcher, never gave the Service team more than two hits in an inning. The final score was 9 to 4. George Pontius was the losing pitcher.

The F.F.A's. power proved to be too much for the V.F.W. Explorers in the second game at 8:30. Herman Dick, pitched no hit ball during the first four innings. The score was 16 to 6, with Dick the winning and Bruce Packard the losing pitcher.

The F.F.A. team played the Jokers for the individual trophy championship Wednesday night.

TO ATTEND CONVENTION

Richard Bishop, son of Mr. and Mrs. George Bishop of Ridgeway, will attend the annual convention of the Kappa Signa Kappa fraternity, to be held in Hot Springs, Ark., August 17-20. Delegates from all over the United States as well as Canada will be present.

Mr. Bishop is president of the chapter at Hillsdale College and will attend the convention as a delegate. He is a senior at Hillsdale, majoring in pre-medical work. Bishop graduated from Tecumseh high school, class of 1949, as salutatorian.

Seven Are Hurt In Auto Mishap

MR. AND MRS. ORVAL MINNEY AND MRS. MARGARET HERSHA IN WRECK

Five Tecumseh folk were hurt, three of them seriously, in an automobile accident south of Sylvania, Ohio, at Dorr Road, Monday about 9:30 a.m.

The injured are Mr. and Mrs. Orval Minney and their two sons, Dennon and Martin, and a friend, Mrs. Margaret Hersha of 510 W. Kilbuck street. Mrs. Minney and her son, Dennon, aged two years, and Mrs. Hersha are patients in Herrick Memorial Hospital. Mr. Minney and the other son, Martin, aged four years, were not so seriously hurt.

Mr. and Mrs. Minney and family were on their way to Pittsburgh, Pa., to visit Mr. Minney's parents. Mrs. Hersha was a passenger. She was going to Maryland to visit friends.

According to reports reaching here, the accident happened at Sylvania and Dorr Roads. Mr. Minney had slowed down for the intersection, had the green light and was proceeding when a car, being driven east on Dorr Road by a woman struck the Minney car in the side.

The other car was driven by Mrs. Doris M. Parker, 38, of Toledo. State Highway Patrolman M. D. Campbell said that Mrs. Parker drove through a red light, causing the accident. She was cited for not heeding the signal. Mrs. Parker and her two-year-old son, who was riding with her, suffered bruises and cuts.

Mrs. Minney was thrown out of the car and along the pavement for about 30 feet. She suffered cuts and bruises. Dennon also was cut and bruised about the head. Mrs. Hersha suffered a fractured shoulderblade and bruises about her legs. Mr. Minney and son, Martin, suffered from bruises, cuts and shock.

All of the injured were removed by ambulance to Toledo Hospital and later were transferred to Herrick Hospital here.

Mrs. Minney is a daughter of Mr. and Mrs. Ellsworth Collins.

Teen-age Boy Golfers In Tourney at Club

The teen-age boys golf tournament at the Tecumseh Country Club, a part of the Recreation Center program, was held Tuesday morning at 9 o'clock with Leo Bishop, golf pro, in charge. Twenty boys participated in the nine hole handicap tournament. Jim Nichols was first with a score of 35. Three other boys tied for second with a score of 37. They were Jim Whitecotton, Roger Harsh and Doug Hooten. Nichols, the winner, was presented with a large trophy from the Recreation Council.

The girl's teen-age golf tournament will be held today (Thursday) at 9 o'clock. The winner also will receive a large trophy.

NEW BUILDING FRONTS IMPROVE BUSINESS AREA

Work is progressing on the remodeling of the front of the United Savings Bank building. The job will be completed in about a month, it was said.

Other stores with new fronts, installed this year, are the Cozy Cafe, French's Market, the Gamble store, and Cameron Drug Co. The front of the Strand Theatre building also recently was refinished, and the interior of the theatre redecorated.

Tecumseh To Get $5,700 Tax Cash

VILLAGES AND COUNTY SHARE IN DISBURSEMENT OF MOTOR VEHICLE FUND

Tecumseh will receive $5,733.61, and Lenawee county $114,747.34 as its share of the State Motor Vehicle Highway Fund, second quarter receipts of which are now being distributed by the State Highway Department.

Under the 1951 act, which revised the methods of distributing weight and tax monies, the state receives 44 per cent of the money from the Motor Vehicle Fund, the counties receive 19 per cent and the cities and incorporated villages receive 17 per cent A considerable portion of the state's share is spent on roads in city areas.

Under the distribution formula, the state will receive $10,490,250.74, the counties will receive $8,821,347.22 and the cities and incorporated villages will receive $4,529,881.96. In the first quarter of the present calendar year, the total Motor Vehicle Fund collection was $54,473,410.40, or more than double the second quarter collections. This is due to the fact nearly all the year's weight tax license fees is collected in the first quarter of the year

The Motor Vehicle Highway Fund money collected during the April 1-June 30 period came from the following sources:

Gasoline tax	$19,681,713.59
Deisel Fuel tax....	200,750.53
Weight tax (resident)	4,030,574.40
Weight tax (non-resident) ...	50,443.84
Miscellaneous fees.	666,655.10
Total collections	$24,630,137.46
Less collection costs	788,658.50
Net total collections	$23,841,478.96

Following are the amounts the various counties, cities and incorporated villages in this area will receive:

Lenawee, $114,747.37; Monroe, $127,842.58; Hillsdale, $67,567.74; Jackson, $115,591.69; Washtenaw, $134,034.63.

Adrian, $27,211.73; Blissfield, $4,966.71; Britton, $1,365.88; Clinton, $737.21; Dundee, $2,398.18; Manchester, $3,680.80; Onsted, $2,481.49; Tecumseh, $5,733.61; Ypsilanti, $5,997.80.

Paving of M-50 Will Begin Soon

NEW ROAD FROM BILLINGTON'S CORNERS TO DUNDEE TO BE FINISHED IN NOVEMBER

Paving of M-50 from Britton west to Tecumseh will probably begin within a week, pavement is now being laid between Dundee and Britton, and the entire stretch of highway from Billington's Corners east to Dundee will be completed sometime in November, it was learned today at the offices of the State Highway Department.

It will not be necessary to lay new pavement between Ridgeway and Britton, that section of road having been renewed only a few years ago.

At the Highway offices, it was said that work on the new 22-foot highway is progressing normally. More than 100 trees have been removed in the Village of Britton to permit the widening of the road to 44 feet within the corporation. The W. H. Knapp Construction Company of Monroe holds the contract for the building of the new road between Billington's and the east limits of Britton, and it is expected that the first concrete, in the Britton area, will be poured this week.

It is the Highway department's plan to first complete the stretch of road between Britton and the east limit of Tecumseh. Then work will start at Billington's Corners and east to the west limit of Tecumseh. The work inside Tecumseh Village will be completed last.

(Continued on page 4)

Old Adrian Road To Be Improved

Work has started on improving the old Adrian road—Green, Russell and Occidental Roads—south and west of Tecumseh, to M-52 at Birdsall.

The sealer coat has been laid on the first mile of the highway, from the village limit at the end of Adrian street, south to Russell Road and then west to Occidental Road. Blacktopping of this part of the highway will be accomplished in a short time.

The contract also has been awarded for the sealing and blacktopping of 28 miles of Occidental Road, south from where it joins Russell Road to a point where it joins a blacktop pavement laid a year ago, in Raisin township When this section of the road is completed, it will furnish a blacktop road all the way from Tecumseh to M-52, at Birdsall.

LeRoy H. Titley, supervisor, said that the county highway department is anxious to complete this stretch of road as quickly as possible, but contractors cannot move onto it until they complete the jobs where they are now working. In any event, he said, the entire road is to be finished not later than November 15.

YOUR FLYING SAUCER MAY TURN OUT TO BE A FALLING STAR

Peak Of Meteor Shower Is Due August 10 or 11

With many parts of the nation already seeing strange objects in the skies perhaps it's wise to report now that August will bring with it the annual shower of meteors.

Hazel M. Losh, associate professor of astronomy at the University of Michigan, reports that the Perseid shower of meteors will reach its peak around the evenings of August 10 or 11.

"The flashes of light from these shooting stars may be seen in any direction of the sky during the peak period," she points out. "But when you trace back their paths, the meteors seem to follow trails that intersect in the northeastern part of the sky where the constellation Perseus rises about 10 p.m. This fact has accounted for the name of this annual display."

The shower of meteors takes place each year when the earth encounters the swarm of shooting stars as each is making its year-long swing around the sun. Entering the earth's atmosphere at a high rate of speed, the bits of iron and stone that make up a meteor are slowed up and the resulting friction sets them burning at such a high temperature that a brilliant flash is produced in the sky.

Most of these meteors burn themselves out when they enter the earth's atmosphere, although a few frequently fall to the ground.

Besides the meteors, the August sky will be dominated by the Milky Way, that vast mass of stars which stretches across the sky from northeast to the south. The long bar of the Northern Cross is practically at the zenith or mid-point, Prof. Losh says, while the constellations of Scorpius and Sagittarius are at the two southern branches.

The bright planet rising in the east around 11 p.m. will be Jupiter. This planet will far outshine all other objects in the sky and will remain conspicious in the evening sky for the next few months, Prof. Losh asserts.

"Coming over the horizon at about the same time at a little to the left of Jupiter is the star cluster of the Pleiades," she reports. "Fashioned in the form of a small dipper, six stars are easily seen but if you have exceptionally keen eyesight you may be able to pick up seven or more."

Hundreds of stars may be counted in this cluster on a photograph taken with a large telescope and the entire group, which is 500 light years away, is caught in a net of nebulous material.

Sometimes It Pays To Spend Money

It will only be a few weeks before contractors employed by the Michigan State Highway Department will be in Tecumseh, widening and resurfacing Chicago Boulevard—M-50-52. Approximately 10 feet of the boulevard in the center of the street will be removed, making the two one-way traffic lanes 22 feet wide.

We realize that any care that is given to the center boulevard strip at the present time would, in a sense, be wasted, because in just a few days a greater part of the area will be torn up. Nevertheless, in its present condition, the boulevard strip is an eyesore and, in our judgment, terrifically poor advertising for Tecumseh.

It doesn't look well for tourists and residents of other parts of the county who do not realize that a large part of the boulevard is to be removed, to travel through Tecumseh and see the grass center section growing up to weeds. It doesn't speak well for our civic pride, and we believe that Tecumseh still is a proud community.

Perhaps it would cost a few dollars to cut the weeds and mow the boulevard a time or two before it is torn out. Perhaps, in a sense, it would be money wasted, but we don't think so.

Folk, particularly those who do not know us well, form a very lasting opinion of a community by just driving through it. We can't help but wonder just what they think when they drive the length of Tecumseh's main street and see it growing up to weeds.

If the village is too poor, if its treasury is so badly depleted that it can't stand the strain of a week's labor on the boulevard strip, then it is time that the citizens pooled their pennies and made up a fund to defray such a cost.

The few dollars that are spent in cleaning and slicking up the boulevard would, in our judgment, be returned many fold through word-of-mouth advertising.

We shouldn't let our town run down at the heel just because, later on, we intend to clean it up. Too many opinions can be formed in the meantime.

Who Will Plant The Trees In 1952?

We couldn't help but wonder, when we visited in Britton last week, and saw its treeless main street, just who would plant the trees in 1952 to replace those being torn out by the State Highway Department to make way for the widening of M-50 through that village.

And we wondered similarly about the trees between Tecumseh and Ridgeway, trees that have withstood the wind, the rain and the snow for a century, that are being removed in the widening program.

We realize that trees have to give way to progress, just as buildings, houses and stores have to be torn down and removed as our villages, county and state expands. Traffic today is much faster than it was in 1870 when the trees in Britton were planted. Little did the men and women, 80 years ago, dream that it would be more of an oddity to see a horse and wagon in Britton on Saturday night than it would be to see a motor car. Automobiles, 80 years ago, had not been built. Neither had cement roads.

There was a time when hitching posts adorned every country town's main street in Lenawee county. We haven't seen any hitching posts recently. Nobody uses them. Hitching posts went with the coming of the automobile. But we do not think that trees should go, along main streets and trunk line roads, just because we need wider, straighter and better traffic lanes.

We sincerely hope that the residents in areas where trees are being destroyed to make way for highway widening programs, will be thoughtful enough to plant new trees, so that in 30 or 50 years the men and women of 1980 and 2000 will be able to enjoy their shade and their comfort.

To us, trees are beautiful. We like to see them, we like their shade and the security that they give from the winds and the storms. We doubt that traffic will ever move so fast, or that folk will be in such a hurry that they will not have time to admire a tree.

But unless we plant some new trees to replace the ones that are being torn out, there will not be any trees to admire, along these trunk line routes. That's why we hope that the folk of today are as thoughtful as they were in 1870, when the trees in Britton and along M-50 were planted. We should be as thoughful of our children of the future as our ancestors were of us.

It Is Just Simply Better Service ....!

The Green Funeral Home brought to Tecumseh a new and better funeral service. Every element is more modern, yet simple and hospitable, pleasing most everyone attending.

As one family recently remarked, "We can't pick one reason alone. It is just simply BETTER SERVICE.

More Careful Driving Is Urged By State

State Highway Commissioner Charles M. Ziegler today announced the opening of the August state-wide safety program aimed at reducing traffic accidents which are the result of unlawful and dangerous passing.

The campaign, sponsored by the State Safety Commission, is using two slogans: "Don't Cross the Yellow Line" for drivers using the highways, and "Keep in Line—Don't Cut In" for drivers using city streets.

Passing on hills and curves is one of the most dangerous things a motorist can do, according to Commissioner Ziegler. In commenting on these hazards he said, "The State Highway Department has painted yellow lines on hills and curves where the visibility is reudced to a point where it is dangerous to pass. These yellow lines are provided as a safety service to motorists. Since they are placed by careful engineering survey they are in accordance with the law and it is not only dangerous, but unlawful, to cross the yellow line."

As a further warning to motorists the State Highway Department has erected 150 safety poster boards at strategic places along the highway system. These board carry the slogan "Don't Cross the Yellow Line,"

The Safety Commission has prepared radio platters in co-operation with the Michigan Broadcasters Association and motion picture trailers for use throughout the state in an all-out effort to urge motorists to drive more safely.

Attends Management Institute

Carl S. Fuller, 3626 Edgevale Road, Ottawa Hills, manager of the Toledo Branch of the Kroger Co., has been selected as one of thirty top business executives who will attend the Institute for Management sponsored by the graduate commerce division of Northwestern University August 3 to August 29.

Sessions will be held on the university's Chicago campus. Daily classes during this month-long Institute will be supplemented by addresses by leading educators and businessmen.

The Institute was developed as a result of industry's growing economic, political, and soc responsibilities. Feeling 1 higher levels of industrial activity will add new responsibilities and create new problems for business, the program considers courses of action toward solvir these problems and fulfilling responsibilities of business and businessmen in a free enterprise society.

Mr. Fuller is a graduate of Ohio Wesleyan University at Delaware, Ohio, and was awarded his master's degree by the New York University School of Retailing in New York City.

Mr. Mark Annis, Toledo Produce Merchandiser, will be in charge of the Kroger Branch here during Mr. Fuller's absence.

Paving of M-50

Continued from page One

Both east and west of Tecumseh, hills are being cut down and fills are being made to reduce grades. Curves, also, are being widened. Waldron's Hill, west of town, and the curve that is just west of the hill will be things of the past when the new road is finished.

At the east limit of Tecumseh, where M-50 connects with Rogers Highway, a fill is being made to reduce the grade and the roadbed is being changed. The bridge over the River Raisin near the Universal Button Company's plant is to be removed and a new one built to the south. This will not be accomplished until next year, however, and until it is finished the present bridge will be used and a temporary roadway established.

Inside the Village of Tecumseh, the center boulevard in Chicago Boulevard is to be narrowed to four feet, both east and west, and about a foot of the sidewalk boulevards are to be cut back to make possible the building of two 22-foot one-way traffic lanes on each side of the center boulevard strip. Ornamental street lights, now located in the center section boulevard, are to be removed, and new overhead lights will be installed at each intersection.

The curve just west of Adrian street on M-50-52 is to be widened and some trees in that area will be removed.

The center boulevard section in the block between Ottawa and Oneida streets is to be removed. This area is rapidly becoming commercial.

New traffic lights are to be installed at the intersection of Chicago boulevard and Evans street, at Chicago Boulevard and Union street, and a caution light at the intersection of Adrian street.

All of the new roadway between Billington's and Dundee will be of 22-foot concrete except in the Village of Tecumseh. Here, the contract calls for the blacktopping of the present pavement in the business district.

A contract is to be awarded this fall for the building of a new road west of Billington's to meet the new M-50 pavement in the vicinity of the Onsted road intersection. Work on this project is not expected to start, however, until next spring.

The new bridge that is being built over Evans creek on M-52, in the north section of Tecumseh, is progressing. It is expected that this project will be completed and the road opened to traffic in November

Highway officials were optimistic about the progress of the road construction. There are only two possible delays. Both cement and stone are in short supply, it was said. There is ample steel on the job.

The building of the eight-mile stretch between Billington's and Britton will require about 100,000 tons of stone, it was said. There was no estimate of the amount of cement.

Ceiling on Taxes

Continued from page One

our economy. And as a representative of organized labor I am also aware that management in its efforts to produce profits for its investors sometimes fails to exercise proper social conscience. So it is my hope and intention to see that the controlling facts are considered so that a fair judgment may be formed.

"Limiting Income Taxes, Percentage-Wise"
(Negative)

Taxes are levied upon people and property to support the needs of our government—not to penalize either person or property.

Assuming that we are agreed that a certain amount of money is needed to support these needs, the question is: how much of the load must the people carry without destroying their incentive to earn and how much of the load must property bear without it being confiscatory or destroying the desire to own property. The best we can hope for is the proper balance between these two sources.

I agree that sufficient production must be maintained to keep our workers **steadily** employed and to supply the demand. But national wealth is not production and material things alone; it also is health, happiness, the ability to carry out our responsibilities, and the freedom to exercise the rights given us in our constitution.

Our economy depends on keeping our dollars working. There is no assurance that because a person was able to accumulate a lot of dollars that he or she would put them to work in this country or at all.

It is not Socialism to tax most those most able to pay in order that a reasonable standard of living may be maintained by those less able to pay. **It is Social Sense.** A chain is no stronger than its weakest link.

To summarize: A set percentage (say 25%) of tax income is **not** practical in meeting tax needs, nor equitable nor will it contribute to **stabilized** production based on a **natural** healthy growth.

Tecumseh Voted

official said. "What I noticed was that after the voter arrived at the polls he hadn't made up his mind who he intended to vote for."

The real rush of voters came at 8 o'clock, when the polls were due to close. Fully 30 persons were in line, waiting to cast their ballots, at that time. As a result, the polls did not close until about 8:20..

Election officials, like the voters, found the tabulation of the machine results a little new to them, and for that reason, it was well after 10:30 before totals were struck and official ballot sheets were signed.

"It was an experience, both to the voters and to the officials," LeRoy H. Titley, supervisor, said today. "However, next time the voters will cast their ballots in half the time, and I think that the inspectors also will do their work in a much shorter period."

It was estimated that if the old paper ballot system had been used here Tuesday, it would have been 3 or 4 o'clock in the morning before totals would have been available.

Dick's Standard Service Soft Ball Champions

The Recreation Soft Ball League championship was played off last Wednesday evening at Recreation Center at 8 o'clock. Dick's Standard Service won the championship and the Recreation League trophy by defeating the Jokers in a thrilling game.

The Service team pushed five runs across in the last half of the seventh inning to win by a score of 11 to 10. With two men out and the bases loaded in the seventh, Howard Whelan hit a double to put three runs across and win the game.

Dave Murphy and the Jokers lost a heart breaker for they were leading during the early part of the game. George Pontius was the winning pitcher, Murphy the loser.

ADVENTISTS CONVENE

WILSON—Seventh-day Adventists living in Michigan's Upper Peninsula have assembled for the annual campmeeting held each summer near Wilson. The series of religious services begin this evening, August 7, and continue through Sunday, August 10.

According to Elder G. E. Hutches, president of the Michigan Conference of Seventh-day Adventists, featured guest speakers will include Elder Lambert L. Moffatt, Washington, D.C., director of the denomination's international Sabbath School system; Elder M. L. Rice, Berrien Springs, president of the Lake Union Conference, comprised of the four-state area of Michigan, Wisconsin, Illinois, and Indiana; and Elder A. H. Johns, pastor of the Battle Creek Seventh-day Adventist Tabernacle.

Explorer Scouts Enjoy 200-mile Canoe Trip

Sunday, July 27, sixteen Explorer Scouts, supervised by Burdett Peebles of Blissfield, and two associates, D. Avis, and Al Knight of Adrian, left Adrian at 9 a.m., by truck, on a seven day canoe and camping trip on the Au Sable river. The canoe trip began at Grayling and extended to Cook's Dam, a distance of about two hundred miles.

During the trip the boys made five portages. Namely, Mio, Alcona, Loud, Five Channels and Cook's Dam. One of the points of interest to the boys was Lumberman's Monument, located on the Au Sable. The boys were also permitted to view the area near the monument, from one of the forest lookout towers. They also reported seeing many deer.

The camping was successful, educational and enjoyed by all.

The boys attending from the Tecumseh Post No. 47 were, Louis Vargo, Ross Hadley, Bill Dean and David Fredericks. Ross Hadley who is working toward his merit badge counselor, submitted the story.

and Sulier, 1,200 votes. Not all of the precincts in the four-county district had reported.

In Macon township, Lopshire's home precinct, he polled 150 votes to Meader's 34 and Sulier's six.

Senator Elmer Porter and Rep. Rollo Conlin were unopposed in the primary and they both polled heavy complimentary votes.

On the non-partisan ballot for probate judge, the race in November will be between Bernard Williamson, incumbent, and La-Von B. Kuney, Adrian lawyer. Incomplete returns in the county gave Williamson 5,499 votes, Kuney, 3,200 votes, and the third man in the race, Paul Betz, 1,282.

On the county ticket, Wade Willett, sheriff, who was opposed for renomination on the Republican ticket, won an easy victory over William Howe. Willett's vote was about 7,100 to Howe's 3,800.

Leonard Warner, Republican register of deeds, polled nearly a two to one vote over his opponent, Clarence Sharp. Warner's vote was more than 6,500.

There were no other contests on either the Republican or Democratic tickets.

Here is how Tecumseh voted:

If You Like Quality Food,
We'd Like to Sell it To You—

There is nothing more satisfying to us, or to our customers, than quailty food. We like to sell it, our customers like to buy it. We both know that where quality is found there is genuine satisfaction.

That is the reason we have learned, in the more than 100 years that we have been in business here, that it pays to sell and to buy quality food. And that is why we handle it, exclusively.

Feeder and Market Hog Outlook Is Discussed

"You can pay up to $18.20 for 50-pound feeder pigs if you feed them balanced rations, and use good sanitation and production practices, including good legume pasture."

That's the answer Robert Kramer, Michigan State College agricultural economist, gives to farmers who are wondering about buying feeder pigs today. That figure assumes corn at $1.70 a bushel and 40 per cent protein supplement at $6.60 a hundred pounds. It also assumes that you will market your feeder pig as a 225-pound butcher hog four months from now.

With that point as a starter, you can figure back to your own situation. If you feel that you will have to pay $1.80 a bushel for corn and $6.70 a hundred for protein supplement you can afford to pay only $17.10 for your 50-pound feeder pig. In other words, you can pay $1.10 each less for your feeder pigs for each ten cent increase in the cost of corn and protein supplement. Or you can add $1.10 for each ten cents less you figure they will cost.

On the other hand, if it costs you more to put gains on your pigs, you'd better figure on paying less for them.

These figures assume that market hogs will sell for $21 a hundred pounds the first week in December when your feeder pig would weigh 225 pounds and be ready for market, Kramer said.

PAST PRESIDENTS MEET

The Past Presidents of the American Legion Auxiliary met at the home of Mrs. Joseph Russell at Wamplers Lake, Thursday evening, with Mrs. Laine Holden as co-hostess. Thirteen members attended and after the business meeting tables were arranged for canasta with honors awarded to Mrs. O. W. Laidlaw and Mrs. E. J. Aebersold. Refreshments were served by the hostesses.

The next meeting will be held October 30 with Mrs. Al Bagshaw and Mrs. Lyman Curtiss as hostesses.

Wet Mucklands Can Be Made Profitable Pasture

Wet mucklands that are normally too wet for other crops can make highly productive pasture areas if seeded to reed canary grass, according to D. L. Clanahan, Michigan State College farm crops specialist.

The summer months, when the water table is low, make an ideal time to clear, plow and fit these areas. Reed canary grass should be planted before August 15. If this is not possible then late fall seeding after the growing season has passed has proven satisfactory, Clanahan said. He explained that in this case the seed lies dormant until the following spring.

Five pounds of seed per acre is the recommended amount. Fertilizer also should be applied at the rate of 300 to 400 pounds to the acre. Clanahan recommends a fertilizer high in potash and phosphate such as O-20-20, O-9-27 or O-10-20. The seeding should be followed with a roller to firm the soil. This operation often spells the difference between success and failure of a seeding.

Clanahan said that new reed canary grass seedings will need a year to become established. If annual weeds are thick, a clipping is remommended to reduce competition. The grass will furnish a long grazing period and is green when many other grasses become dry and woody.

MICHIGAN STATE PROF TO LECTURE IN ITALY

East Lansing—Dr. Hans Nathan, associate professor of literature and fine arts at Michigan State College, has been awarded a Fulbright award to lecture on American music at the University of Rome, Italy, during the 1952-53 school year. Dr. Nathan's course will deal with the whole range of music in American from the 17th century.

After summer fairs and exhibits, show stock should be isolated from the home animals for at least 30 days. If the show animals are healthy at the end of this period, they may be put back into the herd.

From where I sit ... *by* Joe Marsh

Well, What Do You Know?

Do you believe in a bunch of old tales about lightning—about how it's attracted by cats or the warmth of cattle . . . how it never strikes in the same place twice . . . or how it's liable to turn milk sour? Lots of people often do—but they're wrong.

Dad Hawkins inspired this column today. He's really studied up on lightning since his own cow barn was struck that time.

"Trouble is, most of us don't know half enough about the subject," Dad says. "And about half of what we *do* know is false!"

From where I sit, Dad's statement applies to a lot of things besides lightning. Too many people think they know their neighbor's wrong when he votes for his candidate instead of theirs. Some people even resent our right to enjoy a friendly glass of beer if and when we choose. Opinions based on misinformation and prejudice, instead of being "grounded" on true facts can cause more damage than lightning ever did.

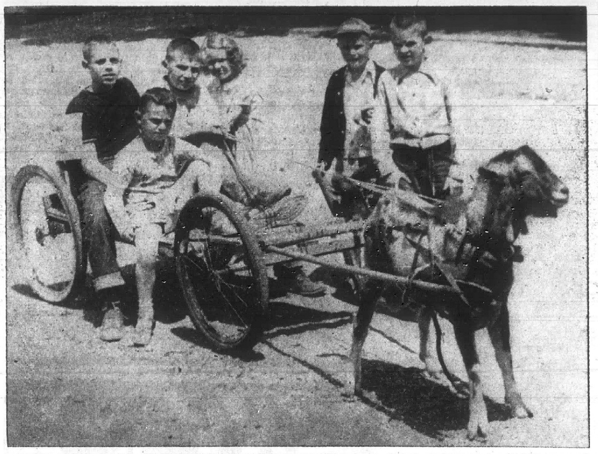
THE TECUMSEH HERALD

ONE HUNDRED FIRST YEAR — NUMBER 46 TECUMSEH, MICHIGAN, AUGUST 14, 1952 5 CENTS A COPY



WHO SAID FREE ENTERPRISE IS GONE? Here's the proof that an idea and a $5 bill can make money. Barry Brock and Jack Purcell, 14-year-old Tecumseh lads, bought the goat, made the wagon and the harness, and they're in business selling goat rides to youngsters at 10c apiece. On their best day they made $3.20. In the picture are, left to right, Jack Purcell, Ward Cornell, Barry Brock, Patty Lawson, Norman Griggs, and David Brock. The photo was snapped by a Herald photographer just before another 10-cent goat ride was started.

THE DAYS OF FREE ENTERPRISE ARE NOT GONE IN TECUMSEH, NO SIR!

An Idea and $5 In Cash Puts Local Boys Into Business

If you think that the days of free enterprise are gone, that the average young fellow doesn't have a chance to go into business for himself, you're mistaken.

Free enterprise still exists in Tecumseh and for the proof, ask Barry Brock, 14-year-old son of Mr. and Mrs. C. B. Brock, W. Logan street, or Jack Purcell, 14-year-old son of Mr. and Mrs. Frank Purcell, W. Pottawatamie street. These two teen-age lads have gone into business for themselves and, in truly American style, they're making a success of it.

A few days ago the lads heard about a farmer near here who wanted to sell a two-year-old goat. The price was $5. The youngsters pooled their cash and their imagination and have come up with a fairly lucrative vacation business. They bought the goat, made a wagon out of bicycle wheels, some scrap iron and some boards, improvised a harness out of some discarded pieces of leather and today they're in the entertainment business, selling rides to the neighborhood children at 10c each for once around the block.

You think youngsters don't like goat rides? You're mistaken again. On the best day that the boys had they made $3.20. Of course, not every day is "pay day" for them, but they've already got their money back and some besides, and most of all, they're having a lot of fun.

Billy—that's the name the boys have tagged to the goat—is a gentle animal and he's not very fussy about what he eats. They've tempted him with almost everything except chlorophyll, and some of the parents think that the purchase of a half-bushel of the odor-vanishing tablets might be a sound investment. But Billy doesn't seem to realize that there's anything offensive about goats, he has such a grand time pulling the kiddies who sit on the cart.

And so until school starts, and perhaps even after that, the boys intend to continue their entertainment enterprise. When the weather gets too cold, and it becomes a problem to care for Billy, they intend to sell him or give him to some farmer who'd like to dispose of the tin cans and rubbish on his land.

But until that time comes, Billy will continue to be well fed and cared for. Right now he's on pasture in a nearby field. He gets plenty of water, oats and other things that goats should eat.

Tax Structure Ruins Incentive

BEARDSLEY REPLIES TO SPANGLER IN FINAL DEBATE OF TAX PROBLEMS

James C. Beardsley, local attorney, who has participated through the columns of The Herald, in a debate with Grenval Spangler of Tecumseh, regarding a proposed ceiling on income taxes, this week replies to Mr. Spangler's communication of a week ago, in which he (Spangler) took a negative view.

Mr. Beardsley, in his communication this week, calls the government's present tax program destructive to incentive. His reply to Mr. Spangler follows:

In rebuttal to Mr. Spangler's letter in last week's Herald, I am unfortunately unable to find where any of my three principal reasons for limiting the income tax have been impeached—or even questioned. But, in the interests of completion, let us consider the argument advanced by the opposition:

I am naturally agreed that taxes are theoretically leveled for the support of the Government, or for the support of special interests subsidized by the Government. I disagree that they are not being used to penalize. I

Father And Son Win Honors At Archery

Harold Hall and his son Garry, age 10, took part in the 68th National (Archery) Tournament in Jackson, last week. Harold placed second in the instinctive division and Gary first in cadet events. The tournament ended Thursday, and Friday evening Gary received a trophy in his division. Other trophies and awards were presented at that time.

Sunday, Gary placed first in the junior division at the Jackson Field meet.

Mr. Hall and his son will attend the National Field Archery in Minneapolis, Minn., August 25-29. Mrs. Hall and daughter Sandra will accompany them to Minnesota.

Sunday, August 31, Mr. Hall and son will attend the state tournament in Saginaw.

Warn Of Riding Bikes On Walks

Police today warned against the riding of bicycles on the sidewalks in Tecumseh, pointing out that there is an ordinance against such a practice.

"Some youngsters are very thoughtless," Chief Geo. Kilbourn said. "They seem to feel that just because they are on a bicycle the pedestrians must give them right-of-way. That is not the case. The sidewalks were built to accommodate the pedestrians."

Chief Kilbourn also warned that two on a bicycle is a dangerous practice, either on a sidewalk or in the street.

"We don't want any accidents in Tecumseh if we can help it, and we'd like to tell the youngsters that riding two on a bicycle is one of the quickest ways to bring one about," he declared.

PAYS FINE, COSTS

F. Bocanegra, 33, of Milan, paid a fine of $10 and costs of $8.60 when he was arraigned in Justice Lowe's court in Adrian, Monday, charged with being drunk and disorderly. He was arrested in Tecumseh by local police, Sunday.

Two Way Radio Benefits Police

A new two-way radio has been installed in the police scout car here and is of untold benefit to local officers, according to Chief Geo. Kilbourn.

"We now are able to be in instant contact with Monroe and Washtenaw sheriff's offices," the chief said.

The radio was installed this week in the new scout car, delivered to the department about a month ago.

Charles F. Thomas, 48, Former Resident, Dies

Charles F. Thomas, aged 48 years, of Jerome, who operated a grocery store there for the last one and a half years, died at his home at 7:30, Monday morning. He had been in poor health since December. Mr. Thomas was born in Lebannon, Va., May 4, 1904. In 1930 he married Elsie Nordstrom of Allouez, Mich., who survives. Prior to moving to Jerome they lived in Tecumseh. He was a member of the Tecumseh Grange.

Survivors besides his wife, Elsie, are four daughters, Mrs. Lawrence Kopke of Holloway, Mrs. Thomas Rutherford of Tecumseh, and Nancy Lee and Betty Jean at home; a son, William B., also at home.

Funeral services will be held at the Green Funeral Home today (Thursday) at 2 p.m. The Rev. Clayton Baringer will officiate. Burial will be in Brookside cemetery.

NO TURN, SATURDAY

Police are enforcing a no-turn regulation at the intersection of Chicago Boulevard and Evans Street, Tecumseh's main downtown intersection, between the hours of 7:45 and 9 o'clock Saturday evenings. The regulation was put into effect as a safety measure. Police Chief Geo. Kilbourn asked that motorists cooperate with his department in its enforcement.

School To Open On September 2

TEACHERS TO MEET AUGUST 27, 28 AND 29; FIVE KINDERGARTEN CLASSES

The public schools in Tecumseh will open for regular classwork on Tuesday, September 2, James McDowell, superintendent, said today. A record enrollment is expected, but Mr. McDowell did not hazard a guess as to the number.

Teachers will meet for preschool sessions on August 27, 28 and 29, McDowell said. There will be no pre-school home visitations, as in previous years, and neither will there be any immediate testing of students, as in former years.

"When the students report to school on September 2, classes will start immediately. Regular assignments will be given, and the fall term will be under way."

There will be five kindergarten classes this year to cope with the record enrollment. Two of these will be at Brownville with Miss Pat Hammack in charge; two at West Branch with Mrs. Bertram Updike as teacher, and one at Central with Mrs. Margaret Heimerdinger, teacher. Kindergarten classes are one-half day long. The Central class will meet in the morning.

McDowell said that there are now 167 enrolled kindergarteners. He urged all parents who have not yet enrolled kindergarten students to do so at once—before the opening of school. Blanks may be obtained at the superintendent's office.

Last year, 130 students were enrolled in kindergarten.

Baseball Honor To Local Youth

John Sisson, son of Mr. and Mrs. Sam Sisson and a member of this year's high school graduating class, was chosen as the "player of the week" at Briggs Stadium, Detroit, Saturday in the final play of the Hearst Times Baseball Tournament.

The contest play started in Adrian, three weeks ago. August 2, the All Star Team, coached by Elven Duvall of Tecumseh, played in Ann Arbor. Mr. Sisson was a member of the team. When outstanding players were chosen to represent the All Star Lower Peninsula team to meet the Upper Peninsula nine, Sisson was among the group. Mr. and Mrs. Sam Sisson saw this game.

Saturday, John played again in the All Star group at Briggs Stadium. His spectacular playing and hitting in Friday's event, one of his hits proved to result in the winning run, paved the way to his goal of honor.

"The player of the week," was chosen by the scouts of the major leagues and various colleges. He was presented with a trophy and interviewed on television by Schoolboy Rowe and other celebrities in baseball, as well as newspaper reporters and baseball scouts.

John will play with the All Star team in Buffalo on August 23. If the team wins he will play at the Yankee Stadium in New York City, September 3.

Sisson has enrolled for college work at Michigan State, Lansing.

Victor Clauda Hurt In Accident On US-223

Victor Clauda, age 40 years, of Route 4, Adrian, was seriously injured Saturday night, when the car in which he was riding rolled over on US-112, two miles east of Devils Lake. Mr. Clauda's wife was driving. She told officers that it was raining, the pavement was slippery and the car slid off the road on a curve.

Mr. Clauda received first aid at Bixby hospital in Adrian and was transferred to University hospital, Ann Arbor. He is suffering from a punctured lung, broken rib and severed tendens in his right hand. His condition is reported as fair.

Mr. Clauda is a co-partner with his brother, Paul, in Clauda Plumbing on West Monroe street, Tecumseh.

A. C. Hamaker To Be Guest Editor Of Herald

A. C. Hamaker, owner of the Hamaker Advertising Agency here, will be the guest editor of The Tecumseh Herald for the next 10 days or two weeks during the absence of the publisher, Earl L. Wickwire, who is on vacation.

Mr. Hamaker is known in the advertising and newspaper world because of the agency that he operates. He is a native of Mendon, where his father was a weekly newspaper publisher. More recently, and until he moved to Tecumseh a few years ago, he lived in Detroit.

Farmers from all over the county are expected to participate in the event.

COMMUNITY FUND TO MEET MONDAY EVE

The regular meeting of the Community Fund board will be held Monday evening, August 18, at 8 o'clock in the offices of the United Savings Bank. The public is invited to attend. All requests for funds are to be made before Monday so that the board may complete the budget for the coming year.

Clinton Ready For Homecoming

The annual Homecoming Celebration at Clinton will be held August 21-22-23 and 24 at the High School Athletic field. There are several new features this year which promise an outstanding show.

There will be a horse-pulling contest on Friday night at 6:30, with 16 light and heavy teams entered.

On Saturday the day will start with a large parade at noon followed by the crowning of the queen. The girl chosen as queen will be entered in the contest at the Lenawee County Fair in September. Saturday at 2 p.m. there will be an auction in which eight white face calves will be judged and sold. This is a culmination of a program started last November by the Clinton Rotary Club. At that time the cattle were purchased and have been fed by eight young people of Clinton vicinity. They are now in top condition and livestock buyers from all over the state will bid on them.

Saturday night at 10:30 there will be a free show featuring the "Great Carlo," doctor of magic and star of radio and TV

Sunday will be the big final day with contests and games for the kids at 3 p.m. Prizes and a giant fireworks display will end the activities on Sunday night.

Rides - concessions - merchant displays - farm equipment displays and fun will feature all four days.

CLAUDA BUILDING IS REMODELED, ENLARGED

Work on the remodeling of the building owned by the Clauda Plumbing Shop, Monroe Road is expected to be completed by Labor Day.

It was necessary to cut back the Clauda building about 20 feet to accommodate the widening of M-50 in that area. The 20-foot cutback destroyed the company's offices and showrooms.

A new building is being built immediately east of the present one, and this will give even larger offices and display rooms than in the old building.

The Handy Drive In, next to Clauda's also has been moved back to meet the requirements of the State Highway Department.

Judge Williamson Buried, Tuesday

HEART ATTACK FATAL TO 44 - YEAR - OLD PROBATE JUDGE; WAS FORMER RESIDENT

Funeral services were held Tuesday afternoon from the Ackland Funeral Home in Morenci for Judge Bernard N. Williamson, 44-year-old Lenawee county probate judge, who died suddenly of a heart attack, Sunday at 1:15 a.m., at the summer cottage of his brother, Charles L. Williamson of Monroe, at Devils Lake. The Rev. Richard Gardner, of the Congregational church of Morenci, officiated, and burial was in Brookside Cemetery, Tecumseh. Masonic services were conducted at the grave.

Judge Williamson, in his usual good health, had spent Saturday morning in his offices at the court house in Adrian. In the afternoon he returned to Morenci where he worked in his office, and about 6 p.m., he arrived at his summer home at Sandy Beach, Devils Lake. About 7 o'clock in the evening, his brother, Charles, a Monroe lawyer, visited him and invited Judge and Mrs. Williamson to their cottage on Clark's Cove for a card party. There were other guests including Mr. and Mrs. Joseph Bachmeyer of Blissfield, parents of Mrs. Charles Williamson, and Mr. and Mrs. Melvin Michael of Adrian.

It was while the group was enjoying a game of cards that the judge collapsed. He slumped in his chair without saying a word. Dr. Benjamin Growt of Addison said that death was instantaneous.

Judge Williamson had planned to spend a week's vacation at his cottage at the lake. His friends said he looked tired Saturday night, but that he didn't mention any illness.

Judge Williamson was named

Kuney Certain As Probate Judge

ONLY HIS NAME CAN APPEAR ON BALLOT, DUE TO DEATH OF HIS OPPONENT

Unless Michigan election officials are reversed by a ruling of the attorney general, only the name of LaVon B. Kuney, Adrian lawyer, will appear on the nonpartisan ballot in November for election to the office of probate judge in Lenawee county, it was said today.

Judge Bernard N. Williamson of Morenci, who led a 3-way race for nomination in the primary last week, died suddenly at the Devils Lake cottage of his brother, early Sunday morning, the result of a heart attack. Mr. Kuney was secnod highest in the primary contest, and his name, along with Judge Williamson's, was to have appeared on the ballot this fall. Now however, state election officials have ruled that only Mr. Kuney's name may appear, inasmuch as the November contest was to have been between the two highest primary candidates.

Other candidates can seek election only by sticker or write-in votes, it was said at the state office in Lansing. In Tecumseh and in Adrian, where voting machines are used, the write-in method must be followed. In communities using paper ballots, stickers may be used.

Judge Williamson was named to the probate court bench in July of 1951 following the sudden death of the late Judge Maurice E. Tripp of Hudson. The appointment was made by Governor Williams. It is expected that the Governor will make another appointment soon to succeed Judge Williamson, inasmuch as his term does not expire until January 1, 1953.

Where Were The Other 1,500 Voters?

In the primary election here, Tuesday, August 5, about forty per cent of the registered voters in Tecumseh township visited the polls.

It is estimated that Tecumseh has between 2,800 and 3,000 registered electors. In the primary, 1,237 of that number cast their votes.

In 1948, when Mr. Truman was elected president of the United States, about 48 per cent of the registered voters in the nation cast their ballots. In reality, then, Mr. Truman was named president by a minority group. Less than half of the people voted for him and, considering what we have heard about his administration since 1948, the 52 per cent of the people who didn't vote have done nothing since that time except gripe about him.

From where we sit, we don't think that anybody has any gripe about anything that happens in government if he doesn't have time to participate in government by casting his vote.

In Russia and in the countries behind the Iron Curtain, there are millions of folk who would give all that they've got—and God knows that they have very little—if it were possible for them to be free. Men and women in Iron Curtain countries know what it means to own property, to have homes of their own, to trade in stores of their choice, and to worship God according to the dictates of their own conscience. Those were the freedoms that they enjoyed before Stalin and his henchmen took over. Now they're gone. Today, these once free men and women goose-step to the tune that is played by the Reds. Their property is gone, they shop in stores where they are told to shop, their children are exposed to the propaganda that Moscow dictates, and the reading of the Bible is an offense punishable by commitment to a slave camp or the firing squad.

What happened in these once free countries to bring about such a change? There are brilliant leaders in Czechoslovakia, in Russia and in the Low Countries now governed by the Communists. Why did they permit themselves to be swallowed up by the Reds—to lose their very souls?

There is only one answer that can be given, and that answer, unless the voters become more alert here in Tecumseh and in Michigan and the United States, may well serve as the answer for what can happen here.

When folk are not concerned with government, when they don't care who represents them in government, when they're willing to sell their freedom and their souls for a mock security, we here in America have reached the condition that the men and women in Europe reached before they became slaves to Moscow.

Over there, the once free men of prominence, owners of industry, stores, and businesses big and small, no longer go about their tasks as they did before. And neither does labor move about freely, to be employed here or there as best suits men's likes. Neither capital or labor is free to do as it pleases. Instead, both bow to the will of the dictators.

And the reason that the men and women behind the Iron Curtain lost their rights, their liberties and their souls is because they too, like so many of us here at home, failed to take an interest in government. They, too, didn't have time to vote and to learn about the men for whom they were voting. They were too busy listening to pleasant-sounding stories about security for the future—the time when nobody would work and everybody would play.

You say that can't happen here? Why can't it happen?

Only last week, more than half of the folk who live right here in Tecumseh township didn't take time to visit the polls. They will be willing to submit to the judgment of 40 per cent of the voters and then, perhaps, gripe about what happened after the election was over.

A democracy is not operated on such a premise. In a democracy we presume that everybody participates in elections; that a majority rules, and that a majority participates in voting.

When a majority of the people fail to participate—when only 40 per cent of the people cast their ballots at election time—then the minority rules.

That is exactly what happened in last Tuesday's election. Statewide the vote was large, larger than in many previous elections, but when it was analyzed it showed that only a mere handful of the registered voters of Michigan cast their ballots.

New Rubber Cement Is Safe And An Insecticide

A new cold-setting rubber cement will stick rubber tile to concrete without buckling. It works as well in damp rooms as in dry ones. An insecticide that is odorless and safe for humans is the vapor from mortrane crystals let off from a tiny electrical vaporizer. These are some of the aids to better living reported in McCall's National Newsletter for August:

Rubber will stick to concrete without buckling when you use a new cold-setting rubber cement which works as well in rooms with high moisture content (like laundry basements) as in dry ones.

"Flies drop dead, and so do mosquitoes and roaches, from whiffs of mortrane let off from a tiny electrical vaporizer that can be plugged in almost anywhere. Mortrane crystals cost more than some insecticides, but the vapor from them is heralded as odorless and safe for humans.

"You can buy shredded foam rubber in pound bags now. It's good for stuffing pillows, cushions, toys and the like. The shreds distribute themselves well, do not bunch up.

"Simplest way yet to turn raw drinking water into distilled is said to be with a new polyethylene bottle with a filter of deionizing materials inserted like a stopper."

Teen-Age Girls 'Have Problems'

SURVEY SHOWS THAT MANY OF THEM ARE AT ODDS WITH THEIR PARENTS

Most teen-age girls have a wholesome and affectionate relationship with their mothers and fathers, but a surprisingly large minority feel neglected, hurt or embarrassed by their parents, according to a survey conducted for McCall's Magazine by the Gilbert Youth Research Organization. The questions and answers appear in the August issue of the magazine. These are a few:

"The Gilbert Youth Research Organization asked 714 girls of 15 to 17 very personal questions. The girls who were queried come from ten scattered communities, urban and rural, and represent various income groups. All live at home, and both of the parents of all are living.

"Do you get annoyed with your mother? Frequently: 19.5%, Occasionally: 62.5%, Rarely: 16.4%.

"Do you get annoyed with your father? Frequently: 17.9%, Occasionally: 54,1%, Rarely, 23.8%.

"Does your mother get annoyed with you? Frequently: 35.1%, Occasionally 49.9%, Rarely: 11.5%.

"Does your father get annoyed with you? Frequently: 29%, Occasionally: 42.3%, Rarely: 26.6%.

"Does your father and mother love each other? Very much: 32.5%, Not enough: 17.5%, As much as they should: 49%.

"Do your parents ever quarrel in a way that embarrasses you? Yes: 37.7%, No: 58%.

"Does your mother always listen when you have something important to tell her? Yes: 64.7%, No: 30.7%.

"What is an adequate weekly allowance for a girl your age? Answers ranged from $1 to $15. Average: $4.85.

"Does your mother insist on selecting your clothes? Yes: 10.9%, No: 84.9%.

"Do your parents request you to be home too early at night? Yes: 29.1%, No: 66.1%.

"Do your parents give you enough freedom? Yes: 74.1%, No: 22.7%.

"Have you ever wished one of your friends' parents was your own? Yes: 26.6%, No: 70.9%.

"Do your parents quite often pick on you? Yes: 53.2%, No: 43.3%.

"Have you ever caught your parents lying to you? Yes: 29.7%, No: 66.1%.

"Do your parents let you invite girl friends overnight? Yes: 76.3%, No: 20%.

"Do your parents make you do housework against your will? Yes: 45.1%, No: 50.3%.

"Are your parents trying to force you into a future you object to? Yes: 17.5%, No: 79%.

"Are you ashamed of how either or both your parents look? Yes: 32.7%, No: 63.2%."

TOP AG ECONOMISTS TO CONVENE AT MSC

Approximately 400 of the world's top agricultural economists will be on the Michigan State College campus as Lansing, Aug. 15-22 to attend the eighth International Conference of Agricultural Economists.

Purpose of the seven-day event, which hasn't been held in the U. S. since 1930, is to promote international understanding of agricultural economists programs and provide a medium for the exchange of ideas from nation to nation.

Non-governmental in nature, the conference will be held in M.S.C.'s Kellogg Center. Michigan State will serve as host to the event which is being sponsored by the Kellogg Foundation, Battle Creek.

Top international economists will deliver scientific papers and participate in workshop discussions of the economic problems of the world.

President of the group since its founding more than 20 years ago has been Dr. Leonard Elmhirst, president of Dartington Hall, England.

Cull Out The
Poor Producers. . .

Follow these two important points for attaining highest profits from your laying hens.
(1) Feed Hayden's Egg Krumbles as part of the regular everyday diet.
(2) Cull out the poor producers right now.

A hen that lays 100 eggs will eat about 10 lbs. of feed per dozen eggs. A hen laying 150 eggs will eat about 7 lbs of feed. A hen laying 225 to 250 eggs will eat less than 5 lbs. of feed per dozen eggs. Hayden's Egg Krumbles have proven these averages possible. So feed Hayden's Egg Krumbles — refuse imitations and substitutes.

Miss Elizabeth Ezelle Weds James Sloan, jr.

The First Presbyterian church of Adrian was the scene of a formal wedding, Saturday evening at 7 o'clock, when the Miss Elizabeth Katheren Ezelle, daughter of Mr. and Mrs. Charles R. Ezelle of 1311 Terrace Ave. Adrian, formerly of Detroit, became the bride of James Norman Sloan, jr., son of Mr. and Mrs. James N. Sloan, Rt. 1, Tecumseh, formerly of East Jordan. Dr. John E. Marvin of Adrian, performed the double ring ceremony before an altar decorated with lighted candleabra, hampers of white gladoli and Muriel daisies intersperced with fern, against a backdrop of white satin. The family pews were marked with white satin bows, centered with fern and a carnation.

Dr. Spencer, organist, played traditional wedding music from Lohengrin, while the guests were seated by Donald Judd of Tecumseh and Roger Waltz of Clinton. Keith Baily, accompanied by Dr. Spencer, sang "Ich Liebe Dich," "Because," and "The Lord's Prayer," during the ceremony.

The bride, given in marriage by her father, chose an ivory candlelight satin gown, with tight fitting bodice enhanced with seed pearl embroidery. Tiny satin buttons accented the back of the gown, and the sleeves fitted into Calla points over the hands. The full skirt had a cathedral-length train. A pearl embroidered tiera, accented with tiny rhinestones, held the double finger-tip veil and blusher veil of imported silk illusion. She carried a modernistic shower bouquet of white Eucharis lilies enhanced by French Maline and ivy streamers.

Miss Roberta Galloway of Holloway, maid of honor, wore a nylon tulle gown of Nile green in waltz length, with matching stole. Her crownless hat was accented by a large bow in the back, and she carried a nylon picture hat basket bouquet of gold carnations and gypsophilia. The bridesmaids were Miss Evelyn Arnold of Tecumseh and Miss Mary Lou Hammond of Adrian. They wore gowns identical to that of the maid's of honor, in orchid and yellow, with Miss Hammond carrying a bouquet of yellow carnations and gypsophilia and Miss Arnold of orchid carnations and gypsophilia.

David VanWinkle of Tecumseh, attended Mr. Sloan as best man.

The groom and attendants wore formal black trousers and white dinner jackets and the groom's boutoniere was a white Eucharis lily taken from the bridal bouquet. The other attendants' boutonierres were white carnations.

Mrs. Ezelle chose for her daughter's wedding, a gown of irredescent silk over champagne taffeta with contrasting accessories and a corsage of white striped Cypripedium orchids. Mrs. Sloan, the groom's mother, chose a pink nylon crepe dress with white accessories and a corsage of pink and white glamellias. The grandmother of the bride wore a black polka-dot dress with white accessories and a corsage of red roses and white carnations.

A reception was held in the church dining room immediately following the ceremony. The room was attractively decorated with gladioli and Muriel daisies. Refreshments were served to 175 guests from a Damask-covered table centered with a four-tiered wedding cake. It was topped with a miniature bride and groom, encircled with a garland of fern and pastel pom poms.

Miss Polly Eberhardt of Britton was at the guest book. The Misses Louanna Boyd and Carole Garrison of Adrian served the punch and Mrs. Marian Tuttle of Adrian cut and served the cake. Miss Marlys Arnold of Tecumseh was in charge of the gifts.

Guests were registered from Tecumseh, Clinton, Detroit, Onsted, Holloway, Maumee and Trilby, Ohio, Flint, East Jordan, Boyne City, Ferndale, Ludington, Birmingham and Chicago, Ill.

For traveling the bride changed to a cinnamon brown nylon pleated dress with white accessories and a corsage of white Eucharis lilies. After a trip to Ludington, Mr. and Mrs. Sloan will reside at 105 S. Oneida street, Tecumseh. Mrs. Sloan attended Cooley high school in Detroit and graduated from Adrian high school in 1951. She is employed at Bohn Aluminum & Brass Corp. Mr. Sloan attended East Johdan high school and graduated from Tecumseh high school in 1951. He is also employed by Bohn Aluminum & Brass Corp.

WHO SAID MAIL SERVICE IS NOT EFFICIENT?

Mr. and Mrs. Neil Pearson, while vacationing in northern Michigan, sent a card to their son, Curtiss (Curt) in Tecumseh, from Baraga, Michigan. She signed the card, "Mother." In the meantime Mrs. Pearson forgot to address the card. When they arrived home the card was in their mailbox. Stranger than fiction, how did the postoffice at Baraga know where to send the card, and how did the local post office know who "Mother" was?

Rats may raise four or more litters a year, averaging from six to ten a litter. They are expensive boarders. Controlling them will save grain, help control disease and save possible losses of young farm animals and poultry.

Tax Structure

Continued from page One

believe that, in many situations, taxes are being used as a deliberate weapon, without regard to the actual revenue received. However, I will pass the point as being slightly outside the scope of this discussion.

Mr. Spangler asks: "How much of the load must the people carry without destroying their incentive . . .?" And then answers: "The best we can hope for is a proper balance." I am agreed that a "proper balance" is desired. But **what** is a proper balance? Such is the precise issue which confronts us. I submitted that a percentage-wise limitation was proper and I gave (what I considered to be) three very good reasons for it.

But let us consider the matter further in the light of incentive. Certain persons have special skills, abilities, or resources that are above the average. Because they are above the average, they are rewarded with bigger incomes. And what could be more fitting? Certainly we should encourage that which is above-average in order that we may progress. But let us draw a comparison: Let us say that the employees of the Products were paid $1.50 per hour for the first 20 hours per week, 75c per hour for the next 10 hours, 25c per hour for the next 5, et cetera. Fantastic, isn't it? How many employees would be interested in working more than, say, 30 hours? Not one in a hundred—and I wouldn't blame them a bit. And yet that is exactly what we are enforcing, by our tax situation, on hundreds of thousands of specially-equipped persons throughout the Nation today. Is that using our human resources properly? You can bet your bottom dollar that it is not. We are crushing the corner-stone of our economy—Incentive. Today we attach the above-average earner—tomorrow, the average and below-average earner will suffer.

As to the statement that there is no assurance that a person accumulating money ". . . would invest it in this country or at all," I will say this' What **else** could he do with it? We are not plagued with persons making foreign investments. As to the ". . at all," part of it—How can a person help but invest it? If he put it in the bank and sits on it, so to speak, the bank invests it and such promotes production. If he buys stocks or bonds, the money is likewise utilized to encourage production.

As to the concluding statement that "It is not Socialism to 'tax most those most able to pay . . ," I reply thusly: I have not, in this discussion, claimed that the large-earner should not pay more, I have merely claimed that it should be **in proportion**, and not on a sliding scale.

Let us, Americans all, not deceive ourselves with platitudes of do-goodism nor confuse ourselves with false concepts of social justice. **Let these facts sink home if nothing else does:** If the Government completely confiscates **every** income over $25,000 per year—there will be enough to run the Nation just three days. If every income over $8,000 be similarly confiscated, the Government can run just 22 days on the proceeds. So where do the new taxes hit? You guessed it—right smack on the fellow who is already having a tough time to make ends meet. And what, therefore can be our only answer? There **must** be a **limit.** It's as simple as that.

Thus ends the discussion on income tax limitation.

I remain willing to discuss the other issues at any time.

Traffic Deaths Are On Increase

728 KILLED IN MICHIGAN IN 1952; OF THAT NUMBER 166 DURING JUNE

Michigan traffic accounted for 166 deaths during June, bringing the toll for the first six months of the year to 728. This was an increase of 18, or three per cent, over the 710 in the same period last year and, on the basis of previous trends, indicates the 1952 fatality record may exceed the 1951 total of 1,640 by at least 100.

According to the State Police monthly statistical report, it was the highest June death toll since 1941, when 178 were killed. Compared with the same month of the previous year, it was an increase of 29, or 21 per cent, over 137. On the other hand, injuries dropped 403, or nine per cent, 4,057 under 4,460. Accidents decreased 2,090, or 15 per cent, 12,313 under 14,403.

The traffic record for the first six months of the year also included 21,657 injuries and 77,255 accidents. Injuries decreased 498, or two per cent under 22,155, and accidents deceased 8,128, or ten per cent, under 85,383.

The gain in fatalities was attributed largely to an increase in multiple death accidents.

State Police accident statistics for the past five years show that, on an average, 41 per cent of each annual fatality toll occurs during the first six months. On that basis it has been estimated 1952 deaths will total about 1,750. The highest death toll ever recorded in Michigan was 2,175 in 1937.

Estimated travel for the first five months of this year was 9.4 billion miles, an increase of one per cent over the 9.3 billion miles last year. However, the death rate of 5.99 per 100 million miles of travel was two per cent below the 6.13 for the same period in 1951.

will get an insight on the breeding program; a view of the cow families; a demonstration of classified cows; calf management and feeding; and finally the forage crop program. Of the 150 head of Jerseys on the farm, there are 74 head in milk on the 1,385 acre farm, of which 1,300 acres are tillable. The herd averag is: Milk, 8,000 plus, and fat, 482. The tour will end at 4:30 p.m.

The days activities will get under way at 9 a.m., with a visit to the farm of Myron Jacob, Riga, where pure bred Guernsey cattle are raised. At 10 a.m., there will be a visit to the Mogeen farm at Jasper, where pure bred Holsteins will be seen. At 11:15 a.m., the men will visit the Raymond Platt farm at Tipton, where there is a commercial herd of holsteins numbering 34.

Mr. Parsons is well known to local farmers because of his association with Tecumseh high school. He also taught in Berrien Springs and Woodland. He is a graduate of Michigan State and has his masters degree from the University of Wisconsin.

Mr. Nelson is research assistant and extension specialist in farm crops at the College. He also is a graduate of State and was one of several authors who jointly published a bulletin entitled, "Hybrid Corns Compared for 1942".

Dr. Hoffman, a research professor in the dairy department, was prior to his coming to State an instructor in animal husbandry at Kansas State College. He holds a membership in the American Dairy Science Association, American Institute of Nutrition, the American Society of Animal Production, and is the author of seven bulletins and about thirty-four journal articles.

Judge Williamson

(Continued from page 1)

as probate judge on July 31, 1951, by Gov. Williams to succeed the late Judge M. E. Tripp of Hudson, who died suddenly of a heart ailment on June 24, 1951. Williamson was a candidate for reelection to the office in his own right in the forthcoming November election. In last week's primary he received 5,834 votes to lead two other candidates in the non-partisan contest by a wide margin.

Judge Williamson was born in Tecumseh, March 17, 1908, the son of Charles H. and Naomi North Williamson. He graduated from Tecumseh high school in 1926 and in 1926-27 he attended Hillsdale College. The following year he was a student at Michigan State College and from 1928 to 1931 he was enrolled at Vanderbilt University law school in Nashville, Tenn. He received his bachelor of law degree in 1931 and returned to Tecumseh to begin his law practice. It was in 1933 that he went to Morenci where he established his practice and he remained in practice there until his appointment to the probate judgeship.

Judge Williamson was active in civic affairs in Morenci. He was a former village attorney and clerk, and water commissioner. He was secretary of the Morenci Booster's Club, a member of the Service Club and the Improvement Association. He was a member of the Morenci Lodge, F. & A. M., the Morenci Order of Eastern Star, the Adrian Kiwanis Club, the Michigan Bar Association, the Lenawee Bar Association of which he was a past president, the Michigan Probate Judges Association, and the Devils Lake Yacht Club.

Surviving are the widow, the former Thelma V. F. F. A. Notes

The officers of the Tecumseh Chapter of the Future Farmers of America attended the annual Leadership Training Camp, held at Waldenwods Camp near Hartland, Michigan, August 8, 9, 10. The purpose of the camp was to teach the new chapter officers leadership for the coming year and let them exchange ideas with other officers.

The officers are: President, Merlyn Wagner; Reporter, John Wilt; Secretary, Eugene Withrow. The Junior officers attending were: Phillip Young, vice president; Edward DeLisle, treasurer, adviser, Mr. Burns.

While at the camp, committees met to discuss how to improve each of the committees in the chapter. The scholarship committee discussed ways to encourage the boys to improve their marks. The leadership group gave examples of good and poor leaders; and the earnings and savings committee exchanged ideas on how their chapters earned money and also how they encouraged savings and investments in farming. The community service and cooperative activities committees met in groups to discuss problems of their own activities. The supervised farming committee met to develop ways to improve the boys farming programs.

A farm tour was led by Mr. Brian, camp director, to show the boys a conservation farm plan and how it fits into the complete farming program.

Mr. Carey from the state office of education, spoke to the boys on leadership, and awards available to FFA boys.

Police Assist In Safety Drive

"WATCH YOUR PASSING," DON'T CUT IN AND OUT, OFFICERS WARN

Chief Geo. Kilbourn today announced that his department is cooperating with the State Safety Commission in a safety program aimed at reducing traffic accidents due to dangerous passing. This program, under the leadership of Charles M. Ziegler, state highway commissioner, will carry on through the month of August.

According to Chief Kilbourn, head-on collisions caused by dangerous passing are one of the most fatal types of traffic accidents. "The next time you drive by a wrecked car junkyard look for a car that has the whole front end caved in and the windshield smashed to bits. This should be sufficient evidence for anyone as to what happens when you hit another car head on," he said.

"Keep in line—don't cut in," the official slogan of the campaign, is good advice to all motorists to follow.

"Cutting in on the driver you are passing is one of the dirtiest tricks one motorist can pull on another," the chief added, "you may force him into the ditch or cause him to stop too suddenly and be hit by a surprised driver behind him.

"The professional driver never cuts in on the car he is passing. He waits until he can see his car in his rear vision mirror before he turns right to get back into the righthand lane. In this way he knows that he will not interfere with the car he is passing."

Chief Kilbourn stated that he is instructing his men to pay particular attention to dangerous passing and to stop all violators. "After all of the information motorists receive through the educational campaign of newspapers, radio stations and posters, there is no excuse for a motorist to pass dangerously", he concluded.

It is wasteful to start cooking vegetables in cold water—have the water at a rolling boil before you put in vegetables, say Michigan State College home economists. And don't add baking soda to the cooking water, for soda destroys precious vitamins.

Here's a hint for berry pickers who may get stains on rayon clothes. If it is a washable rayon, rinse the stain thoroughly with warm water and if the stain persists use a mild bleaching solution (on white fabric only) and then rinse in a weak solution of vinegar water. For non-washable rayons, sponge with lukewarm water immediately, recommend Michigan State College home economists.

THANK YOU
TO THE VOTERS OF THE SECOND DISTRICT:

I am very grateful for your support in the primary election last week.

The excellent turnout indicates to me a re-awakening of an intense interest in the people in national affairs and a determination to recapture Washington from grafters and power-hungry bureaucrats.

The American people deserve better government than this administration has been giving them. They are turning to the Republican Party for leadership. 1952 is a crucial year in American history. WE MUST NOT FAIL!

GILMORE-CAROTHERS

Saturday evening the Emmanuel Lutheran church of Britton was the setting for an attractive wedding when Eileen Louise Carothers, daughter of Mr. and Mrs. Ernest Carothers, became the bride of Wesley R. Gilmore, son of Mr. and Mrs. Herbert Gilmore, both families of Britton.

The double ring ceremony was performed by the Rev. Theodore Iben before an altar decorated with hampers and vases of white and yellow gladioluses, palms and lighted candelabra.

Miss Mary Jane Prichard, friend of the bride, played nuptial music and accompanied Mr. Wilbur Schonsheck of Dearborn who sang "O Perfect Love" and "The Lord's Prayer".

Given in marriage by her father, the bride was lovely in a gown of white satin, fashioned with lace bodice and long sleeves ended in points over her hands. Self covered buttons extended down the back. A lace panel covered the front of the skirt while the back of the gown fell into a full train. Her fingertip veil of illusion was shirred to a band of lace over satin, trimmed with net and tiny pearls. She carried a bouquet of white fuji mums surrounded with pom pons.

The matron of honor was Rosemary Niblack, sister of the bridegroom. She wore a floor length gown of mint green satin with matching headdress and mitts. She carried a cascade bouquet of pink shaded pom pons.

Shirley Bortel and Donna Price, cousins of the bride, were bridesmaids. They wore identical floor length gowns of gold satin with matching headdresses and mitts. They carried cascade bouquets of sunburst pom pons.

The best man was Melvin Schroeder of Wayne, friend of the bridegroom. Ushers were Alvin Carothers, brother of the bride, and Melvin Sanch, cousin of the bridegroom.

The bride's mother chose a teal blue dress with black accessories. Her corsage was of pink tubular begonias. The bridegroom's mother chose a navy dress with navy and white accessories. She wore an orchid corsage.

After the ceremony a reception was held at the church for 125 guests. Mrs. Helen Fay, aunt of the bride, cut the wedding cake. Dorothy Price, cousin of the bride, had charge of the guest book. Those who assisted in serving were the Misses Blanche Schafer, Myrtle Schafer, Norine Schwartz and Dorothy Wonderly.

For going away the bride chose a royal blue dress with red accessories and a corsage of red roses.

The bride has been employed at Berndt's Jewelry in Adrian until her marriage and the bridegroom enlisted in the Air Force, February 1952. Mr. and Mrs. Gilmore will make their home at Shreveport, Louisiana at present.

Final plans are completed for the I. O. O. F. Homecoming scheduled for Friday and Saturday, August 15 and 16.

Tuesday afternoon Mrs. Willis Palmer was host to the Ridgeway Garden Club. Roll call proved most interesting as each member displayed an arrangement of flowers in an unusual container.

Last week Raynor Benedict was moved to his home here from Flower hospital in Toledo.

Mr. and Mrs. George Forsyth and children have returned from a vacation visit with relatives and friends in Bloomington and Saybrook, Ill. Later last week after their return the Forsyth family accompanied by Mrs. Hamilton Moore and sons spent a day in Toledo.

The Salvation Army Service Unit Committee for Britton and Ridgeway wishes to thank the friends who contributed to the recent appeal for funds which is an annual event. The Salvation Army will make no other drive for funds except the workers from Adrian who come with the Christmas and Easter War Cry issues. Mr. Griffin will still receive contributions from the people who have not found it convenient to give as yet. Others besides Earl Griffin on the committee are Dr. W. T. Claxton, Mrs. Hary McElroy, Mrs. Glen Gripton and Warren Benham.

Mr. and Mrs. Charles Rix, who have made their home here with her parents, Rev. and Mrs. J. Morgan Reese for the summer have gone to Arcade, N. Y. They will visit his parents for two weeks before going to their home in Reading where both will be teachers in the Reading schools.

Recent guests in the home of Mrs. Flora Exelby were Mr. and Mrs. William Hadeler and baby of Dayton, Ohio.

Mr. and Mrs. Robert Gunder and family and Mr. and Mrs. Alfred Haystead were recent guests of Mr. and Mrs. Walter Riley in Lansing.

Mr. and Mrs. Harley Kimerer and Margaret and Karl have returned home from a week's trip through northern Michigan.

Mr. and Mrs. Virgil Bortel and son and Mr. and Mrs. Harold Miller were in Ohio Sunday attending the Mawer reunion at Otsego park.

Mr. and Mrs. Roy Carothers and Kay of Detroit were overnight guests Saturday of her mother, Mrs. Smith Pocklington.

Friday afternoon callers at the Andrew Crutchfield home were Mrs. S. K. Lewis of Portsmouth, Va., and Mrs. J. E. Bennett of Adrian.

Recent dinner guests of Mr. and Mrs. Byron Covell were Mr. and Mrs. Bert Pocklington. Afternoon callers the same day was Mrs. Orley Kaser of Deerfield.

Pre-School Check Of Kiddies Urged

VISIT TO FAMILY PHYSICIAN BY KINDERGARTENERS IS SUGGESTED BY STATE

It's time to check up on the health needs of your youngsters who will enter school for the first time this fall, the Michigan Department of Health advises.

The children born in 1947—160,000 strong—will be starting school this fall. It will be the biggest kindergarten in the state's history and parents should see to it that every one of these children is in the best possible health and has had "booster shots" for protection against smallpox, diphtheria, tetanus and whooping cough before taking his place in the schoolroom. Close association with many children in schoolrooms and on the playgrounds greatly increase the chances of exposure to communicable diseases.

The Department reminds parents that the immunizations their children received as infants may have "worn off" by the time they are ready to enter school and "boosters" are necessary to assure continued protection.

Those who had their shots as infants require only a single booster to raise their level of protection to where there is no danger of their contracting the illnesses. If, through some oversight, the child has not been immunized as an infant, the complete series of protective treatments should be given.

The Department makes the products for the prevention of whooping cough, diphtheria, smallpox and tetanus in its laboratories. These products are distributed to your local health department and the physicians of the state without charge so that no child need be without this vital protection.

Your family physician will give the immunizations. In many communities, preschool immunization and booster clinics are set up through the cooperation of the local medical society and the local health department.

If the youngster who is to enter school this fall has not had a physical examination within the last six months, he should be taken to the family physician and dentist for a thorough check-up now so that whatever treatment is required to bring him up to optimum health can be completed before the opening of school.

The health department recommends, too, that parents show the child the safest route to school and take him over it, pointing out any hazards. Present day protection against the communicable diseases makes accidents the greatest threat to the lives of school-age youngsters.

PICNIC AT GARDENS

All men and women over fifty years of age are invited to attend a picnic at Hidden Lakes Gardens on Thursday, August 21. Each person is asked to furnish his own lunch. The group will meet at the Tecumseh Methodist church at eleven o'clock and transportation will be provided. Those having room in their cars for passengers are asked to call Miss Anne Carson or Mrs. T. Rentschler.

BUICK'S POWER STEERING?
It's the big NEWS of the year

THERE is a host of things that endear a ROADMASTER to anyone who loves to drive.

There's the might of its Fireball 8 Engine — most powerful ever put in a Buick.

There's the thrift of its Airpower carburetor — a four-barrel automatic that literally brings increased power right out of thin air.

There's its hushed and luxurious silence — its poised and level ride that cost a million dollars to develop — and the infinite smoothness of its Dynaflow Drive.

But the thing that has brought the most cheers for this big and obedient beauty is Buick's version of Power Steering.*

Gone is the tug of turning, parking, maneuvering in small space.

Power Steering takes over the effort of turning the front wheels — makes it a one-hand operation.

Do you have to learn to drive all over again if you have this new Buick feature?

You definitely do not. On the open road, you have that same sure sense of command that you've always had. Coming out of a curve, you can loosen your grip, and the front wheels right themselves just as they do on every Buick.

But you'll notice this: When you suddenly hit loose dirt or sand—or a stretch of rough road—Power Steering smoothly goes into action — helps take up the jerk — makes control of the wheel easier and driving safer.

Wouldn't you like to try out this newest wonder — on a ROADMASTER or a SUPER? You say the word, and we'll do the rest.

*Equipment, accessories, trim and models are subject to change without notice. *Optional at extra cost on Roadmaster and Super only.*

CAREFUL WITH MONEY?

We're Careful With Our Prices-

We know, in times such as these, that everything that you buy costs money — that one has to be careful with his cash.

And that is why we are very careful to price our foods as low as market conditions will permit.

We always try to save you a penny or two on the items that we sell. If you'll shop with us regularly, you'll be surprised how rapidly such savings add up.

NEEDS FOR THAT VACATION MOTOR TRIP

If you're planning a vacation, the first thing that you should do is to have your car checked, to determine its condition.

Of course, you'll want a trouble-free trip, and if you own a Buick or a Chevrolet, the place to bring your car for an inspection is our garage.

Our mechanics will check your car carefully, including motor, ignition, tires and battery. They'll advise you of any weaknesses.

It's no fun, when you're a thousand miles from home, to have car trouble. You can avoid it, if you'll let us prevent it.

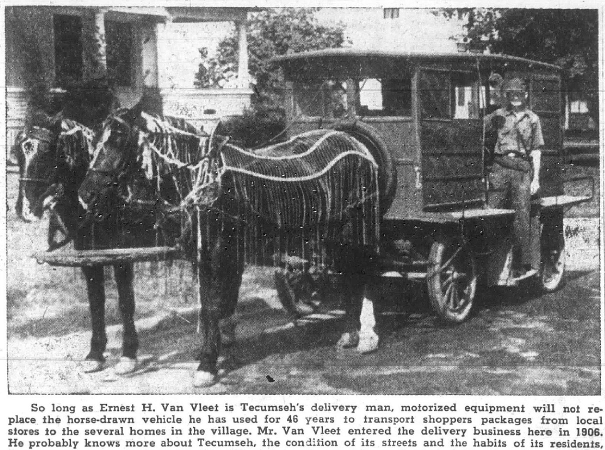
ONE HUNDRED FIRST YEAR — NUMBER 47 | TECUMSEH, MICHIGAN, AUGUST 21, 1952 | 5 CENTS A COPY



So long as Ernest H. Van Vleet is Tecumseh's delivery man, motorized equipment will not replace the horse-drawn vehicle he has used for 46 years to transport shoppers packages from local stores to the several homes in the village. Mr. Van Vleet entered the delivery business here in 1906. He probably knows more about Tecumseh, the condition of its streets and the habits of its residents, than any other man in town. Mr. Van Vleet's horse-drawn delivery truck is believed to be one of the few remaining vehicles of its kind in the middle west. Why doesn't he trade his horses for a truck or car? They're too expensive, he says.

ONE OF THE FEW REMAINING VEHICLES OF ITS KIND IN MIDDLE WEST

Horse-drawn Truck Is Still Used To Deliver Tecumseh's Groceries

If you think that times haven't changed in Tecumseh, if you would, for a moment, believe that "the old home town is the same town today that it always was," you should visit with Ernest H. Van Vleet, who has been in the delivery business here for 46 years, and he'll soon have you realizing that you're mistaken.

"When I started delivering groceries, meats and baked goods for the merchants in Tecumseh in October of 1906, Tecumseh had a population of a little more than 2,000," Mr. VanVleet recalls. "There were five grocery stores here then, all of them locally owned. A few stores had electric lights, there were no automobiles, radios or television sets, and bicycles and horses were the only means of transportation, other than the railroads.

"Tecumseh had its own water system, but the Saturday night bath was taken in a washtub in the kitchen. I doubt that there was a single bathtub in Tecumseh when I came here, because the sewer system had not been installed. Downtown stores opened at 6 o'clock in the morning, the factory workday was from 6:30 to 5:30 with an hour off for lunch, and, believe it or not the delivery business was double what it is today."

Mr. Van Vleet doesn't mean to imply that because the delivery business has fallen off today over the 1906 peak that it is because there is less shopping done. On the contrary, it is because of the coming of automobiles, sidewalks and easier shopping conditions. Today, many folk go to the store three or four times daily to do their shopping. Back in 1906, one or two visits a week might suffice and then, instead of the shopper taking his own groceries home, they were delivered by the deliveryman.

Believe it or not, Mr. Van Vleet has never owned an automobile. He has driven a car—a Model T Ford—but he says to be successful in the delivery business in a town the size of Tecumseh, cars or trucks are out. They are too expensive, he thinks. And so, Mr. Van Vleet still drives a pair of horses on his delivery truck, and it is the same truck that he has driven for more than 30 years. Of course, it's been improved and streamlined with rubber tires, better springs, etc.

He thinks that he might still be using the original truck if it had not been for an accident that happened about 30 years ago on West Chicago boulevard. While he was out delivering groceries, a car hit the truck and made an accordion out of it. The horses were not hurt. That is when the old truck was replaced with the present one.

Asked if he didn't think that it would be a lot less work for him to use a car than horses in his business, Van Vleet replied with a quick no. It only takes

BOULEVARDS HAVE THAT NEW LOOK

Enough people have commented on the fine appearance of the boulevard section of Chicago Blvd., that we add our opinion. Care of these plots has been transferred to the Water Department, and they are really "on the beam."

Dairy Tour Most Successful

Perfect weather cooperated with the approximately 300 farmers of Lenawee County who at one stage or another participated in the Dairy Tour last Tuesday. It was estimated there were more than 150 present at each visit, and about that number was present at the dinner, held at noon at the Tecumseh Grange.

The day started at 9:30 with a visit to the Myron Jacob farm at Riga. Details of his care of the pure bred Guernsey cattle was explained. The Mogeen farm at Jasper, and the Raymond Platt farm at Tipton were then visited, after which most of the entourage proceeded to the Tecumseh Grange for chicken dinner.

The program following the dinner was in charge of George Parsons, Michigan State College Extension Specialist, who is well known in Tecumseh. Following entertainment there were talks by Dr. C. F. Huffman, professor of dairy research at Michigan State College, and by Prof. Leyton V. Nelson of the Michigan State faculty. Dale Dean, manager of the Meadowridge Farm at Ridgeway gave a preview of the points to be observed on the visit there. The tour was completed with a most interesting visit to Meadowridge Farms, where both the calf care and feed raising programs were fully explained.

CHARLES F. THOMAS BURIED IN BROOKSIDE

Funeral services for Charles F. Thomas, who died at his home in Jerome, Monday morning, August 11 were held at the Green Funeral Home Thursday afternoon at 2 o'clock. The Rev. Clayton Bearinger, pastor of Ridgeway Nazarene church officiated. Mrs. Loren Avery and Mrs. Lee Spohr sang, "The Old Rugged Cross" and "In The Sweet Bye and Bye," accompanied by Mrs. Gale Hall. The bearers were William Godfrey, William Cook, John Fish and Elmer Ward of Jerome, Ed Bailey and Robert Stone of Tecumseh. Burial was in Brookside cemetery. Friends and relatives attended from Jerome, Britton, Ridgeway, Macon, Tipton, and Lebanon, Va.

NEW DAIRY STORE OPENS TUESDAY

The Michigan Producers Association of Adrian are announcing the opening of their new retail store on South Maumee street, in the building which was formerly occupied by the East Side Market. The building has been remodeled. A complete line of dairy products sold at the Adrian store will be featured here. Mr. and Mrs. Clayton Mikesell have moved to their new location which was formerly occupied by the Tecumseh Hatchery, and have completely redecorated the store.

Garden Club Holds Meeting

The Tecumseh Garden Club met at the home of Mrs. Neil Pearson Friday afternoon for a special meeting with 28 members in attendance. Plans were made for the Garden Club Flower Show to be held at the American Legion Home, Thursday, September 11. Mrs. Clarence Beach was made general chairman. Refreshments were served from a lace covered table centered with cut garden flowers. Mrs. Pearson was assisted by Mrs. Beach and Miss Mary McWilliams.

Mrs. Beach, general chairman of the Garden Flower Show, announced the following committees: Schedule chairman, Mrs. H. E. Kendrick; staging, Mrs. Neil Pearson, Mrs. Robert McCoy, Mrs. Henry Hamilton and Mrs. John Furry; property chairman, Mrs. Charles Kempf; entries, Mrs. Thos. O'Hara, Mrs. Charles Branigan, Mrs. Robert Sage and Mrs. Max Brandt; classification chairman, Mrs. Al Helzerman, Miss Ann Carson and Mrs. Harold Wilson; chairman of judges, Mrs. O. W. Laidlaw and Mrs. M. C. Miller; hospitality chairman, Mrs. Edward Boss, Mrs. Floyd Elliott and Mrs. Don Heesen; publicity chairman, Mrs. O'Hara; clean-up chairman, Mrs. K. D. Wise, Mrs. August Hoffmeister, Mrs. Joe O'Pravill and Mrs. Mertie Waring, and scrapbook, Mrs. Hal Kelso.

Hillsdale Ladies Compete Here

The ladies of the Hillsdale Country Club were guests of the Tecumseh Country Club ladies at golf and luncheon. The committee in charge of golfing was Mrs. Vincent Haight, Mrs. William Hanna and Mrs. Don Smith of Manchester. They were assisted by the regular golf committee.

The committee in charge of golfing last Wednesday, August 13 were Mrs. Gertrude Schneider, Mrs. Leo Seidel and Mrs. Sam Sisson. Honors in golfing were won by Mrs. Leo Bishop and Mrs. C. O. Butler.

ROTARY CLUB HEARS TALK ON PRINCIPLES

The Tecumseh Rotary Club heard from one of it's own members at the regular meeting at the Country Club Tuesday evening. Carlos Jones, who moved to Tecumseh from Pennsylvania about a year ago talked on the principles of Rotary in a most interesting manner, conveying his sincerity to his listeners. Mr. Jones has a perfect attendance record now in it's eighteenth year, and is well qualified to discuss his subject.

There were five visitors and two guests. The visit of the District Governor on September 9 was announced.

NEW DISTRICT HEAD FOR TOLEDO A. & P.

Melvin W. Alldredge, vice president in charge of the Toledo Unit of A. & P. Food Stores for the past two years, has been transferred to the company's Indianapolis Unit, it was announced today.

Alldredge will be succeeded by R. R. Betz, who formerly served as Toledo Unit head. Betz has been in charge of the Indianapolis Unit for the past two years.

You Can't Get There From Here

Directing visitors around Tecumseh is sometimes quite a hazard. "Your cousin Joe lives right over there two blocks," you start, and then have to continue," But you can't get there from here. You probably got off the beam about at Tipton—and there is a short-cut back there that's only 48 miles." Then you add the caution, "Don't try to follow the markers—you won't live that long."

Venice and her canals, Pittsburgh divided by rivers and mountains, or Trail B. C., built on 27 different Rocky Mountain levels have nothing on our fair village. If your car can make a left turn while walking a tight rope, that's fine. You can get out of Herrick Park. But you will have to teach it to make right turns to get back home again. Britton by way of Ann Arbor, and Ridgeway by helicopter or snowshoes are now the accepted methods and routes.

But folks are taking the minor inconveniences in good humor, and are dong their level best to correctly direct visitors. Things are really getting done, and the net result of a few dusty months will be some most excellent improvements.

Interlochen Announces Closing Program

Interlochen, Mich.—The National Music Camp will wind up its Silver Anniversary season with a week of gala festivities, climaxed by a spectacular grand finale concert next Sunday night (Aug. 24) in which some 1,200 students, staff, and faculty will participate in the famous old outdoor Interlochen Bowl.

The final program of the season will include the Brahms Fourth Symphony played by the 250 piece National High School Orchestra, and the traditional closing number, Liszt's "Les Preludes," performed by the camp's entire assortment of symphony orchestras, bands, choirs, and ballet dancers, all under the direction of Dr. Joseph E. Maddy, founder and president of the music camp.

On Saturday, August 23, the camp's giant choral concert will be presented, featuring the 500 voice Festival Choir and the Interlochen Honors Orchestra in the rarely-performed choral masterpiece, the Berlioz Requiem. This is one of the most massive works ever written for choir and orchestra and calls for 16 tympani and four brass bands in addition to the symphony orchestra and chorus. The entire production will be under the direction of Maynard Klein, choral conductor both at Interlochen and at the University of Michigan, and one of the nation's outstanding authorities on choral literature.

This concert also will be presented in the Interlochen Bowl at 8 p.m. on Saturday.

On Friday night at 8:30 the Interlochen Dance Department will present its final concert of the season with more than 200 young student dancers, including solo performances by four outstanding Michigan students, Sonja Hammer of Kalamazoo, Rubyjean Landsman of Detroit, Robert Hamlin of Manistee, and John Zeder of Pleasant Ridge. The production will be directed by Miss Frances Wright, head of the camp's dance department.

Also on Wednesday evening will be a concert by the 60 piece Interlochen Honors Band, conducted by George Wilson, well known band director from the University of Missouri.

A repeat performance of "The Lowland Sea," one of the season's earlier smash-hits by the Interlochen Opera Company, is also scheduled for Friday night along with the dance concert.

Official closing date is Monday, August 25.

CALCUTTA SWEEPSTAKES AT COUNTRY CLUB SUNDAY

A new wrinkle in golf entertainment will be in full swing at the Tecumseh Country Club Sunday with the beginning of it's first Calcutta Sweepstakes. Eighteen two-man teams are already entered, and as many more are expected.

Each team, much like baseball players, have an owner. The owners will be decided in an auction to be held Saturday evening at the Club, and from there on it is understood that the golfers take orders as well as play golf. It is a handicap event, with best ball and total low scores deciding. According to reports, somebody is sure to win.

Swimming Classes End

The 97 American National Red Cross Certificates for the various stages of swimming and life-saving skills successfully passed by the members of this community in this summer's program at "The Pit" will be available at the high school on the 2nd of September and thereafter from Mr. Duane K. Furbush.

There were 53 youngsters who were persistent enough to pass the initial swimming phases and thereby qualify for the ARC "Beginner in Swimming" Certificates. 15 others were able to complete a more advanced stage in swimming skills for their "Intermediate Swimmer" Certificates, and 13 more achieved the relatively difficult requirements necessary to receive the 'Swimmer" Certificates.

In addition to the foregoing certicfiates, 11 persons between the ages of twelve and sixteen, and 5 over the age of sixteen were successful in acquiring all the skills required by the Red Cross in order to be Junior and Senior Life-Savers, respectively. This later phase of the swimming program has been conducted at "The Pit" before, during and after the eight weeks of the regular swimming part of the Tecumseh Recreational Program.

At the start of this year's swimming classes 123 beginners were enrolled in the Monday-Wednesday-Friday classes and 98 in those held on Tuesdays and Thursdays, 54 Intermediates and 27 Swimmers as well as the 21 persons enrolled at various times this summer in the Life-Saving program. It must be noted that these pupils were enrolled in these classes at the start and had not yet begun to pass the respective requirements to receive certificates.

There were twenty-two possible swimming days for the Monday-Wednesday-Friday classes. Of these three were cancelled because of inclement weather, and six more were sessions in the latter part of the schedule were mere skeleton classes (1 to 5 attending) due to coolness and to fear of Polio. Thus those attending on the above mentioned schedule had thirteen actual class-periods with about 71 per cent of the enrollment present.

For the Tuesday-Thursday sessions of 45 minutes (15 minutes more than the M-W-F classes) there were sixteen possible swimming periods, one of which was cancelled because of weather and five more that were practically unattended (presumably to the causes stated in the preceeding paragraph). Therefore there were actually ten average attendance classes. The overall 8-week average attendance on Tuesdays and Thursdays was 73 per cent.

Mr. David Van Winkle and Mr. Furbush were the swimming instructors.

CHILD STARTS FIRE; DAMAGE SLIGHT

The time-honored instructions not to bite the hand that feeds you could well apply to the child who blithely sets fire to his host's bedroom, Mrs. W. E. Andrews of 41 West Brown street decided last Thursday evening.

The five year old son of guests from Jackson insisted not only on acquiring a cigarette lighter, but wanted a real kings-size fire for himself, and decided on the Andrews bedroom as the proper place. Early discovery and quick action saved the child's life, and the home from destruction. The loss is estimated at about $300.

MR. AND MRS. CAMPBELL OBSERVED ANNIVERSARY SUNDAY

Mr. and Mrs. Henry Campbell observed their 50th wedding anniversary Sunday afternoon, August 17, with open house from 2 to 4 o'clock, for friends and relatives. A five tiered wedding cake baked by their daughter was a feature of the refreshments served from a linen cloth decorated in keeping with the occasion. Mrs. Norma Miller, their daughter and Mrs. Ida Campbell, daughter-in-law served.

Guests attended from Alvordton, Ohio, Florida, Adrian, Saline and Tecumseh.

Mr. and Mrs. Campbell have five children, Charles of Manitou Beach, Myrl of Fairfield, Ray and Jay, twins of Tecumseh and Mrs. Norma Miller of Britton; thirteen grandchildren and four great-grandchildren. A grandson Robert M. Campell, S. A. is serving in the navy on the U.S.S. Tombigbee. Another grandson Harold Campbell is with the Michigan National Guards.

Mr. and Mrs. Campbell was presented with gifts and received many cards of congratulations.

COUNCIL IN REGULAR SESSION MONDAY

The Village council met in regular session Monday evening. Routine business and bills ordered paid was the outline of business. The council accepted the petitions from residents on West Pottawatamie and the Grace Lutheran church for curb and gutter and the Consumers Power will be ordered to install two lights on South Union street, a request from the residents. A trailer application from the Tecumseh Assembly of God to park a trailer was denied. The council also approved the Eagles Chiefs Aerie No. 1563 application to transfer its liquor Commission license to the new location, 123 S. Evans street, the former Dr. Brodersen building.

School Opening Plans Announced

COMPLETE INSTRUCTIONS IN REPORT FROM SUPERINTENDENT

Staff meeting to plan for the 1952-1953 school year will begin at 9:30 a.m. August 27th, with a general teachers meeting with Mr. McDowell, Superintendent of Schools, in the high school study hall. Wednesday afternoon the teachers will formulate plans with Mr. Greene, elementary principal and Mr. Hart, secondary principal. These meetings will continue Thursday morning and the teachers will be given work periods in their rooms in the afternoon. Friday morning final plans will be completed with the principals followed by a general teachers meeting at 11:00 a.m. after which the teachers will adjourn for the week-end,

School will open for the children Tuesday morning, September 2nd and all children should plan to be present. There will be no pre-class testing and home visits as in previous years. The enrollment in Kindergarten is nearly 170 and due to the fact that some kindergarten and elementary pupils have not yet enrolled it is impossible to say in advance exactly where each child will go to school. In general the plans are as follows:

Kindergartners South of Chicago Boulevard West of Evans to Adrian Street report to Mrs. Updike at 9:00 a.m. at the West Branch School. This includes all children except those living on Russell Road. Those living North of Chicago Boulevard and South of Brown between Mill and the West village limits report to Mrs. Updike at 1 p.m. at the West Branch School. Kindergartners living East of Evans and Mill and South of Brown report to Mrs. Heimerdinger at 9:00 p.m. in the Central Building. Those living in Herrick Park, on Brown Street and North of Brown Street will report to Miss Hammack at Brownville at 1:00 p.m. and the pupils who ride the bus are to re-

Activity Planned For School Band

The Tecumseh high school band is scheduled for a busy year ahead. Some of the engagements already arranged are a Labor Day Parade in Adrian under the auspices of the Tecumseh Products Union, the Annual Fall Band Festival, a P.T.A. program and all home football games.

Robert Peck, band director, promises a new type of band show at the football games. Mr. Peck is a graduate of the University of Michigan Band, under the direction of William D. Revelli.

All bandsmen who are registered for band this fall are asked to report with instruments for pre-season marching practice on Wednesday afternoon, August 27, at 3 o'clock, for practice for the Labor Day parade. The band will meet at the newly remodeled music building on Maumee street in front of the high school. This building is a house owned by the Board of Education and has been remodeled and redecorated this summer for the instrumental and vocal music classes in junior and senior high school.

MARY BOLDON PLATTON BURIED IN BROOKSIDE

Mrs. Mary Boldon Platton, aged 79 years old, wife of Fred Platton of 18 Burt street, died Sunday morning at 8:30 at the Wenzel Convalescent Home in Morenci, where she had been the past eight months. Mrs. Platton was born December 13, 1873 in Kenton North Umberland, England. She and Mr. Platton came to the United States in 1926, locating in Detroit and moving to Tecumseh in 1930. She was a member of St. Peter's Episcopal church and St. Peter's Guild.

Survivors besides her husband, Fred, are one son, Victor Gallow of Hamilton, Ont.; one daughter, Mrs. Hal B. Lewis of Bradenton, Fla.; one brother, John Boldon, of Tecumseh; two grandchildren, Jack Gooding of Bradenton, Fla., and Mrs. John McLachlin of Peterboro, Ont.; four great-grandchildren; a niece, Mrs. Frances Roe and a nephew, John Boldon, jr., of Tecumseh.

Funeral services were held Tuesday afternoon at 2:30, at the St. Peter's Episcopal church with the Rev. Allan C. Ramsay of Trenton, officiating. Burial was in Brookside cemetery. The bearers were George McCombs, John Boldon, jr., Russell Cooper, Perry Satterthwaite, Gibbs Barber and Thomas Rodda. Relatives attended from Hamilton, Ont., London, Ont., Detroit, Cambridge Junction, Trenton and Tecumseh.

Horse-drawn

him about an hour a day to take care of his horses, and he likes to do it. Mrs. Van Vleet likes horses, too.

And one wouldn't have to watch him and his team very long before they would know that his horses like him, too. He treats them to sugar, apples and other goodies "twice in a while," and the animals have become real pets. Mr. Van Vleet can't remember how many horses he's owned, but a lot of them. To have them shod, a blacksmith comes to his home on call.

It is believed that the Van Vleet Delivery Service—horse-drawn—is one of the few remaining similar services in the middle west.

"Tecumseh has changed considerably in the past 46 years, particularly in the business area," Van Vleet said. "There are only three businesses located in the same buildings that they were in when I came here. Anderson's Grocery is in the same building, Gaston's Jewelry Store is in its old location and so is The Tecumseh Herald. All others have changed.

"I notice many, many changes too in the residential areas. I've seen many residential blocks change ownership twice since I've been here."

Asked about unusual experiences in the 46 years that he has been visiting the homes of Tecumseh, delivering meats, groceries and baked goods, Mr. Van Vleet only smiled.

"I don't talk about those things," he said. "I've often remarked that if I were to retire and write a book on my experiences, and if it were published, I'd probably have to leave town."

Pressed a little harder for "just one or two" unusual incidents, he recalled that many, many years ago, before the arrival of bathtubs, he walked hurriedly into the kitchen of a home here, only to find the lady of the house in the midst of her bath. She stepped behind a spindle-back chair, he said, and he hurriedly dropped his packages and departed. And then he remembered, too, back 40 years ago when women wore shirt-waists that buttoned down the back, there was one woman who was always bothering him to button up her blouse.

Mr. Van Vleet was born in Swartz Creek, Michigan, 73 years ago on July 3: The family was in Northville and he was working in Grass Lake when he met and married Miss Minnie Freeman. It was in Northville that their only daughter, Myrna, (Mrs. Dale Tingley), was born. The Van Vleets later moved to Albion, where Mr. Van Vleet was in the dray and express business. He worked for the old U. S. Express Agency.

In 1906 they moved to Tecumseh and with Floyd Freeman, his cousin, he purchased the delivery business here from Charles Shaw. Mr. Freeman retired after about a year and a half and later he was in business with Bert and Floyd Waring. He became sole owner of the business in 1915.

Mr. Van Vleet has been active in civic and church affairs here for many years. He served as a member of the village council for 14 years, one year as president pro tem. He retired from the council eight years ago. He and Mrs. Van Vleet are members of the Baptist church, and for 23 years he served as its treasurer. He is a member of the Knights of Pythias, and has held all of the offices in the local lodge.

The Van Vleets live at 204 N. Pearl street.

Macon

Members of the Macon Woman's Society of Christian Service were hosts to an open house birthday party held in the home of Mrs. Joseph Sheward, Wednesday, honoring Mrs. Carrie Payne, who was celebrating her 80th birthday. Thirty-five attended and the afternoon was spent visiting. Refreshments of ice cream and cake and mints were served. Mrs. Payne received several gifts and a lot of cards. Also a bouquet of roses and carnations. Guests were present from Tecumseh, Tipton, Saline and Macon.

The Macon Women's Society of Christian Service will hold its monthly meeting with Mrs. Chas. Gorton, Thursday, August 28, at 1:30. The officers are to return their report blanks to Mrs. Bruder at once.

Mr. and Mrs. Clayton Bigelow returned Tuesday from Fremont and Beulah.

Mrs. Robert Bartells entertained the Macon Homemakers Extension Club, Thursday afternoon. Following a dessert luncheon served to ten members and one guest, Mrs. Mildred Moore conducted a business meeting. Several are planning on attending Extension Camp Thursday. The afternoon was spent finishing purses, fancy work and sewing. Plans were made for entertaining the Macon and Northeast Britton Extension Clubs on September 10 at the Macon Methodist church.

Mr. and Mrs. Joseph Bock returned Thursday from northern Michigan.

Mrs. Truman Jordan and Mrs. Hamilton Moore were at Camp Judson Collins, Monday attending the Children's Worker's conference.

The 24th annual Shough reunion was held at the Hamilton Moore, jr., home Sunday. A chicken dinner was served to 86 members. Hamilton Moore, president, conducted the business meeting. Oakley Shough of Adrian was elected president and Mrs. Shough is the secretary and treasurer. The group enjoyed the meeting place so well they asked to come back next year. Mr. and Mrs. Wade Stulh and family will be co-hostesses for next year. Following a good program ice cream and cake and coffee were enjoyed.

Miss Luella and Carol Jean Carey of Ypsilanti are spending the week with the Hamilton Moores.

Friends of Mrs. Maud Day, formerly of Macon, now living at the home of her brother, John Howell, learned that the leg which she broke, has not healed and it will be necessary for her to spend most of her time in bed. She would appreciate hearing from or seeing any of her friends.

Truman Jordan, jr., received painful face injuries when he fell from a pile of baled straw.

Rev. Rial Simons of Flat Rock will be the guest minister Sunday. A potluck dinner will be held in Clinton in his honor. Anyone is welcome to attend.

ALICE BERRY WEDS LESLIE C. CROSBY

The Blissfield Methodist church on Saturday afternoon at 3 o'clock, was the scene of the wedding of Miss Alice Jeanette, daughter of Mr. and Mrs. Dewey Berry of Rt. 3, Blissfield and Robert Earl Crosby, son of Mr. and Mrs. Leslie C. Crosby of Lincoln Park. The Rev. George Q. Woomer, pastor of the church, solemnized the double ring ceremony. Baskets of white gladioli were flanked by burning white tapers in candelabra and the altar banked with ferns. The pews were marked by white satin bows centered with a gladiolus floret.

The bride, escorted to the altar by her father, was radiant in her gown of French imported chantilly lace and nylon tulle made by the bride's mother. The traditional long sleeves ended in callo- points over the hands and the tight bodice was highlighted with appique outlining the tulle yoke. Tiny self-covered buttons extended to the waistline. The last peplum tapered into a full cathedral train over a voluminous nylon tulle skirt. Her two tiered veil of silk illusion was fingertip length and fell from a crown of seed pearls and orange blossoms. She carried a modernistic crescent shower of white roses and stephanotis.

Preceding the bride to the altar were her three sisters in gowns, hats and mitts fashiond identically of nylon organdy over taffeta. Evelyn, the maid of honor, in heather orchid, carried a crescent shower bouquet of orchid gladioli florets. Carolyn, as bridesmaid in sunset gold and Marian, bridesmaid, in mint green, each carried crescent shaped shower bouquets of gold gladioli florets.

Mrs. F. D. Bailey, church organist, played soft wedding music preceding the ceremony and the traditional wedding march. She accompanied Mrs. Donald Swenk who sang, "Until", which was sung at the bride's parents wedding, "Because", and during the ceremony "The Lord's Prayer."

Mr. Crosby chose Stephen Pituch of Willow Village as best man and the ushers were Frank Smyth of Ypsilanti and Donald Bleam of Temperance. They wore business suits, bow ties and white boutonniers.

For her daughter's wedding, Mrs. Berry chose a camelia chantilly lace dress of redingote style with grey accessories and a corsage of white carnations and ageratum. Mrs. Crosby wore navy shadow lace with red accessories and a corsage of white carnations and forget-me-nots. The grandmothers wore corsages of white gladioli florets.

Immediately after the ceremony a reception was held in the church parlors for 125 guests. A beautifully decorated three tiered square wedding cake topped with a miniature bride and groom centered the lace covered table with white tapers and bowls of gladioli in pastel shades. Mrs. Ardis Snyder and Mrs. William Uckele cut and served the cake. Miss Dorothy Stroble served ice cream and Miss Carol Jean Berry presided at the punch bowl. Mrs. Stephen Pituch was in charge of the guest book.

The bride chose for going away, a suit of mauve with black accessories and a corsage of white roses from her wedding bouquet. After a honeymoon in western and northern Michigan, Mr. and Mrs. Crosby will be at home at 1602 Monson Court, Willow Village.

The bride was a graduate of Blissfield high school in 1949 and has attended Adrian College where she was affiliated with the Chi Psi Omega sorority and is now a senior at Michigan State Normal where she is majoring in Education. The groom was a graduate of Lincoln Park high school in 1946 and served two years in the Marine Corps. He attended Adrian College, the University of Detroit and was a graduate of Cleary Business College in 1951, with an Associate in Science Degree. He is employed as an accountant in Plymouth.

NEW FARM CHILD EMPLOYMENT REGULATION

A simplification of the record-keeping provisions of the Federal Fair Labor Standards Act applying to children employed on farms during hours school is in session has been announced by William S Singley of Cleveland, regional director of the U. S. Labor department's Wage and Hour and Public Contracts divisions.

Singley pointed out that child labor on farms is exempt from provisions of the Act when school is not in session, but that the federal law prohibits employment of children under 16 years of age during hours school is in session.

Under the amended regulations, Singley said, the farmer employing children 16 and 17 years of age during hours school is in session is required to record three items for each such child working on his farm. His records must show the child's name, his date of birth, and the address of his permanent home as well as the address of his residence while working if he is not at his permanent home.

WOULD YOU LIKE TO BUY MEAT AT UP TO 50% SAVINGS?

YOU CAN DO IT WITH A BEN-HUR farm and home freezer

Smart homemakers everywhere are proving the economy of doing things the frozen foods' way. When they buy beef, they buy a "side" or "quarter"—at 30% to 50% savings per pound. When they buy vegetables or fruits, they buy by the crate or bushel at similar low prices.

YOU AVERAGE 30% TO 50% SAVINGS IN FOOD COSTS WHEN YOU OWN A BEN-HUR

And you have all the advantages of having a constant food supply. You make fewer shopping trips. You're never "caught without a thing in the house" when unexpected guests arrive. You save meal preparation time, get more meals' variety and consequent better diet.

COME IN AND LET US SHOW YOU THE ADVANTAGES OF BEN-HUR "AMERICA'S FINEST" FREEZERS. THERE'S A SIZE TO MEET THE EXACT NEEDS OF YOUR FAMILY.

Meadowridge MILK

More Value In
Every Department...

Pure, fresh milk contains many food elements — calcium, protien, sugar, iron, phosphorus, sulphur, vitamins and minerals. And it is true that Meadowridge Milk can bring you more of every one of these important elements.

Meadowridge Milk is mostly pure, rich Jersey milk — richer in most every way. It just can't help having more of these elements that make milk contain more food value.

PRICKLY HEAT RASH WILL CURE ITSELF

Mothers agree that prickly heat is a nuisance during hot weather, but there's not very much they can do about it except give junior a cooling bath, clip his fingernails and let him sweat it out, advises University of Michigan dermatologist.

These itchy, little red spots are actually under the skin, Dr. E. Richard Harrell Jr., clinical instructor in dermatology states. They are produced when sweat ducts swell shut from heat and block off the perspiration from reaching the surface.

He points out that sweat is usually an acid and very irritating when the duct closes. This forces the perspiration to swell out under the skin and show through as a tiny red blotch.

Scratching at these spots to relieve the itching is a possible danger because of infection, he asserts. Prickly heat takes care of itself and heals normally without aid. However, frequent baths are soothing to the itchy skin when the rash is present.

The obstructed sweat ducks eventually open by themselves, Dr. Harrell explains. Once the initial attack is over there is less likelihood it will return in a severe stage.

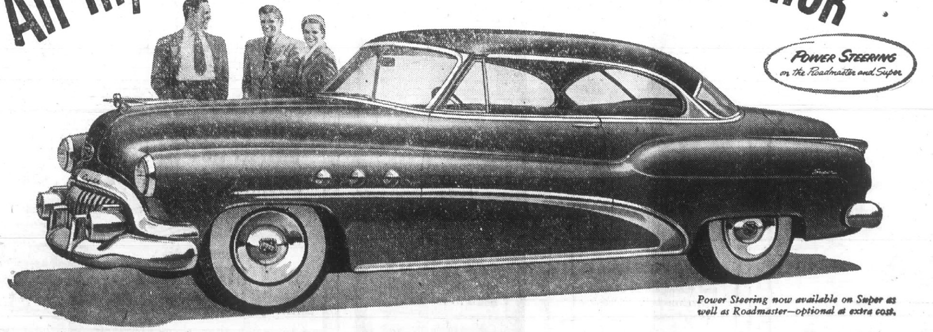
"All my life I've wanted to own a Buick".



Power Steering now available on Super as well as Roadmaster—optional at extra cost.

It seems that owning a Buick is something that a lot of folks dream about—plan for—and finally do.

We say that because, so many times, they say so in words like those above.

Those words make us happy, of course—happy to know we sell a car which means so much to those who own it.

But they make us feel just a little bit sad as well—sad to realize all the years of fun such folks have been missing for no good reason at all.

For the fact is this:
If you can afford any new car, you can afford a Buick.
You can afford the thrill of bossing around that big Fireball 8 Engine that purrs forth a mighty flow of power.

You can afford the gas bills—as any owner of a 1952 Buick will tell you—because that high-compression, valve-in-head marvel gets a lot of miles from a gallon of fuel.

You can afford the extra luxury of a real million dollar ride—the silken smoothness of Dynaflow Drive*—the extra room and comfort and style that have put Buick popularity right up at the top of the list, next to the "low-priced three."

So if you want to own a Buick—there's just one thing to do:
Come in—pick the one of your choice—and let us show you how close the figure that goes on the bill of sale comes to what you'd pay elsewhere.

As we've said before, your first car can be a Buick. Why not take the Big Step right away—today?

*Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.*

BEER
AMERICA'S BEVERAGE OF MODERATION

The American Way

The words "Michigan" and "fishing" are practically synonymous at this time of the year. And after a day's fishing, it's the "American Way" to enjoy a glass of cool, refreshing Michigan brewed beer.

For beer belongs . . . to pleasant living, to good fellowship, to sensible moderation. And our right to enjoy it, this too, belongs . . . to our own American heritage of personal freedom. *Beer Belongs . . . Enjoy It*

Food Exhibit Will Be Repeated At State Fair

There will be a repeat performance of the educational exhibit "Food - The Lifeline of America" at the Michigan State Fair to be held August 29 through September 7.

James M. Hare, State Fair General manager, said that requests for a second showing of the exhibition have flocked into his office.

The display to be shown in the Agriculture Building, demonstrates the importance of agriculture and of the food handling industry. It will include a series of panels 90 feet in length along the east wall of the building. Another part of the display will be the dairy product and meats exhibit across the south end of the building.

All-told, there are five major sections. A 40 foot section equipped with moving belts and display equipment will show how the major Michigan foods are distributed from the farm to the retail store. A 30 foot section will illustrate good practices in buying and using food in the home while the remaining 20 feet will show how the quality and wholesomeness of Michigan's food supply is safeguarded.

The State Fair, Michigan State College and the Department of Agriculture have cooperated in developing the exhibit. Harry H. Wright, president of the Fair board, will be the member in charge while George N. Motts of Michigan State College will supervise the showing.

Milon Grinnell, editor of the Michigan Farmer, in a letter to Hare called the exhibit the big feature of last year's State Fair and is one of the many who have urged a second showing.

Britton

Mrs. Andrew Crutchfield of Britton, phone 2272 will be the new news correspondent for The Tecumseh Herald replacing Mrs. Forrest Barrett.

The I.O.O.F. homecoming held August 15 and 16 turned out to be a very good success. Friday evening the rain started the show but a large number of people weathered the storm and made it a pretty good evening. A parade was held for the children Saturday at 1:30 and many youngsters in costume and with their pets turned out. Cash prizes were awarded to the best. There was a large display of farm machinery on the grounds . Also a large tent was well filled with the merchant's displays. The stands which were all operated by the Odd Fellows and Rebekahs were will attended. At 7;30 p.m. an amateur hour was held which gave some very good entertainment. A winner was picked to appear at the Lenawee County fair by an applause meter. Judy Roback who sang a cute number won first, Joe Caruso, accordionist won second and Janet Papp and Mary Kay Ries in a tap dance number took third prize. Judy Roback will enter the contest at the County fair with Joe Caruso as an alternate. The "Dunking Board"' which was operated by the Britton Kiwanis Club really done well dunking lots of contestants and making $100.00 for the Community Building Fund. The Kiwanis wish to thank the I.O.O.F. for the space and also for the ones who sat on the board for them, making it a great success.

The annual picnic of Immanuel Lutheran Church and Sunday School will be held Sunday, August 24, at the Britton Park. Regular church service and Sunday school will be held at the church as usual, after which a potluck dinner will be held at the park. Games and a social time have been planned in the afternoon.

The regular Congregational Dorcas class meeting scheduled for August 21 has been postponed until September 11, to be held at the home of Mrs. Maude Schmid.

Pfc. Robert H. Croll, son of Mr. and Mrs. Clay Croll, Milwaukee Rd., Britton, now is serving in Germany with the Second Armored "Hell on Wheels" Division. The Armored outfit arrived in Europe to join the North Atlantic Pact Army in July 1951. During World War II the division was the first American unit to enter the fallen city of Berlin. Before entering the Army in July 1951, Pfc. Croll attended Michigan State College.

Mr. and Mrs. Wally Rojem and sons of Belleville were Saturday evening guests of Mr. and Mrs. Leonard Ramage and family. Mr. and Mrs. George Held and son of Willis were callers in the same home Sunday.

Mr. and Mrs. J. E. Wells and daughters Ruth Ann and Joyce of Chassell, Mich., who are on their way to Chicago have been visiting friends in the vicinity are the guests of Mr. and Mrs. John Beal and daughters. Ruth Ann has been the guest of Miss Kathleen Kutzer and Miss Nancy Crutchfield.

ANNUAL STATE POLICE SHOOT SEPTEMBER 10

The fifteenth annual Michigan police shoot will be held on the Jackson police department's 60-target pistol range September 10.

The shoot is sponsored by the Michigan State Police in cooperation with the Michigan Association of Chiefs of Police and the Michigan Sheriff's Association.

The Governor's perpetual trophy will again be awarded to the winning team in each of four classes of competition. Plaques for permanent possessnon also will be given to the teams. The State Police will provide other team and individual awards in the various events. All officers participating will have an opportunity to win a special award, a pistol, offered by State Police Commissioner Joseph A. Childs.

The annual shoot is open to all police and sheriff's departments in Michigan and class of competition is determined by the size of the department. A special match for chiefs and sheriffs will again be featured.

The State Police will hold their annual departmental match on the Jackson range September 9, when a three-man team from each of the eight State Police districts and East Lansing headquarters compete for the Fletcher trophy. The officer receiving the high score in this match will be awarded the superintendent's trophy. There also will be a commissioner's award.

Preceding the departmental match, separate contests will be held in each district and at departmental headquarters.

QUAKER PICNIC

The Quaker Fellowship Class of the Friends church will have a potluck dinner Thursday evening, August 21, at 6:30 at the home of Mr. and Mrs. William Hotrum of East Shawnee street.

Mucilage Substitute

Quite often when one is in a hurry to mail a letter, there will be but one stamp and it has no mucilage on its back. In this predicament all necessary is to moisten the mucilage flap on another envelope, run the stamp over the dampened part quickly, then place on the letter to be mailed.

Ink Stains On Hands

A solution of peroxide of hydrogen containing a few drops of ammonia will remove ink stains from the hands.

Arthur Kennedy and June Allyson portray sweethearts in "The Girl in White," the story of the struggles of a woman physician to gain recognition. Tues., Wed., Thurs., Aug. 26, 27, 28 at the Strand Theatre.

School Opening

(Continued from page 1)

port to her at 9:00 a.m. at Brownville.

The first grade schedule is equally difficult to arrange. As nearly as can be determined at this time, Kindergartners who went to Mrs. Updike in the morning last year will report to Mrs. VanValkenburg at 8:45 a.m. at West Branch. Those who were in Mrs. Updike's afternoon section will report to Mrs. Faling at 8:45 a.m. in the library basement while those who went to Brownville in the morning will report to Miss Warner at the Central Building at 8:45 a.m. The afternoon section at Brownville last year will report to Mrs. Garlick at Central at 8:45.

Schedules this year are staggered so that elementary pupils may eat in the high school cafeteria which will be open with school on Tuesday, September 2, without conficting with the high school pupils. This schedule pleased most parents last year. It is as follows:

Kindergarten, morning section, 9:00 - 11:30; afternoon section, 1:00 - 3:30.

First and second, morning section, 8:45 - 11:45; afternoon section, 1:00 - 3:30.

Third, fourth, fifth, sixth, morning section, 8:45 - 11:45; afternoon section, 1:00 - 3:45.

Seventh to twelfth, morning section, 8:30 - 11:30; afternoon section, 12:30 - 3:30.

Due to overcrowding it will be necessary to hold six high school classes from 11:30 to 12:30, but these pupils will be excused to eat between 12:30 and 1:30.

The bus route for this year will probably follow the routes indicated below:

Trip No. 1, Purkey's Garage to Billington's, South to Russell, East to Occidental North, and pick up children to Shady Lane and so to schools.

Trip No. 2, Schools to Occidental, South to Shady Lane, East to Adrian, South to Russell, East to Mohawk to school.

Children living east of Adrian Street on Russell Road will be brought by bus to school as well as those living on Mohawk and Blood Road to Maumee. Those North of Russell Road in this area are within the one mile limit for bus service and must provide their own transportation. Children living North, West and East of Tecumseh who are in District No. 7 will furnish their own transportation, and if they live more than one mile from school their parents will make application with the Superintendent of Schools and are eligible to receive $35.00 per child towards transportation costs. Application should be made the opening day of school if possible.

Junior and Senior high pupils are to enroll at 8:30 a.m. Tuesday in the following rooms at the high schools:

Senior Boys — Room 22
Junior Boys — Room 5
Sophomore Boys — Room 29
Freshman Boys — Room 6
Eighth Grade Boys — Room 1
Seventh Grade Boys — Room 23
Senior Girls — Room 24
Junior Girls — Room 28
Sophomore Girls — Room 26
Freshman Girls — Room 10
Eighth Grade Girls — Room 27
Seventh Grade Girls — Room 25

All children are furnished books through a rental plan sponsored by the Board of Education. Book fees in the grades are collected by the teachers. In the high school the teachers in charge of the enrolling sections will collect the fees. The fees are as follows:

Kindergarten and First Grade, $2.50.
Second to Sixth, $3.50.
Seventh to Twelfth, $4.00.

In addition to these fees, Junior and Senior high pupils may purchase combination locks to be placed upon their lockers. The price is 75 cents and should be paid to Mrs. Jacobs. No other locks may be used on the lockers and it is strongly recommended that each locker be locked with a padlock. No attempt will be made to regain articles taken from lockers which are left open.

The Band and Chorus will meet in the Board of Education House at 309 N. Maumee which has been completely renovated and equipped as a classroom. Thus the added burden of this noise has been eliminated from the elementary and secondary teachers' day.

Football practice will begin on Labor Day at 9 a.m. All boys should report to the Central Boys Shower Room at that time.

Miss Murray resigned as of July 30th, and Mrs. Helen Sisson, a Physical Education Major, who has been teaching in the elementary school will take her place. Mrs. Louise Faling will teach the first grade in place of Miss Seeger who also resigned. Miss Alene Brown will take the sixth grade at Central to replace Mrs. Sisson.

The above plan for the opening of school has been prepared by the superintendent, Mr. James McDowell. A great deal of careful planning is in evidence, and careful study by the parents and students will greatly ease the work of opening days.

COMMUNITY FUND BOARD MEETS

The Community Fund Board met at the United Savings Bank Monday evening at 8 o'clock. The attentative budget for $8,288 was adopted. The annual, open to the public, meeting will be held at the Legion Home Monday, September 8 at 8 o'clock. The election of new board members and other routine business will be held at this time.

HOSTESSES FOR LUNCHEON

Hostesses for the ladies' one o'clock luncheon at the Tecumseh Country Club Wednesday, August 27 will be Mrs. Ned Baldwin, phone 273 and Mrs. E. J. Crawford, phone 85. Reservations are to be made not later than Tuesday noon. There will be no luncheon September 3 due to Labor Day week.

ANNOUNCE ENGAGEMENT

Mr. and Mrs. Otto Teske of N. Democrat street are announcing the engagement of their daughter. Shirley to Richard Whelan, son of Mr. and Mrs. Fay Whelan. Richard will enter Michigan State College at East Lansing this fall and Shirley will return to Ypsilanti Normal for her Junior year. No wedding date has been set.

OPENING FOR BOWLERS

The Tuesday afternoon ladies' league at Airport Bowl held their meeting last week at the Airport Bowl and the league still have openings for ladies wishing to bowl. If interested, phone Mrs. Gwen Beland, president, 1002-J before September 1. The league opens Tuesday afternoon, September 9.

WINTER HAVEN FRIENDS HOLD REUNION

The seventh reunion of Florida Winter Haven friends was held recently at City Park, in Bowling Green, Ohio. Friends began to gather about 10 o'clock. A social time was enjoyed as well as the shuffle board court. Forty-six guests enjoyed a 12 o'clock dinner. After a short business meeting, ice cream and cake was served before the guests departed. Guests attended from Ypsilanti, Tecumseh, Adrian, Saline, Detroit, Dearborn, Sturgis, Manitou Beach, Plymouth, Eaton Rapids, Hayworth, Ill., Cedar Point, Bowling Green, Port Clinton and Youngstown, Ohio, Perry, New York and Caledonia and Stratford, Ontario, and Winter Haven, Florida.

SERVICE STATION OPERATORS ENTERTAINED

The service station man who jumps to take care of your windshield and tires had his day of ease Monday evening, August 11. C. O. Butler, local Ford dealer entertained, with an educational movie, and an evening of fun, door prizes, and refreshments.

Lorenz Burkhardt of Clinton, Joe Studnicka of Britton, Mahlon Sebring, Chester Beach, and Harold Easton were the lucky prize-winners. Thirty separate garages and service stations were represented, and probably all are now better prepared to render Ford service.

GOP Opposes Socialized Medicine

Every American who is interested in bringing the nation's health standards to the highest level possible—as well as in the perpetuation of freedom—will approve of one plank adopted by the Republican Party in Chicago. It reads: "We recognize that the health of our people as well as their proper medical care cannot be maintained if subject to federal bureaucratic dictation. There should be a just division of just responsibility between government, the physician, the voluntary hospital, and the voluntary health insurance. We are opposed to federal compulsory health insurance with its crushing cost, wasteful inefficiency, bureaucratic dead weight, and debased standards of medical care. We shall support those health activities by government which stimulate the development of adequate hospital services without federal interference in local administration. We favor support of scientific research. We pledge our continuous encouragement of improved methods of assuring health protection."

It is reported that this plank, when read, drew more applause from the delegates and the galleries than any other part of the platform. On a number of occasions General Eisenhower has expressed his unequivocal disapproval of socialized or politically-dominated medicine, so it is certain that the plank is in accord with his views.

All partisan considerations to one side, the Republican Party's statement points to the only way in which the standards of medical care can be steadily and markedly improved. This fact is sharply underlined by the tragic experience of England and other countries, where socialized medicine has ominously reduced those standards, even as it has placed a tremendous burden on the taxpayers. In any enterprise or profession, the hand of the bureaucrat deadens and destroys, and medicine is no exception.

Socialized medicine may be a major issue in the coming campaign. General Eisenhower and the party he now leads have taken their stand—and it is the only stand consistent with the American traditions, ideals and hopes.

Let's not forget that fact when we go to the polls to cast our vote, next November.

Voting Is a Right and a Duty

The Non-Partisan Retailers' Nationwide Get-Out-The-Vote Committee has come up with a catchy and excellent slogan this year. It is, "Vote As You Please—But Please Vote."

The coming election in November is of tremendous importance—it will determine the fateful courses that this nation will take in domestic and foreign policy. On both sides, the candidates, and their managers, and their partisans have promised driving, fighting campaigns. Far-reaching and opposed philosophies of government are the real stake of the election. It will be a tragedy if the decision is made, as in the past, by a minority of our people.

Over the centuries, rivers of blood have been shed in the fight for the right of franchise—the right of the secret ballot. For this is the first and the last defense against tyranny. Without the right to vote as conscience and mind dictates, men are slaves—the servants of ruthless masters whose powers know no limit.

We have that right—yet it is common in this country for but half or less of the eligible voters to go to the polling booths on election day. One vote doesn't matter, they say. Yet a bare handful of votes can determine crucial contests—as recently as 1940 a U. S. Senator was elected by a margin of just 20 votes in the huge state of Texas. And when the "my vote doesn't matter" attitude is held by millions of people, we have government by the minority, and no one can say that the will of the people is dominant.

We should bear in mind that Harry S. Truman is not president of the United States through the will of the majority. In 1948, when Mr. Truman was elected, less than 49 per cent of the eligible voters took time to visit the polls. Mr. Truman is, in reality, president of a minority group of voters. The majority did not speak.

Please remember: "Vote As You Please—But Please Vote."

". . . scarcely a single activity exists for which federal expenditures are made but has some measure of duplication to other activities in the states—or private enterprise."—Rep. Walt Horan.

Speeding Cars Are Death Traps

DON'T DRIVE YOURSELF TO DEATH, STATE POLICE HEAD WARNS

State Police Commissioner Joseph A. Childs appealed to Michigan motorists for more vigilance and less speed on the highways. Stressing the importance of speed ocntrol, which is the theme of a state wide traffic safety campaign, he warned that many persons are driving themselves to death.

The speed control campaign was announced recently by the commissioner on behalf of the State Safety Commission, sponsor, which asked the State Police to take the leadership. Municipal police, sheriffs' departments and others interested have joined in giving the program vigorous promotional support.

"Speed control is more than a safe driving practice," Childs said. "It is a legal responsibility. Those who fail in their responsibility often lose their privilege to drive. Many lose their lives, the victims of their own recklessness. But frequently the innocent die, too.

"During the last 10 years 13,616 persons have been killed and 351,476 injured in Michigan traffic accidents. Nearly all of these accidents could have been avoided. A large percentage were due to excessive speed, the No. 1 killer on the highways.

"Let's use good common sense behind the wheel. Follow the slogan of the campaign, 'Now, Take It Easy'. Remember, if you're trying to get there in a hurry death is willing to meet you more than half way."

Cotton Also Rates As One Of Miracle Fabrics

Cotton is as much of a miracle fabric as the new man-made fibers such as nylon and orlon, according to Marjorie Eastman of the Michigan State College clothing and textiles department.

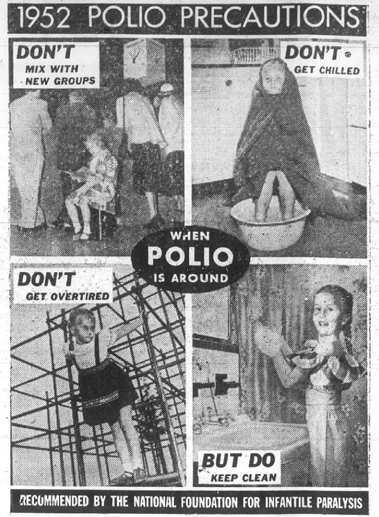
The versatility of cotton, she contends, makes it a good year-round fabric. And you can begin looking for the "winterized" cottons now as fall clothes appear on store racks.

Many cotton dresses will be seen that are suitable for fall when light summer cottons are not appropriate, Miss Eastman forecast. Look for dark, plain colors and for cotton prints that have dark backgrounds. Gingham plaids and checks that often remind us of woolen fabrics will be available in rich, fall-leaf colors.

Prints with a non-cotton look of rayon, silk or wool can be found in long-sleeved styles, she said, and stripes with shaded or shadowed treatment will seem almost like wool.

In bach-to-school clothes, tweedy cotton plaids for dresses will be serviceable investments, Miss Eastman suggested, and taffetized cottons—so good for summer—will still be with us in dressier styles. Satin-striped cottons and printed cotton corduroys and velveteens for young styles are in the fall fashion picture.

A word of caution, though—look for a label to indicate washability of these new winter cottons. A label should tell whether the new, special finishes require dry cleaning or not. And check the shrinkage. If the garment is sanforized the shrinkage will not exceed one percent, which would be satisfactory. But two or three percent shrinkage will make a big difference in the fit of the garment, Miss Eastman said.



Seven-year-old Karen Blecha enacts 1952 polio precautions recommended by the National Foundation for Infantile Paralysis. When polio is around, the National Foundation cautions parents to watch for these signs: headache, fever, sore throat, upset stomach, tenderness and stiffness of neck and back. A person showing such symptoms should be put to bed at once, away from others. Then, call your doctor and follow his advice. If polio is diagnosed, call your local chapter of the March of Dimes for advice and assistance, including needed financial help.

Editors To See UM Air Research

PRESS CLUB WILL GET PEEK AT DEFENSE PLANS OF GOVERNMENT

Michigan editors will get a first-hand look at research which is perfecting this nation's air defenses when the University Press Club of Michigan meets Sept. 26 and 27.

A tour of the University of Michigan's Willow Run Research Center is scheduled for the opening afternoon program, Glenn MacDonald, club president and editor of the Bay City Times, has announced.

One of the highlights of the tour will be a demonstration of how a guided missile can intercept an airplane. Prior to this, the editors will be shown electronic computers which can receive information from radar screens, work out complex mathematical problems in a fraction of a second and guide a missile towards its intended target.

This year's Press Club meeting will open with a luncheon at the Michigan Union on Friday (Sept. 26). The Willow Run tour and dedication ceremonies for the University's new Angell Hall addition, which includes facilities for the Department of Journalism, will follow.

At an evening banquet, the speaker will be Wright Bryan, editor of the Atlanta (Ga.) Journal and president of the American Society of Newspaper Editors. There will be a University luncheon on Saturday and then the Press Club group will be guests of the Board in Control of Intercollegiate Athletics for the Michigan State-Michigan game.

HIGHWAY COMMISSIONER OFFERS SAFETY ADVICE

State Highway Commissioner Charles M. Ziegler today made a second appeal to all motorists to cooperate with the State Safety Commission's safety campaign "Don't Cross the Yellow Line" and "Keep in Line, Don't Cut In."

"The trouble with passing," Commissioner Ziegler said, "is that on many two-lane highways and on many city streets you have to get on the wrong side of the roadway to do it. You may be facing on-coming traffic and not be able to get back to the right side in time.

"In some places," he continued, " a hill or a curve will make it impossible for you to see on-coming traffic. At such places the State Highway Department has placed yellow lines. These are 'signs of life.' The life they save may be your own. So don't cross the yellow line."

Pointing to the disastrous effect of a head-on collision, the Commissioner listed other things to watch out for when attempting to pass a car ahead:

(1) Don't pass at an intersection because a cross traffic vehicle or a pedestrian may be hidden by the car you are trying to pass.

(2) Watch out for a car about to leave a filling station.

(3) Be wary of a car parked on the shoulder which may pull out and interfere with the car you are trying to pass.

(4) Look out for a pedestrian walking on the shoulder who may step out on the pavement and cause the car ahead to move over in front of you.

(5) Beware of the slow moving vehicle or farm tractor which may turn in front of you.

(6) Look for that "hidden car" behind you that may try to pass you just as you pull out to pass the car ahead of you.

Legal Notice

STATE OF MICHIGAN,
County of Lenawee. ss.
Probate Court for said County.

At a session of the probate Court for the county of Lenawee, holden at the probate office, in the city of Adrian, on the 18th day of August in the year one thousand nine hundred and fifty-two.

Present, HON. G. ARTHUR RATHBUN, Circuit Judge acting as Probate Judge.

In the matter of the estate of ALICE H. FISHLOCK, deceased.

On reading and filing the petition of Ann Arbor Trust Company, administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased, and the expenses of administration thus far incurred, have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this court shall seem proper.

It is ordered, That Monday, the 8th day of September next, at nine o'clock in the forenoon, be assigned for the hearing of said petition.

It is ordered, That a copy of this order be published in the Tecumseh Herald, a newspaper printed and circulating in said county of Lenawee, for three consecutive weeks, previous to said day of hearing.

Insect and Disease Bulletins Available

Two new printed publications are available to county farmers from the extension office, according to L. G. Hall county agricultural agent.

They are an extension bulletin, No. 312, "Insect and Disease Control on Vegetables and Truck Crops," and an extension folder, F-165, "Basic Beekeeping Information."

Mr. Hall said that the insect and disease control bulletin is aimed to bring vegetables and truck crop growers up to date on the rapid development of new-type insecticides and fungicides.

The bulletin lists the chemicals and the rotation practices necessary for control. A separate table for each vegetable and group of vegetables outlines carefully the use of insecticides and fungicides for the control of insects and plant diseases.

Proper use of materials so that no poisonous residues will be left on food crops is also discussed, the county agent said.

The beekeeping folder contains information in condensed form for new beekeepers and reminders for more experienced ones. Information on literature, where to get assistance and beekeeping organizations also is included.

These publications are free at the county extension office or may be obtained by writing the Department of Information Services, Bulletin Office, Michigan State College, East Lansing.

ANNUAL LECTURE SERIES AT U-M., OCT. 15

The "First Drama Quartet" will be among the features of the 1952-53 University of Michigan Oratorical Association Lecture Course which begins Oct. 15.

Composed of Charles Laughton, Charles Boyer, Agnes Moorehead and Sir Cedric Hardwicke, the quartet will present George Bernard Shaw's "Don Juan in Hell" Nov. 5.

Other subjects and lecturers will be: "Washington Merry-Go-Round," Drew Pearson-Oct. 15; World Affairs Forum of Camille Chautemps, former French premiere, Melchoir Aquino, Philippine delegate to the U.N., Cuneyd Dosdogru, Turkish journalist and John C. Metcalfe, diplomatic correspondent-Nov. 20; "Our Foreign Policy, Right or Wrong?", Sen. Paul H. Douglas and Rep. Walter Judd-Jan. 14; "Charles Dickens," Emlyn Williams-Feb. 16; "Reston Views the News," James B. Reston, of the New York Times-Mar. 9; and "An Evening with Ogden Nash," Ogden Nash-Mar. 19.

ACCURACY IS UNKNOWN IN BUDGET ESTIMATES

The total collections of highway taxes for the entire fiscal year ending June 30, 1952 are $3,395,876 less than the Highway Department's estimate and are $11,146,876 less than the estimate of Robert F. Steadman, Controller of the Governor's Department of Administration, and are $25,234,121 less than the figure used by the Governor, according to Highways and Byways, the County Roads Association magazine.

All this simply tends to prove that high priced leadership could be replaced by likely looking kindergarten students without loss of efficiency.

NO CHURCH SERVICES

There will be no church school or church services at the Baptist church Sunday August 24 or 31. Services will be resumed September 7.

THE TECUMSEH HERALD

ONE HUNDRED FIRST YEAR — NUMBER 48 TECUMSEH, MICHIGAN, AUGUST 28, 1952 5 CENTS A COPY

School Plans Are Completed

MRS. MARTHA KUHN, HOME EC TEACHER RESIGNS; TEACHING STAFF COMPLETE

Certain changes and additions to the plans formulated and announced for the opening of the 1952-1953 Tecumseh Public School year as of last week have been necessitated by resignations and new enrollments. The plans are now as nearly complete as possible at this time.

Mrs. Martha Kuhn who has been teaching Home Economics in the high school resigned as of August 21st to accept a position in the Eaton Rapids schools. Miss Alene Brown who was to have taught the sixth grade at Central wired last week that she would be unable to teach here next year. Mrs. Margaret Horvath, a Home Economics Major at Michigan State College, has been secured to replace Mrs. Kuhn and by shifting the teachers it was possible to secure Mrs. Ruth Puffer to teach second grade at Central. The staff is now complete again. Teachers are very scarce in the State, as well as in the Nation, and it is especially hard to fill positions at this late date. However, it has been the policy of the Board of Education to release teachers who desire to leave Tecumseh and excellent replacements have been made through the hiring of these local women. Due to recent enrollments changes in the kindergarten are necessary and the following tentative schedule has been set up:

Kindergartners South of Chicago Boulevard and West of Evans to Adrian Street report to Mrs. Updike at 9:00 a.m. at the West Branch School. This includes all children in this area except those living on Russell Road, on South Union, and all those living on Cummings Street and South of Cummings. The children on Russell Road will ride the bus to Brownville in the morning and leave at noon, those on South Union and living on Cummings and South of Cummings will report to Mrs. Updike at West Branch in the afternoon.

Kindergartners North of Chicago Boulevard and South of Brown Street between Mill and the West Village limits report to Mrs. Updike at 1 p.m. at the West Branch School. Those living East of Evans and Mill and South of Brown report to Mrs. Heimerdinger at 9 a.m. in the Central Building except those living on Mill Street between Evans Creek and Brown who will attend Brownville in the afternoon. Kindergartners living in Herrick Park, on Brown Street, and North of Brown Street will report to Miss

Lewis Wins Home At Wolf Lake

OUT-OF-COURT SETTLEMENT CLOSES CASE; FUTURE PLANS UNCERTAIN

The "sight unseen" real estate exchange deal between Hal B. and Madge Lewis, formerly of Tecumseh, and Harry L. Bascom of Brooklyn was settled out of court Tuesday by the return of each piece of property to the original owners. Lewis, the plaintiff was represented by Robert French of Tecumseh; Bascom by Edward N. Mack of Moran & Mack of Adrian.

Early in 1951, the Lewis home at Wolf Lake, valued at approximately $18,000, was traded to Mr. and Mrs. Bascom for a property in Terra Ceia, Florida, which according to Lewis, he failed to inspect prior to the deal. Shortly thereafter suit was entered by Mr. and Mrs. Lewis charging misrepresentation, and asking that the deal be set aside and their property returned.

In effect, according to Lewis, this is the way the case was settled. Tuesday, Judge Rathbun dismissed the action on the pleas of both parties. The Lewis plans for the future are uncertain.

Hooper of Ann Arbor is chairman, and Robert Bartlow and Mrs. Florence Howe of Tecumseh are vice-chairmen for Lenawee County. It is planned to open a Republican headquarters in Tecumseh within the next few weeks. Other Lenawee members of the committee are: Elinor Godwin, secretary, Richard H. Hoben, Ray Turner, Hollis Farley, Lawrence J. Hammond, Manford R. Frank, Bud Crane, Willis Moore, Cornelia Walker, Hilda Will, Roscoe W. Scott, Virginia Blair, Arthur Ingold, J. B. Hazen, Lorain Bancroft and Mrs. Doris Ryan.

Products Paper Alert To News Of Men In Service

The TP Broadcast renders a signal service to the boys from the plant who are now serving in the armed forces by publishing news of their activity, wherever they may be. The paper is also alert to news of the sons and daughters of TP employees, devoting a regular section of the paper to news of those in service.

A homey and personal quality of this news is brought out by printing letters just as they are sent. From the four corners of the world they come, from occupation forces, men in combat in Korea, from Navy boot camps and Army training bases — and all are interesting to their many friends. A few that have appeared in recent TP Broadcasts are here reprinted.

(Official U. S. Navy Photograph)

Jerry Bowen, who is a student at Purdue University, is one of 1600 NROTC Midshipmen from 52 colleges and universities who will undergo three weeks of NROTC Midshipmen training at the Naval Air Station, Corpus Christi, Texas. They will receive training in all phases of flying of the huge PBM "Martin Mariner", a Navy twin-engine flying boat. In this picture Jerry is studying the operation of a Fluxgate compass.

During their stay in Texas they will be guests of the Corpus Christi Chamber of Commerce at a special dance.

Jerry is the son of Mr. and Mrs. Dale J. Bowen and was employed in the Tresco office here during vacation time last year.

GREETED BY CARRIER PIGEON

Jesse Gimenez of 211 E. Cummins street, arrived home Monday evening to be greeted by a carrier pigeon. When he opened the door the pigeon went inside. It evidentally has a message. On one leg is the numbers 1.2.0.8 and on the other is F.771. Mr. Gimenez has the pigeon in a cage at his home.

Keeps In Touch With Fighting Men

The paper published by the employees of the Tecumseh Products Co. has made it their business to bring first hand information of the boys in the service — wherever they may be. The above pictures of a fighting man in Korea, a student in the Air Forces Mechanics School, and a Naval Officer candidate in training are typical of the wide field of interest.

Hadsell To Leave Tecumseh

Paul Hadsell, for the past 3½ years manager of the Palman Department Store in Tecumseh, has resigned that position and will leave Tecumseh early in September.

Mr. Hadsell has accepted a position in the capacity of a division manager for the W. R. Holden Co. of Pontiac. His future moves are at this time uncertain, but he expects to locate in Dayton, Ohio, some time this fall. The Hadsell family will continue to live in Tecumseh until definite future plans are completed.

Mr. Hadsell has been very successful in his management of the Palman store, and many Tecumseh friends will regret their leaving.

Tecumseh Has A Postmaster

METCALF APPOINTMENT DATES FROM JUNE 27, 1952: FIVE YEARS OF ACTING POSTMASTERS ENDS

After five years of drifting along with an Acting Postmaster at the helm, the Tecumseh Post Office is now in charge of a full Postmaster. Jack Metcalf, who has presumed that his appointment was as another Acting Postmaster has received his commission from President as Postmaster, dated June 27, 1952. Thus he was in fact Postmaster several days before he began his duties at all.

The last permanent Postmaster here was Percy Bowen, who resigned in February, 1947 to become a regular carrier. Subsequently Wiley McCann and F. E. N. Thatcher have been Acting Postmasters. It was during Mr. Thatcher's regime that the new Post Office building was built, and many new carrier routes were installed.

The best wishes of the community are with Mr. Metcalf. But it is somewhat of a handicap to start with an incident of delayed mails involving his own commission.

HOLLAND FURNACE TO HAVE SUB. BRANCH HERE

Mr. and Mrs. Howard Gordon, formerly of Detroit, have moved to 111 N. Evans street, and will operate a sub-branch for the Holland Furnace Company. The Gordons have a 14-year-old son, Lary, who will attend school here.

Mr. Gordon is an experienced man in heating and has been with the Holland Company for many years. The branch here will be conveniently located to take care of all business in the Tecumseh and surrounding territory. They are well equipped to do all kind of repair work, cleaning, free safety inspections, free estimates and installing new merchandise. Watch for their ad in The Herald soon.

School Time Brings Child Safety Plea

With the reopening of schools and nearly one and one-half million Michigan children crossing streets and highways on their way to and from classrooms, Sgt. Claude Bartell, commander of the Clinton State Police post, is urging all persons to take part in the current statewide child safety campaign.

"Last year," Sgt. Bartell said, "8,247 children under 15 years of age were killed or injured in Michigan traffic, an average of about 160 casualties each week.

"More often than not the children were victims of their own carelessness, but many of the tragedies could have been avoided if drivers had been more alert and expecting the unexpected.

"Drivers should take special precautions, not only in school and playground areas, but in all areas where children are likely to be. They also should always remember that thousands of preschool age children will be outdoors during all hours of the day. In other words, children may be anywhere, any time.

"Likewise, adult pedestrians, parents especially, can help prevent accidents involving children by practicing safe walking habits. Adults should realize that their own actions are examples boys and girls observe and follow. Too often these are examples of carelessness.

"Help protect children. For their sake—as well as your own—walk and drive carefully."

The slogan of the campaign, which is sponsored by the State Safety Commission, is "Watch Out For Kids."

Rotary Hears Talk On Retirement Plans

At the regular meeting of the Tecumseh Rotary Club held Tuesday evening at the Country Club, the members heard an excellent talk on the subject "Employee Retirement and Profit-Sharing Plans" by Mr. Emmett Egan of the law firm of Miller, Canfield, Paddock and Stone of Detroit.

Mr. Egan traced the history of social security benefits, and the subsequent retirement plans offered by certain big concerns competing in the labor market. He outlined tax benefits which these firms and their employees enjoyed that were impossible for the small firm or the self-employed individual, although part of the cost of these retirement plans is actually paid for in part by the public because of favorable tax allowances.

He then outlined the growth of various profit-sharing plans, mostly products of small firms or individual employers, and closed with an explanation of the hope ahead for favorable tax consideration in retirement programs for the great mass of people not eligible now—the self-employed, the farmer, and the small business man.

Sixty were present at the meeting, eleven being visitors.

Miss Elisa Simonson Accepts New Position

Miss Elisa Simonson has resigned as a member of the Herrick Memorial Hospital staff to accept a position as supervisor of the Visiting Nurse Association in Sheboygan, Wis. Miss Simonson was at the hospital for two years and has made many acquaintances through the county in her line of work here. She left last week for her new location. While in Tecumseh Miss Simonson was primarily associated with the student nurses and schools.

Quaker Oats Grants Bonus

Employees at the Tecumseh plant of The Quaker Oats Company received more than $6,600 today in annual profit-sharing checks.

This 17th yearly wage bonus added an average of nearly $147 to the employees' regular earnings during the company's recently ended business year.

Donald T. Nixon, plant manager, explained that 45 local employees were eligible this year to share in company profits. Eligibility, he said, is chiefly dependent upon six months or more of service.

Similar checks also went out to workers in Quaker Oats Chicago headquarters and in its other plants, grain elevators and sales offices throughout the country. Total profit-sharing sum was $1,173,884.

The plan was voluntarily established by Quaker Oats 17 years ago. It calls for setting aside each year a percentage of company earnings. Employees thus share profits whenever the firm has a successful year. To date, they have shared a total of $11,444,420 above their regular earnings.

Gas Rules Eased By Govt.

WILL NOT IMMEDIATELY AFFECT SPACE HEATING CUSTOMERS WAITING

Removal of Petroleum Administration for Defense restrictions on use of natural gas in this area involves no real change in the local situation, according to Division Manager H. H. Koelbel.

"Connecting of additional gas space-heating customers," he said, "will continue on a restricted basis."

"Some months ago, the Company found itself in a position to connect 931 additional space-heating customers in the Jackson Division," he said. "We asked and obtained the approval of both the Michigan Public Service Commission and the Petroleum Administration for Defense. We are now well along with the connecting of those 931 customers.

"The removal of PAD restrictions means that hereafter it only will be necessary to obtain the approval of the Michigan Public Service Commission. This is a welcome development, for we have always felt that the Michigan Public Service Commission which is thoroughly familiar with local conditions, was the proper agency to exercise control in Michigan.

"When we see our way clear to serve an additional number of space-heating customers we will make application for authority from the Commission."

Consumers is now free to supply natural gas to large industrial customers without asking the approval of any regulatory body. It formerly was necessary to obtain a certificate from PAD. Certificates were granted to all industrial cases submitted, Mr. Koelbel said.

CHURCH SERVICES RESUME SEPT. 7

Church school and church services will resume at the Baptist church, Sunday, September 7. Mrs. Harley McConnell has announced that choir practices will begin Wednesday evening, September 3, at 7:30.

The ladies of the Baptist church are making plans to serve meals at the Lenawee County Fair during fair week. They are having various baking bees, preparing chicken and other articles that may be put in the deep freeze. Anyone desiring to work during the week at the fair are asked to contact Mrs. Blair Bashore.

DR. BRODERSEN BUYS NYLAND BUILDING

Dr. C. N. Brodersen announced today that he has purchased the Nyland Building, E. Chicago Blvd., occupied by Brand's 10 cent store. Dr. Brodersen has recently sold his present location on South Evans street to the Eagles and had located their for ten years. Mr. Brandt will occupy his present location and the Dr. will occupy the second floor. The building in the future will be known as the Brodersen Building.

Observations of A Guest Editor

AFTER TWO SHORT WEEKS — STILL ON SPEAKING TERMS WITH THE ENTIRE OFFICE

It's hard to remember after all those years, but believe it or not, this country was founded by men who sought relief from high taxes.

Most every girl perks up with a new hat—or a whistle.

Propaganda is not confined to the Russian effort. The amount that crosses the Editor's desk daily is unbelievable. Every pressure group—every coming event has it's writers and mimeograph, and the Tecumseh Herald must be at the top of their list. One coming event has sent out at least six typewritten sheets daily during my two weeks here. The distillers and the dry league, the railroads and the truckers, and a thousand other groups carry on an unending battle over our desk and directly to the circular file on the floor. The thousands of government agencies that send out their tons of this material bring on a kind of a sick feeling in the pit of the stomach—we are paying the bills for the paper, and the salaries for the thousands of useless employees that write it. Yes, propaganda is big business right here as well as from behind the iron curtain.

The new linotpye installed in the Herald since my session last year is an unseen and unsung improvement. It probably made the publisher dig deep—more thousands than you would like to believe, but it makes publishing deadlines easy to meet, has improved the language around the office, and is one of the very best improvements Tecumseh has acquired in many a day.

Meat packers and dealers would do well to offer some choice cuts —in prices.

You can lead your child to school, but you cannot make him think.

Vacation for the Editor has been wasteful. While he freezes in discomfort in Maine, there are vacant lockers in the rather cozy freezer plant here at home.

They talk so much now about professional women — yet we doubt if there were ever any amateurs.

Telephone Income Shows Decline

Net income of General Telephone Company of Michigan for the first seven months of 1952 amounted to $213,849, a decline of $119,630 when compared with the same period last year. Earnings for the twelve months period ending July 31, 1952 were $373,653 as compared with $502,649 for the preceding twelve months period.

Company Directors on August 22, declared the regular quarterly dividend of 67½c per share on the Company's $2.70 Cumulative Preferred Stock. After this provision for preferred dividends, earnings per share of Common Stock amounts to .28c for the seven months period ending July 31, 1952, as compared with .64c for the corresponding period a year ago.

The Company has pending before the Michigan Public Service Commission an application for rate relief filed in January of this year. Hearings have been closed, but the Commission has not yet ruled on the petition.

Thursday Afternoons Are Hard On The Sick

Reports and complaints of the Thursday afternoon half-holidays are more frequent of late. Prominent among them are reports of the difficulty in finding medical and dental care on Thursdays.

Many businessmen give six full days of every week in their services to the public. Much money is being spent to attract people and business to Tecumseh, and our promises of careful attention and good service here could easily be fulfilled. It is a little peculiar to presume that toothaches, injury and sickness will take a half-holiday.

FIRE DEPARTMENT BUSY WITH GRASS FIRES

A rash of grass fires, which could easily get out of hand because of the drouth, has kept the Tecumseh Fire Department busy the past week. Two of them occured almost simultaneously Tuesday afternoon at widely separated areas. All were extinguished promptly.

BOY SCOUT TROOP 4 TO MEET FRIDAY

There Is No Time For Bickering

The first thing that General Eisenhower did after witnessing his victory on TV at the Chicago convention was to call on Senator Robert Taft. The significance of this goes beyond the gracious gesture factor. For, if there is to be a Republican victory next November, it is clear that there must be far more unity within the party than exists now. The wounds that were inflicted before and during the convention are deep and painful. It is General Eisenhower's difficult task to heal them.

Senator Taft made the generous response that was expected of him, by saying that he would do everything in his power to help the GOP candidate win, and to help him afterwards as President. But many of the Taft men, and to a greater extend the hard core of MacArthur men, have demonstrated a very different attitude.

Their anger, it is true, is not directed so much at Eisenhower as it is at those who managed his campaign and fought to a victorious conclusion without giving or asking quarters—notably, Governor Tom Dewey of New York. Many think Eisenhower could not have beaten Taft without the enormously skillful work of Gov. Dewey and the Dewey lieutenants. Only about two weeks before the convening of the convention it was evident that the General's political star was sinking, and it was then that what amounted to an SOS was sent to Dewey. What he accomplished deserves a permanent place in political history. He demonstrated again what even his bitterest enemies have long admitted—that when the chips are down in a tough political game, no one plays his cards better.

It may be that one of the major Republican assets is, in a sense, a negative one. In informed party circles, there is none of the blind confidence that characterized the 1948 campaign and led to the debacle. And there is every reason, despite the great personal appeal of Eisenhower, why this should be the case. It is probably true that almost everybody likes Ike. His is a remarkable success story in the old American tradition, and he caps it off with as warm and engagine personality as anyone could ask for. At the same time, this is not enough to assure or even make probable his election. The Democrats have great advantages. They lead the Republicans by a wide margin in registrations. For 30 years they have demonstrated an ability to attract most of the independent voters who hold the balance of power. If he is to win, Eisenhower must get virtually 100 per cent of the regular Republican vote, a substantial majority of the independent vote, and some of the registered Democratic vote. That is a large order. It will take a real campaigner and a real campaign on the part of all concerned to accomplish it.

Eisenhower's success at Chicago was, in a large measure, based on the thought that he alone of the possible candidates could lift, inspire, and gain the confidence and support of the masses of voters. The reason for this was well expressed in a Wall Street Journal editorial: "Many Americans have thought of Mr. Eisenhower as their President because he seems to express and embody that for which their hearts are hungry. He is a man who in a cynical age does not fear to believe in simple things, who holds to the copy book maxims. He talks sincerely of love of country. He is proud of its past and believes intensely that its future lies in adhering to the traditions that made it great."

That, very likely, is Candidate Eisenhower's greatest single asset.

Big Opportunities Ahead

Michigan State College's School of Business and Public Service offers a comprehensive course in food distribution. In a recent publication, the College points out that the food and grocery industry is the nation's largest business—the American people spend over $100,000,000 every day, six days in the week, in our more than 500,000 retail food stores. It observes, "No industry offers any greater challenge than that of bringing the world's food supplies economically and efficiently to your dining table daily . . . No segment of business offers greater opportunities than the American food industry."

What is true of the food industry is also true of business generally. At the present time, stores and businesses of all kinds, large and small, are taking an intensive interest in employee training and employee-customer relationships. Those who are hard-working, talented and ambitious go far. It is a matter of record that top executives in most big business began in minor positions.

Yes, a career in business can offer much to young people. The retail store is the show window of America—it is the symbol of our resources, our craftsmanship, our skills as a nation.

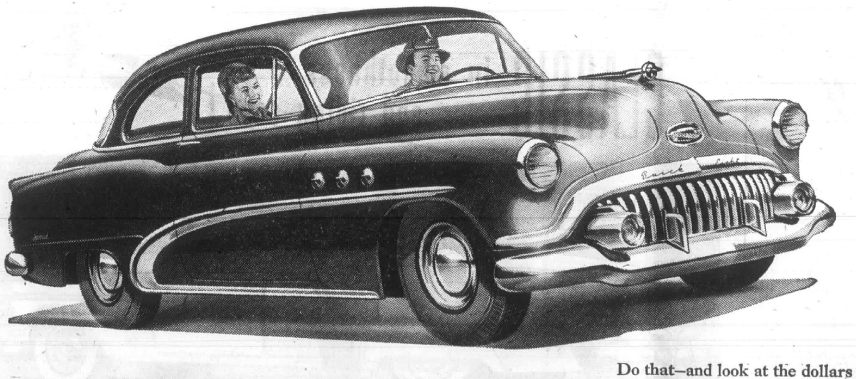
Do you believe in Dollar signs?



THERE are a lot of signs to guide you to the best buy in automobiles.
Popularity is a good sign.
It means that a lot of people have tried a car and found it good. So it's important to know that Buick is today — and has been since 1938 — the most popular car outside the "low-priced three."
Room, comfort, power, ride are good signs.
So it's important to know that you can pay hundreds of dollars more and not beat the room and comfort you get in a Buick SPECIAL.
Nor, at the price, can you match its power. And only Buick gives you a real million dollar ride.
Doesn't all this give you a hint?
Doesn't it suggest that you ought to try out a Buick — sample its Fireball 8 Engine — find out how it takes you over the road — feel the sure control that is yours on curves — discover its "big car" room and smoothness?
Do that — and look at the dollars on the price tag — and we know what you'll find out:
If you can afford a new car, you can own a Buick — and boy, what fun that will be!
Equipment, accessories, trim and models are subject to change without notice.
Sure is true for '52
When better automobiles are built BUICK will build them

Care Is Asked Of Motorists

With two holiday week ends having already accounted for 56 Michigan traffic deaths this summer, State Police Commissioner Joseph A. Childs is urging motorists to prevent a deadly conclusion to the season by exercising extra care on crowded highways over the Labor Day period.

"In 1941," Childs said, "the combined traffic death toll for the three summer holiday week ends, Memorial Day, Fourth of July and Labor Day, was 118, the highest on record. The lowest was 24 in 1944.

"Last year 14 persons were killed over the Labor Day period, Friday through Monday. It was the safest Labor Day week end, from the standpoint of fatalities, since 1944, when only seven were killed. The highest toll was 46 in 1940.

"The Labor Day period is always regarded as potentially dangerous. The holiday comes on a Monday, offering an extended week end for trips and other activities. It is also the time when many persons return home from summer cottages so children can enter school.

"Drivers exercised a great deal of care and common sense last year and the week-end toll was comparatively low. The volume of traffic will probably set a new record this Labor Day if weather conditions are favorable, but nevertheless the toll can be further reduced if drivers are cautious. If they are, it will help bring the sumer to a more happy ending."

Aldo Ray and Judy Holliday kiss and make up in this scene from the comedy "The Marrying Kind." Tues., Wed., Thurs., day, Sept. 2, 3, 4 at the Strand Theatre.

Chemical Treatment Cuts Fence Maintenance Costs

The cost of maintaining fences can be materially reduced by the use of chemical wood preservatives and Lester D. Bell, Michigan State College forestry specialist, has figures to prove it.

He says that it is a matter of simple arithmetic. If a post costs 75 cents and it costs 50 cents in labor to set it and staple the fence to it, you have a total cost of $1.25. If this post rots off in five years, it has cost you 25 cents per year of service.

If, on the other hand, you take the same post at 75 cents, add 25 cents worth of chemical preservative, and then add the 50 cents labor cost to set it, your post has cost you $1.50. This is where preservatives really pay off because the treated post can be expected to last three times as long as an untreated post—15 years.

With 15 years of life, the annual cost of the treated post is ten cents a year as compared with 25 cents a year for the untreated post. You also save the labor and trouble of resetting the other two untreated posts it would take to cover the 15-year span, Bell points out.

Several chemicals are satisfactory for treating fence posts. He suggests that you contact your county agricultural agent or write to the forestry department at Michigan State College, East Lansing, for further information.

Milk Law Amendments Now Effective

Two items in the amendments to the milk law recently passed by the legislature are of particular interest to dairymen who sell milk and cream for direct consumption or bottling purposes.

The amendments which become effective September 17, 1952, have to do with milk house and equipment for handling the product, and minimum quality standards.

D. L. Murray, extension dairyman at Michigan State College, said today that the law now states that milk houses are required to contain facilities for cooling, handling and storing milk. They must have facilities for cleaning and storing equipment, a two-compartment wash tank, metal rack for storing utensils and a water heater.

A self-closing door is required between milk house and stable in place of the vestibule which was or still may be required by some local markets. Minimum size standards of the milk house have not been specified by law, but ten by 12 feet should be the minimum for convenience of the operator, Murray advised.

Quality standards are that milk must test not less than three per cent butterfat. The bacteria count must be not more than 100,000 per cubic centimeter, as determined by plate or direct microscopic count, or a reduction time of not less than four hours as measured by the methylene blue test.

Ancient Treatments Were Often Right . . .

We sometimes think of early medicine as a product of witchcraft or ignorance. Nothing could be farther from the truth.

The eating of burnt sponge and seaweed—both rich in iodine—was recognized in the middle ages as effective treatment for goiter—long before the reason why was established. Much modern medicine has developed from this ancient experience.

Kenneth Hunter Weds Cranston, R. I. Girl

Mr. and Mrs. Kenneth Hunter and Mr. and Mrs. Harry Hunter were in Cranston, Rhode Island, Saturday to attend the wedding of the former's son, Kenneth, to Miss Anne Cecelia Zannella, daughter of Mr. and Mrs. Gerald Zannella of Cranston, at the St. Mary's church in Cranston at 9 o'clock in the morning.

The bride, given in marriage by her father, chose a gown of nylon tulle over a satin bodice with appliques of imported French lace and stones trimming and off-the-shoulder neckline, short sleeves and mitts. The entrain skirt was trimmed with nylon tulle and lace inserts, and the fingertip veil was of imported French illusion with a crown of orange blossoms. She carried a prayer book and orchids with streamers of stephanotis. Frances Almonte was maid of honor and Patty Del Conte and Phyllis Saccoccio were the bridesmaids. The attendants wore full length gowns of net over taffeta, off-the-shoulder style with matching capes. The maid of honor was in blue with matching picture hat and carried a cascade bouquet of yellow roses and blue delphinium. The bridesmaids wore blue over pink with matching picture hats anl carried cascade bouquets of pink roses and blue delphiniums.

During the ceremony, Miss Bertha Crudale sang, "Mother at Thy Feet is Kneeling" and "Ava Maria."

Gerald Zanella, brother of the bride, was best man for Mr. Hunter and the ushers were John Moretta and Robert Squizzero all of Cranston.

Mrs. Zanella chose for her daughter's wedding, a street length dress of powder blue lace with black accessories and Mrs. Hunter, mother of the groom, wore a gray silk dress with purple accessories.

A wedding breakfast was served at the home of the bride's parents immediately following the ceremony, and a one o'clock reception was held at the Club 400 at West Warwick, R. I. for the friends and relatives.

After a motor trip through Canada Mr. and Mrs. Hunter will reside in Tecumseh. The bride is a graduate of St. Xavier's academy in Cranston and Mr. Hunter is a graduate of Tecumseh high school and has recently received his discharge from Naval service.

Beverly Hadsell Bride Of Gordon Arnott

The Methodist church was the scene of a lovely summer wedding Saturday afternoon, August 23 at 2 o'clock, when Miss Beverly Hadsell, daughter of Mr. and Mrs. Paul Hadsell, became the bride of Gordon J. Arnott, son of Mr. and Mrs. John Arnott of Dearborn. The Rev. Ronald Brunger, pastor of the church, performed the double ring ceremony. The church was decorated with baskets of white gladioli, bebe chrysanthemums and asters. The pews were marked with white gladioli and asters.

The bride, given in marriage by her father, was lovely in her gown of Chantilly lace over nylon net, fashioned in princess style with flower and rhinestone trimmed neckline, buttoned in the back and long buttoned sleeves. The skirt with tiers of pleated nylon, ended in a half train. The finger-tip veil was suspended from a satin tiara and she carried a cascade bouquet of Eucharis lilies, bebe poms and trailing ivy. Marilyn Parsell of Flint was maid of honor, Marilyn Hall of Dearborn and Nancy Dunn of Jackson, bridesmaids and Susan Winfield was the flower girl. The attendants' gowns were of pleated nylon tulle, ballerina length and strapless, with three tiered hoop skirts banded in satin. The maid of honor wore pink and carried a cascade bouquet of deep pink rosebuds, purple asters and ivy.,The bridesmaids' were in lime green and yellow with similar bouquets of lavendar pom poms, gladioli and ivy. All wore matching mitts and flower headdresses. The flower girl wore a white brocade taffeta floor length dress with a pink-lined blue satin sash and carried a basket of vari-colored asters and pom poms. Richard Hadsell, brother of the bride, was ring bearer and wore a navy blue suit and carried the rings on a white satin heart shaped pillow.

Mrs. Kenton Hunt, organist, played nuptial music and accompanied Miss Betty Brawner of Dearborn as she sang, "Because", "I Love Thee" and "The Lord's Prayer" during the ceremony.

Bruce Arnott of Dearborn was his brother's best man and the ushers were William Luckham, David Ruel and William Griffiths of Detroit.

[illegible] Hadsell, mother of the bride, wore a black ensemble with red accessories and a corsage of red carnations and gysophelia Mrs. Arnott chose a navy ensemble with a corsage of rose pink carnations and gysophelia.

Immediately following the ceremony a reception was held in the church Social Rooms for 200 guests. The members of the Methodist Guild were hostesses. Mrs. William Hough of South Bend, Ind., was in charge of the guest book, Mrs. Laura Chase of Dearborn cut the cake and the Misses Judy Baxter and Joyce Hadsell assisted in serving.

Freezer Meals Cut Home Work

FOOD COOKED AHEAD AND FROZEN REDUCES HURRY AND WORRY AT MEALTIME

You will never be caught short for a wonderful meal to serve your hungry family or unexpected guests if you keep your freezer stocked with a variety of dishes that you've prepared weeks before. Your freezer will continue to come forth with delicious surprises, says Household Equipment Editor Elizabeth Sweeney Herbert in McCall's for August, if you are always careful to observe the rules for storing and keeping foods:

"When you own a freezer, the old formula of 'Sunday roast, Monday cold, Tuesday hash," is gone with iceman. A Shepherd's Pie for example, can be concoted from th leftover roast, gravy, vegetables of a family dinner, made up complete except for the mashed potatoes, then tucked into the freezer — to reappear as a fine surprise days later.

"Then when you need it, thaw and heat at one go; put frozen casserole in a 350F oven for 1¼ hours. Top with mashed potatoes, increase heat to 425F for 15 minutes to brown. The flavor of cooked dishes deteriorates if they're not used within a month. Rapid turnover for leftovers is the secret of success.

"You can also serve a variety of baked breads at a meal — all these and economy too—because what's left over can be stowed away until the family's fancy hungrily turns to rolls or raisin toast. Keep a bakery backlog in the freezer in sealed store packages, or bake your own and store in moisture-vaporproof freezer containers—leftovers, too. Rolls, biscuits, muffins, doughnuts thaw quickly because they have little moisture. Frozen slices toast without thawing. Or unwrap breakfast specials, ovenheat 10 to 15 minutes. Time limit for baked goods: 2 to 3 weeks.

"When unexpected callers surprise you, amaze them, and yourself, by delving into your freezer for one of your hoarded pie specials. Uncooked berry pies bake without thawing, taken an extra 10 or 15 minutes. Mincemeat pies age well, pumpkin pies need eating soonest. 'Set' chiffon pies by a quick freeze before wrapping, then top with paper plate and wrap. Pie shells, baked or unbaked, freeze well, can be filled before baking with packaged frozen fresh fruit.

"Some pointers on wrapping and storing; Separate individual steaks, chops, chicken parts when fixing for freezing. A double thickness of freezer paper between each piece of meat makes prying apart easier. Meats that are more than 1½ inches thick must be thawed before broiling.

"Fit freezer paper closely to avoid air pockets. A drugstore fold saves paper, fits closer. Bring two sides together at top, fold over, then tuck in both ends.

"Use freezer wrappings for meats. Mark packages clearly with date and content. Fresh meats keep well for more than 6 months, cooked meats for less than 6 weeks. Many freezer papers need freezer tape for safe sealing, though freezer foil can be neatly shaped to fit.

"Don't put too much unfrozen food down at a time. The average freezing capacity is 3 pounds a cubic foot."

The Hanging-Basket

A novel way to water the hanging-basket, without spilling water on the floor, is to insert a small funnel in the dirt, as near the center of the basket as possible, and hidden by the foliage. Fill this funnel with water every day, and it will soak into the soil gradually.

OVER FIFTY GROUP ENJOY LUNCHEON

Due to the inclement weather, the "over fifty" group held a picnic luncheon on the porch at the home of Miss Ann Carson and her mother on East Logan street last Thursday. Following the luncheon the group visited the Hidden Lake Gardens. Mrs. C. M. Rentschler of Sherman, Ill., was the out-of-town guest. The group will resume their potluck luncheons on the third Thursday of each month in the newly decorated Social Room of the Tecumseh Methodist church in September.

REFLECTION CAUSES FALSE ALARM

Clarence Champanois, 213 N. Pearl street, looked toward the corner of Pearl and Logan streets at about nine o'clock Tuesday evening, and saw what looked like a raging inferno in the Beach Brothers Fleetwing service station. Without hesitation he summoned the Fire Department.

Champanois arrived at the location at about the same time as the fire fighters, and found he had looked at an optical illusion. A small amount of brush was being burned on Logan street at the rear of the Dixon Studio. This light reflected from the diagonal windows of the Beach building, giving the appearance of a raging blaze. This was one false alarm that brought only praise to the alert person placing the call.

Harmless Disease Looks Like Polio, But Isn't

Your child may have all the symptoms of polio, but the chances are twenty to one that he doesn't have it. He may have coxsackie instead, says Kate Holliday in McCall's for August. She points out that although this comparatively harmless disease imitates polio and is prevalent in the polio months, it is short-lived and has no crippling effects:

"Coxsackie (named for a small New York town, where it first attracted attention) is especially prevalent in the polio months, August being the high point, with July and September just behind, Various types of flies, including the common housefly, carry the virus, and it is found in sewage, as well as in human blood, nasal and mouth washings, saliva, sputum and feces — all the classic breeding places of the poliomyelitis organisms. And its chief victims are children under ten years old.

"Unlike polio, however, coxsackie is an abrupt, short-lived disease. The symptoms are usually fever, vomiting and muscular pains. Chances are that two to four days after the first signs of illness, or even sooner, the temperature will have dropped to normal and the headache and muscular pains will have disappeared. And the disease itself will have brought about immunities in his body.

"As in many of the other virus diseases, the antibiotics are of no use in the treatment of coxsackie. But, since the illness alone is of brief duration and seldom serious, it is actually better to let nature takes its course in overcoming it.

"The coxsackie virus that imitates polio is called the Group A type virus. There is another coxsackie virus — Group B — which imitates everything from 'summer flu' and 'devil's grippe' to aseptic meningitis. In the Group B cases a common symptom is a sprinkling of blisters in the back of the mouth."

Herald classifieds pay big dividends.

Trip To Canada For FFA Awards

A visit to a Canadian Experimental Farm will highlight the 1952 tour for winning chapters in the Michigan Future Farmers of America Best Chapter contest, it was announced today.

The ninth annual program will be held next Wednesday (Aug. 27) with A & P Food Stores again serving as tour host and providing $550 in awards.

Presentation of awards to the top chapters among Michigan's 200 FFA chapters will be made during a luncheon program at Elmwood Inn in Windsor. State FFA Advisor Harry E. Nesman will make the presentations at the ceremony which will be attended by national and local Canadian government and civic officials.

Nearly 100 FFA members and their advisers will start the day's program by touring A & P bakery and meat operations in Detroit and observing the processing of Michigan agricultural products.

After the luncheon program at Windsor, the group will go to the Dominion Experimental Farm at Harrow which originally was established as a tobacco station. The group will observe various experimental work in agriculture with members of the Essex County Junior Farmers, a Canadian youth organization.

HONORS DAUGHTERS BIRTHDAY

Mrs. Don Nettleman entertained at her home recently honoring the sixth birthday of her daughter, Dorothy Jean. The afternoon was spent playing games and the children received favors. Ice cream and cake were served. Mrs. Nettleman was assisted by Mrs. Weldon Hollar. The guests included Penny Rice, Mary Ellen Smith, Janet Bilby, Marilyn Beland, Letty Ringman, Linda Hollar and Kathleen Hall. Dorothy Jean was presented with gifts.

The Baptist Ladies' Union will open their meetings in September with a dessert luncheon at the church Thursday, September 4 at one o'clock.

Catholics Meet For Discussion

"Faith Conquers the World" is the theme chosen by the Most Reverend Joseph H. Albers, Bishop of the Catholic Diocese of Lansing for the fourth regional congress of the Confraternity of Christian Doctrine to be held in Lansing, September 19-21 at the Hotel Olds.

"We of the Catholic hierarchy hope," said Bishop Albers, "that this congress will serve as a call to action to all Michigan Catholics and Christian-minded people to save our civilization.

"General MacArthur has warned that weapons of war will not solve our present-day crisis, which he referred to as fundamentally a theological crisis. We need a return to belief of God, the moral law and the Ten Commandments. We need men and women armed with the weapons of truth and justice who will become the leaven that will transform the mass and save our civilization."

The three-day congress is expected to attract 1,500 to 2,000 people from the entire state. Bishop Albers has invited all five Michigan Catholic dioceses as well as the general public to attend the meeting.

The congress will consist of numerous discussion-type meetings at which various phases of Confraternity work will be considered—religious education in the home, in school, for teenagers, for parents; organization of discussion clubs; use of audio-visual aids; application of religious principles to labor, management, professions, housing.

"Power, for better or for worse," Bishop Albers noted, "is in small, well-trained groups." Returning to his analogy of the leaven or yeast, the Bishop pointed out how the leaven works. "Instead of attacking the whole mass, it merely leavens what is immediately around it. This in turn, once leavened, works on the surrounding portion, and so on until gradually the whole is leavened.

"The world did not get into this present, almost universal chaotic condition overnight. Nor will it be set right in a day. But belief in God and the moral law, truth and justice, can save our civilization and conquer the world. But good men and women must become the leaven."

Purpose of the Confraternity of Christian Doctrine is essentially education in Christian principles. It seeks to spread belief in God and the practical application of Christian principles to all phases of living.

Michigan State College Adds New Courses

Following long preparation and consistent demand, Michigan State College last week announced the addition of two new courses, one of them leading to Bachelors degrees.

Bachelor of Science degree in Agricultural Journalism is now offered in the School of Agriculture. Michigan State is the 15th school in the nation to offer this course.

A 72 week course in Rural Building is now offered to high school graduates with a satisfactory work record. Half of this course is on the campus, and half will be spent in practical work on assigned projects. Details regarding this course may be obtained from the Short Courses Department at Michigan State College.

HELPING HAND . . . Officer John Sohnberg, of the New Rochelle Police Department lends a hand to a kindergarten tot during her first tour of traffic duty. The department recently conducted a three-month highway safety experiment among the children of Roosevelt public school to teach the small fry traffic regulations. To impress on youngsters the importance of obeying police directions, each was taught the standard gestures used by policemen almost everywhere.

Polio Warning Is Sounded By State

REPORTED CASES OF DISEASE HIT PEAK; PRECAUTIONARY STEPS URGED

Reported cases of polio in Michigan are above all previous marks for this time of year, the state health department discloses, and urges parents to observe the following precautions to help guard their youngsters against the disease:

1. Insist on rest periods of an hour or two a day for your children. Do not allow them to play to the point of exhaustion. This does not mean rest in bed, but an hour or two of reading, sitting-down games or any quiet activity that can be carried on at home without much physical exertion This precaution will not prevent polio, but may help to prevent the development of more serious polio if the child already has the virus. Experience has demonstrated that persons who are over-tired when the polio virus is already in their bodies are likely to develop a more serious form of the disease.

2. Do not allow your children to become chilled. Don't let them stay in swimming until their lips are blue, their teeth chatter and they break out in "goose pimples". Chilling has the same effect as exhaustion in bringing about a more serious condition if the polio virus is in the body.

3. Keep children within their own circle of friends. There are several strains of the polio virus and it is probable that persons who have acquired immunity to the strains in their own neighborhood may be susceptible to different strains in other areas.

4. Be alert to detect early signs of sickness, particularly signs similar to the common cold. Low fever, upset stomach, intestinal disturbances, headache, backache, stiff neck or back tenderness or weakness of muscle groups, may mean polio. Report such signs to your doctor immediately. Calling the doctor early is important. Although he has no specific remedy that will stop the disease, he does have a number of methods of treatment that will influence it's course and possibly prevent the development of serious paralysis. Early diagnosis, prompt hospitalization and proper treatment are the doctor's weapons against the disease.

5. Don't allow fear to cloud your judgment. Your anxieties will instill fear in your children. Even if a child should get polio, he has an excellent chance for full recovery. Half of those who get paralytic polio recover completely, and three out of four recover to the extent that they are not handicapped

6 Keep your children clean, well-rested and well-fed. See that they wash their hands and face thoroughly before eating, and wash their hands after going to the toilet.

7. Consult your physician about postponing nose and throat surgery and your dentist about postponing tooth extraction if there is polio in your community.

8. Observe these same precautions yourself. While 75 per cent of all polio cases occur in children under 16 years of age, the remaining 25 per cent occurs among adults of all ages.

HILLSDALE LADIES GUESTS AT COUNTRY CLUB

Seventeen ladies of the Hillsdale Country Club were guests of the Tecumseh Country Club ladies at golf and luncheon last Wednesday, August 20. Honors awarded in golfing to the visiting ladies were Mary Weir, Donna Lyons, and Doris Hayes, honors won by the local ladies were Mrs. Sam Sisson, Mrs. Paul Clauda and Mrs. Don Nettleman. The committee in charge of golfing was Mrs. Vincent Haight, Mrs. William Hanna, Mrs. Don Smith of Manchester and the golf committee. The regular golf committee, Mrs. Hugh Andrews, Mrs. Willis Porter and Mrs. Nettleman were in charge of golfing yesterday.

The Patch Bag

A most practical patch bag can be made from a yard or two of mosquito netting. This enables one to see the contents from the outside, and there is no necessity for emptying the entire contents to find the exact piece of goods wanted.

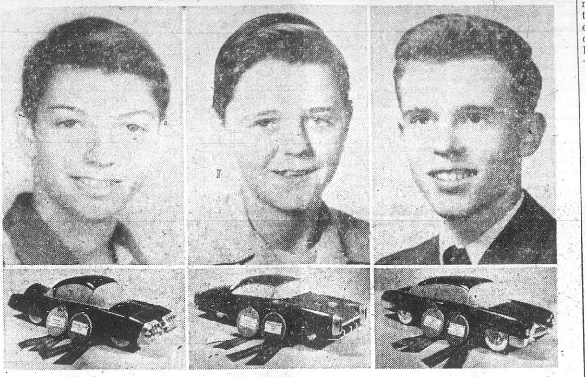
Michigan Boy Designers Win



WINNERS in the annual model car competition of the Fisher Body Craftsman's Guild are Paul Dremann (left) of Birmingham, who took first state and regional honors in the Junior Division (ages 12 through 15), while Dale L. Berg (center), of Troy, and John W. Skelley (right), of Birmingham, shared in duplicate top state and regional awards in the Senior Division (ages 16 through 19). Young Skelley's father is a General Motors' employe and Craftsman's Guild regulations provide for duplicate awards when a GM family member qualifies. Each of the three boys received a cash award of $150, and they now have a chance to win a university scholarship in the national competition.

AVERAGE HOUSEWIFE BETTER BUYER THAN GOVERNMENT

The average housewife, says the National Association of Manufacturers, can teach Uncle Sam plenty about economical budgeting and good housekeeping.

To learn how the shopping techniques of the average woman compare with those of federal government shoppers, the NAM recently polled 100 homemakers. Their answers, compared with figures released by the Defense Department and the Hoover Commission, appear in a new quiz-report entitled "Mrs. Smith, Uncle Sam and You."

Some of the questions, answers, and comparisons presented in the quiz include:

"How much coffee do you keep in reserve?"

Asked whether 1 lb., 3 lbs., or 45 lbs., was about right, the average housewife thinks one pound is enough. The Defense Department, on the other hand, has stored up 144 million pounds, about 50 pounds for each person in the armed forces.

"What quantity of black pepper does each member of your family consume in a year?"

The average housewife replied that she buys about an ounce and a half a year for each member of her family. During a nine-month period, however, the government bought nearly two pounds for every member of the Army.

'What do you pay on the average for a white rayon slip?"

Choosing between $3.50, $6, or $10, Mrs. Housewife finds she can get a good rayon slip for $3.50. But the Federal Treasury recently paid $16.50.

"How many extra light bulbs do you keep on hand for replacement?"

The average housewife answered that she keeps an emergency stock of 7 or 8 bulbs. One government agency kept a 93-year supply on hand .

"What would you think is a good price for a set of fishing tackle?"

"Mrs. Smith" said about $40. A government office sank $520 into each set.

"How much time does your husband take off each year for vacations and illness?"

The survey showed that the average man takes approximately three weeks off for vacations and illness. A study of 48,000 employees in four federal departments revealed an average off-duty work record of 7 work weeks a year, with pay. Which indicates that the Federal Government might learn a great deal about housekeeping from the experts—the housewife.

CHRISTIAN SCIENCE TEXT FOR THE WEEK

In the Lesson-Sermon under the subject "Christ Jesus" to be read in all Christian Science churches on Sunday, August 31, a better understanding of him as the Son of God is brought out.

The Golden Text is from II Corinthians (4:6): "God, who commands the light to shine out of darkness, hath shined in our hearts, to give the light of the knowledge of the glory of God in the face of Jesus Christ."

Among the Bible citations in this passage, (Matt. 5:16): "Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven."

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Not human platitude. but divine beatitudes, reflect the spiritual light and might which heal the sick." (p. 466)

New Home Demonstration Agent Arrives

Two Michigan home demonstration agents exchanged assignments as the result of action taken by the State Board of Agriculture, governing body of Michigan State College, recently. Miss Josephine Brighenti, who has been home demonstration agent in Isabella county since 1949, goes to Lenawee county. Miss Ruth A. McIlnay, home demonstration agent in Lenawee county for the past year, moves to Isabella county.

JOSEPHINE BRIGHENTI

Miss Brighenti was born in Wisconsin and received her bachelor of science degree from the University of Wisconsin. She has done graduate study at the University of Chicago, University of Illinois and Michigan State College. She taught vocational and adult education for 18 years in Wisconsin and has had wide experience in teaching foods and cafeteria management.

Miss McIlnay formerly served with the extension service in the Territory of Hawaii and was home demonstraton agent in Arkansas. She joined the Michigan Cooperative Extension Staff after receiving her master's degree from the University of Tennessee in 1951. She was born in Kansas and received her home economics degree from Kansas State College.

SPECIAL SEED SHOWING AT MICHIGAN STATE FAIR

A special exhibit on the use of certified seed will be one of the agricultural features of the 1952 Michigan State Fair, August 29 through September 7. It is aimed at informing the public of the merits of certified seed with samples of certified grain showing the type of seed which the customer can expect to buy.

Several varieties of wheat and oats produced in Michigan will be shown in both sheaf and grain forms to point out the distinguishing characteristics. Plant and seed samples of some of the more important weeds in fields and lawns will be shown. A cleaning mill will be exhibited by the A. T. Ferrell Company, Saginaw, to demonstrate the process of cleaning certified seed.

The informational part of the exhibit is concerned with the "whys" of certified seed. What is it and how does it originate? How is it produced and who can produce it? What is the value of certified seed? Reasons are given to support the value of this seed and evidence shown in support of the reasons. A map of the State of Michigan will indicate the important areas of certified seed production.

The entire exhibit has been arranged through the efforts of the seed prodlcing members of the Michigan Crop Improvement Association.

A Convenient High-Chair

If four rubber-tipped door stops are screwed into the legs of an ordinary chair, it will make an ideal high chair for kitchen work, or for a small child.

Mending A Cracked Range

A crack on the inside of a range can be mended by using a filler made of equal parts of common table salt and wood ashes, moistened with water to the proper consistency. The filler will dry hard and will be lasting.

Testing Coffee

A way to test the quality of coffee is to put a spoonful in a glass of cold water and add a few drops of lemon juice. If the coffee is pure it will remain on top of the water; if not, the water will become brown in color.

Thefts Worry Red Officials

PILFERING ON COLLECTIVE FARMS RAISES IRE OF STALIN'S HENCHMEN

Moscow—The Communist Party and the Soviet Government have issued a stern warning against persons who steal collective-farm property.

"The party and the government," said the magazine Bolshevik, "demand that the severest, most merciless measures be employed against people pilfering public property and against their accomplices in order to shield the commonly owned sector of the collective farms from all swindlers and rogues who make use of the collective farm for personal, selfish purposes."

The magazine brought out that some collective-farm workers stall are possessed with the old private-ownership psychology.

"It must also be borne in mind," it said, "that a certain part of the collective-farm workers have not yet freed themselves from the survivals of the private-ownership psychology.

"Individual collective - farm workers strive to snatch a little more for themselves to the detriment of the collective farm and at the same time evade active work in public production . . . They concern themselves only with their own personal economy."

The magazine said it is in precisely such collective farms that the tempo of the development of the commonly owned sector is weakened.

Just after the war it was brought out that a number of serious abuses had taken place. Plots of land near the homes of the collective farm workers were increased—at the expense of the collective farms.

Plots of land were alloted illegally to Soviet and land organs and some of the plots were arbitrarily seized by all kinds of organization and persons. Pilfering of livestock, seeds, products, and illegal expenditures of funds were discovered.

The central committee of the party on Sept. 19, 1946, issued a decree intended to bring all this to an abrupt halt. It also set up a council for collective-farm affairs to establish strict control over observance of the collective-farm by-laws.

"Despite the strict injunctions of the party and the government to shield the collective farms from encroachments on their property," said Bolshevik, "criminal instances of pilfering and squandering of public property are still to be observed."

The explanation of these facts is, primarily, that certain party and Soviet organs are poor in fulfilling the injunctions of the party and the government.

ONE HUNDRED FIRST YEAR — NUMBER 49 TECUMSEH, MICHIGAN, SEPTEMBER 4, 1952 5 CENTS A COPY

Earl L. Wickwire, Editor, Publisher Dies

Tecumseh Loses Outstanding Civic Leader—Passes Quietly Away At Home Thursday Evening. Burial At Ridgeway Sunday

Earl L. Wickwire, editor and publisher of the Tecumseh Herald for 23 years, died suddenly at his home at 408 W. Chicago Blvd. Thursday evening at 7:45. Mr. Wickwire had devoted his entire lifetime to the newspaper business.

He was born July 17, 1898, on a farm three miles southeast of Britton in Ridgeway township, the son of Frederick and Mina Linn Wickwire. With his parents he moved in 1906, to Adrian and graduated from Adrian high school.

Mr. Wickwire started his newspaper career as a reporter for the Adrian Daily Telegram in 1917, the paper he had carried since a young boy. In 1919, he joined the staff of the former Toledo News Bee, and in 1920, took a position with the Battle Creek Moon Journal and later became managing editor.

He became managing editor of the Monroe Evening News in 1925, remaining until 1929, when he moved to Tecumseh upon purchasing The Herald in 1929. On September 28, 1950, The Herald celebrated its 100th birthday.

Always a loyal citizen of Tecumseh, he will be remembered for his editorials and publishing principles. Mr. Wickwire was a past president of the Tecumseh Rotary Club, a past president of the Chamber of Commerce, past president of the Tecumseh Commerce Club and a charter member of the Tecumseh Country Club. He was always interested and active in civic life and has played a major role in the rapid growth of Tecumseh.

Survivors are the widow, the former Hilda A. Schwartz, whom he married September 12, 1923; two daughters, Mrs. Howard Dunlap of Adrian and Marjorie at home; two grandsons, Earl Lyman and James Howard Dunlap and an uncle, H. A. Wickwire of Manitou Beach.

Funeral services were held Sunday afternoon at 2:30, at the Collins Funeral Home. The Rev. Edward A. Green of Dearborn, former rector of St. Peter's Episcopal church in Tecumseh, officiated. The bearers were John R. Thompson, Ray W. Herrick, Ellsworth A. Collins, George Adamson, Charles O. Butler, Leon Williamson and Leroy Titley. Burial was in Ridgeway cemetery.

HALLS ACTIVE IN BOW AND ARROW CONTESTS

The father and son team of Harold and Gary Hall have as usual made themselves a factor in recent bow and arrow tournaments. In the National tournament at Minneapolis last week, Harold Hall placed third in the Instinctive event, Class B. Son Gary placed first in the Cadet event.

In the Michigan State meet at Saginaw last Sunday, Harold Hall came away with top honors, winning the Instinctive event. Son Gary this time placed second in the Cadet event.

It is nice that there are two of these Halls in there shooting. This fall if one misses the buck, the other had better be there to get it.

TEACHERS HONORED

Mrs. James McDowell, Mrs. Neville Hart and Mrs. Earl Greene were co-hostesses at a tea Wednesday afternoon from 3 to 5 o'clock in the cafeteria room of the high school, honoring the teachers and their husbands. The color scheme of yellow and green was used, with yellow flowers as a centerpiece. Mrs. Jens Touborg, Mrs. Aden Mead, Mrs. Dwight Hodges and Mrs. George Anderson, poured. Miss Lidde Hansen of Copenhagen, Denmark, was a special guest.

CADDIES ENTERTAINED

Last Wednesday, August 27, the ladies of the Tecumseh Country Club entertained the caddies at golfing in the morning. Miss Pat Wilson assisted the golf committee and honors were awarded to Rudy Lopez, Ted Cornell, Larry Lopez and David Lamkin, caddies. Wednesday will be Trophy day at the Country Club for the ladies.

Herald To Continue

NO INTERRUPTION ANTICIPATED: POLICY AND PUBLICATION UNCHANGED

The passing of Earl Wickwire, publisher of the Tecumseh Herald has left some uncertainty in the mind of the public about the future of the Herald.

The Herald will continue to be published regularly on Thursday mornings as it has been for more than a hundred years. The entire staff has given full co-operation and much extra work that this edition should be printed without interruption, and it is hoped that the Herald office can so continue with the loyalty of these fine employees.

Until other arrangements are made, Miss Marjorie Wickwire will be in charge of the Herald office, assisted by A. C. Hamaker.

Writes From Hospital

Gerry Wilcox, pressman at the Tecumseh Herald entered Foote Memorial Hospital at Jackson with an infected leg, that will keep him laid up for about two weeks. From his hospital bed he wrote his sentiments on the passing of Earl Wickwire, which are here printed in part at the request of the Herald employees.

Wilcox writes, "Mr. Wickwire's thoughts were always of his responsibility as a publisher to the community. The ever present smile will be long remembered by all who knew him, for back of it was a fair and courageous man. We send sincere sympathy to his family, and to the people of Tecumseh in their great loss, which is Heaven's gain."

EDITORIALS WRITTEN BY EARL WICKWIRE

The Editorials on page 2 of this edition of the Tecumseh Herald were written by Mr. Wickwire just prior to his going on his vacation in Maine.

SCOUT ORGANIZATION MEETING ANNOUNCED

All former members of Boy Scout Troop 4 are requested to attend the organization meeting next Monday evening at 7 o'clock at the Boy Scout Cabin. All boys who are eligible to participate in Scout work are invited to attend. All former Scouts are asked to bring their achievement records.

BICYCLES MUST BE LICENSED

George Kilbourn, chief of police, announced today that the licenses for the bicycles may be purchased at the police office, any time now. The new licenses are 50 cents and the renewals twenty-five cents. All bicycles must be registered at the office.

Band Festival In Fall

Plans are in the making for the annual Tecumseh Band Festival to be held at the Recreation Center in early October. The school bands from Adrian, St. Marys, Blissfield, Clinton, Morenci, Hudson, Sand Creek, Onsted, Addison and Tecumseh will take part. The theme and date to be announced later. Clare Camburn will be general director. The mass bands will be guests at the Camburn home in Macon Monday evening where further plans will be made.

CONFIRMATION CLASSES

Pre-confirmation instructions at the Grace Lutheran church will be resumed Saturday morning from 9:30 until 11:30 after the summer recess. Saturday school will be held from 1:30 to 3:30 in the afternoon.

His Home, His Community, and The Herald

It might be said that the everyday tasks of caring for a family, of participating in community events, and of publishing a newspaper would form a career without much drama or color — not particularly interesting. It might be too simple a life to bring to light the facets of character and ability that exist behind these labors of love. Yet many outstanding deeds, and many years as a faithful neighbor have shown through the kindly good nature of Earl Wickwire, and have become indelibly a part of the legend of Tecumseh.

Earl Wickwire experienced unusual success as a very young man, starting as a reporter for the Adrian Daily Telegram, and later becoming Managing Editor for the Battle Creek Moon-Journal and the Monroe Evening News. He made his mark as a reporter by unusual ability to write with factual accuracy, completeness, and a personal, friendly style.

Upon becoming Managing Editor of the Battle Creek Moon-Journal at the age of 24, he quickly became one of the most closely watched young journalists in Michigan. His orderly arrangement of details coupled with remarkable ability to include beauty in descriptive prose has placed his work among the finest newspaper writing to be found. His future in the newspaper world was assured while he was still very young. The horizons before him were unlimited.

But Earl Wickwire clearly saw his field for duty in the village near which he was born. He came to Tecumseh at a time that was destined to try the souls of many men, when The Tecumseh Herald was purely an opportunity for service. He soon found that besides a reporter and editor, a leader was required, capable of serving the community in a hundred ways. An employer was required, capable of himself becoming one of the staff. A financier was required, who could purchase the paper and ink, and meet the payroll and keep the presses working despite the fact that the village could afford little advertising. And at the same time, Earl Wickwire had a family for whom he must provide, children to clothe and educate. He accepted the challenge.

The first thoughts last Friday morning, of those who knew Earl Wickwire best were for his family — a family that knew love and peace and kindness in abundance. His hospitable home, and the happiness of all in his household has been exemplary in a troubled world.

Earl Wickwire brought to Tecumseh a high type of responsible leadership. His activity has not been limited by the organizations in which he partcipated. True, the Rotary Club, the Chamber of Commerce and others have been richer in wisdom because of his presence, more successful because of his efforts. But his aid and guidance in many civic programs has been a thoughtful, stable leadership that has served our community well.

It is to be hoped that The Tecumseh Herald can continue on the high plane that he has established for it. His forthright endeavors for every worth-while civic enterprise, his excellent publishing principles and his accurate reporting have made The Herald one of the finest weekly newspapers in Michigan.

The Herald office is desolate, yet there has been full asurance that this edition and future editions would be published on time—exactly as Earl Wickwire would have wanted it. The high regard of his employees has been earned through the years, and they will carry on when he cannot. But the joy, the satisfaction, and the pride of making up the paper can hardly be the same.

Earl Wickwire has passed from our midst at an age that must be considered too young. But in the words of a contemporary author, "The quality of God's mercy must be sensed as a function of His purposes, and like them, could not be measured by the human mind."

Local Police Net Hit And Run Driver

Charles Plummer, 1056 College Ave., Adrian, was found guilty of leaving the scene of a property damage accident by Justice Robert French Tuesday. He was sentenced to pay a fine of $25. plus $8.60 costs, and was given a five day suspended sentence.

The accident in which Plummer was involved occurred August 25th. He was brought in on August 29th after an intensive search by Tecumseh police.

Phone Wages Increased Here

Agreement on wage adjustments was reached last week by representatives of General Telephone Company and the bargaining committee of I. B. E. W., representing employees of Plant and Traffic Departments. Subject to ratification by union membership, the agreements will provide for hourly increases of from 2½ c to 16½ c. These increases are above the length of service increases regularly granted to employees. In part they will require approval of the W. S. B. before they can be made effective.

The wage bill of the Company, and its related effects such as pensions, sickleave, etc., will amount to about $4,000,000 per year after giving effect to this increase. Wages constitute about 83% of the Company's operating expenses exclusive of depreciation, taxes, and capital costs.

Enrollment Up In All Schools

The enrollment is not complete in the Tecumseh Schools at the time this paper goes to press. But according to Supt. James McDowell, the number of students in all classes is very likely to exceed last year's enrollment by about 200, making a total of about 1425 students. Classes have started in an orderly manner, with parents and children cooperating fully.

Word has been received that the working plans for the new buildings authorized in the recent elections are now almost complete, and it is likely that bids can be taken and contracts awarded sometime in October. This will possibly permit some construction progress this fall.

Three Enter Nursing School

Three hospital employees will enter nursing education next week. Miss Joan Hindes has concluded her duties as an aide at Herrick Memorial Hospital prior to entering Harper Hospital School of Nursing in Detroit next week. She has been employed part-time during the school year and during vacation for two years. Miss Hindes received one of the Herrick Memorial Hospital Auxiliary Scholarships.

Miss Vivian Hahn, of Tecumseh has concluded her duties as an aide at the hospital. She enters Mt. Carmel Hospital, a unit of Mercy School of Nursing in Detroit, next week. Miss Hahn graduated from St. Mary's high school in Adrian last June. She has been employed at the hospital for two years during vacations and part time during the school year.

Miss Barbara Meyer will conclude her duties at the hospital this week. Miss Meyer will enter the University of Michigan School of Nursing in the four year Collegiate program. Miss Meyer graduated from Adrian high school last June. She also received one of the Herrick Memorial Hospital Auxiliary scholarships. She has been employed in the office at the hospital this past summer.

Exchange Club Meets At Country Club

The Tecumseh Exchange Club held the first meeting of the fall season at the Tecumseh Country Club Wednesday evening. President George McCombs presided. We have been asked to point out that it is the same busy Exchange Club—only the night of meeting and the place of meeting are changed. Hereafter it will be every Wednesday evening at the Country Club.

An attendance contest is in full swing—and it promises to be costly for the losers.

Golf Winners Decided

JIM WILSON CLUB CHAMP; BOB ROBINSON WINS MARATHON MATCH

Labor Day saw a full slate of the finals of the championship matches at the Tecumseh Country Club, with the only new record set being for the length of a match. This was a 41 hole sudden death marathon in which Bobby Robinson defeated Dale Bowen one up, and established a new club record for persistence and punishment.

Jim Wilson won the Club Championship in an airtight match with Kirk Smith that went the full distance, being decided on the 36th green with Wilson winning one up. Club rules and modesty probably precluded the revealing of the scores.

Pauline Moore was victor in the Women's Championship flight, winning a close match one up on the 19th. Close matches of this type show an excellent spirit of competition that cannot help improving the quality of the golf as time goes on.

In the Women's 1st Flight, Mary Bowers defeaed Edith Smith 3 and two in an excellent match that almost went the distance. Jean Merz won the Women's 2d Flight handily, defeating Edna Smith 6 and 5.

The Men's 1st Flight matches brought out the Robinson-Bowen long distance affair. The extra practice alone on this match will likely move both participants to a new standing come the next season. In the record books now, Robinson won it, one up. The Men's 2d Flight also went the distance, Leo Seidel defeating Dr. Bob Bowers 2 up on the 36th hole. In the Men's 3rd Flight, Bill Hanna won going away from Elmer Krueger, 9 and 8, the only top-heavy victory of the day, and this on a match that was regarded as very even.

The entire Club Tournament was well played and well planned, and was a credit to the Club and the Committee. It has been announced that the Ladies Trophies will be presented on Trophy Day, Wednesday, September 10. The men's trophies will be given out on President's Day, Saturday, September 13.

Waldo Johnson Speaks To Rotary

A nearly full meeting of the Tecumseh Rotary, held at the Country Club Tuesday evening had a splendid evening. For the one and only Waldo Johnson brought some of the north Canadian lakes right into the meeting, with enough close-ups so that the members felt that they were hauling in the big pike and trout themselves. The highlight was of Waldo himself dunked in the cold northern lake water blithely riding astride a swimming moose.

Ninth Polio Case

Regina Warner, six-year-old daughter of Mr. and Mrs. Sterling Warner of Deerfield, was admitted to University hospital, Ann Arbor, last week. Her case was diagnosed as polio, but there was no paralysis at the time she entered.

Linda Landis, ten-year-old daughter of Mr. and Mrs. Chalmer Landis of Blissfield has polio and will be confined to her bed for several months. Billy Cleveland, year old son of Mr. and Mrs. Herbert Cleveland of Tecumseh was rushed to University Hospital last week with symptoms of polio but after an examination his case was diagnosed as not polio and he returned home Saturday. He suffered from a throat infection.

STATE HIGHWAY DEPT. EMPLOYEE TICKETED

Robert A. McNeil of Lansing and Patricia Maynard were involved in a minor traffic accident Friday afternoon. Miss Maynard, proceeding east on W. Chicago Blvd., is reported to have hit the State Highway Dept. panel truck as it pulled away from the curb. McNeil was ticketed for failing to yield the right of way.

STOLEN CAR RECOVERED QUICKLY

An automobile owned by Thomas (Tim) Neil was reported stolen from the village parking lot in the small hours of Saturday morning. Then it was reported recovered — a few hours later and a few blocks away.

A Symbol and a Simpleton

Time was when $10,000 a year was a lot of money. Only the relative few earned or had a reasonable hope of earning as much. Even nowadays, with record taxes and a four-bit dollar, it is far more than most families ever see, the average income across the nation being in the neighborhood of $3,000.

Yet there is a $10,000-a-year class of people in this country who simply can't make both ends meet, economize as they will. That at least, is the theme of a fascinating article in the July issue of Harper's magazine, called "Going Broke on $10,000 a Year," which is signed with the pseudonym of Jay Taylor. This class consists of junior business executives who must put up a front, appear to live very well, have good addresses, entertain as a part of their jobs, and donate generously to charities and other worthy causes. Mr. Taylor writes early in his article: "I'm a symbol—and a simpleton. I'm a symbol of a group from which business leaders used to be drawn, a group now being liquidated . . . ."

Mr. Taylor goes into meticulous detail as to his finances, and it's quite a story. Last year, he wrote, he earned $10,400 and spent $10,456. And here, in capsule form, is what happened to his money. To get the full flavor of the account, of course, the whole article should be read.

First of all he actually got not $10,400 but $8,978, taxes having accounted for the difference. His first outgo was for rent, $1,656. This, he says, is about as little as he could pay without moving to so cheap a neighborhood that he would lose cast with his associates and endanger future promotions.

Several hundred dollars went out for unavoidable household expenses such as utilities, and his wife got $2,049, or some $40 a week, to buy food and other supplies needed by a family of four. Furniture swallowed up $274, and insurance $471. Mr. Taylor has no car and says he can't afford one, but commutation tickets cost him $180 and are scheduled to go up in price.

Doctors and dentists accounted for $264, and the children's expenses, such as their clothes and school books and a summer camp, due into the total to the tune of $241. He and his wife spent only $173 on clothing for themselves. Gifts and holiday expenses totaled around $500 all told, and there was a miscellaneous item of $264, which included such odds and ends as church contributions, wood, bushes and bulbs for the garden.

So it goes, in Mr. Taylor's summation—everything is accounted for down to the penny, save $133 for which he has no records. None of the items of expenditure seem at all high for a man in his position—many of them seem almost amazingly low.

Mr. Taylor's conclusion is typical of the tone of his article: "So I speak as one small symbol of a class. I look at the broken down occasional chair which should have been replaced a year ago. I postpone my trip to the dentist for another six months in hopes that the pediatrician's bill can be paid in the interval. And I realize that I belong to a new class of forgotten men in whom no labor leaders, politicians, farmers, corporation presidents, or commencement speakers take any vested interest — the $10,000-a-year men, Vanquished Americans."

Big Business and Big Government

Many people believe that this is a wonderful period for business and especially "big business." The dollars are rolling in in an endless golden stream, they reason, and about the only worry is how to dispose of them.

If you hold this belief, the following paragraph from a factual article in a publication of the National City Bank of New York should be of interest: "'Big business' now devotes a major portion of its income to the support of 'big government.' The modern corporation has become an agency to marshal men and money not only for the mass production of goods, but also for the mass collection of taxes. Last year the 100 largest industrial organizations each paid an average of $67,000,000 in federal income and excess profit taxes, and $42,000,000 in other federal, state, local and foreign government taxes. Their total direct tax bill of $109,000,000 took 67 per cent of the balance before taxes. Such taxes were at the rate of about 14 cents for every dollar of sales. They amounted to nearly two-thirds of total payrolls, and to nearly four times the dividends paid to shareholders."

The individual taxpayer is in a similar position. More and more of his income goes to the government—less and less for him to spend or invest. Economists have long believed that if a nation's economy is to be kept dynamic, not more than 25 per cent of the national income must be absorbed by taxes. Today about one-third of the national income goes to the government.

Can anyone doubt that government spending, debt and taxation, together constitute one of the most vital problems we have ever faced as a people?

CHANGE IN VETERANS INSURANCE CHECKS

Veterans may now make their checks or money orders for government life insurance premiums payable to 'Veterans Administration," VA announced today.

Heretofore, checks and money orders had to be made payable to "The Treasurer of the United States." As a result, many premium payments were sent to the Treasury Department rather than to the VA District or Central Office handling the insurance account.

Veterans were advised by VA not to send cash through the mails but to use checks or postal money orders. Cancelled checks or money order stubs serve as premium receipts.

Marian Aebersold, Bride of John Grygier

The St. Mary's church at Marion, Ohio, was the scene of a summer wedding Saturday morning, August 23, at 10:30 when Miss Marian Aebersold, of Marion, daughter of Mr. and Mrs. Clarence Aebersold of Tecumseh, became the bride of Arthur Grygier, of Marion, son of Mr. and Mrs. John Grygier of Erie, Penna. The Rev. Fr. Spickerman performed the double ring ceremony before an altar decorated with vases of white gladioli.

The bride, given in marriage by her father, wore a ballerina length gown of Chantilly lace over satin. It had a fittted jacket and Peter Pan collar with long sleeves ending in points over her hands. A short veil was attached to a Juliet cap embroidered with seed pearls. She carried a bouquet of white roses. Mrs. Harold Black of Tecumseh was matron of honor and she wore a pink ballerina length lace dress with fitted bodice, Peter Pan collar, matching gauntlets and Juliet style cap. She carried a bouquet of scarlet gladioli.

Joseph Schroeck of Marion assisted Mr. Grygier as best man. The ushers were Mr. Black and Edward Rydzewski of Erie.

Mrs. Aebersold chose for her daughter's wedding a navy dress with matching accessories and Mrs. Grygier wore a navy print dress with white accessories.

A wedding breakfast was served immediately following the ceremony at the home of the bride's parents. After a trip to the Smokies Mr. and Mrs. Grygier will reside at 175 Pearl st., Marion. For traveling Mrs. Grygier changed to a black faille suit with matching accessories and a corsage from her bridal bouquet.

The bride is a graduate of Tecumseh high school and the University of Michigan and is employed at the F. C. Smith Clinic in Marion. Mr. Grygier graduated from Cannon College at Erie and is an accountant with the General Telephone Company of Ohio at Marion.

MSC Offers Course In Agriculture Journalism

Michigan State College this fall will become the 15th school in the nation to offer course work leading to a bachelor's degree in agricultural journalism, college officials announced today.

Set up in response to an ever-increasing demand for trained agricultural journalists, the new course will begin this fall and will allow students to get their agricultural journalism training in two different ways.

Students may either major in agriculture and minor in journalism to receive a bachelor of science degree in agriculture; or they may major in journalism and minor in agriculture to receive a bachelor or arts degree in journalism.

Work of the journalism majors will be administered in the School of Business and Public Service, and work of the agricultural majors will be conducted in the School of Agriculture.

Demand for agricultural journalists exceeds the supply by a six to one ratio, according to a recent survey by the Texas A. and M. department of journalism under the direction of Dr. Donald A. Burchard.

Commenting on the tremendous demand for agricultural journalists, Dr. Burchard concluded his survey by stating, "Educators are gravely concerned over the situation and expect it to get worse before it gets better."

Agricultural journalists have been extremely scarce. It has been hard to fill positions on agricultural publications, in advertising agencies dealing with farm supplies and equipment and in agricultural college writing and editing work, college officials reported.

Another area where many of these specialized journalists are needed is in radio and television work and on daily newspapers, which have constantly been expanding their agricultural sections. Public relations firms which deal with farm people and equipment also are demanding more people trained in both agriculture and journalism.

The M. S. C. course was worked out by a college committee composed of representatives from the journalism department, the School of Agriculture and the department of information services.

KILLER TEAM . . . Marine Tech. Sgt. John E. Boitnott, Comfort, N.C., (left), and Pfc. Henry A. Riday, Mikoosa, Wisc., check their sniper score. Using Friday as a decoy (he popped up from slit-trenches to draw enemy fire), the sergeant is credited with nine dead Reds, each by a single bullet. The feat was accomplished over a two-day period, using a rifle equipped with a telescopic sight. The bizarre combination of sharpshooter and decoy, was dissolved, however, by order of the company commander. It was a much too dangerous game the commander believed.

Suggest Ways To Halt Milk Production Drop

Many dairymen find it practical to sow some Balbo rye in August for late fall and early spring pasture.

Planting about an acre for each three cows in the herd usually will furnish about two weeks of grazing in the fall, plus feed in the spring before regular pastures are ready, according to L. A. Johnson, Michigan State College extension dairyman.

Johnson pointed to the fact that milk production per cow declined in July as shown by reports of Dairy Herd Improvement Associations in Michigan. This follows the usual trend after reaching a high point in May and June. The low point usually is reached in November.

A shortage of feed due to less pasture growth is the main reason for the drop in production in the fall months. Johnson suggests several ways dairymen can help to maintain production at a higher and more profitable level.

In addition to the Balbo rye suggestion for late fall and early spring pasture, production can be held up by feeding more grass silage or hay, providing more acres of pasture or by feeding extra grain.

t takes about two pounds of grain to replace three pounds of hay in feeding value, or three pounds of grass silage to replace one pound of hay, Johnson adds.

Ward Beam's World Champion Auto Daredevils will be at the Lenawee County Fair, in Adrian, Monday night only, September 15. The Daredevils who execute this precision stunt must be descendants of the stalwarts who devised the historic Roman-standing races on horseback in the days of ancient glory.

They used only the holding rope as protection and stand in their stocking feet. Sometimes the drivers slip off the narorw ramps as they speed over the obstacle course. Every moment will be thrilling.

MARTHA HAYDEN ADVANCES IN NURSING SCHOOL

Martha Ann Hayden, daughter of Mr. and Mrs. Perry Hayden, 512 W. Logan street, Tecumseh, Michigan received her cap from Presbyterian hospital's school of nursing on Friday, August 29. Miss Hayden and 24 of her clasmates have completed the first six months of their nursing education and are now officially admitted to the school.

Martha Ann Hayden

Miss Hayden is a graduate of Tecumseh high school (1949) and attended Asbury College, Wilmore, Kentucky and Taylor University, Upland, Indiana. She entered the school of nursing in March. Her's was the first class to be capped in the new $3,200,000 school and residence building, 1743 W. Harrison street, Chicago.

After a month's vacation the class will begin the second phase of nursing education in which their time will be divided evenly between classes and hospital duty.

The new 15-story residence and school building is connected by tunnel to Presbyterian hospital. It provided the finest classroom and laboratory facilities plus excellent living accommodations. Each student has her own room and has access to the lounge and kitchenette on her residence floor and to the large party rooms on the main floor.

Benedict Memorial School Opens

Two new teachers greeted the Benedict Memorial Seventh Day Adventist elementary school children, Tuesday, September 2. The new teaching staff is Mr. and Mrs. Robert Rieber of Berrien Springs. The grades range from first through the eighth. Mr. Rieber is also a licensed minister.

The school was enlarged last year by the addition of a recreation room. Volley and basketball games, movies, and social gatherings were enjoyed by parents, friends and neighbors throughout the summer vacation as well as during the school months.

Built at a cost of approximately $35,000 the school is the cultimation of many years of planning and saving by the church members of Prattville, Adrian and Morenci. Most of the members have had some direct part in the actual building of the school. Volunteer crews under the direction of Elder J. B. Church, pastor of the church, worked right along with professional workers, some of whom donated their time to the project. The building is 50 feet by 80 feet, and of cement block construtction. Modern features of the school are the presence of an electric range, cooking and serving ware, refrigerator, running hot and cold water, boys and girls comfort room in both divisions, lavoratories and drinking fountains, automatic safety release locks on all doors in event of emergency exits, an electric rotary brush floor cleaner and waxer, pianos and clothes closets in each room and oil heating system. New modern adjustable desks are also featured with the scientific green black boards for proper eye care.

The school has been in operation here for three years and was formerly located in the church at the corner of Company and Greenly street. It is maintained by the local congregation, free will donations and substantial assistance by Ray Herrick of Tecumseh. It is one of a chain of 4,438 Adventist schools around the world. "The church recognizes the contributions being made by the public schools, "Elder J. B. Church says, "but as a Christian denomination we feel that our own purposes are served better by maintaining a decidedly christian environment for our children during their formative years. While this is not constitutionally possible in the public school system we salute the achievements of that system and we feel that it is making sound contribution to national growth."

Miss Anita Allen, daughter of Mr. and Mrs. Robert Allen of Tecumseh and Miss Nancy Wolf, daughter of Mr. and Mrs. Harold Wolf of Tecumseh, Janice Laser, daughter of Mr. and Mrs. Lester Laser of Prattville and David Hawkins, son of Mr. and Mrs. Lloyd Hawkins of Clayton, graduated from Benedict Memorial, enrolled at Adelphian Academy in Holly, September 2.

Hens Can Do Part Of Work On Poultry Farm

Put the nests near the door of your henhouse and let the hens do the walking.

That's the suggestion of William Aho, Michigan State College extension poultry specialist. He says that this arrangement will save steps and you'll find few, if any, more floor eggs.

Piping water into the henhouse and using automatic fountains will cut watering time in half. Time saving in large flocks may even be greater.

Another labor-saving step is to keep hens in large units. There is less work in caring for 300 hens in one pen than 100 hens in three different pens. First step may be to take out unnecessary partitions. Aho also recommends one or more lines of feeders parallel to the front wall of the henhouse.

Built-up litter and dropping pits are two of the greatest laborsavers of all. You can leave built-up litter in your henhouse a year if you keep it dry. Stir the litter to keep it dry. Dropping pits usually do not need to be cleaned more than once a year.

Other labor-saving ideas include installing an automatic switch to control artificial lights; combining all possible jobs on each trip to the henhouse; reducing the number of times jobs are done; producing clean eggs; and keeping all doors, windows and other fixtures in good repair.

Lenawee Voting Turnout Lower

A recent communication from Senator Homer Ferguson of Michigan points out that Lenawee County has been lagging in the percentage of total registered voters turning out for elections. Upper peninsula counties in particular have been leading Lenawee by a wide margin.

In the 1948 presidential election, Keweenaw County led Michigan with a vote turnout of 84.5 per cent. Lenawee was in the lower bracket with 53.2 per cent. In the election of our Governor in 1950, Baraga County led with 74.7 per cent voting. Lenawee slipped badly that year with 46.3 per cent voting.

The sad part of such a record is that had Lenawee County cast not 100 per cent, but the 74.7 per cent as cast by Baraga, we probably would have had a different Governor and a different Senator. Right here at home we have handed the election to others by default, by the lazy American habit of failing to make use of our priceless heritage.

CHRISTIAN SCIENCE TEXT

Everyone desires to have what is called a keen mind. In the Lesson-Sermon under the subject "Mind", to be read in all Christing of Mind.

The Golden Text is from Psalms (67:3, 4): "Let the people praise one may have a true understand-August 24, it will be shown how thee, O God; let all the people praise thee. O let the nations be glad and sing for joy: for thou shalt judge the people righteously, and govern the natoins upon earth."

Among the Bible citations is this pasage, (Isa. 40:28): "Hast thou not known? hast thou not heard, that the everlasting God, the Lord, the Creator of the ends of the earth, fainteth not, neither is weary? there is no searching of his understanding."

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "A limitless Mind cannot proceed from physical limitations. Finiteness cannot present the idea or the vastness of infinity." (p. 256).

KEEPING PACE WITH MICHIGAN

Michigan's phenomenal growth and industrial expansion during the 36 years since this organization was founded, have astonished the entire world.

Detroit's population has grown from ¾ of million to 3¼ million in the metropolitan area—an increase of 433 per cent. Other Michigan cities have expanded to a comparable extent.

Providing this rapidly increasing city population with an adequate supply of the most perishable of all foods—pure, fresh milk—has posed difficult problems. To solve them called for intelligent, far-sighted planning by men who understood every phase of the complex milk supply problem, all the way from the cow to the door-step.

The Michigan Milk Producers Association never has failed in its obligations to both the consuming public and the producing farmer. It has constantly anticipated future needs of both and met them unfalteringly on every occasion.

More than 16,000 dairy farmers working together through their cooperative organization have kept pace with fast-growing Michigan. Today, as always in the past, this Association is carefully planning for the future by stimulating production of highest quality milk by its members and providing the plants and transport equipment to guarantee delivery of an ample supply, handled in the most sanitary method, at all seasons of the year.

Keep In Line, Don't Cut In

STATE HIGHWAY COMMISSIONER APPEALS TO MOTORISTS IN SAFETY CAMPAIGN

Lansing — Highway Commissioner Charles M. Ziegler has again appealed to all motorists to cooperate with the State Safety commission's safety campaign and to follow its slogans, "Don't Cross the Yellow Line" and "Keep in Line, Don't Cut In."

On two-lane roads, drivers passing other vehicles going in the same direction must cross into the lane of traffic going in the opposite direction and unless proper caution is exercised, the driver may not be able to pass the vehicle in front of him and get back into his own lane in time to avoid a collision. Passing should be attempted only when the driver has clear vision and sufficient distance between himself and on-coming vehicles.

In some places hills or curves will make it impossible for drivers to see on-coming traffic. At such places the State Highway Department has placed yellow lines. These are 'signs of life.' The life they save may be your own. So don't cross the yellow line.

To avoid the disastrous effect of a head-on collision, when attempting to pass a car ahead, motorists should heed these warnings:

(1) Don't pass at an intersection because a cross traffic vehicle or a pedestrian may be hidden by the car you are trying to pass.

(2) Watch out for a car about to leave a filling station.

(3) Be ware of a car parked on the shoulder which may pull out and interfere with the car you are trying to pass.

(4) Look out for a pedestrian walking on the shoulder who may step out on the pavement and cause the car ahead to move over in front of you.

(5) Beware of the slow moving vehicle or farm tractor which may turn in front of you.

(6) Look for that "hidden car" behind you that may try to pass you just as you pull out to pass the car ahead of you.

Tecumseh Schools Are Bulging At The Doors

198 ENTER KINDERGARTEN; SOME HIGH SCHOOL CLASSES AT NOON; NEW COURSES OFFERED

The foresight of the Board of Education in formulating plans last fall for the erection of a new elementary school and additions to the high school was borne out by the enrollments this fall. There are one hundred eighty-six more children enrolled than at this time last year and additional children are enrolling each day. The most marked increase is in the kindergarten where 75 more pupils registered than last year. Plans had been made for five sections of kindergarten but it was necessary to engage Mrs. Heimerdinger for another half day session at the central school to care for the additional children. The total number of children enrolled in Tecumseh's schools Monday was 1403. The enrollment by grades is as follows: Kindergarten, 198; First, 138; Second, 107; Third, 103; Fourth, 108; Fifth, 104; Sixth, 86; Seventh, 99; Eighth, 97; Ninth, 113; Tenth, 94; Eleventh, 87; and Twelfth, 69.

Tecumseh's school buildings are not adequate to house such a large number of children and a great number of problems have arisen. For the most part parents have reacted with a spirit of fine cooperation and willingness to help in any way possible to solve the problem even though it meant inconveniences for them. Children who may have been placed in schools farther from home than necessary will be shifted as soon as these errors come to light.

The former kitchen at Central, which was converted to a play room for elementary children last year, has been made a kindergarten room and the former study hall will be made into a play room as soon as possible. This eliminates the need to obtain a kindergarten room from outside sources this year.

The bus, of necessity, has been rerouted several times. There are over 140 children who must be brought to school by bus. Three trips are necessary and parents are urged to cooperate in grouping children so that fewer bus stops will be necessary. Parents should bear in mind that the bus cannot stop, honk, and wait for every child at his door. The schedule is very tight and a minimum amount of time must be consumed in stops. The bus now leaves the garage at 7 a.m. which is very early since school does not begin until 8:30 in any building.

The children at the Library and Brownville have been very happy with their new furniture and equipment. Additional play equipment will be available as soon as delivered from the factory.

Safety of the children is of prime concern to all and it is hoped that the public will drive with exceeding caution in school vicinities at all times. The Vil-

Clova Adams, Buried In Oakwood Cemetery

Mrs. Clova Long Adams, an Adrian business woman for 25 years, died Saturday afternoon at 12:30, in University Hospital, Ann Arbor, where she had been a patient for ten weeks. Mrs. Adams was born January 21, 1884, in Crawfordsville, Ind., the daughter of James and Nellie Long. On June 9, 1900, she married Lawrence Adams, who died in Newport, Ind., in 1937. Mrs. Adams came to Adrian in 1924 from San Antonio, Texas, and operated the Adams Dress Shop for 25 years.

Mrs. Adams was a member of the First Presbyterian church and the Adrian Business and Profesisonal Woman's Club.

She is survived by two daughters, Mrs. Florence Fogle of Adrian,, who owns the Vogue Shop in Tecumseh, and Mrs. Lucille Hensey of Flint; two grandchildren, Mrs. Ralph Dunning of Flint and Miss Virginia Fogle of Adrian; two great-grandchildren, Richard and Debra Anne Dunning of Flint; and two brothers, Dallas Long of Indianapolis and James Butchart of Terre Haute, Ind. She was preceded in death by one sister.

Funeral services were held Tuesday afternoon at 2 o'clock at the Everiss Funeral Home. The Rev. Raymond G. Taylor officiated. Burial was in Oakwood cemetery.

Bandmasters Plan Festival

Eight Lenawee school bandmasters met at the home of Clare Camburn last Monday evening to make plans for the Tecumseh Band Festival, to be held at the Recreation Field Wednesday evening, October 15. Rev. Blair Bashore and Miss Carol Pearson, recording secretary for the Tecumseh Chamber of Commerce also attended. After a splendid chicken dinner, the evening was spent arranging for the show.

Program asignments were given to each bandmaster. Each band will present a theme or story of American life as expressed by our national holidays, and promises to be an interesting display.

This will be the sixth presentation of the Band Festival in Tecumseh. The excellent facility of the Recreation Center provides an ideal setting, and this coupled with the alert interest of the Chamber of Commerce has made posible its repetition. It is hoped that this will continue in future years, as the Tecumseh Band Festival has become recognized as an outstanding event throughout southern Michigan.

Collision Injures Three

A head-on automobile collision at about midnight Saturday sent three persons to the Herrick Memorial Hospital. One of these, Mrs. Faunt V. Lenardson of Wamplers Lake was transferred to University Hospital with compound fractures of the right leg, head cuts and bruises and other injuries. She is now considered out of danger. Her husband, Faunt V. Lenardson, driver of the car in which she was riding, sustained minor injuries, and was discharged after treatment.

Mrs. Herbert Lapham, 739 N. Union street, was the driver of the other car, and suffered a broken arm and other injuries. The collision occured at the top of a hill on Munger Road west of Billington Road. Mrs. Lapham was driving east returning home, the Lenardsons were proceeding west to their home after an evening at the home of Russell Cooper in Tecumseh. No tickets were issued.

Norman J. Kehrer, Jr., Buried In Ida

Norman J. Kehrer, jr., aged 26 years, of 3376 Murray Drive, Tecumseh, died at 2:15 Wednesday at Herrick Memorial Hospital after an operation. He had been a patient at the hospital for ten days. Mr. Kehrer was employed as a drill press operator at the Tecumseh Products Company. The son of Mr. and Mrs. Norman Kehrer, sr., of Ida, he was born May 11, 1926, in Ida township. He served with the army in Japan during World War II.

Survivors are his widow, Bernice; a son, Kenneth and a daughter, Kathy Marlene; his parents and a sister, Mrs. Hubert Kreps of Tecumseh.

Funeral services were held at the St. Joseph Catholic church in Ida, Friday morning at 9 o'clock. The Rev. Fr. Alfred Sadler officiated. Burial was in St. Joseph's cemetery, Ida. Rosary was recited at the funeral home Thursday evening at 8:45.

FIRE AND POLICE ACTIVITIES

On Thursday, September 4, a traffic accident occurred at the corner of W. Chicago and Pearl street. Earl L. Fruth of Valley Road, Adrian, proceeding south on Pearl street was ticketed for failing to yield the right of way. His car, a 1941 Chevrolet, was hit by a car driven by Wm. D. Carouther of Reading, and owned by Worrn Sharp of Murray Drive, Tecumseh, who was proceeding east on Chicago Blvd.

On the same day a small brush fire was promptly extinguished without loss at the home of Charles Irelan on W. Chicago Rd. Sunday at 1:15 p.m., a small roof fire at the home of James Beardsley at W. Chicago and Union streets was extinguished with minor damage.

ROTARY GOVERNOR SPEAKS

At the regular meeting of the Tecumseh Rotary Club held Tuesday evening at the Country Club, District Governor Ted Kuckelman of the 223rd Rotary District made his official visit. He reaffirmed the principles of Rotary, and offered much excellent guidance to the local club in his address.

Meet Our Three New Teachers

Mrs. Louise Faling

Mrs. Faling, a native-born product of Tecumseh, graduated from Tecumseh high school in 1947. She attended Michigan Normal College at Ypsilanti for four years, where she graduated in June, 1951, with an A. B. degree in elementary education. While at college, she was a member of the Sigma Nu Phi Sorority, and President of the Asociation Childhood Education.

Mrs. Faling and her infant son are now residing with her parents, Mr. and Mrs. Harold E. Wilson, until Cpl. David Faling returns from service in the U. S. Army in Germany.

Victor Lawson, Jr.,

Victor Lawson, Jr., comes to Tecumseh high school from Greenville, where he was basketball coach and assistant football coach during the last school year.

Mr. Lawson graduated from Cadillac, Michigan high school in 1939, and thereafter attended Michigan State College for one term and Western Michigan College at Kalamazoo for 1½ years. He entered Naval Aviation Flight School in August, 1943, and then served as a night-fighter pilot in the U. S. Marine Corps until May, 1946. His overseas service was in the Pacific area, Okinawa, and occupation duty in Japan.

On his return, he renewed his studies and graduated from Western Michigan College in 1949. He coached at Jonesville and Greenville before coming to Tecumseh. Mr. and Mrs. Lawson have two children, Patty, 6, and Jimmy, 5. They reside at 216 N. VanBuren street.

Miss Pat Hammack

Miss Hammack was born in Detroit, but moved to Tecumseh while still very young and attended school here. She graduated from Tecumseh high school in 1949, then attended Michigan State College for one year. She then transferred to Michigan Normal College at Ypsilanti where she was a graduate in elementary curriculum in February, 1952. While at Michigan Normal, Miss Hammack was affiliated with the Delta Sigma Epsilon Sorority.

Miss Hammack taught one half year at the Green School, near Morenci. She resides with her parents, Mr. and Mrs. Ben E. Hammack of Tecumseh.

George W. Mesler Dies; Is Buried in Holloway

George Walter Mesler died at his farm home Monday morning, at 7:20 near Holloway, after an illness of two weeks. Mr. Mesler was born in Washtenaw county, January 20, 1872, son of the late John and Clarissa Mesler.

Mr. Mesler had lived in Holloway for 57 years moving from Tecumseh in 1895. He was a broom maker for 59 years and had been blind since 21 years old. Mr. Mesler was a member of Holloway Presbyterian church. He married Lillie Woods, January 26, 1893, who preceded him in death as did one brother, Willard Mesler.

Survivors are one daughter, Mrs. Veda Jaqua and one son-in-law, J. D. Jaqua on the farm home at Holloway; one brother, Ed Mesler of Adrian; three nephews, Lilburn Mesler of Palmyra, Harvey and Orley Mesler of Lima, Ohio.

Funeral services were held Wednesday afternoon at 2:30 at the Green Funeral Home. Dr. Thomas Rogers of Holloway Presbyterian church officiated. Burial was in Holloway cemetery.

POLITICS ARE NOW IN BUSINESS

Political headquarters have been opened for both parties in downtown Tecumseh. The Republican office is located in the old postoffice building on North Evans street, with full information available on the G.O.P. candidates.

The Democratic headquarters are in the Weatherman Building on South Evans street, and it is really a bee hive of activity. F. E. N. Thatcher, former acting postmaster, and Mrs. Thatcher, are right there and are very persuasive in influencing the voters. This kind of activity adds spice to the election efforts, and helps to keep the voters better informed.

Former Ridgeway Resident Buried Friday

Burial services for Mrs. Ethel N. Jones, aged 74 years, formerly of Ridgeway, who died July 15 of a heart condition at Orange, California, were held Friday morning at 10:30 at the Ridgeway cemetery. The Rev. Paul Harris of Dundee officiated.

The widow of Warren L. Jones, Mrs. Jones was born in Monroe County, December 18, 1877, and spent all but nine years of her life in Monroe and Lenawee counties. She was the daughter of George and Rose Cheever. Nine years ago she moved to California, to make her home with her daughter, Mrs. Phyllis Hatch of Manhattan Beach.

For many years she operated a millinery shop in Dundee and was active in church work. From 1918 to 1932 she was secretary of the Ridgeway Cemetery Association. She was a house mother at the Adrian Girls' Training School from 1940 to 1943. She also was engaged as a practical nurse.

Surviving besides her daughter, Mrs. Hatch, are two nieces, Mrs. Paul Van Riper of Flat Rock, and Mrs. Wallace Meyer of Lima, Ohio, and two nephews, George McIntosh of Ft. Wayne, Ind., and Edward McIntosh of Honolulu, Hawaii. Funeral services were held August 1 at Orange, Calif. The body was cremated.

Tecumseh Baptist church serving meals at Adrian Fair, Sunday through Saturday. Home baked pies. Beef and ham dinners daily. Specials. Plate lunches, sandwiches, etc. Adv. 9-18

Charles H. Boyd Buried Wednesday

Charles H. Boyd, aged 94 years, died at the Parrett Nursing Home at 5:30 Monday, where he had been a patient since last Wednesday. He was born August 10, 1858, the son of James and Matilda Boyd. He married Miss Clara Mulliken of Adrian, March 20, 1883, and the couple celebrated their 69th wedding anniversary this year. They were lifelong residents of Lenawee county and after Mr. Boyd retired from farming they lived in Tecumseh and Onsted.

Survivors are his wife, Clara; a daughter, Mrs. Ray G. Turner of Onsted; two grandchildren, Elwyn E. Turner of Kalamazoo and Mrs. Doris Logan of Jackson; granddaughter-in-law, Mrs. John Saling of Tecumseh; six great-grandchildren and a brother, Fred J. Boyd of Seattle, Wash. A number of nieces and nephews also survive. He was preceded in death by a son, Harlow in 1928; a grandson, Ronald, who made his home with Mr. and Mrs. Boyd in 1936; a brother, Bert Boyd of Clinton and two sisters, Mrs. Freman Card and Miss Nettie Boyd, both of Tipton.

Funeral services were held Wednesday afternoon at 2 o'clock at the Dunn Funeral Home in Onsted. The Rev. F. D. Hague officiated. Burial was in Tipton cemetery.

PRESIDENTS' DAY AT COUNTRY CLUB

Presidents' Day will be observed at the Tecumseh Country Club for the men only Saturday, September 13. The committee in charge will be Tim Neill, Robert Hanna, Ken Herrick and Walter Pfaus. The trophies from the golf championship will be presented at this time.

One Graduate And Two Students In Nursing

Zoe Ann Pennington

Zoe Ann Pennington, daughter of Mr. and Mrs. Earl Pennington of Ridgeway has completed her nurses training at Toledo Hospital School of Nursing and received her diploma at the graduation exercises at the University of Toledo, Tuesday, September 9. The baccaulaurate service was held for the 44 members of the 1952 class at the Ashland Avenue Baptist Church, Toledo, Sunday morning, September 7, at 11 a.m. Miss Pennington will remain on the staff at the Toledo hospital.

Donna I. Burleson

Donna I. Burleson, daughter of Mr. and Mrs. Elmer Burleson, 207 West Shawnee street, has been listed as a successful applicant for study in the Wayne University nursing curriculum for the semester beginning September 15, as announced by the offcials of the University. Miss Burleson was born in Adrian and attended Tecumseh high school, graduating in May, 1952.

Elizabeth Joan Hindes

Elizabeth Joan Hindes, daughter of Mr. and Mrs. Fay Hindes of Britton has been listed as a successful applicant for study in the nursing curriculum at Wayne University for the semester beginning September 15. Miss Hindes was born in Tecumseh, attended Tecumseh high school and graduated in June, 1952. She received a nursing scholarship from the Herick Memorial Hospital Auxiliary.

Prayer Service at Palmyra Cemetery

Baby boy Austin, aged two days old, died Sunday afternoon at 3 o'clock at Herrick Memorial Hospital. Baby Austin, born Friday, September 5, was the son of Gale and Harriett Lewis Austin, R. F. D., Tecumseh. Survivors besides his parents are two sisters, Rebecca, age 8, and Susan Eileen, 6 years old; both grandparents, Mr. and Mrs. Daniel Austin of R. F. D., Tecumseh, and Mr. and Mrs. G. H. Lewis of Britton.

A prayer service was held at the Palmyra cemetery Monday afternoon at 2:30 with the Rev. Thomas Rogers of Holloway Presbyterian church officiating.

Local Teacher Severely Injured

Mrs. Juanita Ward, age 43 years, second grade teacher of Tecumseh public schools, suffered a fractured skull and severe head lacerations when she backed her car from a driveway on US-223 into the path of another vehicle at 9:35 Sunday evening. Blissfield state police said Mrs. Ward was backing out of the driveway of the Guernon Griehwahn residence about five miles east of Blissfield. She apparently did not see a car driven east by John Ramos, 40, of Sylvania, and backed into its path. Mrs. Ward was thrown out of her car and underneath it. She was taken to Toledo hospital. Mr. Ramos suffered cuts on his leg, and his wife, Ameorn, 38, also suffered cuts and bruises. They were taken to Toledo hospital for treatment.

Charles A. Beevers Buried In Brookside

Charles A. Beevers, age 74 years old, died Thursday morning at 7:50 at the home of his son, Donald Beevers. Born in Ridgeway township August 12, 1878, he was employed as foreman and night watchman at Tecumseh Products for five years after working 20 years as a fireman at the H. Brewer Foundry. Mr. Beevers lived in Tecumseh for the last 49 years. His wife, Luella Beevers preceded him in death September 12, 1941.

Survivors are two sons, Clare and Donald; two daughters, Mrs. Fern Hanna and Mrs. Betty Jane Schoonover, all of Tecumseh; eight grandchildren; three brothers, Delbert, Orrin, and Earl, all of Tecumseh, and several nieces and nephews.

Funeral services were held at the Collins Funeral Home Saturday afternoon at 2:30. The Rev. Edward Escolme officiated. Mrs. Ella Escolme sang, "Rock of Ages," and "In The Garden." The bearers were Guy Beevers, John Soncrant, Irvin Carpenter, George Kopka, Bernard Seeburger and Howard LaFever. Burial was in Brookside cemetery. Friends and relatives attended from Blissfield, Adrian, Toledo, Homer, Fairfield, Britton, Ridgeway and Tecumseh.

Ernest Updyke Buried Today

Ernest Ray Updyke, age 78 years, of R.F.D. Tecumseh, died suddenly at his home at four o'clock Monday morning following a heart attack. He was born May 4, 1874 on the family farm one-half mile from where he lived on Occidental Road for the last 42 years. Mr. Updyke was the son of Martin and Elizabeth Meade Updyke and had been a farmer most of his life. He married Nina M. Pawson, January 4, 1894.

Survivors besides his wife, Nina, are three daughters, Mrs. Leone Crockett of R.F.D. Tecumseh, Mrs. Hessie Escott of R.F.D. Clinton and Mrs. Irene Escott of Clinton; two sons, Ovid R. Updyke of R.F.D. Clinton and Clyde M. Updyke at home; one sister, Mrs. Fred Aylesworth of Tecumseh; nine grandchildren and one great-grandchild.

Funeral services will be held this afternoon at the Proctor Funeral Home in Clinton. The Rev. Vaughn Whited will officiate. Burial will be in Riverside cemetery.

No Turns Enforced On School Corner

Tecumseh Police Chief Kilbourne announces that during school hours no turns will be allowed from Shawnee onto Ottawa street. An officer is on duty at that intersection, and his directions of traffic there must be obeyed.

The Chief points out that this regulation has been made because of necessity for the safety of the many smaller children there, and he requests the friendly cooperation of the public.

Fund Drive Planned

GEO. GREEN, JR., COMMUNITY FUND DRIVE HEAD; NEW DIRECTORS ELECTED

At the annual meeting of the Tecumseh Community Fund held at the American Legion Hall, Monday evening, George E. Green, Jr., was appointed by the Board to head the coming drive for funds. New officers were elected and the 1953 budget was approved. A most important event, because it may indicate a trend, the 1953 budget as approved is $320 lower than that of the preceding year.

In appointing Mr. Green chairman of the Fund effort, the directors took notice of the great effort and responsibility ahead, and are aiding him to set up a strong organization. The dates for the solicitation will be announced within a few days. The great effectiveness of the Tecumseh Community Fund was pointed out by several business men, other fund raising projects being practically eliminated in Tecumseh.

The budget as approved stands at $7,865.00, which makes the Tecumseh Community Fund one of the first, if not the first to lower its budget and demands on the public. This reflects careful and studied handling rather than being a result of lowered demands. The public is asked to voluntarily increase their gifts, and all over the budget that is raised will be kept in the emergency relief fund.

The Board of Directors was increased to eight. Howard Diedrich and George E. Green, jr., were elected for three-year terms to replace the two directors who retired. Owen Partridge was elected to the new director post. Mrs. Edith Smith became the new president, John R. Thompson, vice-president, Mrs. Dorothy Preston, secretary, and Edward Escolme, treasurer.

A Load Was A Load And A Half

Some call it manure, the more genteel say fertilizer, but the mainstay of our tonsorial emporium, Mr. Rhae Henkel insists that it is pure gold. Surely, and weren't there two days that the shop was to be closed. And Labor Day is labor day—no one will deny that. It should not be wasted by too much sitting. Besides, the man had kept goats for fifty years or more, and the stuff must be pretty good—no cost but the getting.

So Labor Day saw a nice well rounded trailer load heading back to Tecumseh by the winding road from Ohio, with Ray ahead of it. That way he didn't get any of the odor, and why should he kick if others gave him a wide berth. It surely looked like the trailer would hold up for that little trip. But then how it rained—and how that load soaked up the water. Every time he looked back, the load had grown. Even after the first tire went, Ray was not discouraged. The smell wasn't so nice standing still, and the cars splashing by almost made him lose his temper. But it took the second tire change, and the bill for the fixing to really start the day. By that time the splendid turkey dinner was not setting half so nice.

The wheels and rims gradually became egg-shaped—but they still went round and round—and Ray wasn't riding the trailer. But things stopped quickly when one of the wheels came off and whizzed by, and the load set flat on the road. Three days later, swelled by more rains, the trailer load arrived. Ray insists that it is far more potent than the wonder drugs—an acre of land can't stand much more than a teaspoonful. Just being near to his lawn brought the grass up fast, made petunias waist high—and temporarily drove the neighbors away. But Ray says you can get used to the odor—and he will give anyone the address—for a consideration.

Exchange Club Resumes Meetings

The first meeting of the season after a two months recess of the Tecumseh Exchange Club was held at the Tecumseh Country Club Wednesday evening with an attendance of 90 percent. The meetings will be held at the Club every Wednesday night hereafter. James Doran, Arthur Leslow and Kenneth Hildebrand, all of Monroe, were guests of the club. Mr. Doran of Monroe Kiwanis Club, introduced the guest speaker, Mr. Leslow, past president of the Monroe Exchange Club. He gave a very interesting talk on "Scouting" and his experience with scouting the past 27 years. Otto Meiers had as his guests C. B. Brock and Earl Baldwin.

The Tecumseh Schools

School bells are again ringing, and two hundred more children are answering them than during the last school year, somewhat exceeding the estimate. A huge kindergarten contingent is present, indicating large future enrollments.

The start of school in Tecumseh has been an orderly and pleasant experience for most families concerned. The fact that the public has been kept well informed by authorities has helped, and to this can be traced an excellent attitude of both students and parents. It may be a bit early, but we commend the Board of Education, the Superintendent and Staff for an excellent start.

A Clean Sweep Is Necessary

Gov. Stevenson has called it "the mess in Washington". There can be no doubt of it's seriousness—there is no doubt that the mess exists. When the Democratic candidate directs our attention to it, the mess demands our attention.

There was a time when public service was an honor and a trust. The evil doers of the Harding Administration were vigorously prosecuted by the party in power, even to the complete satisfaction of the Democrats. In the hundred and fifty odd years of the existence of the government of the United States of America, prior to the Franklin D. Roosevelt administration, the integrity of the administration of our federal government was of a higher type than the world had ever known. Comparatively few were accused of wrong doing, and those were vigorously prosecuted and usually punished.

The great majority of civil service employees and others on the public payrolls are today honest and conscientious, and have been all along. Most of these are distressed by the actions of the Democratic political misfits in high places, who have not been worthy of their trust — for dishonesty of a few are a reflection on all. If for no other reason than to clear the names of these many thousands of honorable and faithful public servants, prosecutions of all against whom evidence exists should be aggressively pushed.

The moral decadence set in during the thirties — no one will deny this. Loading of public payrolls with political stooges, with parlor pinks and assorted lightweights would have been bad enough. But the loose money of the war effort was just too big a temptation for these little men with too much authority — and the big grab started. That was only the beginning. Truman, with his humble "I don't want to be President" while being sworn in looked impressive. But even at the very moment, gangsters were arriving from the old home precincts to spring their pals from prison. Porkchopers of the unions were crowding out effective public servants. "More and more taxes", shouted the President, and the rush was on. Influence peddling became big business, the tax collectors salaries were only the start. Executive orders blocked evidence from use in prosecutions. Where it could end, nobody knows.

The Democratic candidate for President lived in Washington during much of this time — feeding at the public trough as some kind or other of a bureaucrat. He has not been accused of wrongdoing in this period — certainly to his credit considering the state of things that surrounded him. But it is a fact that he was a "character witness" for Alger Hiss. It is also a fact that he was inducted into office in Illinois by Jake Arvey through machine politics, and that his candidacy has the blessing of the Pendergast group, the Illinois group, and Truman. And he says he thinks that he — Stevenson — can clean up the "mess" in Washington. That is the truth. Owing his very political existence to these very same gangs that are the "mess", he thinks he can clean it up.

Eisenhower, during most of his time, had cleaned up several messes. And he is promising to clean it up in Washington — not just a few scapegoats, but from top to bottom. He has promised that resignations of the guilty will not be the answer. There must be prosecutions, and the dignity of common honesty restored to service in our government. Somehow we are inclined to think that the people will believe the Eisenhower word, and that he is going to have the opportunity to guide our nation to what he terms "prosperity of peace", honesty in government, and some of the dignity of the individual effort in business so long lacking.

The Highway Department Should Report

With Mill Street closed by the Evans Creek bridge construction, and Chicago Blvd., shut off partly or completely both east and west, the Michigan State Highway Department is in the position of inflicting partial paralysis on the village, and making us like it. In this condition, rumors are flying thick — and some of them seem to be more than just "scuttlebut". There seem to be no answers, and little reason to what is being done. Now the people want to know a few things, and the State Highway Department should report.

Why is a bridge costing almost $100,000.00 being built on Mill Street over a few teaspoonsfuls of water ..? If there is no steel to finish it, why was it started in the first place? When can the business men who have suffered severe losses expect travel to be restored? These and other questions should be answered by these authorities, and the public properly informed. Or if, as we are advised, these projects are simply playthings for keeping engineers busy as long as possible, let's find that out now. To the best of our knowledge, the Highway Department is a function of our government, answerable to the people. It seems as though it would be proper to let the people concerned in on some of the mysteries.

ENTERTAINS AT KITCHEN SHOWER

Mrs. Harry Creger, Mrs. E. J. Francouer and Mrs. Ernest Hammack were co-hostesses in the Creger home Wednesday evening on North Union street at a kitchen shower honoring Miss Barbara Quigley and Robert Billow who were married Saturday afternoon. What's the MOST SURPRISING THING about this BUICK?

LOCAL DELIVERED PRICE FOR THE NEW 1952 BUICK SPECIAL
$2217.88
2-door 6-passenger SPECIAL Sedan MODEL 48D (Illustrated)
Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities due to shipping charges. All prices subject to change without notice.

WE'LL tell you the answer to that one—it's the figures on the price tag.

For some reason, lots of people just can't believe they can buy a Buick at a price so close to "the low-priced three."

Maybe it's because a Buick seems so much better and bigger.

Maybe it's because they think Buick has so much more power and room—which is true.

Maybe it is because so many distinguished people own Buicks—which is also a fact.

But the fact remains—*if you can afford a new car, you can own a Buick*—so let's see what you get.

You get the thrilling power of a Fireball 8 Engine, that's a gas-saving high-compression valve-in-head—as much power as you can get in cars costing $300 to $400 more.

You get as much room as you'll get in cars costing hundreds of dollars more.

You get a ride that cost an honest-to-goodness million dollars to develop.

*You get the silken smoothness of Dynaflow Drive.**

You get big-car comfort, styling, durability.

Don't take our word for it. Come in and see for yourself why so many folks are stepping up to this great car this year.

*Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.*

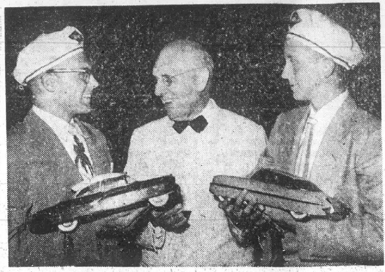
Model Cars at $4,000 Each



Two model cars, each winning a $4,000 scholarship, shown with their builders and "Boss" Kettering, General Motors Director and famed researcher. The boys are, William Morgan, New Albany, Ind., whose model car won top honors of $4,000 in the Senior Division of the Fisher Body Craftsman's Guild, and, right, Gerald Grabcheski, Elizabeth, N. J., whose car won an equal award of $4,000 in the Junior Division of the competition. Eight national winners were selected from forty-two regional winners in this annual competition which offers $65,000 in awards and university scholarships to boys from 12 to 20 years of age for designing and building their own model cars.

ADRIAN COLLEGE OFFERS SPECIAL COURSE

"The Structure of American Society" will be offered in Adrian this fall by the University of Michigan Extension Service, it is announced. The course is presented with the cooperation of Adrian College, the county superintendent of schools and the public schools. It will meet at 7:00 p.m. on Tuesdays, beginning September 16, in 203 North Hall, Adrian College.

During the course, Leonard U Blumberg, the instructor, will analyze the class and institutional structure of American society with a view to determining the degree of its integration.

Enrollment in this course is open to all interested persons though it may be elected by qualified students for graduate extension credit which may be applied under certain circumstances toward an advanced degree. Registration may be made at the first class session.

WARNS AGAINST INJURY AT HOME

More people are injured in the home than any other place. And more injuries to women seem to occur in the kitchen than any other room. With those startling facts in mind, Olevia Meyer of the Michigan State College home management department, offers some concrete suggestions about making your home a safer place to live.

Cuts are the most common injury and so, Miss Meyer suggests, take precautions by avoiding improper use and storage of knives, broken china and glass and sharp-edged cans and metal parts on tools and equipment.

Never throw sharp knives in a drawer with other tools, she warns, and don't put them in a dishpan with other dishes. A knife rack should be within easy reach and so constructed that the hand does not come in contact with sharp points or edges.

Burns are the second most common injuries. Usually they result from carelessness and thoughtlessness. So, suggests Miss Meyer, turn on hot water faucets cautiously, turn pan handles away from the edge of the range so they can't be knocked or pulled off, and use pans that have flat bottoms with securely-fastened, well-balanced handles. Other means of avoiding burns are to prepare a place to set a pan of hot food before removing it from the stove; have plenty of pot holders within easy reach of the range; keep matches in tin or glass containers away and out of children's reach; provide children a safe place to play in or near the kitchen, but out of the working area.

Falls rank high as cause of injuries and care should be taken to prevent them, she said. Keep floors and floor coverings in good repair and free from spilled foods.

It is suggested that kitchen accidents usually occur when people are careless, in a hurry or tired. Disorder, poor judgement, and using the wrong, or faulty equipment also contribute to the high accident rate in kitchens.

WOMAN'S ASSOCIATION TO HAVE POTLUCK

The September meeting of the Woman's Association of the Presbyterian church will be held Wednesday evening, September 17, with a potluck supper at 6:30. Miss Ruby Preston will be in charge of the invocation and Mrs. John R. Thompson the program which will be a book review. Mrs. Lynn Harris will give the devotions. Mrs. Harold Wilson will be the refreshment hostess chairman.

Herald classifieds pay big dividends.

lage Council is cooperating with the schools in every way possible and has authorized the maintenance of a NO TURN sign on Ottawa at Shawnee virtually making Ottawa a one way street in front of the school. Also, a policeman, Mr. Art Harding, has been stationed on Ottawa in front of the school during the school day. The curb and gutters on the school streets have helped exceedingly in making the streets safer for the children.

Enrollments in the Junior and Senior High have increased approximately the same as forecasted at the time of the passing of the bond issue last spring. Tecumseh Junior High increased by 20 pupils and the Senior High by 28, making a total of 48 pupils in the secondary school. However, Tecumseh High School is now 38 pupils beyond the 325 minimum required for participation in Class B activities. For two years Tecumseh has been right on the borderline for this competition, but it does not appear likely that it will ever compete in Class C again.

Several new courses have been inaugurated this year in the high school. These courses have been needed for some time and pupils are pleased with their Sociology, Spanish, Preparation for college English, and Health coordinated with Physical Education classes. The fused subject program in English and Social Studies which began in the fall of 1951 was abandoned due to lack of proper space in the classrooms and inability to schedule such classes for two hour periods due to overcrowding: These classes will be taught as individual one hour classes in English and Social Studies respectively.

Six classes, trade and industry related subjects, retailing, farm shop, English 10, American Literature, and Shorthand, have been scheduled for the noon hour period between 11:30 and 12:30 because of crowded conditions. The pupils who attend these classes are excused from 12:30 until 1:30 for their lunch period. As soon as the additions to the high school are available, these classes will be discontinued during the noon hour.

The testing of pupils which was formerly done during the opening week of school has been deferred until later in the year and classes began immediately.

The band and football teams are both practicing and will show their wares to the eye of the public at the initial home football game with Morenci, October 10.

All class activities are progressing well and the pupils will begin next week their annual magazine sales, the proceeds of which are used for senior trips.

The P. T. A. wishes to extend a cordial invitation to parents and friends of the school to attend a reception for the faculty to be held Thursday evening in the Central Building.

CHILD STUDY CLUB MEETS

The Child Study Club met at the home of Mrs. LeRoy Titley Monday evening for their September meeting. Mrs. Winthrop Winfield was the program leader. Rev. George Walworth, pastor of the Presbyterian church gave an interesting talk on "Religious Training." Mrs. Titley was assisted by Mrs. Howard Truesdale and Mrs. David Dick. The children's favors were in charge of Mrs. Leo Bishop, Mrs. Gerald Osworth, and Mrs. Garth Hall.

Mrs. Kenneth Herrick President of Legion Auxiliary

The American Legion Auxiliary met at the cottage of Mrs. Louis Schneider at Wamplers Lake for a potluck supper Monday evening. During the business meeting, Mrs. Kenneth Herrick was elected president; Mrs. Vern Manwaring, first vice president; Mrs. Harold Easton, second vice president; Mrs. Donald Woods, secretary; Mrs. George VanCamp, corresponding secretary; Mrs. Richard Eggleston, treasurer; Mrs. Almond Curtis, chaplain, and Mrs. Dwight Drake, sergeant-at-arms.

The ritual team with Mrs. Charles Howe as leader, were in Brooklyn, Tuesday, Deerfield, Wednesday, and Jackson, Thursday evening for installation services. They will be in Adrian the 16th and Hudson on the 25th of September for installing.

The Second District meeting will be held in Adrian, September, 28. The District installation of officers will be held at this time. The Auxiliary sent two boys to the Methodist camp near Chelsea for ten days this summer. The installation of officers will be held at the Legion home Monday evening, September 15 at 8 o'clock. The ritual team from Brooklyn will be in charge.

RECEPTION FOR TEACHERS TONIGHT

Annual P. T. A. reception for the teachers will be held tonight, (Thursday), September 11, at 8 o'clock, in the gymnasium of the Central High School. Parents, board of education, ministers and all interested persons of the community are cordially invited to attend. James McDowell, superintendent of schools, will welcome the new teachers and introduce the staff for the year.

The officers for this year are as follows: President, Mrs. George Anderson; vice-president, Mrs. Lee Purkey; teachers' vice-president, Mrs. G. Garlick; secretary, Mrs. Victor Peterson; treasurer, Mrs. Frank Smith, and historian, Mrs. Lawrence Price.

Mrs. Anderson has appointed the following committees for the year: Program: Mrs. Lee Purkey, assisted by Mrs. Gordon Garlick as co-chairman, Mrs. George Meads, Mrs. Rhae Henkel and Mrs. Wellington Wotring. Room mother chairmen: Mrs. Frank Verrier, elementary grades; Mrs. Richard Eggleston, high school. Membership: Mrs. Harry Beland, chairman, assisted by Mrs. Jack Osburn, Mrs. Jack Smith, Mrs. Gilbert Nighswander, Mrs. Herman Dick and Mrs. John Hartley. Used clothing: Mrs. Earldean Roe and Mrs. George Foos. Publicity: Mrs. Victor Peterson. Dance committee: Mr. and Mrs. James Elliott. The Driscol orchestra will furnish music for all of the P. T. A. dances.

The program will consist of several musical selections by a quartet composed of the following: Arthur Swartz, Garth Hall, Al Williams, and Fred Dickinson. Carl Freckleton will give an interpreted reading. James Freckleton will sing two solos accom panied by Mrs. Jerry Spafford. The background music during the introductions will be furnished by Dianne Dillon.

Refreshments will be served by members of the program and membership committees.

Flower Show Today

The annual flower show of the Tecumseh Garden Club will be held today (Thursday) at the American Legion Home from 2:15 to 9 p.m. Mrs. Clarence Beach is general chairman and Mrs. Neil Pearson is staging chairman. Stars Herald Approach of Fall

ANN ARBOR—Venus is coming! Watch for her.

After an absence of a year, Venus is again emerging as the "evening star" and may be seen near the western horizon in the early twilight, setting about an hour after the sun, according to Miss Hazel M. Losh, associate professor of astronomy at the University of Michigan.

This brightest of planets is continually increasing its distance from the sun in the sky, moving farther and farther east, Professor Losh says. Consequently, it may be more easily seen throughout the fall months as it appears higher and higher in the evening's western sky.

The astronomer indicates fall will actually arrive September 22 at 9:24 p.m. That's the time the sun reaches the autumnal equinox and crosses the equator, bringing spring to those south of it.

The sun reaches an altitude of about 50 degrees at noon in September, but decreases to less than 25 degrees by December. These oblique rays of the sun and its shorter daily path account for the colder weather.

The constellation of Pegasus, the Winged Horse, is well placed for observation in the east this month. Rising around sunset and well above the horizon after dark, its chief interest lies in "The Great Square" or "Big Diamond." It is one of the stellar landmarks, Miss Losh indicates, being about 15 degrees on a side and composed of fairly bright stars.

REVCO ENTERTAINS EMPLOYEES

The management of Revco Company entertained at a buffet supper at the Tecumseh Country Club Sunday evening the salaried employees ,supervisors, administrative and office personnel and their families numbering about 180. Plans were outlined for the coming years and the expansion of the plant. G. F. Forsthoefel, president of Revco was in charge of the meeting. He introduced Howard White, vice president, in charge of the engineering department, Harold Overmyer, vice president, in charge of the sales and William Damon, jr., who described the changes in the shop and new developments.

Barbara Quigley Bride Of Robert Billow

The Tecumseh Baptist Church was the scene of a lovely summer wedding Saturday afternoon at 3 o'clock when Barbara Ann Quigley, daughter of Mr. and Mrs. Clarence Marsh, and Robert B. Billow, son of Mr. and Mrs. Grenval Spangler and Paul Billow of Luddington, were united in marriage. The Rev. Blair O. Bashore performed the double ring ceremony. The church was decorated with baskets of pink and white gladioli, potted ferns, palms and a white satin cross. The pews were marked with white satin bows, gladioli and fern. Mr. Billow, the groom's father was unable to attend.

The bride, given in marriage by her father, chose a gown of Chantilly lace, nylon tulle and satin with a double illusion fingertip veil and cap of Chantilly and satin. The lace bodice, buttoned in the back, was fashioned with key-hole neckline, high collar and long sleeves; the bouffant skirt of nylon tulle, waltz length, styed with panels of Chantilly lace over candlelight satin. She carried a bouquet of white gardenias and ivy.

Miss Betty Janaski, of Chesterton, Ind., maid of honor, wore yellow nylon net over taffeta, strapless style with matching stole and headdress. The Bridesmaids were the Misses Nita Spangler and Margaret LaLonde. Miss Spangler wore delph blue and Miss LaLonde pink embroidered nylon net over taffeta gowns with matching net capes, crownless picture hats and mitts. Junior bridesmaids were the Misses Carol and Donna Spangler, twins, and they wore deep pink taffeta with floral headbands and all carried golden wedding rings with cascades of bebe chrysanthemums and ribbon.

Mrs. Kenton Hunt, organist, played nuptial music and accompanied the Misses Marlys and Evelyn Arnold as they sang, "Because," and "The Lord's Prayer." Mr. Billow was attended by his twin brother, Richard D. Billow and the ushers were David Murphy and Douglas Maves.

Mrs. Marsh and Mrs. Spangler, mothers of the bride and groom, wore navy ensembles with white accessories and red rose corsages. Mrs. Rena Ranger, grandmother of the bridegroom, wore a navy print dress with gold accessories and a corsage of pink roses.

A wedding supper was served at the Marsh home in Herrick Park and a reception for 125 guests was held in the V.F.W. hall at 7 o'clock. Miss Beverly McLaury was in charge of the guest book, Miss Peggy Hintz of Britton, the punch bowl and Mrs. Dora Warren, the refreshments. Mrs. E. J. Francouer cut the cake and the Misses Beverly Hay, Carole Harper, Virginia Gregory and Alice Chapman assisted in serving. The lace covered table was centered with a three-tiered wedding cake decoratd with rose buds and topped with a miniature bridal couple.

Guests were registered from Lyons, Ohio, Chesterton, Ind., Morenci, Blissfield, Adrian and Tecumseh.

Mr. and Mrs. Billow spent the weekend in northern Michigan, the bride changing to a navy gabardine ensemble with white accessories and a corsage of white gardenias. They are residing in an apartment at 315½ North Pearl street. The bride attended Tecumseh high school and until her marriage was employed in the Wright Drug Store. Mr. Billow attended Morenci high school and is employed at Meyers Aircraft Co.

BAND TRAINING AGAIN AVAILABLE

Band training is being made available to grade school children again this year. Beginning classes in band will be started in the fifth grade at Central School.

All parents are interested in giving their children the opportunity to play some musical instrument, and the school is now offering this opportunity. Unfortunately, not all children are naturally adapted to playing a musical instrument. Last May, all students eligible for band training were given a scientific music aptitude test and this test is being used as a basis for determining the inherent musical ability of the children. Parents whose children successfully passed this test will be notified.

Arrangements are being made whereby instruments may be rented for a period of three months to make sure the children will succeed before further investment is made. Guidance for every child will be made available without charge from the music teacher and music merchants to make certain that the proper training, instruments and methods are prescribed at the proper age level.

Future Nurses Receive Pins

The Herrick Memorial Hospital Auxiliary met in the Fellowship Center of the Presbyterian church Tuesday evening. Mrs. Paul Keyser opened the meeting with devotions and welcomed the four student nurses of Wayne School of Nursing. They are at the local hospital for the month of September. She also welcomed ten members of the Future Nurses Club and their mothers. Mrs. Keyser, president, reported briefly on the summer activities of the Auxiliary. The tea at the Country Club in June cleared $125, and the Golf Tournament in July showed a profit of $334 which is to be used toward an ice machine for the hospital, a project of the Auxiliary. They have volunteered to help the Lenawee Health Council in the Health and Defense survey with Mrs. Donald Nixon as chairman. Five new members, Mrs. Harry Creger, Mrs. Winthrop Winfield, Mrs. Paul Eddy, Mrs. Ed Golat and Mrs. Theodore Golat were welcomed to the Auxiliary. At the conclusion Mrs. Sam Sisson welcomed the girls into the Future Nurses Club and Miss Gertrude Spaulding presented each member with a pin in behalf of the Auxiliary.

Refreshments were served by Mrs. John Lancaster, Mrs. Joseph Lane, Mrs. Jack Harrison and Mrs. Charles Stephenson.

COMMUNICATION

In the August 28 issue of The Herald there appeared an article concerning medical services in Tecumseh. The following communication was received by The Herald which we herewith print in full:

The Editor,
Tecumseh Herald,
Tecumseh, Michigan.
Dear Sir:

We would suggest that the writer of the article regarding medical care in Tecumseh on Thursdays look on page three of the same issue and obtain a speaking acquaintance with the facts.

He will note in the professional cards that there are two Tecumseh doctors who regularly have office hours Thursday during the day and the evening. On the date of issue of the paper both doctors were in their offices all day and were busy there until late in the evening. This certainly does not appear to us like neglect of the public.

Further it appears that the writer made no effort to learn about, or was not interested sufficiently to care about, the emergency service maintained at Herrick Memorial Hospital 24 hours a day, 7 days a week, 365 days a year, specifically for the care of emergencies.

For the Herrick Memorial Hospital Medical Staff,
M. R. Blanden, M. D.,
Secretary.
R. E. Dustin, M. D.,
Chief of Staff.

PAVE WITH GRASS

Grass is the farmer's best paving material for carrying surplus water from his land, report Michigan State College soil conservationists. A good sod cover for natural drainage ways can save gullying on most farms. Filling small gullies by tillage methods as they form in unprotected waterways just speeds up the rate of loss of top soil and increases silt deposits in streams, the specialists warn. Complete plans for grass waterways are available from county agricultural agents.

DOCTORS SAY ONE OF COMMON DISEASES IS WRONGLY NAMED

It Isn't Hay or Fever That Worries Hay Fever Victims

Whoever named "hay fever" must have been a poor judge of hay, because this seasonal disease is usually neither caused by hay nor accompanied by fever, according to a University of Michigan physician.

The most common causes for hay fever are ragweed, grass and tree pollens, and fungus spores, Dr. Kenneth P. Mathews assistant professor of internal medicine, explains.

He points out that goldenrod generally is blamed as a major cause for hay fever simply because this weed is judged from the bad company it usually keeps. It is no more guilty of spreading pollen than daisies, asters, zinnias or sunflowers.

Goldenrod is insect-pollinated, just as all plants with beautiful flowers, and does not depend upon the wind to carry pollen from one plant to another, he states. It gets a "black eye" because it usually grows among such outlaws as ragweed, sages, pigweed and thistles—the real trouble makers.

Since the possible causes of hay fever are so numerous and varied, Dr. Mathews says, it is obvious that treatment must be individualized for each particular case. However, the physician has three general methods of treatment at his disposal.

He can separate the patient from the substance to which he is allergic. Such simple measures as sleeping with the windows closed, avoidance of rides into the country, or staying in air-conditioned buildings may be helpful.

Increase the patient's tolerance for the pollens or other substances to which he is allergic by injections which more or less immunize him against that substance. These injections taken at intervals throughout the year are the best method known for the prevention of further complications which usually lead to asthma.

Also, the physician can use one of the many drugs on the market today which give temporary relief.

It should be remembered, Dr. Mathews asserts, that the use of pills for hay fever is much like taking aspirin for headaches. Though they often relieve the symptoms, the underlying allergic state does not change. The danger lies in the possible development of asthma while the patient is taking these drugs, he points out. In fact, the prevention of asthma is one of the main objectives in treatment of hay fever and the prime reason for injection treatment.

Italian Art Exhibit In Toledo September 13

TOLEDO—Italian Designs for Living, an exhibition of 2,500 original craft creations by the finest artisans and craftsmen of Italy, will open at the Toledo Museum of Art on September 13.

The exhibition, assembled in Italy by an American jury of designers and museum officials, will not appear in any other city in this part of the United States.

The entire exhibition will be centered around five full-size interiors especially commissioned by the jury from what they considered the five most important Italian architect-designers. Each of these interiors is completely equipped with furniture and other accessories designed by the architect, in accordance with the custom in all of the great periods of Italian art.

All items in the collection are originals and in high style as distinguished from objects mass produced for commercial distribution. Nevertheless, duplicates of some of the items may be ordered.

Included in the exhibition are furniture, ceramics, enamels, textiles, glassware, leatherwork, lighting fixtures, ladies accessories such as shoes, hats and gloves, toys, tiles, mosaics and many other beautiful objects for the home.

Badge Award Chart Presented

The Tecumseh Girl Scout Association met at the Scout Cabin last Wednesday evening for the first meeting of the new year. A general discussion of the calendar activities of the year was held. An outdoor cook-out for all registered scouts will be held September 25 at the Scout Cabin. Mrs. Carl Kempf made and presented to the Girl Scouts a badge award chart showing the various awards to be earned. The chart will be hung in the cabin so that all may see it. The next association meeting will be the first Wednesday in October.

RADIO CLASS ROOM BROADCASTS AGAIN

Lenawee County Schools will use programs this fall from the "Radio Classroom" produced by the University of Michigan Broadcasting Service.

Through the cooperation of Milton Porter, school superintendent, and radio station WABJ, Adrian, programs in the series will be broadcast for use in the county schools.

"Radio Classroom," now in its third year, will be carried by 27 stations as a public service for 20,000 to 30,000 school children in Michigan.

Designed primarily to supplement instruction in rural schools, three courses are included in the series of broadcasts four days a week.

Singing instruction is given in two half-hour periods called "Festival of Song." Music appreciation is covered in a fifteen minute program. Lives of important individuals in Michigan history are dramatized in a quarter-hour show "A Name to Remember."

The music lessons are planned for use in grades one through eight, while the history stories are of more general interest.

Teachers in the several counties where "Radio Classroom" has been offered praised the programs so highly they are being offered now throughout the state as an educational service.

Manuals, with lesson plans and program outlines of each series, have been sent recently to teachers in the county to aid them in using the instructional programs to their best advantage in the schools.

Written and produced on the University campus, the shows are tape recorded and distributed to the stations. They are also broadcast over WUOM, Ann Arbor, and WFUM, Flint, the University stations.

ATTEND FARMINGTON FLOWER SHOW

Several members of the Tecumseh Garden Club were in Farmington, Friday, and attended the Farmington Flower Show. Those who attended were Mrs. Chas. Branigan, Mrs. Robert McCoy, Mrs. J. F. Furry, Mrs. Thomas O'Hara, Mrs. O. W. Laidlaw, Mrs. Hal Kelso, Miss Mary McWilliams, Mrs. George Green, sr., Mrs. M. G. Partridge, Mrs. Al Helzerman, and Mrs. E. C. Boss.

B. P. W. C. WILL MEET SEPTEMBER 22

Some very interesting programs have been planned for the coming year in the Business and Professional Women's Club. The first meeting is ot be held Monday, September 22, at the Youth Fellowship Center in the Presbyterian church. The program theme is "What I Should Know About Dry Cleaning Business." This program will be in charge of the Program Committee, Naomi Sallows, Katherine Hunt and Nora Schultz with Martha Artman, Wilma Jean Barrett and Irene Boltz the hostesses. Please contact one of these hostesses or call for reservations.

NEW CIRCLE ELECTS OFFICERS

The first meeting of the new Methodist church circle was held Monday evening at the home of Mrs. A. L. VanWinkle. The following officers were elected: President, Mrs. Walter Beck; vice president, Mrs. John Trefry; secretary, Mrs. Wenton Murphy; treasurer, Mrs. Walter Hizer.

During the business meeting the name "The Mary-Martha Circle" was selected. Committees were appointed and tentative plans were made for the year. Refreshments were served by the hostess. The next meeting will be held Monday evening at 8 o'clock at the home of Mrs. Paul Hadsell with Wenton Murphy as co-hostess.

AUXILIARY MEETS THURSDAY

The newly formed St. Peter's Auxiliary will resume their meetings after the summer recess Thursday afternoon, September 18, at the parish house. Mrs. Fred Sparrow, president of Southwest Convocation will be the guest speaker. Tea will be served following the meeting. All women of the church are urged to attend.

WOMEN DESCENDANTS MET TUESDAY

Members of Michigan Court, Women Descendants of the Ancient and Honorable Artillery Company, met at the Tecumseh Country Club, Tuesday, September 9, bearing articles of boys' winter wear, for Hillsdale School for Boys, the new project of the National Society for the coming year.

A luncheon at 12 noon was followed by the fall business meeting, conducted by the state president, Mrs. Orville W. Laidlaw, of Tecumseh. Assisting Mrs. Laidlaw in greeting members on arrival were Mrs. J. Floyd Elliott, registrar; Mrs. Hoyt E. Whelan, corresponding secretary; Mrs. Joseph C. Rice, all of Tecumseh; Mrs. Fred E. Morse, of Jasper, and Mrs. Clarence W. Fisher, and Mrs. Burtsel Claus, both of nearby Tipton.

Motoring from the Detroit area were Mrs. Lloyd DeWitt Smith of Grosse Pointe, first vice-president-national, and organizer of Michigan Court; Mrs. C. Upton Shreve, recording secretary; Mrs. Albert L. Hart, Mrs. Charles W. Holden, and Mrs. Edward J. Savage.

Mrs. Hugh W. Glover, color bearer, came from Midland for the meeting. Attending from Flint were Mrs. Eddy L. Seely, first vice-president; Mrs. Martin E. Hultander, treasurer; Mrs. W. T. MaWhinney.

Prospects Are Good For Feeder Cattle This Year

"You can make money this next year feeding cattle," believes Robert Kramer, Michigan State College agricultural economist.

He hastens to add that there are several factors which tend to encourage, and others which tend to discourage cattle feeding. However he believes that the encouraging factors outweigh the discouraging ones.

Both feeder and slaughter cattle prices will be lower. There will be less pork in 1952-53 than the previous year, larger government expenditures for defense, strong demand for beef and high spendable incomes for consumers.

Discouraging factors are the record beef cattle population in the United States, the larger supply of beef this year than last, higher production costs, lower slaughter cattle prices compared with feed prices, and lower hide and tallow prices.

Kramer believes that you can make a profit by putting on cheap weight gains and selling high in comparison to the price you pay.

When should you buy? Kramer says, "If you plan to buy feeder cattle this fall and have pasture now, buy your cattle now. They might be a little lower in price later on, but your cattle will have become acclimated and the gains they put on between now and October will cheapen them in line with the October market price."

From where I sit ... *by* Joe Marsh

Narrow Town—Broad Outlook

The wife's cousin Ben, and Belle his bride are back from honeymooning in the Rockies. Took them to dinner last night at the Garden Tavern. Ben told about the trip:

"Went through a town in Idaho that was only 100 feet wide. No kidding! Built into a long, narrow canyon. And it shares those 100 feet *with a railroad track* that runs right *through* the hotel!

"To get gas there we had to park right on the tracks. Suddenly Belle screams—'there's a train coming!' But the gas fellow just laughs and says we were there first. Blamed if the engineer didn't stop the train and wait, too!"

From where I sit, it's a good illustration of how people can learn to "think of the other fellow" so that the community benefits. Railroaders and townspeople, Democrats and Republicans, malted milk fanciers and those who prefer a temperate glass of beer—we all have to share the same space. Let's maintain our neighbor's "right of way."

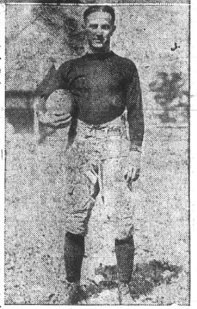
Football Today Much Better Game, Says Wayne Coach Reviewing Sport



Wayne Coach Lou Zarza shows Wes Carlos (left) of Mt. Clemens and Gary Baillargeon (right) of Alpena the remodeled modern football. Pictured at the right is Wayne Brenkert, captain of Wayne's undefeated 1918 team.

Just as the game of football has undergone tremendous change in the last few decades, so has the uniform. An awakening Rip Van Winkle would have trouble recognizing the game.

From a rough and tumble type of sport watched by a few, football has grown to be the fall favorite. Millions the country over view or listen to countless games each year.

In a large measure it has been the increasing popularity of the sport that has brought about its improvement. The trend toward better officiating, rules and safer equipment were all the result of the increased interest of the fans.

The gridiron hero of the World War I era and earlier might scoff at modern equipment, but it is a safe assumption that many would not be troubled today with bad shoulders, knees, ankles, etc., if they had had comparable.

According to Lou Zarza, head football coach at Wayne University in Detroit, when the sport was in its infancy, a sleeveless laced jacket with limited cotton padding and quilted canvas pants were the only two pieces of equipment used. The only real protection for the head and face was a rubber nose guard which was designed to keep the player's nose and teeth intact. Many players let their hair grow long for extra head protection.

Crossed leather bands later provided head protection with eventually a complete padded cap-type coming along with the final evolution of the helmet following about 1920. Jerseys soon came to include more padding until about 1918, separate shoulder pads of fibre pad became common equipment. Pants began to include built-in fibre to protect the kidneys, hips, spine and thighs. But it was apparent that the built-in protection hindered the action of the gridder and by 1924 the pads had become separate and necessary parts of each player's equipment.

While the equipment was undergoing considerable change, the football itself has also been revamped. As passing became more and more important, the ball became streamlined and the modern four-piece ball that we know today resulted.

When the sport was first introduced, it was strictly a running game. The formal introduction of the forward pass about 1913, however, speeded up the sport and increased spectator appeal. The flying wedge, which had been so popular on kickoffs and punt returns went out the window in 1932. In 1940, the T-formation came along and the end of the war brought with it the two-platoon system and a game with more spectator appeal.

Here's a simple and easy way to get your corn off the cob for canning or freezing. Use an angel-food cake pan. Place the ear on the projection in the middle of the pan and with a sharp knife slice the corn from the ear. The kernels will fall into the pan since the hole is filled with the ear.

Present, HON. G. ARTHUR RATHBUN, Circuit Judge acting as Judge of Probate.

In the matter of the estate of FRANCES M. SMOKE, deceased.

On reading and filing the petition of Richard E. Ansted, administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased, and the expenses of administration thus far incurred, have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this court shall seem proper.

It is ordered, That Monday, the 22nd day of September next, at nine o'clock in the forenoon, be assigned for the hearing of said petition.

It is ordered, That Monday, the 22nd day of September next, at nine o'clock in the forenoon, be assigned for the hearing of said petition.

It is ordered, That a copy of this order be published in the Tecumseh Herald, a newspaper printed and circulating in said county of Lenawee, for three consecutive weeks, previous to said day of hearing.

G. ARTHUR RATHBUN,
Circuit Judge
acting as Judge of Probate.

RESOLUTION

WHEREAS, the main thoroughfare leading North from the Village of Tecumseh and known as M-52 is temporarily vacated by reason of the reconstruction of a certain concrete bridge by the Highway Department of the State of Michigan; and

WHEREAS, such reconstruction has resulted in a suspended use of said highway for a period of some months and an indication exists that such interruption shall continue for an indefinite number of future months; and

WHEREAS, such interruption has an exteremely adverse effect on merchants bordering said highway and is further deletonious to the streets of this Village by reason of the routing of traffic through residential areas.

NOW THEREFORE BE IT RESOLVED THAT:

'The Council of the Village of Tecumseh most firmly requests that the State Highway Department and the particular Public Officials charged with the administration of such public works be urged in the strongest terms to exert themselves to complete said reconstruction prior to the onslaught of the winter of 1952; and

That they be further advised that the local situation resulting from such suspension of reconstruction is a matter of grave and paramount importance to said Village Council and to all of the citizens of this village and that, in the studied opinion of the said Council, immediate action by the appropriate officials is imperative.

That the Clerk be instructed to forward a copy of this Resolution to Charles M. Zeigler, Highway Commissioner and to such other Public Officials who may later be discovered to be charged with the administration of this public improvement. Ayes: Rohweder, Fosbender, Truesdale, Porter, McCombs. Nays: None.

RESOULTION DECLARED ADOPTED.

When We Service Your Car
We Check the Ignition, Carefully

When you bring your Buick or Chevrolet to us for the service that it needs, we check it carefully, from bumper to bumper, and particularly the ignition.

We realize that no one likes to be "let down" on the road. One of the quickest ways to a "let down" is faulty ignition . . . a weak battery.

Before you have trouble, why don't you bring your car to us for the service it deserves?

Lenawee Health Survey Begins

MRS. PRESTON, CHAIRMAN, ASKS FOR COOPERATION FOR SUCCESS

The Lenawee County Health and Civil Defense Survey conducted by volunteer workers began this week in the Tecumseh area. Mrs. Richard Preston, chairman of the Tecumseh organization, has contacted all civic organizations for active participation in the drive.

The survey is being undertaken in Lenawee to provide county wide information on health matters. Michigan State College and the Health Information Foundation of New York have chosen Lenawee County for a complete house to house survey because we're one of the typical counties in the nation.

It is felt that health problems in Lenawee, health information obtained here, and the methods used to safeguard health will be typical for the nation. The facts and the figures then will be used as a basis for the nation wide study. Once Lenawee compiles the information on its health it will be possible to take remedial action if deemed necessary. The health information wanted concerns immunization status in the family, past illnesses, medical care, the milk supply, sewage disposals facilities, water supply, housing and other matters.

The questionaire being used in the survey is in two parts. The civil defense section will bear the name and address of the person

Community Fund Drive Dates Set

The Tecumseh Community Fund drive will get underway on October 15, and continue through October 29, according to George E. Green, Jr., chairman. Several meetings for the working group are planned to map the work of the drive.

The first of these will be held on September 22, when Mr. Thos. Best, from the United Foundation will be present to help guide the steps of the organization.

Girl Scouts Hold Campfire Round-up

Girl Scouting in Tecumseh is beginning with an active program on Thursday, September 25, from 6 to 8 p.m. at the Scout Cabin. Girl Scouts, their leaders, committee men and women and interested parents are to meet at that time for a roast and campfire song fest. All Scouts will participate in closing with the international goodnight song and taps.

The Scout Council will furnish dessert and the beverage and each girl is asked to bring her own hot dogs and buns. All Scouts are asked to turn out for the first big event of fall.

The new bridge over Evans Creek on Mill Street is progressing well, and to those who have ventured close could not help but be a thrill. The north abutment and the north pier are now in and complete, ready to take the roadbed steel. The south abutment and pier are in various stages of construction, and can reward anyone going to the vicinity to observe it with a complete cross section of the work.

During the past week, the deep steel and concrete footings on the south side have been visible, and the forms for the concrete pier in the working process. Add to this the view of the finished construction on the north side and there is a sight seldom observed on a construction job—every stage of the work open to sight.

The finished bridge is to have a roadway of 38 ft. width, and a concrete sidewalk four ft. wide on each side. The grade of the paving will be changed but little, and the finished pavement approach is now in place. The sidewalk approaches are now under construction on the north side.

In answer to direct questions, Mr. A. R. Peterson, Engineer in charge for the Michigan State Highway Department explained the reasons for this type of bridge at this point. It has been pointed out that many considered this more bridge than the location and water of the creek warranted. Mr. Peterson said that the type and slope of the bank would have required a great amount of fill if smaller sections were used, making the cost even higher than with the three span bridge being erected. Even then, with another type of bridge, the capacity might be questionable, he pointed out. The great depth of the footings was necessary, whatever way it would be handled. As it is, Tecumseh will have the finest and strongest

Road Construction Progressing Well

The construction of M-50 both east and west of Tecumseh is going ahead in a highly satisfactory manner, according to advice from the State Highway Department Field Office here. It is now running about two weeks ahead of schedule, he says.

Concrete in the Village of Britton is now completed. Two separate gangs are now laying concrete, one east from Britton, and one in Ridgeway. This will be completed to the Tecumseh Village line early this fall, it is expected.

Grading has now been started on the Tipton to Onsted Road section. This involves a great deal of work, the schedule calling for the movement of 40,000 yards of earth a month. Concrete will not be started on that section until May, 1953.

The concrete section between Tecumseh and Billington Corner will be started as soon as the section east of Tecumseh is completed, and will likely be finished this fall, according to reports.

L. H. Lohrman Arrives To Manage Palman's

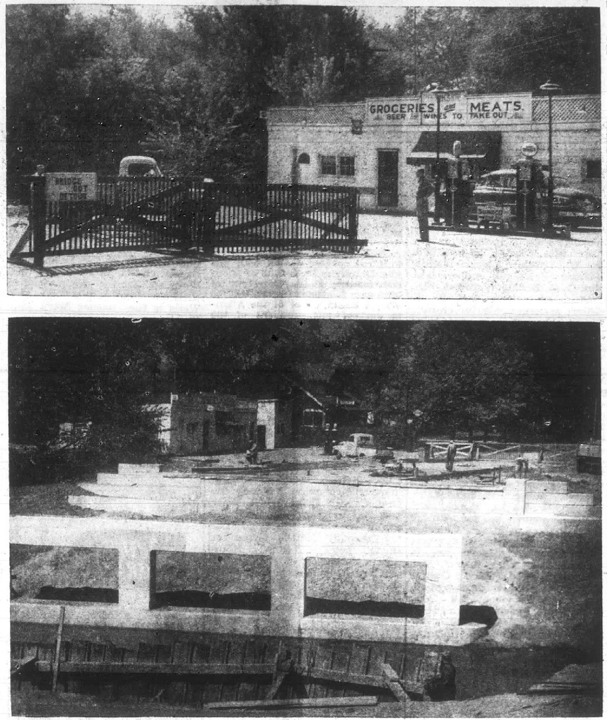
Mr. L. H. Lohrman will succeed Paul Hadsell as head of the Palman Depatment Store in Tecumseh. He arrived in Tecumseh Tuesday, and will take over as Vice-President and General Manager at once. Mr. Hadsell leaves Saturday to report to his new duties in Pontiac.

Mr. Lohrman comes to Tecumseh from Terre Haute, Indiana, where he was manager of the Meis Bros. department store. His wife and four children, one son 14, and three daughters, ten, seven and two, will move to Tecumseh as soon as a home is located. The people of Tecumseh will welcome the Lohrman family, and trust they will be happy in the new surroundings.

ROTARY HEARS REV. WALWORTH

Rev. Geo. E. Walworth, pastor of the Presbyterian Church was speaker at the regular meeting of the Rotary Club, held Tuesday evening at the Country Club. His subject, dealing with the application of Rotary habits to religious life, was well received.

Paul Thompson, Past District Rotary Governor, of Mitchell, Indiana, was one of the seven visitors.



The upper picture shows Ed Clark, owner of the Brookside Grocery looking at the bridge construction that shut off access to his store. Faithful customers that come a long way around keep the business alive. The lower picture, taken from the North bank shows the finished north abutment and pier, and the forms on the south side of the Mill Street bridge over Evans Creek.

After All, A Judge Should Preside

During the past few years while F. E. N. Thatcher has been Acting Postmaster in Tecumseh, he has been known to everyone as "Judge"—and the name still sticks. "Judge" Thatcher was judge in fact some few years back when he presided over the Probate Courts of Muskegon, and the dignity of the court is still with him.

And that is exactly why the Democratic Headquarters is today functioning in Tecumseh. For time unknown, Democrats have been almost unknown here. Surely, they had been heard about—people that lived in the deep south, or down by the iron foundry, or someplace, but not Tecumseh. Once in a while one of the more wiley ones would get into some office—but this was seldom.

This is all changed now, however. The "Judge" is presiding at the Democratic headquarters on Evans Street exactly as he did on the bench in Muskegon—dignity and all. There are reports that he dispensed with the ever-present Havana long enough to open court in the old days, but many doubt this. A cigar, however, adds strength to the argument when it's in the Judge's mouth—it's wrong to buy a vote with a cigar. But the "Judge" is presiding and he adds a quality to the present election contest that has been missed for many years.

Friends and relatives attended from Adrian, Battle Creek, Colon, Dansville, Lansing, Holloway, Lima, Ohio, and Tecumseh.

Pedestrian Suffers Painful Injuries

BICYCLIST WARNED BY THE POLICE ABOUT RIDING ON THE SIDEWALKS

Charles Aebersold, of R.F.D., Tecumseh, suffered painful cuts and bruises Thursday noon when struck by a bicycle rider on South Maumee street in front of the Michigan Producers Dairy store. Mr. Aebersold was leaving the dairy store when hit by the boy riding the bicycle at a high speed on the sidewalk. He was thrown against the building, landing on the sidewalk, cutting his hand and arm on the broken glass. He received medical aid.

The police department has called attention to a village ordinance prohibiting the riding of bicycles on the sidewalks which are for the use of pedestrians.

All bicyclists who hit pedestrians while on the sidewalk are responsible for any injuries.

P.T.A. Reception Held For Teachers

Some 250 parents, teachers, members of the school board and friends attended the Tecumseh Parent-Teachers Association reception for the teachers at the Central school gymnasium Thursday evening. Mrs. George Anderson, president of the association, welcomed the guests and James McDowell, superintendent, introduced the teachers. Members of the Student Council acted as hostesses.

Mrs. Lee Purkey in charge of the program, presented Mrs. Charles Stephenson and Mrs. James Barton, in costume, who gave two recorded pantomines. Carl Freckleton gave an interpreted reading, "My Cousin Rachael." James Freckleton, accompanied by Mrs. J. W. Spafford, sang a solo, "Without A Song." The Rev. Ronald Brunger closed the program with a prayer.

Refreshments were served by members of the membership and program committees, which included Mrs. Wellington Wotring, Mrs. George Meads, Mrs. Rhae Henkel, Mrs. Harry Beland, Mrs. Jack Osburn, Mrs. Jack Smith, Mrs. Herman Dick and Mrs. Purkey.

Ford Babcock Buried In Ridgeway Cemetery

Ford Charles Babcock, 60 years old, died Friday morning at 10 o'clock in Providence hospital in Detroit, where he had been a patient for two days. Mr. Babcock had been ill several years. He was born in Britton, August 6, 1892, the son of Charles and Ida Pocklington Babcock. Until his illness, he was employed in the engineering department of Chrysler Motor in Detroit.

Survivors are his wife, Minerva, his brother, Donald, and a niece, Elizabeth, all of Detroit. His mother and one son preceded him in death.

Annual Garden Club Flower Show

"THE HERITAGE OF THE YEARS" THEME USED

The annual Tecumseh Garden Club Flower Show was held Thursday afternoon, September 11, at the American Legion Home. A woodland scene depicting early Tecumseh, "The Heritage of the Years," was the theme carried throughout the show, featuring Indians, to the present day of living.

The judges were prominent Garden Club women from out-of-town. Mrs. W. H. Barton of East Lansing scored the show for the Purple Ribbon. Mrs. George Koths of Taylor Center and Mrs. Charles L. Holm of Dearborn were the arrangement judges; Mrs. Wilbur Ingerson of Battle Creek, Mrs. Paul H. Robinson of Albion and Mrs. W. W. Crebs of Grosse Ile were the Horticultural judges. Mrs. Clarence Beach was general chairman of the flower show and wishes to thank all guests, neighboring garden clubs and members for helping to make this annual event such a success.

The judges awarded ribbons of merit to the following entries: Horticulture department: annual asters, first, Mrs. Harold Kelso and Mrs. Joe O'Pravil, second, Mrs. Charles Kempf and Miss Ann Carson and third, Mrs. S. M. Rees; perennial asters, third, Mrs. Neil Pearson; Nasturtiums, first, Mrs. O. W. Laidlaw and Mrs. George Wright; Giant red zinnias, first, Mrs. S. M. Sen. Blair Moody Visits Tecumseh

Senator Blair Moody (D), Michigan's junior member of the upper house in Washington, paid a brief visit to Tecumseh last Friday morning in company with Robert McAllister of Grand Rapids, and Robert Baker of Adrian, Democratic candidates for Secretary of State and Auditor-General.

Senator Moody spoke briefly to the group at the Democratic headquarters on South Evans street, stressing the importance of the election of a Democratic Congress to maintain the strong front of bi-partisan foreign policy advocated by Senator Vandenberg. He spoke warmly in behalf of the candidacy of Baker and McAllister to the State offices, and his friendly personality did well in his own behalf.

Following his Tecumseh appearance, Moody journeyed to Adrian, where he made a radio address following a luncheon in his honor, given by the Adrian Exchange Club. The balance of the day was spent in various meetings in Adrian. His noon speech was a major farm policy address, and received considerable national publicity.

Quarterly Meeting At Friends Church

A missionary convention sponsored by the Adrian Quarterly Meeting of the Friends Church will be held this weekend in the Tecumseh Friends Church. The opening session will be held on Saturday afternoon at 2:30 o'clock with Mrs. John P. Williams of Adrian, presiding. Mrs. Williams served with her husband, the Rev. John P. Williams, as a missionary to China, but they were compelled to leave when the communists took over. Two group meetings will be held on Saturday afternoon, one for adults, and one for children. The Rev. Milton Coleman, a former pastor of the Friends Church in Adrian, and who recently returned from missionary service in central India, will be speaking to the adults. His wife, Re-

HOUSE TRAILER DESTROYED BY FIRE

A house trailer at the Ferris Trailer Park on South Maumee street, owned by Mr. and Mrs. Dennis Clark, was completely destroyed by fire Wednesday evening about ten o'clock. The Clarks had purchased the trailer from Mr. Ferris and were using paint remover on the interior preparatory to refinishing. It has not been known what caused the remover to ignite. A can of the solution also exploded. No one was injured but the trailer and furniture were a total loss. Mr. and Mrs. Clak and baby are at the home of his parents north of town. The Clark's had no insurance.

Parks Can Be Beautiful

Yes, that is a fact. Village parks in many communities are both restful and beautiful — a source of pride to all the people. This is particularly true of our neighbors to the north. A slow trip through Ontario will reveal parks of untold beauty in most every village and city, large or small, rich or poor. Nice parks are just part of their life — they use them and enjoy them.

Tecumseh has many spots that could be developed to become parks of great beauty too. Property can easily be acquired for this purpose, and will pay big dividends in the happiness of our children, and our pride in our village. The unused low land north and east of the Recreation Center is just one example of a spot in which foresight and an intelligent future program of development could work wonders in our behalf.

With this in mind, a visit was paid to our present park location at Maumee Street and Chicago Boulevard. It is easy to wake up and throw your dreams out the window there. Filth, dirt and litter cover whatever bit of nature's beauty that might have existed. In its present condition, it is hardly an apetizing spot to pause for a sandwich — much less to enjoy a picnic.

The plain hard fact is that if the Village cannot decently maintain this postage stamp size spot of green, it is foolhardy to think of it ever having what it takes to provide parks that Would be in keeping with our growth, our prosperity, and the type of home town we would like to show others.

The People Like This Fight

The great strength in the primary showing of Senator McCarthy was not too much of a surprise to folks whose vision can pierce the smoke screen around him. It may be an indicator worth following.

Senator McCarthy went almost directly to the Senate from several years in the service. He made a fighting campaign to get there, and once in the Senate he found plenty more to fight about. For conditions in Washington, at that time unknown to the public, were deplorable. When McCarthy tried to find out the truth, he was stopped at every turn. The minority party — and the people — were not to know.

So McCarthy started swinging. He forced from the State Department many disloyal employees. He led the fight in the Senate against dropping the charges which the Tydings Committee had "whitewashed". His work made a lot of restless nights for Reds in high government places. He possibly hit some low blows, but nothing compared to the foul play he was battling. He has kept right on fighting for the right to keep our government an American institution.

Despite the strong attempt at character assassination, McCarthy has emerged as a fighting idol of millions of Americans. His support in Wisconsin shows that the people are good and mad about the ruthless heave-ho that honesty in our Federal government has taken. We trust that the Republican candidates will take the lesson to heart, and get in there and fight like McCarthy.

We Can Learn From Canada

John G. Forrest, financial and business editor of the New York Times, recently wrote, in the course of an article on Canada's tremendous industrial development, "Washington could learn a great deal regarding finances from Canada. Henceforth, all Crown companies — which are owned by the Dominion Government — and which in general compete with private business, will pay a Dominion income tax for the first time. And at standard rates!"

In this country, socialized enterprise not only is free of all or most taxation — but eats our taxes in tremendous quantities in the form of never-ending subsidies.

The most conspicious — and expensive — examples are the government power projects. TVA is typical. It makes nominal "contributions" to local government, "in lieu of taxes" and that's all. The loss to Federal, state and local governments, is huge. And that loss must be made up in one way only — by soaking all other taxpayers more than otherwise would be necessary.

No sound case can be made for tax exemption. Most of these tax-free government-owned projects are commercial enterprises, selling a service or products, and they compete with private enterprise. In the name of simple justice — to say nothing of the taxpayers — they should be taxed on exactly the same basis as private business is taxed.

Yes, we centainly can learn a lesson from Canada in this respect!

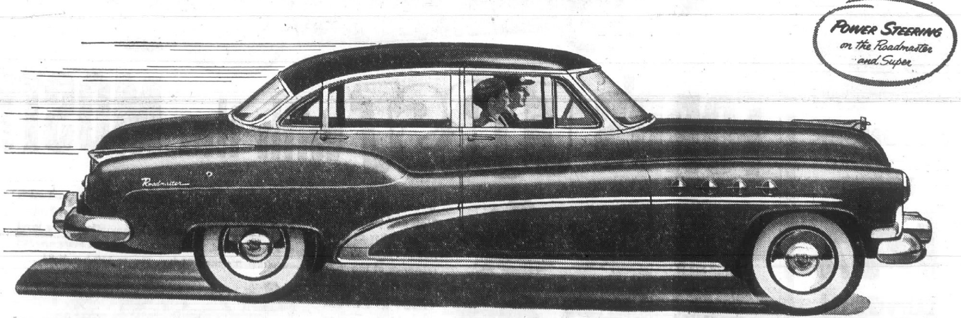
PARDON MY GUST!



POWER STEERING on the Roadmaster and Super

BENEATH that big broad bonnet is the reason for this headline.

It's a four-barreled automatic carburetor—Airpower by name—which has a way of gulping in what the dictionary defines as "a sudden blast of wind" when extra power is needed.

And the way this gorgeous performer can step out as this occurs is something you'll always remember.

For ordinary driving, two barrels are all you need — and two barrels are all that are working. They give you an extra thrifty flow of fuel for round-town cruising.

When extra power is wanted in a hurry —the "reserves" swing into action—feeding extra fuel and extra air in an ever-thrifty mixture, which delivers the greatest horsepower in Buick history.

This is one of many distinctions that endear ROADMASTERS to fine-car owners.

It's a car as rich in finish as it is in power—a car of expansive room—restful silence — level in gait — beautifully responsive to your mood and will.

And it offers the effortless ease of Power Steering* especially engineered by Buick to save your strength in parking and slow-motion maneuvers, and still let you feel a proud sense of command and a sure sense of control on the highway.

There's just one question we'd like to ask: When are you going to come in and enjoy the ride of your life?

CHRISTIAN SCIENCE TEXT FOR THE WEEK

The unreliatbility of matter in human experience is shown in the Lesson-Sermon under the topic "Matter" to be read in all Christian Science churches on Sunday, September 21.

The Golden Text is from Jeremiah (3:23): "Truly in vain is salvation hoped for from the hills, and from the multitude of mountains: truly in the Lord our God is the salvation of Israel."

Among the Bible citations is this passage, (Gal. 6:7): "Be not deceived: God is not mocked: for whatsoever a man soweth, that shall he also reap."

Correlative passages from "Science and Health with Key to Scriptures" by Mary Baker Eddy include: "Mortal belief must lose all satisfaction in error and sin in order to part with them."

Soil Testing Service Offered

Soils need a proper diet just as animals do if they are to be top producers and dollar earners.

Properly-fed soils save both in the short and long runs, farmers are being reminded by Louis Hall, county agricultural agent. The only way to take the guessing out of the soil ration is by soil testing, he noted adding that now is the time to do it.

Late summer is the time for soil testing because sampling is easier and the fertilization program can be planned on time. Lime can be applied to sod fields as needed and worked into the soil before spring seeding of legumes.

One Michigan farmer saved $100 in lime costs by tests that showed that particular plot needed no liming to sweeten the soil. In some series of tests, four out of five samples showed no lime needed, and the farmers could put the money they planned to spend on lime into fertilizer. Soils need phosphorus, potash, nitrogen and other things besides lime, Hall stresses and any farmer in doubt should have soil tested before wasting money.

The county agricultural agent is available to guide farmers in their testing and fertilizing problems. When a major problem arises he can call on specialists from Michigan State College.

Steps Outlined For a GI Loan

Washington—Six steps to a GI loan for a home, farm, or business were outlined here by the Veterans Administration for the benefit of more than 1,000,000 veterans who have been discharged from the armed services since the start of the Korean conflct.

The new Korean GI bill, signed into law by President Truman July 16, 1952, amends the loan guaranty section of the World War II GI bill to include eligible veterans with service anywhere in the world since June 27, 1950.

VA regional offices across the country now are issuing certificates of loan eligibility and processing applications for loan guaranty. The six steps are:

Find the property or business venture you want to buy.

Go to a bank, building and loan association, or other institution.

Present your plan and your original discharge or separation papers.

Property is appraised by VA-approved appraisers.

Certificate of reasonable value goes to the lender.

If application is approved, the loan is made.

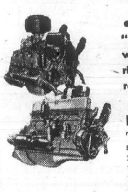
FORD'S FIRST with the MOST!

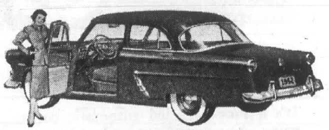


FIRST in POWER! *Ford's 110-h.p. Strato-Star V-8* is the most powerful engine . . . the only V-8 offered in a low-priced car! *Ford's 101-h.p. Mileage Maker Six* is the industry's newest, most modern Six!

FIRST in RIDE! For the first time, in the low-price field, you can enjoy a truly fine-car ride! Ford's new Automatic Ride Control with its diagonally mounted rear shock absorbers and new spring suspension gives you a bump-leveling, highway-hugging ride.

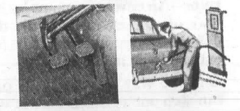
● The '52 Ford brings you more power, more comfort, more "looks" and more "can do" than any other low-priced car! You can see it in Ford's new, longer, wider bodies of modern design. You can feel it in Ford's smoother, more level ride . . . in Ford's 25% easier steering. And, you can sense it in the more spirited response of the '52 Ford—whether it's the 101-h.p. Six or 110-h.p. V-8!

FIRST in STYLE! This longer, lower style leader has the newest, most advanced body in the industry! It's styled to stay beautiful for years, and it's quality-built to stay young.



FIRST in VISIBILITY! New Full-Circle Visibility gives you the only one-piece curved windshield, plus car-wide rear window, in Ford's field. New I-REST tinted glass . . . available on Custom and Crestline models . . . guards against glare and reduces heat.

FIRST in CHOICE! Ford offers the widest choice by far in the low-price field. 18 models . . . 11 body styles . . . 2 engines: V-8 or Six . . . 3 transmissions: Fordomatic, Overdrive or Conventional . . . and the most body, upholstery and color combinations.



FIRST with the NEWEST! You'll find Ford has made more advances for '52 than any other car in its price field. You get new features like Power-Pivot Clutch and Brake Pedals, suspended from above, to allow more foot room, eliminate dusty, drafty floor holes. You get Center-Fill Fueling for easier gas filling from either side. F.C.A.

"Test Drive" the '52 FORD

I-REST glass, two-tone colors illustrated, Fordomatic Drive, Overdrive, and white sidewall tires optional at extra cost. Equipment, accessories and trim subject to change without notice.

You can pay more but you can't buy better!
